Hello Tony,

Hope this email finds you well.

We have asked the City and have been denied permission to mount our state of the art camera's on to the light poles on the fields mentioned above.

Please understand that all League 1 Ontario games including L1 Men, L1 Women L1 reserve Men 2004, L1 reserve Men 2005, L1 Reserve Women (2 teams). Also note that we have 4 boys teams and 3 girls teams in the OPDL League which have mandated the same – filming of games .

At the moment since we have been denied access to mounting these camera's to the existing Light standards , we have no way of using the Camera's .

Please note that the camera's will be used for player development only and would be shut off when the game is complete.

The camera has a feature that will allow our coaches to show players as the play happens what may be correct or incorrect with their decision.

Please understand that the cameras are a one of a kind camera which allows us to Live Stream the L1 games as per their rules as the game Live .

Please also note that while all others may be videotaping with cell phones we would be the 1st Club in Ontario to have use of the special camera's

Tony, we would like to ask if at all possible you would introduce to City council a new by-law in affect removing the draconian one that stands to this day that would allow us to mount the camera's (1 camera per field on 1 post only – camera has 3 mini camera's that will follow the game) on the light standards.

Please indicate to us anything that you think may help us with this .

We thank you for your loyal cooperation as usual sir and hope to hear from you soon

Adam Candido
Vice President
