To: Christine Vigneault, Committee of Adjustment Secretary Treasurer

From: Nancy Tuckett, Director of Development Planning

Date: May 12, 2022

Name of Owner: David and Susan Salvatore

Location: 36 Cardish Street

File No.(s): A077/22

Proposed Variance(s) (By-law 1-88):

1. To permit a minimum front yard of 6.0 m.
2. To permit a maximum lot coverage of 35.9%.

By-Law Requirement(s) (By-law 1-88):

1. A minimum Front yard of 7.5 m is required.
2. A maximum Lot coverage of 30% is required.

Official Plan:

City of Vaughan Official Plan 2010 ('VOP 2010'): "Low-Rise Residential"

Comments:

The Owner is requesting to permit the construction of a two-storey single family dwelling with the above noted variances.

The Development Planning Department has no objection to Variance 1 for the proposed front yard setback of 6.0 m, as the front porch is the only portion of the dwelling that encroaches into the required 7.5 m front yard. The proposed front yard also complies with Zoning By-law 01-2021, which was enacted by Vaughan Council on October 20, 2021, but has been appealed to the Ontario Land Tribunal and is not in-effect.

The proposed dwelling will have a lot coverage of 29.95%, while the loggia and covered front porch will have a lot coverage of 5.36% and 0.59% respectively. The dwelling coverage is consistent with previous approvals in the neighbourhood and complies with Zoning By-law 01-2021. As such, the Development Planning Department has no objection to Variance 2 for the increase in lot coverage.

In support of the application, the Owners have submitted a Tree Inventory and Protection Plan prepared by The Urban Arborist Inc., dated March 3, 2022. The report inventoried 7 trees, none of which are proposed to be removed. Urban Design staff have reviewed the report and concur with its recommendations.

Accordingly, the Development Planning Department can support the required variances and is of the opinion that the proposal is minor in nature, maintains the general intent and purpose of the Official Plan and Zoning By-law, and is desirable for the appropriate development of the land.

Recommendation:

The Development Planning Department recommends approval of the application.

Conditions of Approval:

If the Committee finds merit in the application, the following conditions of approval are recommended:

None

Alectra Utilities (formerly PowerStream) has received and reviewed the proposed Variance Application. This review, however, does not imply any approval of the project or plan.

All proposed billboards, signs, and other structures associated with the project or plan must maintain minimum clearances to the existing overhead or underground electrical distribution system as specified by the applicable standards, codes and acts referenced.

In the event that construction commences, and the clearance between any component of the work/structure and the adjacent existing overhead and underground electrical distribution system violates the Occupational Health and Safety Act, the customer will be responsible for 100% of the costs associated with Alectra making the work area safe. All construction work will be required to stop until the safe limits of approach can be established.

In the event construction is completed, and the clearance between the constructed structure and the adjacent existing overhead and underground electrical distribution system violates the any of applicable standards, acts or codes referenced, the customer will be responsible for 100% of Alectra's cost for any relocation work.

Hello Christine,

Bell Canada has no comments for this minor variance. We do acknowledge our easement has been stated on the application and no encroachments are proposed. If there are any changes to these plans wherein structures would encroach within the easement lands, please have the applicant send the updated drawings to me for further review and assistance.

Kind regards,

Carrie Gordon

TRCA wishes to confirm that it has **no interests or concerns with the above noted application.**

Based on a review of our available mapping, the subject property is not within TRCA's Regulated Area. As such, a permit from TRCA pursuant to Ontario Regulation 166/06 would not be required for any development or site alteration on the property.

Although the site is located within the Well Head Protection Area for Quantity control (WHPA-Q2) per the Source Protection Plan, no water balance would be required recognizing this requirement would have been addressed through the subdivision approvals process.

Should further clarification be required, please contact the undersigned at your convenience.
