Proposed Variance(s) (By-law 001-2021):

1. To permit a minimum interior side yard setback of 0.9 m to the proposed Residential Accessory Structure.
2. To permit a minimum rear yard setback of 0.9 m to the proposed Residential Accessory Structure.

1. A minimum interior side yard setback of 2.4 m to the proposed Residential Accessory Structure is required.
2. A minimum rear yard setback of 2.4 m to the proposed Residential Accessory Structure is required.

3. To permit a minimum interior side yard setback of 0.9 m to the proposed Accessory Structure.
4. To permit a minimum rear yard setback of 0.9 m to the proposed Accessory Structure.

By-Law Requirement(s) (By-law 1-88):

4. A minimum rear yard setback of 1.2 m to the proposed Accessory Structure is required.

Official Plan:

City of Vaughan Official Plan 2010 ('VOP 2010'): "Low-Rise Residential"

Comments:

The Owner is requesting to permit the construction of a proposed pavilion with the above noted variances.

The Development Planning Department has no objection to Variances 1 and 3 as the reduction to the interior side yard setback for the proposed pavilion will not pose a significant visual impact to the neighbouring property and maintains an appropriate area for drainage. The pavilion will also comply with all height requirements of the Zoning By-law.

The Development Planning Department has no objection to Variances 2 and 4 as the reduction to the rear yard setback for the proposed pavilion will not pose a significant visual impact to the neighbouring property and maintains an appropriate area for drainage. The pavilion will also comply with all height requirements of the Zoning By-law.

Accordingly, the Development Planning Department can support the required variances and is of the opinion that the proposal is minor in nature, maintains the general intent and purpose of the Official Plan and Zoning By-law, and is desirable for the appropriate development of the land.

Recommendation:

The Development Planning Department recommends approval of the application.

If the Committee finds merit in the application, the following conditions of approval are recommended:
