

ATTACHMENT NO. 1

CONDITIONS OF APPROVAL

**DRAFT PLAN OF SUBDIVISION FILE 19T-20V004 ('THE PLAN')
NASHVILLE MAJOR DEVELOPMENTS INC. ('THE OWNER')
PART OF LOT 21, CONCESSION 9, CITY OF VAUGHAN**

THE CONDITIONS OF THE COUNCIL OF THE CITY OF VAUGHAN THAT SHALL BE SATISFIED PRIOR TO THE RELEASE FOR REGISTRATION OF PLAN OF SUBDIVISION FILE 19T-20V004 (THE "PLAN"), ARE AS FOLLOWS:

The Owner shall satisfy the following Conditions of Approval:

1. The Conditions of Approval of the City of Vaughan as set out on Attachment No. 1a).
2. The Conditions of Approval of York Region as set out on Attachment No. 1b) and dated January 7, 2021.
3. The Conditions of Approval of the Toronto and Region Conservation Authority as set out on Attachment No. 1c) and dated November 12, 2021.
4. The Conditions of Approval of Alectra Utilities Corporation as set out on Attachment No. 1d) and dated October 1, 2020.
5. The Conditions of Approval of Enbridge Gas Distribution Inc. as set out on Attachment No. 1e) and dated May 26, 2022.
6. The Conditions of Approval of Bell Canada as set out on Attachment No. 1f) and dated October 2, 2020.
7. The Conditions of Approval of Canada Post as set out on Attachment No. 1g) and dated October 5, 2020.

Clearances

1. Final approval for registration may be issued in phases to the satisfaction of the City, subject to all applicable fees provided that:
 - a) phasing is proposed in an orderly progression, in consideration of such matters as the timing of road improvements, infrastructure, schools and other essential services; and

- b) all commenting agencies agree to registration by phases and provide clearances, as required in the Conditions in Attachment Nos. 1a), 1b), 1c), 1d), 1e), 1f) and 1g) for each phase proposed for registration; and furthermore, the required clearances may relate to lands not located within the phase sought to be registered.
- 2. The City shall advise that the Conditions on Attachment No. 1a) have been satisfied and the clearance letter shall include a brief statement detailing how each condition has been met.
- 3. York Region shall advise that the Conditions on Attachment No. 1b) have been satisfied and the clearance letter shall include a brief statement detailing how each condition has been met.
- 4. The Toronto and Region Conservation Authority shall advise that the Conditions on Attachment No. 1c) have been satisfied and the clearance letter shall include a brief statement detailing how each condition has been met.
- 5. Alectra Utilities shall advise that the Conditions on Attachment No. 1d) have been satisfied and the clearance letter shall include a brief statement detailing how each condition has been met.
- 6. Enbridge Gas Distribution Inc. shall advise that the Conditions on Attachment No. 1e) have been satisfied and the clearance letter shall include a brief statement detailing how each condition has been met.
- 7. Bell Canada shall advise that the Conditions on Attachment No. 1f) have been satisfied and the clearance letter shall include a brief statement detailing how each condition has been met.
- 8. Canada Post shall advise that the Conditions on Attachment No. 1g) have been satisfied and the clearance letter shall include a brief statement detailing how each condition has been met.

ATTACHMENT 1a)

CONDITIONS OF APPROVAL DRAFT PLAN OF SUBDIVISION FILE 19T-20V004 ('THE PLAN') NASHVILLE MAJOR DEVELOPMENTS INC. ('THE OWNER') PART OF LOT 21, CONCESSION 9, CITY OF VAUGHAN

THE CONDITIONS OF THE COUNCIL OF THE CITY OF VAUGHAN ('THE CITY') THAT SHALL BE SATISFIED PRIOR TO THE RELEASE FOR REGISTRATION OF THE PLAN, ARE AS FOLLOWS:

CITY OF VAUGHAN CONDITIONS

1. The Plan shall relate to the Draft Plan of Subdivision, prepared by Malone Given Parsons Ltd., Project No. 16-2465, dated November 11, 2015 (revised March 8, 2022) and redlined dated June 21, 2022, (the 'Plan'), as follows:
 - a) The locations of the trail connection in Park Block 26 does not match the engineering civil plans which were revised to avoid conflicts with the driveways for the townhouse dwellings in Block 23. The Plan needs to be revised to address this item.
2. The lands within this Plan shall be appropriately zoned by a Zoning By-law which has come into effect in accordance with the provisions of the *Planning Act*.
3. The Owner shall pay any and all outstanding application fees to the Development Planning Department, in accordance with the in-effect Tariff of Fees By-law.
4. The Owner shall enter into a Subdivision Agreement with the City to satisfy all conditions, financial or otherwise of the City, regarding matters as the City may consider necessary, including payment of development levies, the provision of roads and municipal services, landscaping, and fencing. The said agreement shall be registered against the lands to which it applies.
5. Prior to final approval of the Plan:
 - a) The Owner shall enter into a Developers' Group Agreement with the other participating landowners within Block 61 to the satisfaction of the City. The agreement shall be regarding but not limited to all cost sharing for the provision of parks, cash-in-lieu of parkland, roads, and municipal services to support development within Block 61. This agreement shall also include a provision for additional developers to participate with the Developers' Group Agreement when they wish to develop their lands.
 - b) The Owner acknowledges that that parkland shall be dedicated, and cash-in-lieu of parkland may be required and shall be paid in accordance with

Section 42 of the *Planning Act* and conform to the City's "Cash-in-lieu of Parkland Policy". If required, non-participating owners shall be required to pay additional cash-in-lieu to the City.

- c) Prior to final approval of the Plan, the Trustee for the Block 61 Landowners Group shall provide the City with a letter confirming the Owner has fulfilled all cost sharing and other obligations of the Block 61 Developers' Group Agreement.
6. The road allowance included within the Plan shall be dedicated as a public highway without monetary consideration and free of all encumbrances.
 7. The road allowance within this Plan shall be named to the satisfaction of the City and York Region. Proposed street name shall be submitted by the Owner for approval by Vaughan Council and shall be included on the first engineering drawings.
 8. The road allowances included in the Plan shall be designed in accordance with the City's standards for road and intersection design, temporary turning circles, daylighting triangles, and 0.3 metre reserves. The pattern of streets and the layout of lots and blocks shall be designed to correspond and coincide with the pattern and layout of abutting developments.
 9. Any dead end or open side of a road allowance created by this Plan shall be terminated in 0.3 m reserves, to be conveyed to the City without monetary consideration and free of all encumbrances, to be held by the City until required for future road allowances or development of adjacent lands.
 10. Prior to final approval of the Plan, the City and York Region shall confirm that adequate water supply and sewage treatment capacity are available and have been allocated to accommodate the Plan.
 11. The Owner shall agree in the Subdivision Agreement that construction access shall be provided only in a location approved by the City and/or York Region.
 12. Prior to final approval of the Plan, a Soils Report prepared at the Owner's expense shall be submitted to the City for review and approval. The Owner shall agree in the Subdivision Agreement to carry out, or cause to carry out, the recommendations of the Soils Report including pavement design structure for ideal and non-ideal conditions to the satisfaction of the City.
 13. Prior to the initiation of grading, and prior to the registration of the Plan, or any phase thereof, the Owner shall submit to the City for review and approval a detailed engineering report(s) that describes the storm drainage system for the proposed development within the Plan, which shall include:
 - a) plans illustrating how this drainage system will tie into the surrounding

drainage systems, and indicating whether it is part of an overall drainage scheme, how external flows will be accommodated, and the design capacity of the receiving system;

- b) the location and description of all outlets and other facilities;
- c) stormwater management techniques which may be required to control minor and major flows; and
- d) proposed methods of controlling or minimizing erosion and siltation onsite and in downstream areas during and after construction.

The Owner shall agree in the Subdivision Agreement to carry out, or cause to carry out, the recommendations set out in any and all of the aforementioned report(s) to the satisfaction of the City.

- 14. The Owner shall agree in the Subdivision Agreement that no Building Permit(s) will be applied for or issued until the City is satisfied that adequate road access, municipal water supply, sanitary sewers, and storm drainage facilities are available to service the Plan.
- 15. Prior to final approval of the Plan, the Owner shall pay its proportionate share of the cost of any external municipal services, temporary and/or permanently built or proposed, that have been designed and oversized by others to accommodate the development of the Plan.
- 16. Prior to final approval of the Plan, the Owner shall make the necessary arrangements at the expense of the Owner for the relocation of any utilities required by the development of the Plan to the satisfaction of the City.
- 17. The Owner shall agree in the Subdivision Agreement to design, purchase material, and install a street-lighting system in the Plan in accordance with City standards and specifications. The Plan shall be provided with decorative street-lighting to the satisfaction of the City.
- 18. The Owner shall agree that all lots or blocks to be left vacant shall be graded, seeded, fenced with temporary fencing maintained and signed to the satisfaction of the City to prohibit dumping and trespassing.
- 19. The Owner shall agree in the Subdivision Agreement to maintain adequate chlorine residuals in the watermain within the Plan after successful testing and connection to the potable municipal water system and continue until such time as determined by the City or until assumption of the Plan. In order to maintain adequate chlorine residuals, the Owner will be required to retain a licensed water operator to flush the water system and sample for chlorine residuals on a regular basis as determined by the City. The Owner shall be responsible for the costs

associated with these activities including the metered consumption of water used in the program.

20. Prior to final approval of the Plan, the Owner shall provide detailed intersection design drawings for all proposed accesses onto the existing boundary roads inclusive of the emergency accesses to the satisfaction of the City unless alternative arrangements are made with the City.
21. Prior to final approval of the Plan, the Owner shall provide detailed design drawings for the proposed subdivision road network to the satisfaction of the City. The detailed design drawings should provide active transportation connections to the surrounding road network and include the location of sidewalks, multi-use paths, crossings, pavement markings, signage, bike lanes and other transportation infrastructure to the satisfaction of the City.
22. Prior to final approval of the Plan, the Owner shall provide a pavement marking and signage plan for the Plan to the satisfaction of the City. The Owner shall agree in the Subdivision Agreement to fully implement the pavement markings and signage at the Owner's cost as per approved drawings to the satisfaction of the City.
23. Prior to final approval of the Plan, the Owner shall provide cross-sections of the proposed modified 15 metre right-of-way local road (Street "00") for the east, west and south portions of the "ring-road" to the satisfaction of the City.
24. Prior to final approval of the Plan, the Owner shall carry out or cause to be carried out, the design and construction of the traffic calming and traffic management measures that are identified on the functional and/or detailed design drawings. In the event that these traffic calming measures are found to be insufficient and/or ineffective by the City prior to the assumption of the municipal services, then the Owner shall design and construct additional traffic calming measures and/or traffic management measures to the satisfaction of the City.
25. Prior to final approval of the Plan, the Owner shall provide confirmation that satisfactory arrangements have been made with a suitable telecommunication provider to provide their services underground at the approved locations and to the satisfaction of the City. The Owner shall provide a copy of the fully executed Subdivision Agreement to the appropriate telecommunication provider.
26. Prior to final approval of the Plan, the Owner shall permit any telephone or telecommunications service provider to locate its plant in a common trench within the proposed Plan prior to release of the Plan for registration, provided such service provider has executed a Municipal Access Agreement with the City. The Owner shall ensure that any such service provider will be permitted to install its plant so as to permit connection to individual dwelling units within the Plan as and when each dwelling unit is constructed.

27. Prior to final approval of the Plan, a Water Supply Analysis Report shall be submitted to the satisfaction of the City, which shall include a comprehensive water network analysis of the water distribution system and shall demonstrate that adequate water supply for the fire flow demands is available for the Plan and each phase thereof.
28. Prior to final approval of the Plan and/or commencement of construction within the Plan, the Owner shall submit a detailed Hydrogeological Impact Study that identifies, if any, local wells that may be influenced by construction and if necessary, outline a monitoring program to be undertaken before, during and after construction of the Plan.
29. Prior to final approval of the Plan, the Owner shall submit an Environmental Noise and/or Vibration ('Noise') Report to the City for review and approval. The preparation of the Noise Report shall include the ultimate traffic volumes associated with the surrounding road network and railway according to the Ministry of Environment, Conservation and Parks ('MECP') Guidelines. The Owner shall convey any required buffer block(s) for acoustic barrier purposes, free of all costs and encumbrances, to the satisfaction of the City. The Owner shall agree in the Subdivision Agreement to carry out, or cause to carry out, the recommendations set out in the approved Noise Report to the satisfaction of the City.
30. Prior to final approval of the Plan, and/or conveyance of land, and/or commencement of grading or construction, the Owner shall implement the following to the satisfaction of the City:
 - a) Submit a Phase One Environmental Site Assessment ('ESA') Report and, if required and as applicable, a Phase Two ESA Report, Remedial Action Plan ('RAP'), Risk Evaluation, and Risk Assessment Report(s) in accordance with *Ontario Regulation ('O. Reg.') 153/04 (as amended)* or its intent, for the lands within the Plan. Reliance on the report(s) from the Owner's environmental consultant shall be provided to the City.
 - b) Should there be a change to a more sensitive land use as defined under O. Reg. 153/04 (as amended) or remediation of any portions of lands within the Plan required to meet the applicable Standards set out in the Ministry of the Environment, Conservation, and Parks ('MECP') document *Soil, Ground Water and Sediment Standards for Use under Part XV.1 of the Environmental Protection Act (as amended)*, submit a complete copy of the Record(s) of Site Condition ('RSCs') filed on the Environmental Site Registry including the acknowledgement letter from the MECP, covering all the lands within the Plan.
 - c) Submit a sworn statutory declaration by the Owner confirming the environmental condition of the lands to be conveyed to the City.

- d) Reimburse the City for the cost of the peer review of the ESA Reports and associated documentation, as may be applicable.
31. Prior to the conveyance of land and/or release of applicable portion of the Municipal Services Letter of Credit, the Owner shall implement the following to the satisfaction of the City:
- a) For all parks, open spaces, landscape buffers, and stormwater management pond block(s) in the Plan that are being conveyed to the City, submit a limited Phase Two Environmental Site Assessment ('ESA') report in accordance or generally meeting the intent of *Ontario Regulation (O. Reg.) 153/04 (as amended)*, assessing the fill in the conveyance block(s) for applicable contaminants of concern. The sampling and analysis plan prepared as part of the Phase Two ESA shall be developed in consultation with the City. The implementation of the sampling and analysis plan shall be completed to the satisfaction of the City and shall only be undertaken following certification of rough grading but prior to placement of topsoil placement. Reliance on the ESA report(s) from the Owner's environmental consultant shall be provided to the City.
 - b) If remediation of any portions of the conveyance block(s) is required in order to meet the applicable Standards set out in the Ministry of the Environment, Conservation, and Parks (MECP) document *Soil, Ground Water and Sediment Standards for Use under Part XV.1 of the Environmental Protection Act (as amended)*, submit a complete copy of Record(s) of Site Condition (RSCs) filed on the Environmental Site Registry including the acknowledgement letter from the MECP, covering the entire conveyance block(s) where remediation was required.
 - c) Submit a sworn statutory declaration by the Owner confirming the environmental condition of the conveyance block(s).
 - d) Reimburse the City for the cost of the peer review of the ESA reports and associated documentation, as may be applicable.
32. The Owner shall provide the City with a Park Master Plan that shall demonstrate a sound design approach and illustrate the proposed park program requirements which includes a playground, a 3metre wide multi-use recreational trail, lighting associated trail and park accessories, and level of service as determined by the City. The Park Master Plan shall include information related to existing conditions, grading plan, servicing, layout, surface treatment, planting, preliminary construction cost estimates, lighting, and relevant details.
33. The Owner shall convey Park Block 26 to the City free of all cost and encumbrances.

34. Prior to the execution of the Subdivision Agreement, the Owner shall agree to develop the base requirements for Park Block 26 in accordance with items listed below in Condition 38. The timing of these works shall be completed by no later than, within two growing seasons of the first Building Permit for the phase which contains the park, and/or twenty five percent (25%) occupancy of the homes within the Plan or surrounding subdivisions served by the park.
35. Development of Park Block 26 shall be coordinated with residential development in order to provide park facilities to the local residents in a timely manner. Prior to the execution of the Subdivision Agreement, the Owner shall agree to enter into a Developer Build Agreement with the City to build the park including but limited to the construction of the lit multiuse recreational pathway, hardscaping, facilities, and all associated softscaping as per Developer Build Parks Policy, No. 07.2.05.
36. The Owner shall agree to complete a Master Plan to the City's standard level of service for Park Block 26 to the City's satisfaction, and shall include the following information:
 - a) Illustrate the proposed park program requirements, lit recreational multiuse pathway, including future trail connections, and level of service as determined by the City.
 - b) Demonstrate parkland configuration and grading to allow for the placement and development of appropriate outdoor facilities.
 - c) Provide boundaries of proposed parkland dedication and the total size of individual blocks.
 - d) Provide an existing conditions plan illustrating topographic information in order to assess slopes and drainage, and vegetation, identifying species, age, size, and condition.
 - e) Provide a grading plan illustrating proposed storm water run-off, surface drainage patterns and sub-surface storm water servicing requirements.
 - f) Provide a preliminary construction cost estimate.
 - g) Required restoration works and Edge Management Plan for park block abutting open space and associated buffer.
 - h) Layout plan which illustrates proposed park program requirements as determined by the City.
37. The plans are to be completed by a registered Landscape Architect and are required to provide sufficient information to confirm facility and program

requirements to the satisfaction of the City.

- a) Public parks shall be unencumbered by underground parking, utility easements and structures, transformer boxes, Canada Post mailboxes and/or access, overland flow routes, railway and pipeline safety buffers and zones, Natural Heritage Network core features and associated buffers, regulated floodplain areas, or anything that could negatively impact the public use of the public park.
- b) A parkland dedication chart shall be provided showing sufficient information to demonstrate parkland dedication calculations to the City's satisfaction. The parkland dedication chart shall be used for valuating, determining, and identifying the total amount of final parkland conveyance or payment representing the cash-in-lieu of parkland dedication to the City based on developable lands of the individual applicant lands or the development group.
- c) All parkland conveyed to the City shall be conveyed in a physical condition satisfactory to the City and in accordance with the policies, practices, and guidelines of the City. Refer to Developer Responsibility for Parkland Conveyance Conditions (Base Condition) below.

38. The Owner shall agree to complete the following respecting the park base requirements:

- a) Archaeological Assessment, Stage I and II is required to determine limits of public park block(s). Proposed public park lands are to be clear of all historically significant heritage features.
- b) A geotechnical investigation and Phase 2 Environmental Site Assessment to be conducted by a qualified Professional Engineer in accordance with O.Reg. 153/04 (as amended) assessing park and open space blocks for contaminants of concern to the satisfaction of the City and in conformity with the applicable MOECC Site Condition Standards for parkland use. Ensure compliance with the updated Engineering Design Criteria and Standard Drawings Manual. A minimum of 5 boreholes are required within Park Block 26 Boreholes are to be taken at regular intervals along the full length of Park Block 26. Borehole reports will indicate soil type, water content, and density (general compaction). All samples are to be tested in a laboratory to determine their physical properties, including levels of various chemical elements and contaminants. Should additional fill be placed to meet required grading levels, the results of the Phase Two Investigation shall be supplemented with a letter report addressed to the City the Owner's environmental consultant that includes: confirmation of the area where fill has been placed and details regarding dates, sources, volumes, and certification that the placed fill material meets the applicable MOECC Site Condition Standards referenced above and compacted to the standard referenced

below.

- c) A complete inventory and analysis report of existing vegetation completed by a Certified Arborist for all existing trees within Park Block 26. Drawings shall indicate the location of all existing trees, including limit of drip line, trees to be removed and trees to be maintained within the park block. No grading work is permitted within the drip line of existing trees that are to be preserved. All dead, damaged, and hazardous trees are to be removed and disposed of off-site.
- d) Any tree or similar vegetation in accordance with the tree preservation plan shall be retained on the park block.
- e) The park block shall be graded based on the park's proposed facilities and stormwater management requirements. Park Block 26 shall be graded to conform to the overall grading plan of the Plan with clean engineered fill compacted to 95% Standard Proctor Dry Density (SPDD), inclusive of any civil work required such as retaining structures, rip rap, swales, and the like to meet grading levels. The park block shall generally be graded to allow for a minimum 2% and no greater than 5% gradient over 75% of the total block area. No fill is to be placed on existing topsoil and the stockpiling of topsoil on the park and open space blocks is prohibited. Spread and fine grade topsoil evenly to a depth of 300 mm over the entire park block. Topsoil for fine grading shall be fertile and friable, natural loam soil with two percent (2%) minimum organic matter for sandy loams and four percent (4%) minimum organic matter for clay loams. Acidity of topsoil shall range from 6.0pH to 7.5pH and shall be capable of sustaining vigorous plant growth. The Owner shall complete all necessary chemical analysis and topsoil fertility tests by a qualified testing laboratory to the satisfaction of the City, and results of testing provided to the City for review and approval. Prior to placement of topsoil, the Owner shall add all amendments as required to amend the existing soils to meet the recommendations of the fertility testing and demonstrate that these standards have been met.
- f) Proposed public park block grading must not negatively impact adjacent properties with overland flow routes. The public park block cannot be encumbered by overland flow routes from adjacent properties.
- g) Park Block 26 shall be seeded with a seed mix approved by the City.
- h) The perimeter of Park Block 26 shall be temporarily fenced off with fencing approved by the City and "No Dumping", "No Trespassing", and "Encroachment by-law" signs shall be placed along the perimeter of the park blocks.
- i) The Owner shall be responsible to maintain Park Block 26 until such time as

the park's construction commences or assumption is granted. Maintenance shall entail maintaining sufficient grades to prevent standing water, cutting the grass/vegetation a minimum of twice in summer, erosion repairs, cleaning of catchbasins, repair of perimeter fencing, and removal of any debris that is dumped on the site, to the satisfaction of the City.

- j) Park Block 26 shall not be encumbered by any services or easements including but not limited to utility services, transformer boxes, Canada Post mailboxes and/or access, and Block 27 Canadian Pacific Railway ('CPR') Berm buffer block.
 - k) Park Block 26 shall include adequately sized servicing connections along the main frontage of the park block, including a stormwater manhole. All servicing structures are to be located no less than 5 metres away from property lines. A stormwater management brief and grading plan for all required stormwater services is required to ensure that proposed works have been designed to accommodate stormwater flows in accordance with the Engineering Department Design Manual City at interim and ultimate phases of the Park Block and to the satisfaction of the City.
 - l) Electrical services include a 120/240 volt, single phase, three wire power supply to Park Block 26. The power supply drop will consist of a 3 conductor #3/0 aluminum underground cable drop located one metre from the street line and one metre from the property line inside the park block(s). The cable feed will originate from the closest (within 75 metre cable length) single phase pad mounted transformer and will be left coiled and attached to a 2" X 4" wood stake, visible above grade.
 - m) All temporary sediment control management measures within parks and open space blocks are to be removed prior to rough grading of the associated block.
39. All multi-use trail connection segments shall be asphalt and a minimum 3 metres in width, flared and with appropriate line markings to City Standards.
40. All trails and pathways should not exceed a 5% grade, should be paved, and have a planned width of 3 metres with an additional 1.5 metres mow strip on either side. The trails shall be site verified by the Parks Development Department prior to construction. The open space trail shall not require asphalt paving except for the portions of the open space trail that connect to a residential subdivision and those portions of the trail that exceed a 5% grade as per City Standards.
41. The open space pathway shall not exceed a 5% grade any portion of the trail exceeding a grade of 5% shall be constructed using asphalt as per City Standards. All pathways crossing over a culvert shall flare out 2 metres on either side of the pathway as per City Standards. Please show the different surface materials for this

trail.

42. Light levels shall be achieved along the multi-use pathway to meet City standards.
43. All trails and pathways shall meet the Accessibility Design Guidelines for York Regional Forest Trails.
44. Prior to final approval of the Plan, the Owner shall agree that any additional lands required for public highway purposes, where daylight triangles do not conform to the City Standard Design Criteria, will be conveyed to the City, free of all costs and encumbrances.
45. Prior to final approval of the Plan, the Owner shall submit to the satisfaction of the City, a listing prepared by an Ontario Land Surveyor of all the lot and block areas, frontages, and depths in accordance with the approved Zoning By-law for all the lots and blocks within the Plan.
46. Prior to final approval of the Plan, the Owner shall convey lands or provide easements as may be required for pedestrian access, utility, drainage or construction purposes, which may include any required easements and/or additional lands within and/or external to the Plan and shall be granted to the appropriate authority(ies), free of all charge and encumbrance.
47. The Owner shall agree in the Subdivision Agreement to convey any lands and/or easements, free of all costs and encumbrances, to the City that are necessary to construct the municipal services for the Plan, which may include any required easements and/or additional lands within and/or external to the Plan, to the satisfaction of the City.
48. The Owner shall agree in the Subdivision Agreement to convey any road allowances, road widening, daylight triangles, and flaring on the Plan for public highway, free of all costs and encumbrances, to the satisfaction of the City.
49. The Owner shall agree in the subdivision agreement to design and construct Street "00" according to the City of Vaughan Engineering Standards unless justification is provided for a design exception to the satisfaction of the City.
50. The Owner shall agree in the Subdivision Agreement to construct proposed intersections and accesses from the Plan to the existing boundary roads at the Owner's cost as per the approved construction drawings unless alternative arrangements are made with the City. The cost shall be secured through a letter of credit based on cost estimates, to the satisfaction of the City.
51. The Owner shall agree to provide the following for the purpose of fire safety and firefighting operations:

- a) hydrants for firefighting, municipal or private, as identified in the plans and code requirements to be installed;
 - b) hydrants shall be unobstructed and ready for use at all times;
 - c) access roadways shall be maintained and suitable for large heavy vehicles; and
 - d) temporary municipal address to be posted and visible for responding emergency vehicles satisfactory to the City.
52. The Owner shall agree in the Subdivision Agreement to obtain all necessary permissions to enter from adjacent private properties to facilitate and construct the required facilities necessary to service the Plan, free of all costs and encumbrances, and to the satisfaction of the City.
53. The Owner shall agree in the Subdivision Agreement to decommission any existing wells and driveways on the Plan in accordance with all applicable provincial legislation and guidelines and to the satisfaction the City.
54. The Owner shall agree in the Subdivision Agreement to inspect, evaluate, and monitor all wells within the zone of influence prior to, during and after construction has been completed. Progress reports should be submitted to the City as follows:
- a) A base line well condition and monitoring report shall be submitted to the City prior to the pre-servicing or registration of the Plan (whichever occurs first) and shall include as a minimum requirement the following tests:
 - i. Bacteriological Analysis – total coliform and E-coli counts
 - ii. Chemical Analysis – Nitrate Test
 - iii. Water level measurement below existing grade
 - b) In the event that the test results are not within the Ontario Drinking Water Standards, the Owner shall notify in writing, the Purchaser, the Regional Health Department and the City within twenty-four (24) hours of the test results.
 - c) Well monitoring shall continue during construction and an interim report shall be submitted to the City for records purposes.
 - d) Well monitoring shall continue for one year after the completion of construction and a summary report shall be submitted to the City prior to Completion Approval.

- e) If the private well systems in the zone of influence deteriorate due to the servicing of the Plan, the Owner will provide temporary water supply to the affected residents upon notice by the City. If the quantity and quality of water in the existing wells is not restored to its original condition within a month after first identification of the problem, the Owner will engage the services of a recognized hydro geologist to evaluate the wells and recommend solutions including deepening the wells or providing a permanent water service connection from the municipal watermain system.

The Owner shall agree in the Subdivision Agreement to carry out, or cause to carry out, the recommendations set out in any and all of the aforementioned reports to the satisfaction of the City.

- 55. The Owner acknowledges that the final engineering design(s) may result in minor variations to the Plan (e.g. in the configuration of road allowances and lotting, number of lots etc.), which may be reflected in the final Plan to the satisfaction of the City.
- 56. The Owner agrees to include in the Purchase and Sale Agreement for all lots adjacent to the open space areas associated with creeks, a statement which advises of the public land setback from the top of the bank of the creek and that public walkways may be located in this setback area.
- 57. Where the Owner proposes to proceed with the construction of a model home(s) prior to registration of the Plan, the Owner shall enter into an agreement with the City, setting out the conditions, and shall fulfill relevant conditions of that agreement prior to the issuance of a Building Permit.
- 58. Prior to the initiation of the grading or striping of topsoil and final approval, the Owner shall submit a topsoil storage plan detailing the location, size, slopes stabilization methods and time period, for approval by the City. Topsoil storage shall be limited to the amount required for final grading, with the excess removed from the site, and shall not occur on the either park or school blocks.
- 59. Prior to final approval, the Owner shall not remove any vegetation or topsoil or start any grading of the lands, without a fill permit issued by the City, and/or final execution of a Subdivision Agreement, to the satisfaction of the City.
- 60. Prior to initiation of grading or stripping of topsoil and prior to final approval of the Plan, the Owner shall prepare and implement a detailed erosion and sedimentation control plan(s) addressing all phases of the construction of the municipal services and house building program including stabilization methods, topsoil storage locations and control measures to the satisfaction of the City. The Owner shall prepare the erosion and sediment control plan(s) for each stage of construction (pre-stripping/earthworks, pre-servicing, post-servicing) in accordance

with the Toronto and Region Conservation Authority's *Erosion and Sediment Control Guidelines for Urban Construction (December 2006)* and implement a monitoring and reporting program to the satisfaction of the City. Topsoil storage shall be limited to the amount required for final grading, with the excess removed from the Plan, and shall not occur on either the park, open space and/or buffer block(s).

61. The Owner shall agree to notify both the Ministry of Tourism, Culture and Sport, and the City of Vaughan Development Planning Department immediately in the event that:
 - a) archaeological resources are found on the property during grading or construction activities, to which the Owner must cease all grading or construction activities; and
 - b) where human remains are encountered during grading or construction activities, the proponent must cease all grading or construction activities. The Owner shall contact York Region Police, the Regional Coroner and the Registrar of the Cemeteries Regulation Unit of the Ministry of Consumer and Business Services.
62. Prior to final approval of the Plan, the Owner shall comply with the *Endangered Species Act*, 2007, S.O.2007 ('Act') and with Ministry of Natural Resources and Forestry regulations and guidelines to protect these species at risk and their habitat. The Owner acknowledges that, notwithstanding any approvals made or provided by the City in respect to the Plan or the related Subdivision Agreement, the Owner must comply with the provisions of the Act to the satisfaction of the Policy Planning and Environmental Sustainability Department, Environment Division.
63. Prior to final approval, the Owner shall satisfy the following:
 - a) All technical, financial, and other requirements of Alectra Utilities Inc., its successors and assigns, regarding the design, installation, connection and/or expansion of electrical distribution services, or any other related matters; the Owner shall enter into a development agreement with Alectra Utilities Inc. which addresses the foregoing requirements.
 - b) The Owner shall agree to design, purchase materials, and install a buried hydro distribution system, compatible with the existing and/or proposed systems in surrounding Plans, all in accordance with the latest standards and specifications of Alectra Utilities Inc. and the City.
64. The Owner shall ensure that the final Plan shall depict all telecommunication structure locations and hydro transformer and/or grounding grid easements.

65. Prior to final approval, the Owner shall convey, free of all costs and encumbrances, Park Block 26 and the associated 12.5 m CPR Berm Block 27, to the satisfaction of the City.
66. Prior to final approval, the Owner shall convey, free of all costs and encumbrances, Vista Blocks 24 and 25, to the satisfaction of the City and TRCA.
67. The Owner shall agree in the Subdivision Agreement that no Building Permit(s) shall be issued until the Owner has provided proof that a restriction has been registered that prevents the transfer of the lot and/or block without the consent of the City where such transfer is to be restricted by any other provision of the Subdivision Agreement.
68. The Owner shall agree to create easements for maintenance purposes for all lots providing less than 1.2 m side yards, or having roof encroachments, prior to the transfer of the land.
69. The Owner shall agree to remove any driveways and buildings on the site, which are not approved to be maintained as part of the Plan. Any modification to off-site driveways required to accommodate this Plan shall be co-ordinated and completed at the cost of the Owner.
70. The Owner shall agree in the Subdivision Agreement that no Building Permit(s) shall be issued for any lots and/or blocks until the Owner's consulting engineer certifies, to the satisfaction of the City, that the lot grading complies with the City of Vaughan lot grading criteria and the driveway(s) as shown on the Plan submitted for the construction of the building(s) on the subject lots and/or blocks conform in terms of location and geometry (i.e., width, etc.) with the approved or amended and subsequently approved Construction Drawings.
71. Notwithstanding the provisions generally included within the Subdivision Agreement, the City may issue model home Building Permit(s) provided that the land is zoned to the satisfaction of the City and the relevant conditions of the Subdivision Agreement are fulfilled.
72. Where the Owner proposes to proceed with the construction of a model home(s) prior to registration of the Plan, the Owner shall enter into an agreement with the City, setting out the conditions, and shall fulfill relevant conditions of that agreement prior to issuance of a Building Permit(s).
73. Prior to final approval of the Plan, the Owner shall:
 - a) provide a detailed Tree Preservation Study to the satisfaction of the City which shall include an inventory of all existing trees, an assessment of significant trees to be preserved, proposed methods of tree preservation based on the Arborist Report recommendations, and quantify the value of

the tree replacements using the Urban Design Tree Replacement Valuation outlined in the City's Tree Protection Protocol;

- b) not remove trees without written approval by the City; and
 - c) enter into a Tree Protection Agreement in accordance with City Council enacted Tree By-Law 52-2018.
74. Prior to the landscape plan review by Development Planning Department, Urban Design Division, a fee shall be paid by the Owner to the Development Planning Department in accordance with the in-effect Tariff of Fees for Vaughan Planning Applications - Landscape Plan Review. This fee will include:
- a) the City's review and approval of proposed streetscaping/ landscaping within the Plan (including but not limited to Urban Design Guidelines, Landscape Master Plan, Architectural Design Guidelines, Perfect Submission Landscape Architectural Drawings, Stormwater Management Pond Planting Plans, Natural Feature Edge Restoration/Management Plans), and Tree Inventory/Preservation/Removals Plans; and
 - b) a fee will be applied for each subsequent inspection for the start of the guaranteed maintenance period and assumption of the Plan by the City.
75. Prior to final approval, the Owner shall agree in the Subdivision Agreement that all development shall proceed in accordance with the Vaughan Council approved Block 61 West Nashville Heights Architectural Design Guidelines Architectural Design Guidelines ('Architectural Design Guidelines') prepared by John G. Williams Limited, Architect. The Owner shall agree that:
- a) the Architectural Design Guidelines shall be updated to include an addendum for the Plan;
 - b) a control architect shall be retained at the cost of the Owner with concurrence of the City to ensure compliance with the Architectural Design Guidelines;
 - c) prior to the submission of individual Building Permit Applications, the control architect shall have stamped and signed drawings certifying compliance with the approved Architectural Design Guidelines; and
 - d) The City may undertake periodic reviews to ensure compliance with the Architectural Design Guidelines. Should inadequate enforcement be evident, the City may cease to accept drawings stamped by the control architect and retain another control architect, at the expense of the Owner.

76. Prior to final approval, the Owner shall agree in the Subdivision Agreement that all development shall proceed in accordance with the approved Block 61 West Nashville Heights Landscape Master Plan prepared by NAK Design Strategies, including but not be limited to the following issues:
- a) The Landscape Master Plan shall be updated to include an addendum for this area of development;
 - b) Co-ordination of the urban design/streetscape elements including built form, fencing treatments, street tree planting, vista blocks, and berm block;
 - c) Sustainability design practices/guidelines;
 - d) The appropriate community edge treatment along Major Mackenzie Drive with low-maintenance plant material;
 - e) The appropriate buffer treatment along Canadian Pacific Railway berm with low-maintenance plant material;
 - f) The appropriate landscaping and streetscaping treatment with a multi-use pedestrian trail within Vista Blocks 24 and 25;
 - g) The appropriate landscaping and streetscaping treatment with a multi-use pedestrian trail within Park Block 27 and CPR Berm Block 27; and
 - h) Trail system and network within the park block and vista blocks.
77. Prior to final approval, the Owner shall agree in the Subdivision Agreement that all development shall proceed in accordance with the City of Vaughan Sustainability Performance Metrics ('SPM') program. The SPM program shall present a set of metrics to quantify the sustainability performance of new development projects. The Plan is required to achieve a minimum application performance level score of 31 points to the satisfaction of the City.
78. The Owner shall agree in the Subdivision Agreement to warranty the landscape vegetation screen on the CPR Berm Block 27 landscape buffer for a period of five (5) years following the date of assumption of the Plan.
79. The Owner shall agree in the Subdivision Agreement to erect an appropriate fence barrier within the limits of CPR Berm Block 27 that abuts the Canadian Pacific Railway lands, to the satisfaction of the City.
80. The Owner shall agree in the Subdivision Agreement to erect permanent wood fence treatments for flanking residential lots and residential blocks; to be co-ordinated with the Environmental Noise Report and Architectural Design Guidelines.

81. The Owner shall agree in the Subdivision Agreement to provide a Soils Report for all street tree pits and planting beds throughout the Plan to the satisfaction of the City.
82. The Owner shall agree in the Subdivision Agreement to provide information on sustainable transportation, via various media, to all purchasers and/or tenants within the Plan, including pedestrian, cycling facilities, transit routes, roundabouts, and carpooling and park-and-ride facilities (if applicable) to the satisfaction of the Development Engineering Department.
83. The Owner shall include the following warning clauses as a schedule in all Offers of Purchase and Sale, or Lease for all lots/blocks:

Within the entire Plan:

- a) "Purchasers and/or tenants are advised that the planting of trees on City boulevards in front of residential units is a requirement of the City and a Conceptual Location Plan is included in the Subdivision Agreement. While every attempt will be made to plant trees as shown, the City reserves the right to relocate or delete any boulevard tree without further notice.

The City has NOT imposed an amount for a tree fee, or any other fee, which may be charged as a condition of purchase for the planting of trees. Any tree fee paid by purchasers for boulevard trees does not guarantee that a tree will be planted on the boulevard in front or on the side of a residential dwelling."

- b) "Purchasers and/or tenants are advised that proper grading of all lots in conformity with the Subdivision Grading Plans is a requirement of this Subdivision Agreement.

The City has taken a Letter of Credit from the Owner (Subdivision Developer) as a security to ensure all municipal services including, but not limited to lot grading, are constructed to the satisfaction of the City. Direct cash deposits from the purchasers to the City and/or Owner, for lot grading purposes is NOT a requirement of this Subdivision Agreement. The City of Vaughan does not control the return of such deposits and purchasers/tenants must direct inquiries regarding this return to their vendor/landlord."

- c) "Purchasers and/or tenants are hereby put on notice that the *Telecommunications Act*, the Innovation, Science and Economic Development Canada ('ISED') and the Canadian Radio-television and Telecommunications Commission ('CRTC') authorize telephone and telecommunication facilities and services to be provided by telecommunication carriers other than traditional carriers for such services and that purchasers and tenants are advised to satisfy themselves that such carriers servicing the lands provide sufficient service and facilities to meet

their needs.”

- d) “Purchasers and/or tenants are advised that driveway widths and curb cut widths are governed by City of Vaughan Zoning By-law 1-88, as amended, and By-law 001-2021, as amended as follows:

- i. The maximum width of a driveway shall be 6 metres measured at the street curb, provided circular driveways shall have a maximum combined width of 9 metres measured at the street curb.
- ii. Driveways in either front or exterior side yards shall be constructed in accordance with the following requirements:

By-law 1-88:

Lot Frontage	Maximum Width of Driveway
6.0 - 6.99m ¹	3.5m
7.0 - 8.99m ¹	3.75m
9.0 – 11.99m ¹	6.0m
12.0m and greater ²	9.0m

¹ The Lot Frontage for Lots between 6.0 – 11.99m shall be comprised of a Minimum of 33% Landscaped Front or Exterior side yard and a minimum sixty percent (60%) of the Minimum Landscaped Front or Exterior side yard shall be soft landscaping in accordance with Paragraph 4.1.2, unless otherwise amended by an in-effect Zoning By-law.

² The Lot Frontages for Lots 12 m and greater shall be comprised of a Minimum of 50% Landscaped Front or Exterior Side yard and a minimum sixty percent (60%) of the Minimum Landscaped Front or Exterior Side yard shall be soft landscaping in accordance with Paragraph 4.1.2.

By-law 001-2021:

Lot Frontage	Maximum Width of Driveway
Less than 6m ¹	2.9m
6.0 - 6.99m ¹	3.5m
7.0 - 8.99m ¹	3.75m
9.0 – 11.99m ¹	6.0m
12.0m and greater ²	9.0m

¹ Any portion of a yard in excess of 135m² shall be comprised of a minimum of 60% soft landscaping.

- ² For a RM Zone or a circular driveway the Lot Frontage for Lots between 6.0 – 11.99m shall be comprised of a Minimum of 33% Landscaped Front or Exterior side yard and a minimum sixty percent (60%) of the Minimum Landscaped Front or Exterior side yard shall be soft landscaping in accordance with Paragraph 4.19.1, unless otherwise amended by an in-effect Zoning By-law.
- ³ For a RM Zone or a circular driveway The Lot Frontages for Lots 12m and greater shall be comprised of a Minimum of 50% Landscaped Front or Exterior Side yard and a minimum sixty percent (60%) of the Minimum Landscaped Front or Exterior Side yard shall be soft landscaping in accordance with Paragraph 4.19.1.”
- e) “Purchasers and/tenants are advised that mail delivery will be from a designated community mailbox as per requirements dictated by Canada Post. The location of the mailbox shall be shown on the Community Information Plan provided by the Owner in its sales office.”
- f) “Purchasers and/or tenants are advised that despite the inclusion of noise control features within both the Plan and the individual building units, noise levels, including those from construction activities, including those from road or rail traffic, may be of concern and occasionally interfere with some activities of the dwelling occupants.”
- g) “Purchasers and/or tenants are advised that fencing and/or noise attenuation features along the lot lines of lots and blocks abutting public lands, including a public highway, laneway, walkway or other similar space, is a requirement of this Subdivision Agreement and that all required fencing, noise attenuation features and barriers shall be constructed with all fencing materials, including foundations, completely on private lands and totally clear of any 0.3 m reserve, as shown on the Construction Drawings.

The City has taken a Letter of Credit from the Owner as a security to ensure all fencing including, but not limited to privacy fencing, chain link fencing and acoustic fencing, are constructed to the satisfaction of the City. Direct cash deposits from the purchasers to the City and/or Owner for fencing is NOT a requirement of this Subdivision Agreement.

The maintenance of the noise attenuation features, or fencing shall not be the responsibility of the City and shall be maintained by the Owner until assumption of the services of the Plan. Thereafter the maintenance of the noise attenuation features, or fencing shall be the sole responsibility of the lot owner.”

- h) “Purchasers and/or tenants are advised that this Plan is designed to include rear lot catch basins. The rear lot catch basin is designed to receive and carry only clean stormwater. It is the homeowner’s responsibility to maintain

the rear lot catch basin in proper working condition by ensuring that the grate is kept clear of ice, leaves and other debris that would prevent stormwater from entering the catch basin. The rear lot catch basins are shown on the Construction Drawings and the location is subject to change without notice.”

- i) “Purchasers and/or tenants are advised that their rear yard lot area has been designed to incorporate an infiltration trench system to achieve groundwater balance. It is the responsibility of the homeowner to maintain the infiltration trench systems in good operating condition, which may include periodic cleaning of the rear yard catch basin, as per the Environmental Compliance Approval (‘ECA’) as issued by the Ministry of the Environment, Conservation and Parks (‘MECP’) No planting activity or structures are permitted on the infiltration trenches and soak-away pits.”
- j) “Purchasers and/or tenants are advised that the Owner (Subdivision Developer) has made a contribution towards recycling containers for each residential unit as a requirement of this Subdivision Agreement. The City has taken this contribution from the Owner to off-set the cost for recycling containers, therefore, direct cash deposits from the purchasers and/or tenants to the Owner for recycling container purposes is NOT a requirement of the City of Vaughan. The intent of this initiative is to encourage the purchasers and/or tenants to participate in the City’s waste diversion programs and obtain their recycling containers from the Joint Operations Centre (‘JOC’), 2800 Rutherford Road, Vaughan, Ontario, L4K 2N9, (905) 832-8562; the JOC is located on the north side of Rutherford Road just west of Melville Avenue.”

streets:

- k) “Purchasers and/or tenants are advised that roads within the Plan may have been constructed using Alternative Development Standards. In April 1995, the Ministry of Housing and the Ministry of Municipal Affairs published the Alternative Development Standards as a guideline for municipalities. The Province of Ontario has been promoting the use of these guidelines which provide for reduced pavement widths.”
- l) “Purchasers are advised that traffic calming measures may have been incorporated into the road allowances.”
- m) “Purchasers and/or tenants are advised that the collector and primary roads within the Plan are expected to support more traffic than local roads and, if demand warrants, transit routes in the future.”
- n) “Purchasers and/or tenants are advised that internal streets may be subject to public transit bus traffic.”

small front yard lot with a single driveway and sidewalk:

- o) "Purchasers and/or tenants are advised that small front yard lots with a single driveway and sidewalk may have limited on-lot parking opportunities."

abutting or in proximity of any park or open space:

- p) "Purchasers and/or tenants are advised that the adjacent park or open space may be left in a naturally vegetated condition and receive minimal maintenance."
- q) "Purchasers and/or tenants are advised that abutting a neighbourhood park, open space or walkway may be of a concern due to the noise and lighting expected from the recreational nature of the site."
- r) "Purchasers and/or tenants are advised that the neighbourhood park(s) may not be fully developed and/or programmed at the time of occupancy. The timing of development and phasing of and programming for parkland is at the discretion of the City."
- s) "Purchasers and/or tenants are advised that a Permission to Enter and Access Agreement from the City is required to complete construction/ landscape works to the lot or block where access through the park or open space is required."
- t) "Purchasers and/or tenants are advised that routine maintenance and ploughing of the pathway should be expected on a public pathway associated with a park or open space."
- u) "Purchasers and/or tenants are advised that municipal snow ploughing operations shall exclude private access paths to the main walkway within the park block."

encroachment and/or dumping:

- v) "Purchasers and/or tenants are advised that any encroachments and/or dumping from the lot/block to the park or open space are prohibited."

Canadian Pacific Railway:

- w) "Purchasers and/or tenants are advised that Canadian Pacific Railway ('CP') company, or its assigns or successors in interest, has or have a railway right-of-way located within 300 meters from the land subject hereof. There may be alterations to or expansions of the railway facilities and/or operations in the future, which alterations or expansions may affect the living environment of the residents in the vicinity, notwithstanding the inclusion of any noise and

vibration attenuating measures in the design of the Plan and individual dwellings. CP will not be responsible for complaints or claims arising from the use of its facilities and/or operations.”

- x) “Purchasers and/or tenants are advised that despite the inclusion of a landscape vegetation screen along the CP Railway safety berm adjacent to Street “OO”, railway traffic will be visible. A screen wall will not be erected on the CP Railway berm adjacent to Street “OO”. The landscape vegetation screen has been designed with a combination of mature deciduous and coniferous plant material intended to partially screen the view of passing trains. Despite the vegetative screen, portions of passing trains will still be visible to residents in the abutting neighbourhood. This landscape vegetation screen is not intended to mitigate railway noise in public outdoor areas within the residential neighbourhood. Noise mitigation features for dwelling units and the associated dwelling unit outdoor living areas have been implemented on the individual affected Lots and Blocks within the Plan in order to achieve sound levels within the limits recommended by the Ministry of the Environment, Conservation and Parks.”

Highway 427:

- y) “Purchasers and/or tenants are advised that the Ministry of Transportation obtained approval for the 427 Transportation Corridor Environmental Assessment from Highway 7 to Major Mackenzie Drive in November 2010 and a preliminary design has been recently completed. The future extension of Highway 427 may affect the living environment of the residents in the vicinity, notwithstanding the inclusion of any noise attenuation measures in the design of the development and individual dwelling(s).”
- z) “Purchasers and/or tenants are advised that Huntington Road improvements and realignment opposite the terminus point of the future Highway 427 northbound off-ramp at Major Mackenzie Drive may be required in the future to facilitate the realignment of Huntington Road in an easterly direction to intersect with Major Mackenzie Drive opposite the future Highway 427 northbound off-ramp terminus.”
- aa) “Purchasers are advised that Huntington Road is proposed to be terminated at Major Mackenzie Drive in accordance with the approved Highway 427 Transportation Corridor Environmental Assessment.”

Any additional warning clause as noted in the Subdivision Agreement shall be included in all Offers of Purchase and Sale or Lease for all lots and/or blocks within the Plan to the satisfaction of the City.

- 84. Prior to the transfer of any lot or block on the Plan, the Owner shall submit to the City satisfactory evidence that the appropriate warning clauses required by the

Subdivision Agreement have been included in the Offers of Purchase and Sale or Lease for such lot or block.

85. The Owner shall cause the following to be displayed on the interior wall of the Sales Office and shall be monitored periodically by the City. No building permit shall be issued for a sales office or model home, or a residential unit until such information is approved by the City:
- a) the latest approved Block Plan for the neighbourhood area, showing but not limited to the surrounding land uses, arterials/highways, railways, and hydro lines etc;
 - b) the location of street utilities, fire hydrants, community mailboxes, entrance features, fencing and noise attenuation features, together with sidewalk plan approved in conjunction with draft plan approval;
 - c) the location of parks, open space, stormwater management facilities and trails;
 - d) the location of institutional uses, including schools, places of worship, and community facilities;
 - e) the location and type of commercial sites;
 - f) colour-coded residential for singles, semis, multiples and apartment units;
 - g) the following notes in BOLD CAPITAL TYPE on the map display:
 - i) For further information, on proposed and existing land uses, please call or visit the City of Vaughan Development Planning Department, at 2141 Major Mackenzie Drive, 905.832.8585;
 - ii) For detailed grading and berming information, please call the developer's engineering consultant, (name) at...;
 - iii) This map is based on information available as of most currently approved plan and may be revised or updated without notification to purchasers; and
 - h) a notice regarding grading deposits and their return by the vendor to the purchaser for residential units where grading deposits are normally required. The notice shall state the following:

“Any grading deposit required in the Agreement/Purchase of Sale or Lease for units in the Plan is NOT a requirement of the City of Vaughan. The City of Vaughan does not control the return of such deposits and

purchasers/tenants must direct inquiries regarding this return to the vendor/landlord.”

via e-mail only

January 7, 2021

Christina Bruce
Interim Director of Development Planning
City of Vaughan
2141 Major Mackenzie Drive
Vaughan, ON L6A 1T1

Attention: Judy Jeffers, Planner

**RE: Draft Plan of Subdivision 19T-20V004 (SUBP.20.V.0026)
Zoning By-law Amendment Z.20.024 (ZBA.20.V.0109)
Part of Lot 21, Concession 9
(Nashville Major Developments Inc.)
City of Vaughan**

York Region has now completed its review of the above noted draft plan of subdivision prepared by Malone Given Parsons Ltd., Project No. 16-2465, dated May 1, 2019. The proposed development is located on the north side of Major Mackenzie Drive West, east of Baron Street, in the City of Vaughan. The draft plan of subdivision will facilitate the development of 6 single detached, 8 semi-detached and 71 street townhouse units, within a 4.23 ha site.

Sanitary Sewage and Water Supply

Residential development requires servicing capacity allocation prior to final approval. If the City of Vaughan does not grant this development allocation from the existing capacity assignments to date, the development may require additional Regional infrastructure based on conditions of future capacity assignment, which may include:

- West Vaughan Sewage Servicing – 2028 estimated completion, and
- Humber Sewage Pumping Station Expansion- 2025 anticipated commissioning
- Other trigger projects as may be identified in the ongoing Water and Wastewater Master Plan update and future studies

The timing of the above infrastructure is the current estimate and may change as each infrastructure project progresses and is provided for information purposes only.

The Functional Servicing Report (FSR) indicates the wastewater servicing for the proposed development will be provided by connecting to the City of Vaughan local infrastructure on Mactier Drive. Water servicing for the proposed development will be provided by connecting to

the existing 150 mm diameter plugs located on Mactier Drive on the northeast and northwest side of site. Should there be any change in the proposed servicing scheme, the Owner shall forward the revised servicing plan to the Region for review and record.

Transportation Comments

Transportation Planning staff have reviewed the proposed application and supporting Transportation Memo dated May, 2020 prepared by Poulos & Chung and provide the following comment:

- a) It should be noted that a Municipal Class Environmental Assessment (EA) Study for improvements to Major Mackenzie Drive has been completed through this area. The EA recommends a grade separation at Canadian Pacific Railway crossing. Therefore, the right-of-way on Major Mackenzie Drive shall be protected in accordance with the approved EA.

York Region Transit

Regional Transit staff advises that existing YRT transit services operate in the vicinity of the subject lands. The applicant is advised to coordinate with the City of Vaughan to provide sidewalk facilitates connecting from the internal road network from Street "00" to Major Mackenzie Drive.

Zoning By-law Amendment

The zoning by-law amendment proposes to rezone the subject lands from "RD4(H) Residential Zone Four", "OS1 Open Space Conservation Zone", and "OS2 Open Space Park Zone" to "RT1(H) Residential Townhouse Zone," "RS1 (H) Residential Semi-Detached Zone One", "RD4(H) Residential Detached Zone Four" and "OS2 Open Space Park Zone" with additional exceptions. This is considered a matter of local significance and Regional Planning staff do not have comments on the amendment.

Summary

York Region has no objection to draft plan approval of the plan of subdivision subject to the attached Schedule of Clauses/Conditions. We request a copy of the notice of decision, draft approved plan, and the clauses/conditions of draft approval should the plan be approved.

Please contact Justin Wong, Planner, at 1-877-464-9675 ext. 71577 or by email at Justin.Wong@york.ca should you require further assistance.

Yours truly,

Duncan MacAskill, M.C.I.P., R.P.P.
Manager, Development Planning

Schedule of Clauses/Conditions
19T-20V004 (SUBP.20.V.0026)
Part of Lot 21, Concession 9
(Nashville Major Developments Inc.)
City of Vaughan

Re: Malone Given Parsons Ltd., Project No. 16-2465, dated May 1, 2019

Clauses/Conditions to be Included in the Subdivision Agreement

1. The Owner shall save harmless the City of Vaughan and York Region from any claim or action as a result of water or sanitary sewer service not being available when anticipated.
2. The Owner shall agree to provide direct shared pedestrian/cycling facilities and connections from the proposed development to boundary roadways and adjacent developments to support active transportation and public transit, where appropriate.
3. The Owner shall agree to implement the recommendations of the supporting Transportation Memo dated May, 2020 prepared by Poulos & Chung including TDM measures and incentives, as approved by the Region.
4. The Owner shall advise all potential purchasers of the existing and future introduction of transit services. The Owner/consultant is to contact YRT Contact Centre (tel.1-866-668-3978) for route maps and future plan maps.
5. The Owner shall agree where enhanced landscape features beyond street tree planting, sod and concrete walkways are proposed in the York Region right-of-way by the Owner or the area municipality, these features must be approved by Development Engineering and shall be maintained by the area municipality. Failure to maintain these landscape features to York Region's satisfaction will result in the area municipality incurring the cost of maintenance and/or removal undertaken by the Region.
6. The Owner shall implement the noise attenuation features as recommended by the noise study and to the satisfaction of Development Engineering.
7. The Owner shall agree that where berm, noise wall, window and/or oversized forced air mechanical systems are required, these features shall be certified by a professional engineer to have been installed as specified by the approved Noise Study and in conformance with the Ministry of Environment guidelines and the York Region Noise Policy.
8. The Owner shall include the following warning clause with respect to the lots or blocks affected:

"Purchasers are advised that despite the inclusion of noise attenuation features within the development area and within the individual building units, noise levels will continue to increase, occasionally interfering with some activities of the building's occupants."

9. Where noise attenuation features will abut a York Region right-of-way, the Owner shall agree in wording satisfactory to York Region's Development Engineering, as follows:
 - a) That no part of any noise attenuation feature shall be constructed on or within the York Region right-of-way,
 - b) That noise fences adjacent to York Region roads may be constructed on the private side of the 0.3 metre reserve and may be a maximum 2.5 metres in height, subject to the area municipality's concurrence, and
 - c) That maintenance of the noise barriers and fences bordering on York Region Right-Of-Way's shall not be the responsibility of York Region.
10. The Owner shall agree that prior to the development approval of Block 24, that access to Block 24 shall be via Street "00" (the internal road network) and direct access to Major Mackenzie Drive will not be permitted.
11. The Owner shall agree to be responsible for determining the location of all utility plants within York Region right-of-way and for the cost of relocating, replacing, repairing and restoring any appurtenances damaged during construction of the proposed site works. The Owner must review, or ensure that any consultants retained by the Owner, review, at an early stage, the applicable authority's minimum vertical clearances for aerial cable systems and their minimum spacing and cover requirements. The Owner shall be entirely responsible for making any adjustments or relocations, if necessary, prior to the commencement of any construction.
12. The Owner shall acknowledge and agree that revisions to the draft plan of subdivision may be required to incorporate the recommendations of the approved Environmental Assessment for Major Mackenzie Drive Reconstruction Project and associated grade separation of the CP Rail line. These revisions shall be in conformity with the recommendations of the approved environmental assessment.

Conditions to be Satisfied Prior to Final Approval

13. The road allowances included within the draft plan of subdivision shall be named to the satisfaction of the City of Vaughan and York Region.
14. The Owner shall provide to the Region the following documentation to confirm that water and wastewater services are available to the subject development and have been allocated by the City of Vaughan:

- A copy of the Council resolution confirming that the City of Vaughan has allocated servicing capacity, specifying the specific source of the capacity, to the development proposed within this site plan, and
 - A copy of an email confirmation by City of Vaughan staff stating that the allocation to the subject development remains valid at the time of the request for regional clearance of this condition.
15. The Owner shall provide an electronic set of the final engineering drawings showing the watermains and sewers for the proposed development to the Community Planning and Development Services division and the Infrastructure Asset Management Branch for record.
16. Concurrent with the submission of the subdivision servicing application (MOE) to the area municipality, the Owner shall provide a set of engineering drawings, for any works to be constructed on or adjacent to the York Region road, to Development Engineering, Attention: Manager, Development Engineering, that includes the following drawings:
- a) Plan and Profile for the York Region road and intersections;
 - b) Grading and Servicing;
 - c) Intersection/Road Improvements, including the recommendations of the Traffic Report;
 - d) Construction Access Design;
 - e) Utility and underground services Location Plans;
 - f) Signalization and Illumination Designs;
 - g) Line Painting;
 - h) Traffic Management Plans;
 - i) Erosion and Siltation Control Plans;
 - j) Landscaping Plans, including tree preservation, relocation and removals;
 - k) Sidewalk locations, concrete pedestrian access to existing and future transit services and transit stop locations as required by York Region Transit/Viva
 - l) Functional Servicing Report (water, sanitary and storm services)
 - m) Water supply and distribution report;
 - n) Engineering drawings showing plan and profile views of proposed works related to connections to or crossing of Regional watermain or sewer, including the following, as applicable:
 - Disinfection Plan
 - MOECC Form 1- Record of Watermains Authorized as a Future Alteration
 - o) Engineering drawings showing plan and profile views of proposed sewers and watermains and appurtenances, including manholes, watermains, valves, hydrants, etc. proposed within the subdivision.
17. The Owner shall submit a detailed Development Charge Credit Application to York Region, if applicable, to claim any works proposed within the York Region right-of-way. Only those works located in their ultimate location based on the next planning upgrade for this right-of-

way will be considered eligible for credit, and any work done prior to submission without prior approval will not be eligible for credit.

18. The Owner shall provide drawings for the proposed servicing of the site to be reviewed by the Engineering Department of the area municipality. Three (3) sets of engineering drawings (stamped and signed by a professional engineer), and MOE forms together with any supporting information shall be submitted to Development Engineering, Attention: Mrs. Eva Pulnicki, P.Eng.
19. The location and design of the construction access for the subdivision work shall be completed to the satisfaction of Development Engineering and illustrated on the Engineering Drawings.
20. The Owner shall demonstrate, to the satisfaction of Development Engineering, that all existing driveway(s) along the Regional road frontage of this subdivision will be removed as part of the subdivision work, at no cost to York Region.
21. The Owner shall demonstrate, to the satisfaction of Development Engineering that elevations along the streetline shall be 0.2 metres above the centreline elevations of the York Region roadway, unless otherwise specified by Development Engineering.
22. The Owner shall demonstrate, to the satisfaction of Development Engineering, that the Owner will provide the installation of visual screening along the south side of Street "00", fronting the six units of Block 17, consisting of either a screening fence or a combination of a berm and appropriate planting, to a minimum of 1.8 metres in height, to be located within the right-of-way of Street "00". The Owner shall submit to Development Engineering for review and approval, landscape plans showing the proposed planting for headlight screening purposes.
23. The Owner shall have prepared, by a qualified Tree Professional, a Tree Inventory and Preservation/Removals Plan and Arborist Report identifying all existing woody vegetation within the York Region right-of-way to be removed, preserved or relocated. The report/plan, submitted to Development Engineering for review and approval, shall adhere to the requirements outlined in the York Region Street Tree and Forest Preservation Guidelines and shall be to the satisfaction of York Region Natural Heritage and Forestry Staff.
24. The Owner shall engage the services of a consultant to prepare and submit for review and approval, a noise study to the satisfaction of Development Engineering recommending noise attenuation features.
25. The Region requires the Owner submit a Phase One Environmental Site Assessment ("ESA") in general accordance with the requirements of the Environmental Protection Act and O. Reg. 153/04 Records of Site Condition, as amended ("O. Reg. 153/04"). The Phase One ESA must

be for the Owner's property that is the subject of the application and include the lands to be conveyed to the Region (the "Conveyance Lands"). The Phase One ESA cannot be more than two (2) years old at: (a) the date of submission to the Region; and (b) the date title to the Conveyance Lands is transferred to the Region. If the originally submitted Phase One ESA is or would be more than two (2) years old at the actual date title of the Conveyance Lands is transferred to the Region, the Phase One ESA will need to be either updated or a new Phase One ESA submitted by the Owner. Any update or new Phase One ESA must be prepared to the satisfaction of the Region and in general accordance with the requirements of O. Reg. 153/04. The Region, at its discretion, may require further study, investigation, assessment, delineation and preparation of reports to determine whether any action is required regardless of the findings or conclusions of the submitted Phase One ESA. The further study, investigation, assessment, delineation and subsequent reports or documentation must be prepared to the satisfaction of the Region and in general accordance with the requirements of O. Reg. 153/04. Reliance on the Phase One ESA and any subsequent reports or documentation must be provided to the Region in the Region's standard format and/or contain terms and conditions satisfactory to the Region.

The Region requires a certified written statement from the Owner that, as of the date title to the Conveyance Lands is transferred to the Region: (i) there are no contaminants of concern, within the meaning of O. Reg. 153/04, which are present at, in, on, or under the property, or emanating or migrating from the property to the Conveyance Lands at levels that exceed the MOECC full depth site condition standards applicable to the property; (ii) no pollutant, waste of any nature, hazardous substance, toxic substance, dangerous goods, or other substance or material defined or regulated under applicable environmental laws is present at, in, on or under the Conveyance Lands; and (iii) there are no underground or aboveground tanks, related piping, equipment and appurtenances located at, in, on or under the Conveyance Lands.

The Owner shall be responsible for all costs associated with the preparation and delivery of the Phase One ESA, any subsequent environmental work, reports or other documentation, reliance and the Owner's certified written statement.

26. Upon registration of the plan, the Owner shall convey the following lands to York Region for public highway purposes, free of all costs and encumbrances, to the satisfaction of the Regional Solicitor:

- a) A widening across the full frontage of the site where it abuts Major Mackenzie Drive of sufficient width to provide a minimum of 21.5 metres from the centreline of construction of Major Mackenzie Drive
- b) Any additional lands required to implement the grade separation at CP Railway crossing as required by the approved EA and additional turn lanes at the intersections will also be

conveyed to York Region for public highway purposes, free of all costs and encumbrances, to the satisfaction of York Region Solicitor, and

- c) A 0.3 metre reserve across the full frontage of the site, where it abuts Major Mackenzie Drive

27. The Owner shall provide a solicitor's certificate of title in a form satisfactory to York Region Solicitor, at no cost to York Region with respect to the conveyance of the above noted lands to York Region.
28. The Owner shall demonstrate, to the satisfaction of Development Engineering, that all local underground services will be installed within the area of the development lands and not within York Region's road allowance. If a buffer or easement is needed to accommodate the local services adjacent to York Region's right-of-way, then the Owner shall provide a satisfactory buffer or easement to the Area Municipality, at no cost to the Region.
29. The Owner shall provide a copy of the Subdivision Agreement to the Regional Corporate Services Department, outlining all requirements of the Corporate Services Department.
30. The Owner shall enter into an agreement with York Region, agreeing to satisfy all conditions, financial and otherwise, of the Regional Corporation; Regional Development Charges are payable in accordance with Regional Development Charges By-law in effect at the time that Regional development charges, or any part thereof, are payable.
31. The Regional Corporate Services Department shall advise that Conditions 1 to 30 inclusive, have been satisfied.

SENT BY EMAIL (Judy.jeffers@vaughan.ca)

Judy Jeffers
Development Planning Department
City of Vaughan
2141 Major Mackenzie Drive
Vaughan, ON L6A 1T1

Dear Ms. Jeffers:

**Re: Third Submission
Draft Plan of Subdivision Application 19T-20V004
Zoning By-law Amendment Application Z.20.024
Southeastern Corner of Planning Block 61 West
Part of Lot 21, Concession 9
City of Vaughan, Regional Municipality of York
Nashville Major Developments Inc. (Agent Malone Given Parsons Limited)**

Further to our previous letter dated August 13, 2021, this letter acknowledges receipt of a re-circulation of the above noted applications. The circulation materials were received by Toronto and Region Conservation Authority (TRCA) staff on November 2, 2021. A list of the materials that have been received by TRCA can be found in Appendix B'.

Recommendation

TRCA staff continue to have no objections to the approval of Draft Plan of Subdivision Application 19T-20V004 and Zoning By-law Amendment Application Z.20.024.

We have included our conditions for Draft Plan of Subdivision 19T-20V004 in Appendix 'A'. It is our expectation that the Owner will address TRCA's interests through fulfillment of the conditions of draft plan approval. This may necessitate redline revisions to the draft plan.

Should any revisions to the draft plan of subdivision application or zoning by-law amendment application be proposed now or in the future, TRCA asks to be given the opportunity to amend our conditions and comments accordingly.

Please provide the Notice of Decision for the draft plan of subdivision and zoning by-law amendment once they are approved.

Fees/Timing

Please note that this project will be subject to a clearance fee at the time of clearance, which will be based on the fee schedule in effect at that time.

At the time of requesting clearance of TRCA conditions of draft plan approval, we ask that the applicant submit their request in writing to TRCA offices a minimum of **90 days** in advance of expected registration. Additional time may be required in cases where open space lands are to

be dedicated into public ownership, and/or Ontario Regulation 166/06 permits are required from TRCA (i.e., grading and servicing, SWM ponds, infrastructure works). We ask that the applicant consider these requirements and take into consideration the required timelines prior to the submission of draft plan clearance requests.

We trust these comments are of assistance. Should you have any questions, please do not hesitate to contact the undersigned.

Sincerely,

A handwritten signature in black ink, appearing to read "Stephen Bohan".

Appendix 'A' – TRCA's Draft Plan Conditions and Comments**TRCA's Conditions of Draft Plan Approval**

TRCA recommends approval of Draft Plan of Subdivision, Part of Blocks 216, 218, 221 & 222 of Plan 63M-4374 and Part of West Half of Lot 21, Concession 9 Geographic Township of Vaughan, City of Vaughan, Regional Municipality of York, prepared by Malone Given Parsons Ltd., revised dated May 22, 2021, subject to the following conditions:

1. Prior to site alteration and prior to the registration of this plan or any phase thereof, the Owner shall provide a letter to the satisfaction of TRCA, which indicates the Owner acknowledges and agrees to address TRCA's outstanding comments dated October 31, 2011 (as may be amended) on the Block 61 West Block Plan/MESP technical submissions and supporting, as may have been amended through subsequent submissions and studies, to the satisfaction of TRCA. The Owner shall address all TRCA's outstanding comments through fulfillment of TRCA's conditions of draft plan approval prior to the registration of this plan or any phase thereof.
2. Prior to topsoil stripping and prior to the registration of this plan or any phase thereof, the Owner shall submit a detailed engineering report and plans to the satisfaction of TRCA for any proposed topsoil stripping in the plan area. This report shall include:
 - i. Detailed plans illustrating the topsoil stripping proposal, including but not limited to the locations, staging and methodology; and
 - ii. An erosion and sediment control report and plans for the subject lands that includes proposed measures for controlling or minimizing erosion and siltation on-site and/or in downstream areas during and after topsoil stripping.

The Owner shall carry out, or cause to be carried out, the recommendations of the engineering report and details of the plans approved by TRCA for topsoil stripping purposes to the satisfaction of TRCA.

3. Prior to site alteration (except for topsoil stripping) and prior to the registration of this plan or any phase thereof, the Owner shall submit a detailed engineering report (or reports) to the satisfaction of TRCA. This report shall include:
 - i. A description of the storm drainage system (quantity and quality) for the proposed development;
 - ii. Plans illustrating how this drainage system will tie into surrounding drainage systems, i.e., identifying if it is part of an overall drainage scheme, how external flows will be accommodated, the design capacity of the receiving system;
 - iii. Appropriate stormwater management techniques which may be required to control minor and major flows;
 - iv. Appropriate Stormwater Management Practices (SWMPs) to be used to treat stormwater, to mitigate the impacts of development on the quality

and quantity of ground and surface water resources as it relates to the natural heritage system, both aquatic and terrestrial;

- v. Storage requirements for controlling Regional storm runoff to existing levels and a contingency plan for achieving Regional peak flow control within the Block Plan area should the technical studies being undertaken by TRCA indicate development of Block 61 West without Regional storm peak flow controls would result in unacceptable impacts to hydraulics and flood risk downstream of the development. The contingency plan must include plans and calculations demonstrating how and where additional storage can be accommodated and the need for red-line revisions to the draft plan of subdivision, if required;
- vi. Detailed plans and calculations for the proposed lot-level, conveyance and end-of-pipe controls to be implemented on the site;
- vii. Appropriate SWMPs to be used to treat stormwater, to mitigate the impacts of development on the overall site water balance to meet the pre-development water budget to satisfy the CTC Source Protection Plan criteria;
- viii. Proposed measures to maintain feature-based water balance and to mitigate impacts to those natural features that have been assessed to be potentially impacted by the development;
- ix. A subsurface investigation (including assessment of groundwater levels) for the final design of site grading and house basement elevations. The recommendations of the subsurface assessment will be used to inform the final design and construction plans;
- x. An evaluation that addresses the need for groundwater dewatering during construction, including but not limited to details for its disposal, potential impacts to natural features due to groundwater withdrawal, mitigation and any permitting requirements;
- xi. A groundwater monitoring and mitigation program, which assesses groundwater conditions prior, during and post-construction and outlines mitigation and adaptive management strategies for any negative impacts to groundwater conditions associated with development in the plan area. The terms of reference and final monitoring program must be prepared by the Owner to the satisfaction of the City of Vaughan and TRCA. This monitoring, mitigation and adaptive management program may be combined with other monitoring requirements in the plan area with the prior written consent of TRCA;
- xii. A surface water monitoring and mitigation program, which assesses surface water flows to the natural features prior, during and post-construction and outlines mitigation and adaptive management strategies for any negative impacts to the natural features associated with development in the plan area. The terms of reference and final monitoring program must be prepared by the Owner to the satisfaction of the City of

Vaughan and TRCA. This monitoring, mitigation and adaptive management program may be combined with other monitoring requirements in the plan area with the prior written consent of TRCA;

- xiii. Grading plans for the subject lands;
- xiv. All applicable plans illustrating that all works, including all grading, site alterations, construction staging, or materials associated with these activities, will not encroach or be placed on environmental lands (Tributary 'A' stream corridor) adjacent to this plan of subdivision, unless otherwise agreed to by the City of Vaughan and TRCA;
- xv. Cross-sections and details where grading is proposed adjacent to the Tributary 'A' stream corridor including but not limited to existing and proposed grades, limits of the natural features and hazards, buffers, transition to the adjacent tableland areas, interim stabilization of the slopes/disturbed areas, mitigation, tree protection, and sediment and erosion controls.
- xvi. An erosion and sediment control report and plans for the subject lands that includes proposed measures for controlling or minimizing erosion and siltation on-site and/or in downstream areas during and after construction;
- xvii. The location and description of all outlets and other facilities or works which may require permits from TRCA pursuant to the *Development, Interference with Wetlands and Alterations to Shorelines and Watercourses Regulation* (Ontario Regulation 166/06), as may be amended.

The Owner shall carry out, or cause to be carried out, the recommendations of the engineering reports and details of the plans approved by TRCA to the satisfaction of TRCA. This shall be identified as a requirement within the subdivision agreement.

- 4. That prior to site alteration and prior to the registration of this plan or any phase thereof, the Owner prepare a tree protection and preservation plan for the site that looks at opportunities for the retention of larger trees, means of protecting retained trees/forest edges from development activities, and opportunities for the salvage and re-use of trees throughout the site to the satisfaction of TRCA.
- 5. Prior to the registration of this plan or any phase thereof, the Owner shall prepare comprehensive landscape planting plans, to the satisfaction of TRCA, for the Vistas (Blocks 23 & 24), CPR Greenway (Block 25) and CPR Berm (Block 26). The Owner shall carry out, or cause to be carried out, the restoration plantings approved by TRCA to the satisfaction of TRCA. This shall be identified as a requirement within the subdivision agreement.
- 6. Prior to the registration of this plan or any phase thereof, the Owner shall obtain all necessary permits from TRCA pursuant to the *Development, Interference with Wetlands and Alterations to Shorelines and Watercourses Regulation* (Ontario Regulation 166/06), as may be amended, to the satisfaction of TRCA.

7. The implementing zoning by-law shall recognize the Vistas (Block 23 & 24 inclusive) in an open space, or other suitable environmental protection zoning category, which has the effect of prohibiting development, to the satisfaction of TRCA.
8. The implementing zoning by-law shall be prepared to the satisfaction of TRCA.
9. The Owner shall provide a copy of the adopted implementing zoning by-law to TRCA, when available, to facilitate the clearance of conditions of draft plan approval.
10. The Owner agrees in the subdivision agreement, in wording acceptable to TRCA:
 - i. To carry out, or cause to be carried out, to the satisfaction of TRCA, the recommendations of the reports/strategies and details of the plans referenced in TRCA's conditions of approval;
 - ii. To install and maintain all stormwater management and erosion and sedimentation control structures operating and in good repair during the construction period, in a manner satisfactory to TRCA;
 - iii. To obtain all necessary permits from TRCA pursuant to the *Development, Interference with Wetlands and Alterations to Shorelines and Watercourses Regulation* (Ontario Regulation 166/06), as may be amended, to the satisfaction of TRCA;
 - iv. To comply with the permits approved under Ontario Regulation 166/06, as may be amended, including the approved plans, reports and conditions to the satisfaction of TRCA;
 - v. To include the following wording in all agreements of purchase and sale to the satisfaction of TRCA:

The subject property appears to be partially or entirely located within the following vulnerable area: The Kleinburg Wellhead Protection Area (WHPA). The Source Protection Plan under the *Clean Water Act*, 2006, developed for the Credit Valley, Toronto and Region and Central Lake Ontario (CTC) Source Protection Region took effect on December 31, 2015 and the site is subject to the Source Water Protection policies listed in the CTC Source Protection Plan. The purpose of a Source Protection Plan is to outline how water quality and quantity for municipal drinking water systems will be protected. The subject lands are located within WHPA "Q". Residential property owners within this vulnerable area are encouraged to use best management practices to protect sources of municipal drinking water. Information regarding best management practices and prescribed threat activities may be provided by the municipality or by contacting TRCA's Source Protection hydrogeologist at 416-661-6600, or by visiting <http://www.ctcswp.ca/> or <http://www.trca.on.ca/>.

11. This draft plan of subdivision shall be subject to red-line revision(s) in order to meet the requirements of the conditions of TRCA, if necessary, to the satisfaction of TRCA.
12. The Owner shall provide a copy of the fully executed subdivision agreement to TRCA, when available, in order to expedite the clearance of conditions of draft plan approval.

TRCA's Comments on the Zoning By-law Amendment Application

Please further note that TRCA's comments on Zoning By-law Amendment Application Z.20.024 can be found above within the conditions of draft plan approval for Draft Plan of Subdivision Application 19T-20V004.

Should any revisions to the draft plan of subdivision application or zoning by-law amendment application be proposed now or in the future, TRCA asks to be given the opportunity to amend our conditions and comments accordingly.

Appendix 'B' – Materials Reviewed by TRCA

The following materials were received by TRCA on November 2, 2021

- Circulation Comment Response Matrix, prepared by Malone Givens Parsons, dated October 20, 2021.

RE: Request for Comments

File No.: Z..20.024 & 19T-20V004

Applicant: Nashville Major Developments Inc.

Location Part of West Half of Lot 21, Conc. 9

Revised: May 11, 2020

COMMENTS:

- ☐ We have reviewed the Proposal and have no comments or objections to its approval.
- ☒ We have reviewed the proposal and have no objections to its approval, subject to the following comments (attached below).
- ☐ We are unable to respond within the allotted time for the following reasons (attached) you can expect our comments by _____.
- ☐ We have reviewed the proposal and have the following concerns (attached below)
- ☐ We have reviewed the proposal and our previous comments to the Town/City, dated _____, are still valid.

Alectra Utilities has received and reviewed the submitted plan proposal. This review, however, does not imply any approval of the project or plan.

The owner(s), or his/her/their agent, for this plan is/are required to contact Alectra Utilities to obtain a subdivision application form (SAF) and to discuss all aspects of the above project. The information on the SAF must be accurate to reduce unnecessary customer costs, and to provide a realistic in-service date. The information from the SAF is also used to allocate/order materials, to assign a technician to the project, and to place the project in the appropriate queue. A subdivision application form is enclosed with this request for comments.

Alectra Utilities will prepare the electrical distribution system (EDS) design for the subdivision. The subdivision project will be assigned to an Alectra Utilities design staff upon receipt of a completed SAF. The design of the subdivision can only commence upon receiving a design prepayment and the required information outlined on the SAF.

Alectra Utilities will obtain the developer(s) approval of the EDS design, and obtain the required approvals from local government agencies for EDS installed outside of the subdivision limit. Alectra Utilities will provide the developer(s) with an Offer to Connect (OTC) agreement which will specify the responsibilities of each party and an Economic Evaluation Model outlining the cost sharing arrangement of the EDS installation between both parties. The OTC agreement must be executed by both parties and all payments, letter of credits and easements received in full before Alectra Utilities can issue the design for construction.

Town Home/Semi Detached municipal and/or private developments require a minimum set back of 3.40M from the street line to any structure such as foundations, outdoor stairs, porches, columns etc..... to accommodate standard secondary service connections.

Revised: May 11, 2020

All proposed buildings, billboards, signs, and other structures associated with the development must maintain minimum clearances to the existing overhead or underground electrical distribution system as specified by the Ontario Electrical Safety Code and the Occupational Health and Safety Act.

All communication, street light or other pedestal(s) or equipment(s) must not be installed near Alectra Utilities transformers and/or switchgears. Enclosed with this request for comments are Alectra Utilities clearance standards.

Existing Alectra Utilities plant in conflict due to driveway locations or clearances to the existing overhead or underground distribution system will have to be relocated by Alectra at the Developer's cost.

We trust this information is adequate for your files.

Regards,

Mr. Tony D'Onofrio

SUBDIVISION APPLICATION FORM

Revised: June 2, 2020

This form must be completed in full and submitted by the Developer prior to Alectra Utilities providing an Offer to Connect (OTC) Agreement.

REQUIRED INFORMATION

Alectra Utilities requires that the following information be provided together with this form in order to prepare the Offer to Connect Agreement:

1. Legal Description of the lands, copies of draft subdivision or reference plans, showing all easements.
2. One complete set of engineering and architectural drawings (must indicate location of meter bases and if applicable exterior stairs) and, together with the general plan in AutoCAD format (not newer than 2015)
3. All approved right-of-way cross sections from the municipality or region.
4. Title documents pertaining to the subject lands, including a current parcel register, transfer/deed of land, copies of any encumbrances and a current Certificate of Incorporation of the registered owner.
5. The servicing schedule.
6. Confirmation of site access date for hydro installation.

NOTE: Actual connections to industrial/commercial/institutional buildings will be looked after Alectra Utilities ICI department.

Dear Judy,

Re: Draft Plan of Subdivision, Zoning By-law Amendment – 5th Submission
Nashville Major Developments Inc.
Part of West Half of Lot 21, Concession 9
City of Vaughan
File No.: 19T-20V004

Enbridge Gas Inc. does not object to the proposed application(s) however, we reserve the right to amend or remove development conditions.

This response does not constitute a pipe locate, clearance for construction or availability of gas.

The applicant shall contact Enbridge Gas Inc.'s Customer Connections department by emailing SalesArea30@Enbridge.com to determine gas availability, service and meter installation details and to ensure all gas piping is installed prior to the commencement of site landscaping (including, but not limited to: tree planting, silica cells, and/or soil trenches) and/or asphalt paving.

If the gas main needs to be relocated as a result of changes in the alignment or grade of the future road allowances or for temporary gas pipe installations pertaining to phased construction, all costs are the responsibility of the applicant.

In the event that easement(s) are required to service this development, and any future adjacent developments, the applicant will provide the easement(s) to Enbridge Gas Inc. at no cost.

Sincerely,

Re: ZBLA (Z.20.024) and Draft Plan of Subdivision (19T-20V004), Northeast corner of Huntington Rd. & Major Mackenzie Dr., Vaughan; Your File No. Z.20.024,19T-20V004

Our File No. 87839

Dear Sir/Madam,

We have reviewed the circulation regarding the above noted application. The following paragraphs are to be included as a condition of approval:

“The Owner acknowledges and agrees to convey any easement(s) as deemed necessary by Bell Canada to service this new development. The Owner further agrees and acknowledges to convey such easements at no cost to Bell Canada.

The Owner agrees that should any conflict arise with existing Bell Canada facilities or easements within the subject area, the Owner shall be responsible for the relocation of any such facilities or easements at their own cost.”

The Owner is advised to contact Bell Canada at planninganddevelopment@bell.ca during the detailed utility design stage to confirm the provision of communication/telecommunication infrastructure needed to service the development.

It shall be noted that it is the responsibility of the Owner to provide entrance/service duct(s) from Bell Canada’s existing network infrastructure to service this development. In the event that no such network infrastructure exists, in accordance with the Bell Canada Act, the Owner may be required to pay for the extension of such network infrastructure.

If the Owner elects not to pay for the above noted connection, Bell Canada may decide not to provide service to this development.

To ensure that we are able to continue to actively participate in the planning process and provide detailed provisioning comments, we note that we would be pleased to receive circulations on all applications received by the Municipality and/or recirculations.

We note that WSP operates Bell Canada’s development tracking system, which includes the

intake and processing of municipal circulations. However, **all responses to circulations and requests for information, such as requests for clearance, will come directly from Bell Canada, and not from WSP.** WSP is not responsible for the provision of comments or other responses.

Should you have any questions, please contact the undersigned.

Yours truly,

Meaghan Palynchuk
Manager - Municipal Relations

Part of West Half of lot 21, Conc 9
85 Unit Subdivision

Canada Post Corporation appreciates the opportunity to comment on the above noted application and it is requested that the developer be notified of the following:

Canada Post has reviewed the proposal of the 85 residential lots for the above noted Development Application and has determined that the completed project will be serviced by centralized mail delivery provided through Canada Post Community Mail Boxes.

In order to provide mail service to this development, Canada Post requests that the owner/developer comply with the following conditions:

- ⇒ The Owner/Developer will consult with Canada Post to determine suitable permanent locations for the placement of Community Mailboxes and to indicate these locations on appropriate servicing plans;
- ⇒ The Builder/Owner/Developer will confirm to Canada Post that the final secured permanent locations for the Community Mailboxes will not be in conflict with any other utility; including hydro transformers, bell pedestals, cable pedestals, flush to grade communication vaults, landscaping enhancements (tree planting) and bus pads;
- ⇒ The Owner/Developer will install concrete pads at each of the Community Mailbox locations as well as any required walkways across the boulevard and any required curb depressions for wheelchair access as per Canada Post's concrete pad specification drawings;
- ⇒ The Owner/Developer will agree to prepare and maintain an area of compacted gravel to Canada Post's specifications to serve as a temporary Community Mailbox location. This location will be in a safe area away from construction activity in order that Community Mailboxes may be installed to service addresses that have occupied prior to the pouring of the permanent mailbox pads. This area will be required to be prepared a minimum of 30 days prior to the date of first occupancy;
- ⇒ **The Owner/Developer will communicate to Canada Post the excavation date for the first foundation (or first phase) as well as the expected date of first occupancy;**

Canada Post further requests the owner/developer be notified of the following:

1. The owner/developer of any condominiums will be required to provide signature for a License to Occupy Land agreement and provide winter snow clearance at the Community Mailbox location.
2. Enhanced Community Mailbox Sites with roof structures will require additional documentation as per Canada Post Policy.
3. There will be no more than one mail delivery point to each unique address assigned by the Municipality.
4. Any existing postal coding may not apply, the owner/developer should contact Canada Post to verify postal codes for the project.
5. The complete guide to Canada Post's Delivery Standards can be found at:
https://www.canadapost.ca/cpo/mc/assets/pdf/business/standardsmanual_en.pdf

As the project nears completion, it is requested that the Developer contact me directly during the design stage of the above project, to discuss a suitable mailbox location.

Should there be any concerns pertaining to our mail delivery policy requirements, please contact the undersigned.

Sincerely,

Lorraine Farquharson
