We do not support the continued use of an existing portable dry batch concrete plant and concrete crushing. We are asking if the Concrete Plant really conform to the Vaughan Official Plan 2010 of Prestige Business, most importantly A Agricultural Zone, a Farm Field, by the tributary to the Humber River, with amazing trees? The Concrete Plant is housed in a 26.3 M high building, served with hydro, and extensive lighting system. In short, it does not seem to be temporary but permanent and should no longer be permitted to operate.
