- ☐ We have reviewed the proposed Variance Application and have the following concerns (attached below).

Alectra Utilities (formerly PowerStream) has received and reviewed the proposed Variance Application. This review, however, does not imply any approval of the project or plan.

All proposed billboards, signs, and other structures associated with the project or plan must maintain minimum clearances to the existing overhead or underground electrical distribution system as specified by the applicable standards, codes and acts referenced.

In the event that construction commences, and the clearance between any component of the work/structure and the adjacent existing overhead and underground electrical distribution system violates the Occupational Health and Safety Act, the customer will be responsible for 100% of the costs associated with Alectra making the work area safe. All construction work will be required to stop until the safe limits of approach can be established.

In the event construction is completed, and the clearance between the constructed structure and the adjacent existing overhead and underground electrical distribution system violates the any of applicable standards, acts or codes referenced, the customer will be responsible for 100% of Alectra's cost for any relocation work.

TRCA wishes to confirm that it has **no interests or concerns with the above noted application.**

Based on a review of our available mapping, the subject property is not within TRCA's Regulated Area. As such, a permit from TRCA pursuant to Ontario Regulation 166/06 would not be required for any development or site alteration on the property.

Although the site is located within the Well Head Protection Area for Quantity control (WHPA-Q2) per the Source Protection Plan, no water balance would be required recognizing this requirement would have been addressed through the subdivision approvals process.

Should further clarification be required, please contact the undersigned at your convenience.

**Proposed Variance(s) (By-law 001-2021):**

1. To permit a minimum rear yard of 2.04 m to the accessory building.
2. To permit a minimum interior side yard of 1.52 m to the accessory building.
3. To permit a maximum lot coverage of 121.6 m<sup>2</sup> for all buildings and structures.
4. To permit a maximum building height of 4.27 m for the accessory building.

**By-Law Requirement(s) (By-law 001-2021):**

1. A minimum rear yard of 2.4 m is required to the accessory building.
2. A minimum interior side yard of 2.4 m is required to the accessory building.
3. The maximum lot coverage of all accessory buildings and accessory structures shall be 10% or 67.0 m<sup>2</sup>, whichever is less.
4. A maximum building height of 3.0 m is permitted for the accessory building.

**Proposed Variance(s) (By-law 1-88):**

5. To permit a minimum rear yard of 2.04 m to the accessory building.
6. To permit a maximum lot coverage of 20.06% is permitted for all covered buildings and structures.
7. To permit a maximum lot coverage of 121.6 m<sup>2</sup> for all buildings and structures.
8. To permit a maximum building height of 3.76 m measured from the average finished grade to the nearest part of the roof.

**By-Law Requirement(s) (By-law 1-88):**

**Official Plan:**

City of Vaughan Official Plan 2010 ('VOP 2010'): "Low-Rise Residential"

**Comments:**

The Owner is requesting to permit the construction of a cabana with the above noted variances.

The Development Planning Department has no objection to Variances 1, 2, and 5 for the proposed setbacks to the cabana as the proposed rear yard setback of 2.04 m and side yard setback of 1.52 m maintains an appropriate area for access and drainage and is consistent with previous approvals in the neighbourhood.

The Development Planning Department has no objection to Variances 3 and 7 for the proposed maximum lot coverage of all accessory buildings, as the proposed cabana will be 65.0 m<sup>2</sup>, while the eaves of the cabana and uncovered pergola make up the remaining 34.7 m<sup>2</sup> and 21.9 m<sup>2</sup> respectively. The proposed increase in coverage is appropriate for the size of the lot and will not have adverse impacts to the neighbouring properties.

The Development Planning Department has no objection to Variances 4 and 8 for the proposed height of the cabana as it is consistent with previous approvals in the

neighbourhood. The property also backs onto Islington Avenue and is screened by the existing trees.

The proposed dwelling has a lot coverage of 17.3%, while the proposed cabana will have a lot coverage of 3.3 %. The Development Planning Department has no objection to Variance 6 for the lot coverage as the proposed increase is minor in nature and also complies with Zoning By-law 01-2021, which was enacted by Vaughan Council on October 20, 2021, but has been appealed to the Ontario Land Tribunal and is not in-effect.

Accordingly, the Development Planning Department can support the required variances and is of the opinion that the proposal is minor in nature, maintains the general intent and purpose of the Official Plan and Zoning By-law, and is desirable for the appropriate development of the land.

**Recommendation:**

The Development Planning Department recommends approval of the application.

**Conditions of Approval:**

If the Committee finds merit in the application, the following conditions of approval are recommended:

None
