Subject: [External] RE: File Z.21.021 - 1 Memorial Hill Drive & 56 Wallace Street, Vaughan

Good Afternoon,

RE: File Z.21.021 - 1 Memorial Hill Drive & 56 Wallace Street, Vaughan within 500m of CP Rail line

Thank you for the recent notice respecting the captioned development proposal in the vicinity of Canadian Pacific Railway Company. The safety and welfare of residents can be adversely affected by rail operations and CP is not in favour of residential uses that are not compatible with rail operations. CP freight trains operate 24/7 and schedules/volumes are subject to change. CP's approach to development in the vicinity of rail operations is encapsulated by the recommended guidelines developed through collaboration between the Railway Association of Canada and the Federation of Canadian Municipalities. The 2013 Proximity Guidelines can be found at the following website address: <http://www.proximityissues.ca/>.

Should the captioned development proposal receive approval, CP respectfully requests that the recommended guidelines be followed.

Thank you,

CP Proximity Ontario

I'm against resignation and rezone the land. Files - OP.21.010 and Z.21.014

This is an area of 2-store houses and the area should remain this way. 28 store houses aren't appropriate for this area.

Also, the city of Vaughan has already done weird projects. For example Viva (I haven't seen anyone who isn't smiling on Viva because busses in the middle of the road stop traffic with additional traffic lights and make additional road crossings for people who need the right side of the street). Please don't do more weird projects such as this one where 28 store buildings are projected to be in the area of 2-store houses.

If these buildings would be built in the HWY7 & HWY400 area these would be appropriate because of the urban area there.

Also, I'd like to speak in the meeting on Monday.

Thank you,

Michael Barenboim

**COMMITTEE OF THE WHOLE
(PUBLIC MEETING)**

September 13, 2021

Chelsea Eagle Point

**Official Plan Amendment
Zoning By-law Amendment**

10000 Dufferin Street
City of Vaughan

Subject Lands

- 10000 Dufferin Street;
- North-east of Major Mackenzie Drive W & McNaughton Road E;
- Rectangular in shape and follow the curve of McNaughton Road East and have an area of approximately 2.506 hectares (6.19acs.); and,
- Currently part of the existing Eagles Nest Golf Club ("ENGc") and are located at the southwest corner of that facility.

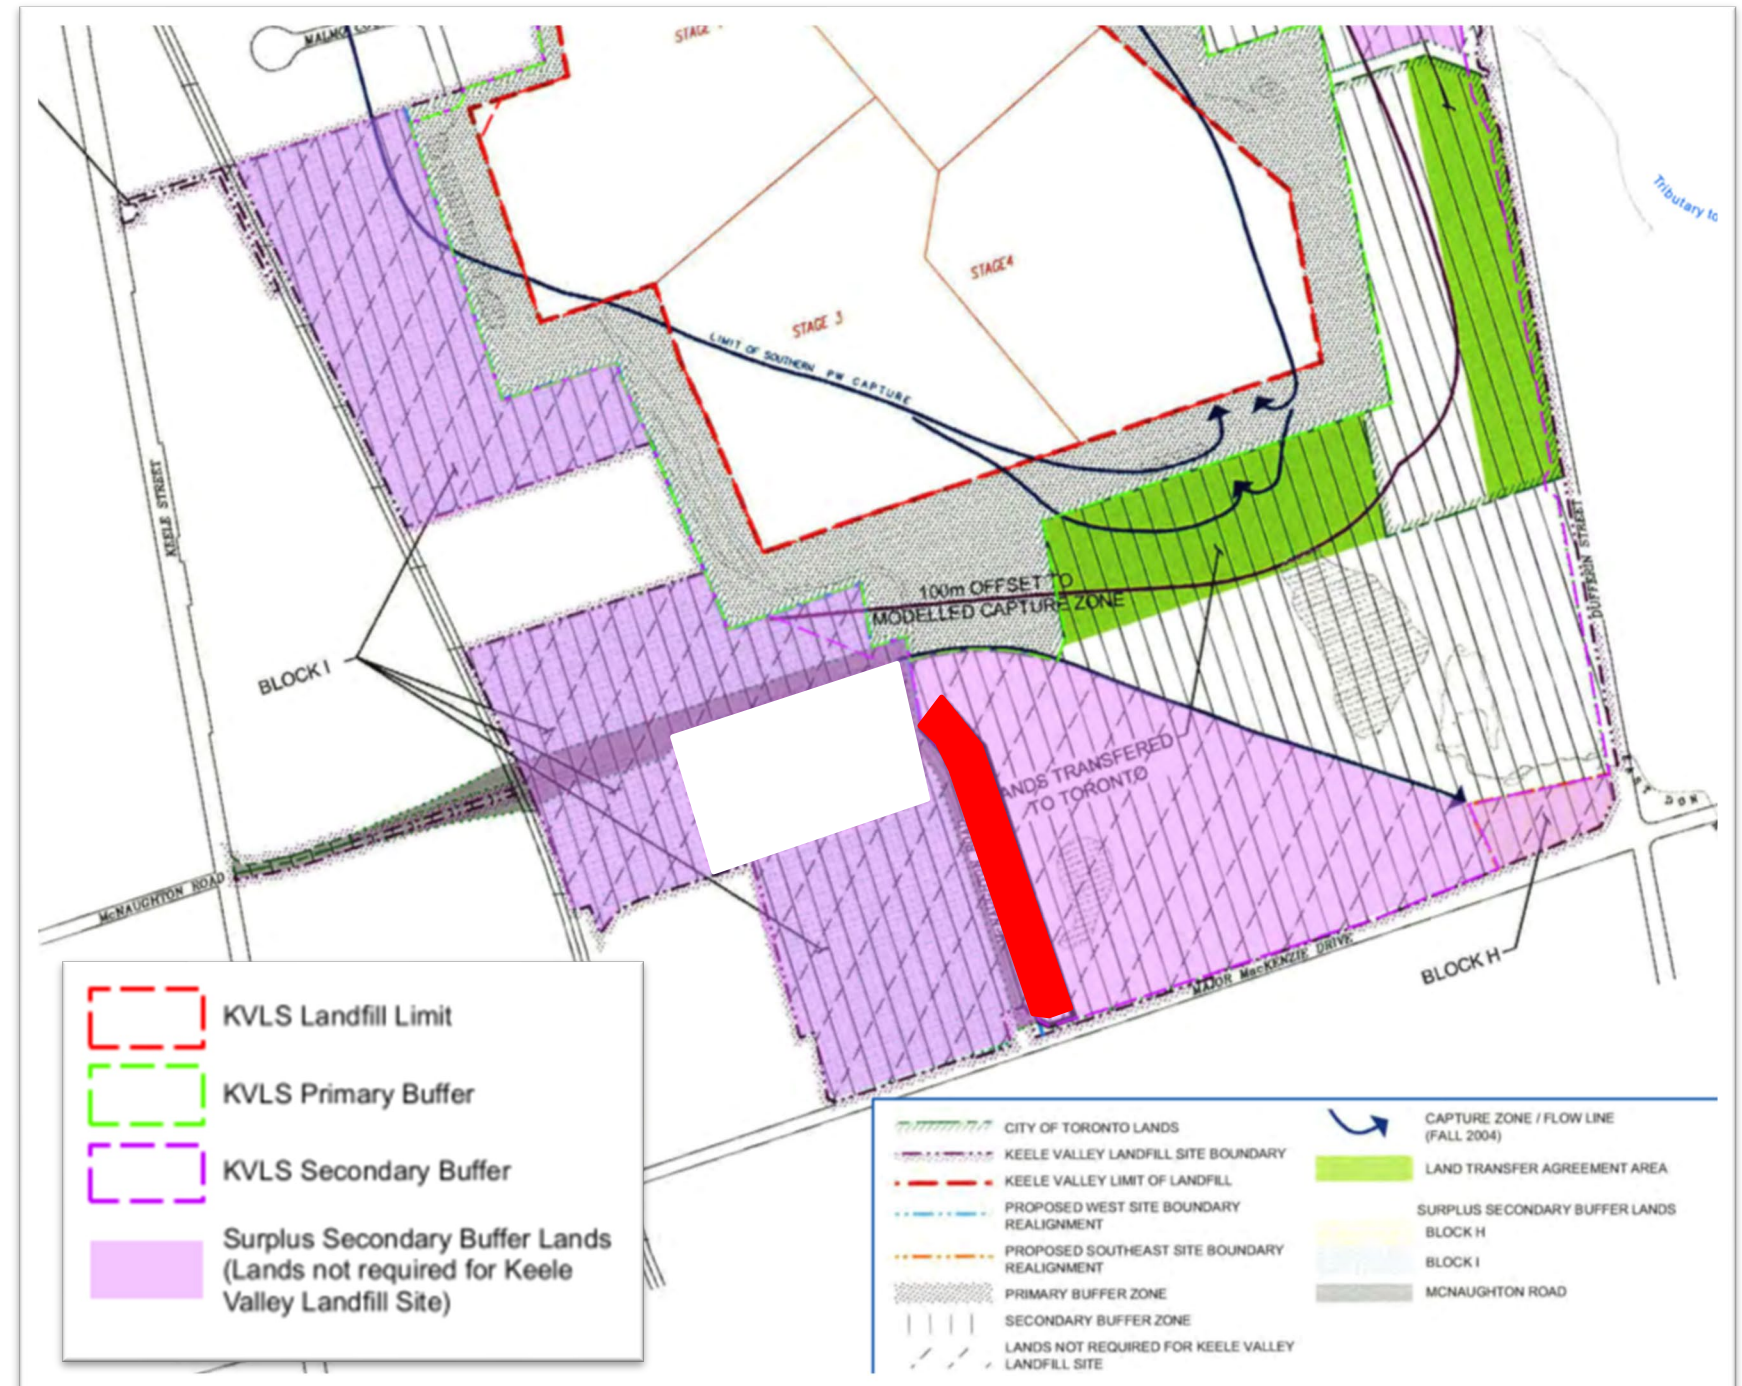

Maple GO Station

- The Subject Lands have been included within Maple GO Station Major Transit Station Area (the “MTSA”).
- Proposed development providing increased residential density +/- 600 metres from the Maple GO Station.
- Service between Barrie and Toronto and currently part of the Metrolinx Regional Express Rail Expansion which will see all-day, two-way service on this line.

Closed Keele Valley Landfill and Secondary Buffer

- The Subject Lands are located in the Secondary Buffer for the closed Keele Valley Landfill Site.
- The Secondary Buffer constitutes a monitoring easement associated with the post closure care of the closed landfill.
- A 2006 report prepared by Conestoga Rovers Associates determined the lands in purple were not required for long term monitoring (incl. subject lands).
- Eagles Nest Golf Course is not being closed and will remain an 18-hole golf course owned by YMHI.

Development Proposal

- Two (2) 28-storey and two (2) 12-storey; residential
- 1,006 residential units;
- Gross Floor Area ("GFA") of 78,012 sm;
- Floor Space Index ("FSI") of 3.11;
- 1240 parking spaces within a three-level underground parking garage and accessory short-term surface parking; and,
- 0.53Ha. (1.31acs.) private amenity space featuring walking trails and seating to serve the residents.

Development Proposal

Development Proposal

Development Proposal

BUILDING ELEVATION AND MASSING DESIGN FROM MCNAUGHTON ROAD EAST

Landscape Plan

Vaughan Official Plan, 2010

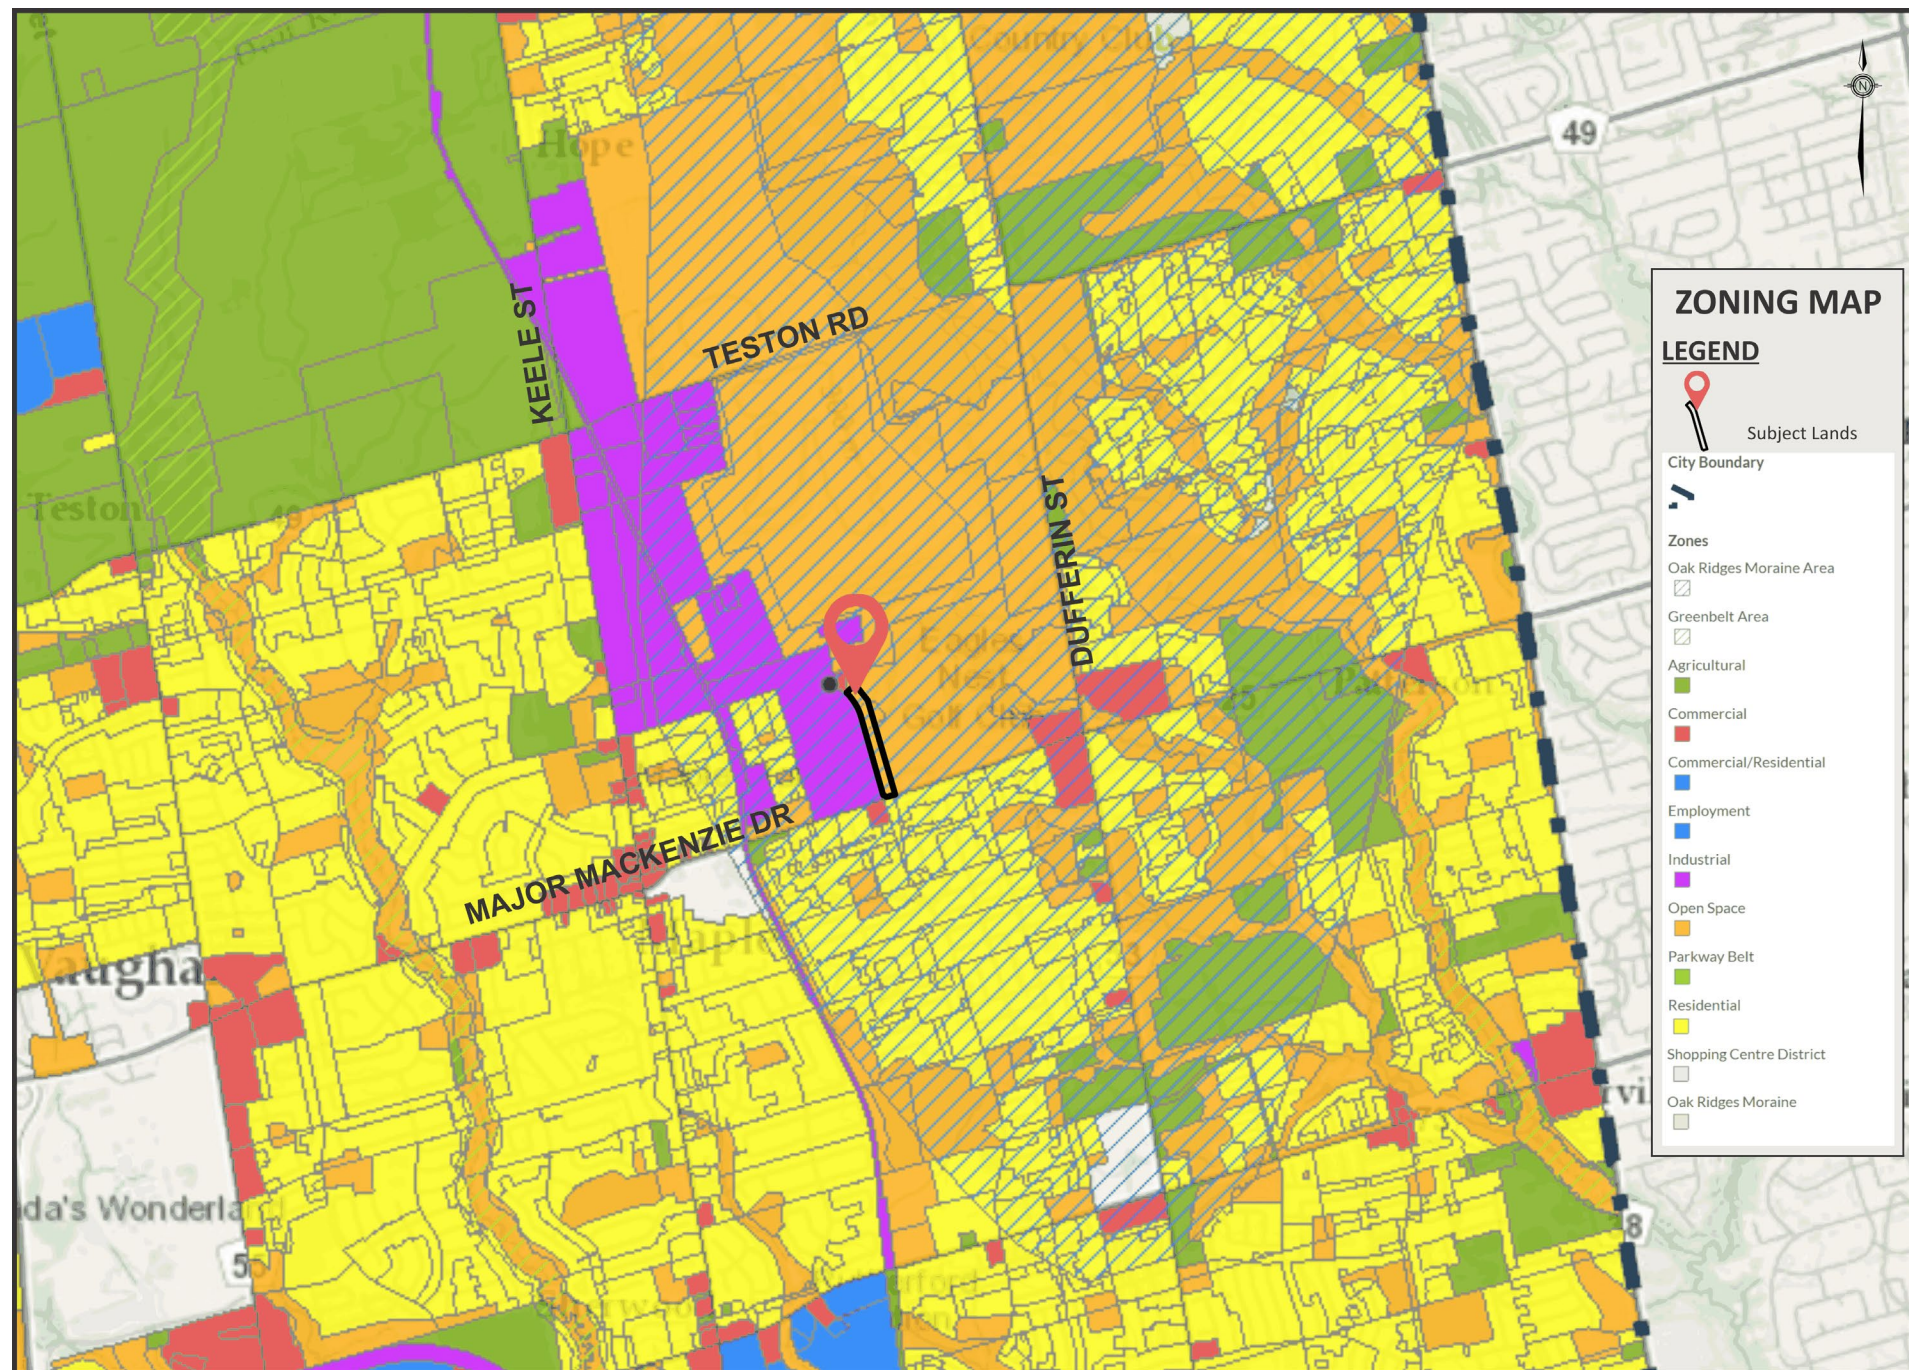

The Subject Lands are currently designated “Private Open Spaces”, within the Community Areas and Oak Ridges Moraine Conservation Plan Area and are within the Urban Boundary.

Official Plan Amendment

- Private Open Space designation does not permit the proposed high-rise residential use; and,
- Seeking to redesignate as “High-Rise Residential” with a maximum height of 28 storeys to permit the proposed residential use, along with site specific policies.

Vaughan Zoning By-law 1-88

The Subject Lands are currently zoned as “Open Space Park (OS2) Zone” within Vaughan Zoning By-law 1-88.

Zoning By-law Amendment

- Open Space Park (OS2) Zone does not permit the proposed high-rise residential use; and,
- Seeking to rezone as 'Apartment Residential (RA3) Zone' with certain site specific provisions.

Subject: [External] Official Plan Amendment File OP.21.010 // Zoning By-law Amendment File Z.21.014

Re: Official Plan Amendment File OP.21.010 and Zoning By-law Amendment File Z.21.014

To whom it may concern,

I am writing to voice my concern about the new proposed rezoning application to build two 28-storey and two 12-storey apartment buildings.

My biggest concerns are traffic and local school capacity. During rush hour, the intersection of Major Mackenzie and Dufferin is already backed up in all directions (especially so in the "pre-covid" times). There are already a number of new constructions happening in the Maple Go station vicinity. As residents move into those buildings, the traffic will increase. With these new proposed developments, the intersection will turn into a virtual parking lot. Not to mention that the frustrated drivers will cut through the neighbourhood of Peter Rupert/Grand Trunk/Freedom Trail/Maurier Blvd, making the streets unsafe for our children, and there are a lot of children in this neighbourhood. The above mentioned neighbourhood "square" hosts 3 elementary schools (public, Catholic, French immersion). One can only imagine the havoc it will wreak on the streets in the mornings, with children walking/biking to school, parents dropping off kids and school buses trying to get out from parking lots. Is there a road widening planned on Major Mackenzie/Dufferin streets to accommodate for this new high-density development?

Speaking of schools, they are full. The local schools are at capacity with children. Is a new school going to be built to accommodate the few hundred of children that will undoubtedly need to be accommodated with the addition of over a thousand new residential units?

In short, infrastructure is not currently available to accommodate these new high-density developments, and it does not fit with the character of this suburban community. This is a low-density neighbourhood, let's keep it this way. Our kids need parks and open spaces, not high-rise buildings. I'm vehemently opposed to this proposed redevelopment and rezoning proposal.

Sincerely,

Irina Kapler

P.S. I would like to be notified of the council decision with regards to this application. Thank you.

Subject: [External] Written Submission for Committee of the Whole Meeting Sep 13

Dear Members of the Council,

My name is Shyamaly Vasuthevan, and I have been a resident of this neighbourhood for 14 years. I am writing on behalf of myself and several other residents of this neighbourhood about our shared concerns regarding the application to rezone and redesignate the land on McNaughton Road East and Major Mackenzie Drive. I intend to speak at the upcoming Committee of the Whole meeting on Monday September 13th with regards to this matter (Item 2).

My family came to this neighbourhood 14 years ago in search of a safe and quiet space to settle down. My parents were drawn in by the promises of an idyllic suburb where their children could play in the street and visit their friends without a care in the world. This neighbourhood has seen my family through many milestones – from my sister and I learning how to ride our bikes, to our graduations, and even her wedding. Our family has also witnessed the impact that construction and urbanization has had on this neighbourhood. As a young girl I would roll down the windows every time it rained to listen to the gentle shower as I did my homework. Now when I roll down my window, even with the recent heavy showers we've been experiencing, all I hear is screeching tires and honking cars. The sunset that would once stop me in my tracks in awe is now a signal to rush home before it gets dark in fear of my safety. The parks I played in as a child are now littered with takeout bags and cups, cigarette butts, and broken glass. My experience is unfortunately all too common. Many

residents of this neighbourhood have expressed dismay at the neglect our community has faced in response to the increased for-profit developments in our neighbourhood. Over the past few weeks, I have spoken to several members of our community who all share the same sentiment: our neighbourhood does not have the infrastructure to accommodate such a drastic increase in density.

The applicant's supplementary reports argue that traffic and noise levels are already near and in some cases over capacity, and that therefore the increased density that would follow the proposed development would have a relatively small impact. This argument fails to consider the impact of the increased noise and traffic on the residents of this neighbourhood. It also fails to consider the increased likelihood of motor vehicle accidents that follow an increase in traffic, especially in a neighbourhood filled with young children and their schools. The current noise level is over MECP guidelines; therefore, it is recommended that our windows and doors be kept shut. This recommendation is unfortunately ineffective, as the sounds of screeching tires and honking horns can be heard through closed doors, even those made to decrease the movement of sound. The increased noise and traffic, even if small in statistical relativity, would have an effect size that would significantly impact the residents of this neighbourhood quite negatively.

These reports also argue that this development is justified under the provincial affordable housing act, as it would provide greater diversity in the local housing market, however the planned development will inevitably be marketed as luxury living with access to a GO station. Providing a few smaller units to qualify within low to moderate income range betrays the applicant's intention to use the provincial mandate as justification to increase population density far beyond what this neighbourhood can handle, and therefore increase their own profits. Residents of this community believe that affordable housing is an admirable goal, as many of us were once in a position where we relied upon it. The applicant's attempt to exploit the affordable housing act for their own profit is distasteful and disrespectful to those who are in need of affordable homes.

The applicants have also provided a cursory report about the effect the development would have on the species at risk within the subject lands. It identifies the Monarch butterfly as a species at risk that would be disrupted by the development and rationalizes that milkweed and other native plants be introduced to mitigate the impact the development would have on the Monarch population. This adjustment would be insufficient in

preventing the ecological ramifications of disrupting the protected species, for there will inevitably be losses in the Monarch population, which will in turn affect the other flora and fauna in the area. Our neighbourhood is filled with flowering plant and vegetable garden that rely on the pollination activities of Monarch butterflies. The disruption of their primary feeding and breeding grounds would result in a decrease in their population, and as a result destabilize the fragile ecosystem of our community.

The subject lands are currently host to a variety of wildlife that play a vital role in the community biome, as pollinators, pest control, and even fertilization. These animals have existed on these lands for far longer than the residents of this community and have already faced countless disruptions in habitat and resources. The current private open space serves as a valuable source of food and shelter for small mammals. Like Monarchs, they interact with the environment in countless ways to keep our community bright and vibrant, which in turn contributes to cleaner air and lush greenery. Their loss would have devastating results on the ecological health of our community, as they would be forced to find other homes under decks and in backyards, resulting in unsafe conditions for both the human and animal residents of this community.

The reports provided by the applicant also fail to acknowledge the ramifications of building 28-storey buildings in an area that currently has no buildings of such extreme height. The neighbourhood is host to several migratory birds, such as Mallard ducks and the federally protected Canadian Geese. The introduction of several high-rise buildings will increase the likelihood of fatalities and disrupt migratory patterns, as it would introduce large reflective obstructions to their migration route. Furthermore, the smaller bird populations, such as the robins and mourning doves that sit on our rooftops and sing to us every morning will undoubtedly be counted amongst the fatalities brought about by this proposed development.

It is therefore evident that the applicant's proposal to rezone and redesignate the subject lands is driven not by community interest, but by corporate greed. To build such high-density buildings in a neighbourhood that already struggles to accommodate its current density would be irresponsible and cruel to those who came to this neighbourhood in search of a safe haven for their families. Furthermore, the current construction of a 16-storey residential building on Eagle Rock Way is already projected to significantly increase density. We therefore ask that the application to rezone and redesignate the lands for two 12-storey and two 28-storey high

rise buildings be denied, and that the applicant be held to a standard that prioritizes the wellbeing of the residents of this neighbourhood. Furthermore, we ask that the municipality take steps to ensure that any future developments that may occur in this neighbourhood be stringently vetted and regulated to prevent the social and environmental ramifications of high-speed urbanization. Attached is a preliminary petition of residents in the area adjacent to the subject lands.

Regards,

Shyamaly Vasuthevan

LOCATIONAL FEATURES

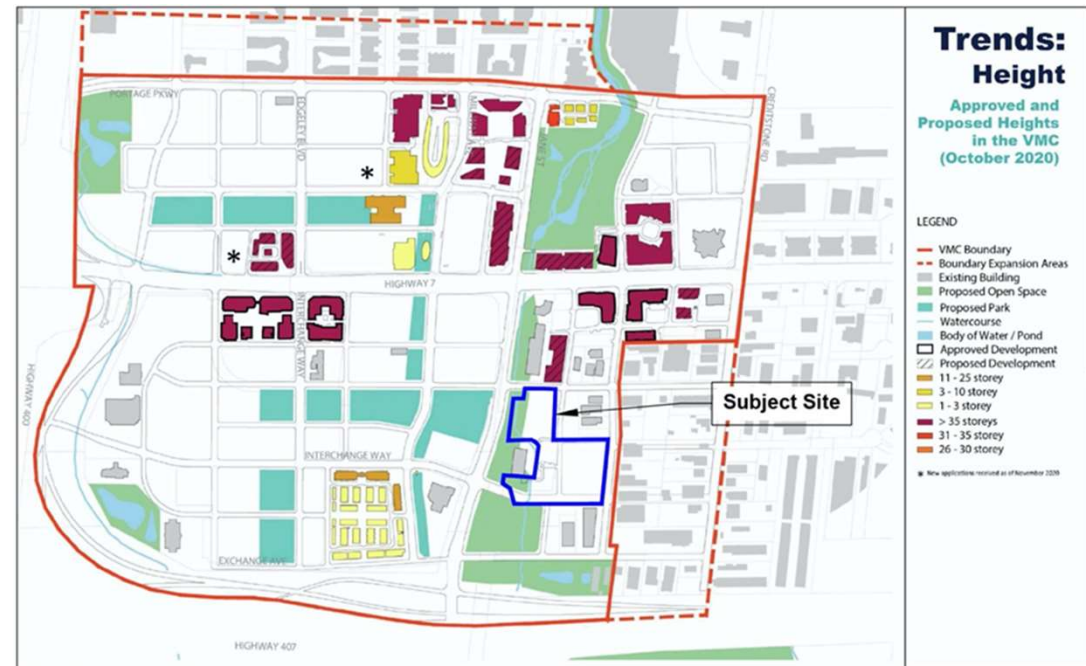

- ❑ The subject site is located within a walkable distance to three key transit stations:
 - ❑ Vaughan Metropolitan Centre (TTC Subway)
 - ❑ Highway 407 (TTC Subway)
 - ❑ Highway 7/Creditstone Road (Viva BRT)
- ❑ Located along the planned Jane Street Viva BRT corridor

7551 & 7601 JANE STREET

TRENDS IN HEIGHTS

- ❑ Emerging high-rise context within the VMC.
 - ❑ Multiple developments within the VMC have been approved for heights greater than 35 storeys.
 - ❑ Many proposed developments are greater than 35 storeys.
- ❑ The proposed development contemplates a density and heights similar to nearby projects adjacent to the site and within the VMC.

7551 & 7601 JANE STREET

PUBLIC REALM CONTRIBUTIONS

- ❑ New public park (“Black Creek Square”)
- ❑ Realigned Black Creek Drive
 - ❑ with multi-use path
- ❑ Outdoor amenity spaces provided at grade and through terraced roof tops
- ❑ A new circulation network prioritizes active modes of movement
 - ❑ Connectivity between Black Creek Corridor, Black Creek Square, Outdoor Amenity Spaces and the proposed street network

7551 & 7601 JANE STREET

PUBLIC REALM CONTRIBUTIONS

- ❑ At grade retail adjacent to the public park to further animate the space
- ❑ Podiums frame the public realm
- ❑ Terraced design and articulation of each building is intended to provide visual interest to the VMC skyline

7551 & 7601 JANE STREET

A COMPLETE COMMUNITY

- ☐ Supports an effective mix of residential, retail, and recreational uses:
- ☐ Each podium will provide at grade uses and direct access to the public realm
- ☐ New high-quality streetscapes
 - ☐ Street trees
 - ☐ Enhanced landscaping

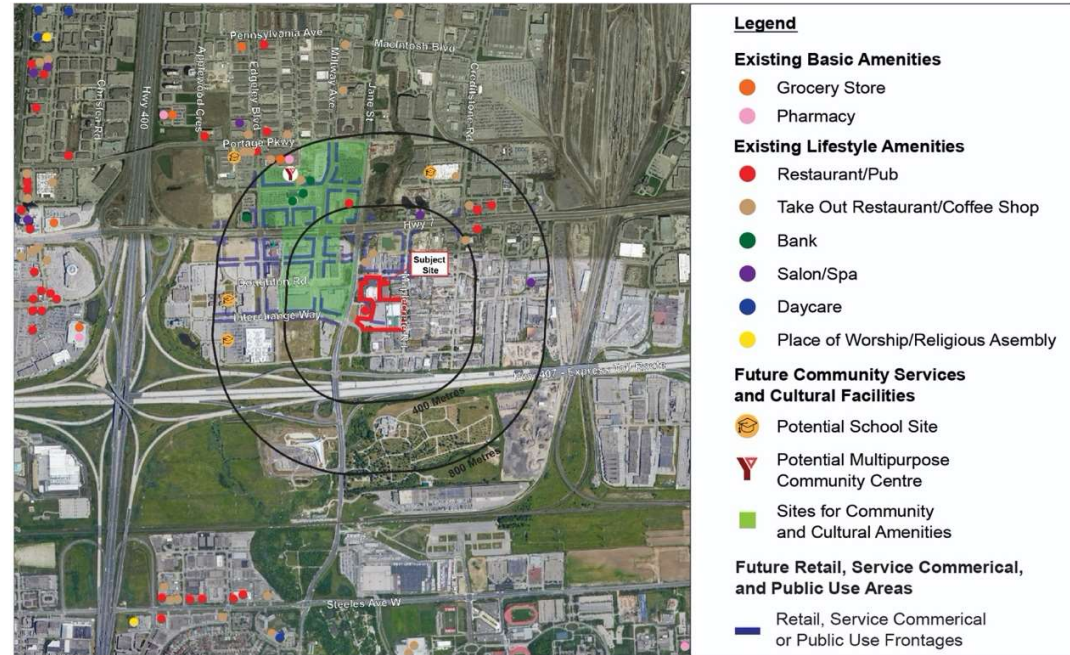

7551 & 7601 JANE STREET

A COMPLETE COMMUNITY

Existing amenities within walking distance including:

- ☐ Restaurants/Pubs
- ☐ Take Out Restaurants/Coffee Shops
- ☐ Retail stores
- ☐ Banks
- ☐ Personal services

A multipurpose community centre and three potential school sites are planned within immediate area.
