

ATTACHMENT NO. 1a

**CONDITIONS OF DRAFT PLAN OF SUBDIVISION APPROVAL
DRAFT PLAN OF SUBDIVISION FILE 19T-20V005 (THE 'PLAN')
FLEUR DE CAP DEVELOPMENT INC. & CUENCA DEVELOPMENT INC.
('THE OWNER')
PART LOT 26 & 27, CONCESSION 5, CITY OF VAUGHAN**

THE CONDITIONS OF THE COUNCIL OF THE CITY OF VAUGHAN (THE 'CITY') THAT SHALL BE SATISFIED PRIOR TO THE RELEASE FOR REGISTRATION OF THE PLAN, ARE AS FOLLOWS:

CITY OF VAUGHAN CONDITIONS

1. The Plan shall relate to the Draft Plan of Subdivision, prepared by KLM Planning Partners Inc., DWG. No. – 22:10, dated April 25, 2022, (the 'Plan').
2. The lands within the Plan shall be appropriately zoned by a Zoning By-law which has come into effect in accordance with the provisions of the Planning Act.
3. The Owner shall pay any and all outstanding application fees to the Development Planning Department, in accordance with the in-effect Tariff of Fees By-law.
4. The Owner shall enter into a subdivision agreement with the City of Vaughan to satisfy all conditions, financial or otherwise of the City, with regard to such matters as the City may consider necessary, including payments of development levies, the provisions of roads and municipal services, landscaping and fencing. The said agreement shall be registered against the lands to which it applies.
5. The road allowances included within this draft plan of subdivision shall be dedicated as public highways without monetary consideration and free of all encumbrances.
6. The road allowances included within this draft plan of subdivision shall be named to the satisfaction of the City and the Regional Planning Department.
7. The road allowances included in the Plan shall be designed in accordance with the City's standards for road and intersection design, temporary turning circles, daylighting triangles, and 0.3 metre reserves. The pattern of streets and the layout of lots and blocks shall be designed to correspond and coincide with the pattern and layout of abutting developments.

8. Any dead ends or open sides of road allowances created by this draft plan of subdivision shall be terminated in 0.3 metre reserves, to be conveyed to the City without monetary consideration and free of all encumbrances, to be held by the City until required for future road allowances or development of adjacent lands.
9. The Owner shall agree in the subdivision agreement that construction access shall be provided only in a location approved by the City and the Region of York.
10. Prior to final approval of the Plan, the Owner shall provide easements as may be required for utility, drainage or construction purposes shall be granted to the appropriate authority(ies), free of all charge and encumbrance.
11. Prior to final approval, a soils report prepared at the Owner's expense shall be submitted to the City for review and approval. The Owner shall agree in the subdivision agreement to carry out, or cause to carry out, the recommendations including pavement design structure for ideal and non-ideal conditions to the satisfaction of the City.
12. Prior to the initiation of grading, and prior to the registration of this draft plan of subdivision or any phase thereof, the owner shall submit to the City for review and approval the following:

A detailed engineering report that describes the storm drainage system for the proposed development within this draft plan, which report shall include:

 - a) plans illustrating how this drainage system will tie into surrounding drainage systems, and indicating whether it is part of an overall drainage scheme, how external flows will be accommodated, and the design capacity of the receiving system;
 - b) the location and description of all outlets and other facilities;
 - c) storm water management techniques which may be required to control minor or major flows; and
 - d) proposed methods of controlling or minimizing erosion and siltation onsite and in downstream areas during and after construction.
13. The Owner shall agree in the subdivision agreement to carry out, or cause to carry out, the recommendations set out in any and all of the aforementioned reports to the satisfaction of the City.
14. The Owner shall agree in the subdivision agreement that no building permits will be applied for or issued until the City is satisfied that adequate road access, municipal water supply, sanitary sewers, and storm drainage facilities are available to service the proposed development.
15. Prior to final approval of the Plan, the Owner shall pay its proportionate share of the cost any external municipal services, temporary and/or permanent built or

proposed, that have been designed and oversized by others to accommodate the development of the plan.

16. Prior to final approval of the Plan, the Owner shall make the necessary arrangements at the expense of the Owner for the relocation of any utilities required by the development of the Plan to the satisfaction of the City.
17. The Owner shall agree in the subdivision agreement to design, purchase material and install a streetlighting system in the Plan in accordance with City Standards and specifications. This Plan shall be provided with decorative streetlighting to the satisfaction of the City.
18. The Owner shall agree that all lots or blocks to be left vacant shall be graded, seeded, maintained and signed to prohibit dumping and trespassing.
19. The Owner shall agree in the subdivision agreement to maintain adequate chlorine residuals in the watermains within the Plan after successful testing and connection to the potable municipal water system and continue until such time as determined by the City or until assumption of the Plan. In order to maintain adequate chlorine residuals, the Owner will be required to retain a licensed water operator to flush the water system and sample for chlorine residuals on a regular basis determined by the City. The Owner shall be responsible for the costs associated with these activities including the metered consumption of water used in the program.
20. The Owner shall agree in the subdivision agreement to convey any lands and/or easements, free of all costs and encumbrances, to the City that are necessary to construct the municipal services for the Plan, which may include any required easements and/or additional lands within and/or external to the draft plan, to the satisfaction of the City.
21. The Owner shall agree in the subdivision agreement that Blocks 2, 5, 15 and 16 shall be developed only in conjunction with abutting lands in Draft Plan File 19T-20V006. The City shall not issue a building permit for the subject Blocks until the lands are combined to the satisfaction of the City.
22. Prior to final approval of the Plan, the Owner shall provide confirmation that satisfactory arrangements have been made with a suitable telecommunication provider to provide their services underground at the approved locations and to the satisfaction of the City.
23. The Owner shall provide a copy of the fully executed subdivision agreement to the appropriate telecommunication provider.
24. Prior to final approval of the Plan, the Owner shall permit any telephone or telecommunications service provider to locate its plant in a common trench

within the proposed Plan of Subdivision prior to release of the plan for registration, provided such service provider has executed a Municipal Access Agreement with the City. The Owner shall ensure that any such service provider will be permitted to install its plant so as to permit connection to individual dwelling units within the subdivision as and when each dwelling unit is constructed.

25. Prior to final approval of the Plan, a Water Supply Analysis Report shall be submitted to the satisfaction of the City which shall include a comprehensive water network analysis of the water distribution system and shall demonstrate that adequate water supply for the fire flow demands is available for the Plan and each phase thereof.
26. Prior to final approval of the Plan and/or commencement of construction within the Plan, the Owner shall submit a detailed hydrogeological impact study that identifies, if any, local wells that may be influenced by construction and, if necessary, outline a monitoring program to be undertaken before, during and after construction of the subdivision.
27. Prior to final approval of the Plan, and/or conveyance of land, and/or commencement of grading or construction, the Owner shall implement the following to the satisfaction of the City:
 - (a) Submit a Phase One Environmental Site Assessment (ESA) report and, if required and as applicable, a Phase Two ESA, Remedial Action Plan (RAP), Risk Evaluation, Risk Assessment report(s) in accordance with Ontario Regulation (O. Reg.) 153/04 (as amended) or its intent, for the lands within the Plan. Reliance on the report(s) from the Owner's environmental consultant shall be provided to the City.
 - (b) Should a change to a more sensitive land use as defined under O. Reg. 153/04 (as amended) or remediation of any portions of lands within the Plan be required to meet the applicable Standards set out in the Ministry of the Environment, Conservation, and Parks (MECP) document "Soil, Ground Water and Sediment Standards for Use under Part XV.1 of the Environmental Protection Act" (as amended), submit a complete copy of the Record(s) of Site Condition (RSCs) filed on the Environmental Site Registry including the acknowledgement letter from the MECP, covering all the lands within the Plan.
 - (c) Submit a sworn statutory declaration by the Owner confirming the environmental condition of the lands to be conveyed to the City.
 - (d) Reimburse the City for the cost of the peer review of the ESA reports and associated documentation, as may be applicable.

28. Prior to the conveyance of land and/or release of applicable portion of the Municipal Services Letter of Credit, the Owner shall implement the following to the satisfaction of the City:
- (a) For all parks, open spaces, landscape buffers, and storm water management pond block(s) in the Plan that are being conveyed to the City, submit a limited Phase Two Environmental Site Assessment (ESA) report in accordance or generally meeting the intent of Ontario Regulation (O. Reg.) 153/04 (as amended) assessing the fill in the conveyance block(s) for applicable contaminants of concern. The sampling and analysis plan prepared as part of the Phase Two ESA shall be developed in consultation with the City. The implementation of the sampling and analysis plan shall be completed to the satisfaction of the City and shall only be undertaken following certification of rough grading but prior to placement of topsoil placement. Reliance on the ESA report(s) from the Owner's environmental consultant shall be provided to the City.
 - (b) If remediation of any portions of the conveyance block(s) is required in order to meet the applicable Standards set out in the Ministry of the Environment, Conservation, and Parks (MECP) document "Soil, Ground Water and Sediment Standards for Use under Part XV.1 of the Environmental Protection Act" (as amended), submit a complete copy of Record(s) of Site Condition (RSCs) filed on the Environmental Site Registry including the acknowledgement letter from the MECP, covering the entire conveyance block(s) where remediation was required.
 - (c) Submit a sworn statutory declaration by the Owner confirming the environmental condition of the conveyance block(s).
 - (d) Reimburse the City for the cost of the peer review of the ESA reports and associated documentation, as may be applicable.
29. Prior to the initiation of the grading or striping of topsoil and final approval, the Owner shall submit a topsoil storage plan detailing the location, size, slopes stabilization methods and time period, for approval by the City. Topsoil storage shall be limited to the amount required for final grading, with the excess removed from the site, and shall not occur on the either park or school blocks.
30. The Owner shall agree in the subdivision agreement to construct a 1.5-metre-high black vinyl chain link fence along the limits of the employment blocks where they abut the storm water management pond, open space, valley/woodlot, and/or park blocks to the satisfaction of the City.
31. Prior to final approval of the Plan, the Owner shall convey, free of all costs and encumbrances, the required stormwater management pond Blocks 6 and 7 based on the updated/revised SWM report to accommodate the required

stormwater management controls, that may include additional lands and/or changes to the lotting pattern, to the satisfaction of the City.

32. The Owner shall agree in the subdivision agreement to inspect, evaluate and monitor all wells within the zone of influence prior to, during and after construction has been completed. Progress reports should be submitted to the City as follows:
 - i) A base line well condition and monitoring report shall be submitted to the City prior to the pre-servicing or registration of the plan (whichever occurs first) and shall include as a minimum requirement the following tests:
 - a) Bacteriological Analysis – total coliform and E-coli counts
 - b) Chemical Analysis – Nitrate Test
 - c) Water level measurement below existing grade
 - ii) In the event that the test results are not within the Ontario Drinking Water Standards, the Owner shall notify in writing, the Purchaser, the Regional Health Department and the City within twenty-four (24) hours of the test results.
 - iii) Well monitoring shall continue during construction and an interim report shall be submitted to the City for records purposes.
 - iv) Well monitoring shall continue for one year after the completion of construction and a summary report shall be submitted to the City prior to Completion Approval.
 - v) If the private well systems in the zone of influence deteriorate due to the servicing of the plan of subdivision, the Owner will provide temporary water supply to the affected residents upon notice by the City. If the quantity and quality of water in the existing wells is not restored to its original condition within a month after first identification of the problem, the Owner will engage the services of a recognized hydro geologist to evaluate the wells and recommend solutions including deepening the wells or providing a permanent water service connection from the municipal watermain system.
33. Prior to final approval of the Plan, The Block 34 East Landowners Group Inc. will be required to address all the Block Plan comments and submit an updated Transportation Mobility Plan to the satisfaction of Development Engineering. Any mitigation measures identified through the updated Transportation Mobility Plan will be the responsibility of The Block 34 East Landowners Group Inc. The Block 34 East Landowners Group Inc. shall agree in an agreement with the City to implement the recommendations of the transportation report, to the satisfaction of the City. The Owner will be responsible to undertake the works in case The Block 34 East Landowners Group Inc. fails to fulfill its obligations, and when requested by the City.”

34. (a) Prior to final approval of the Plan, the Owner shall enter into a Developers' Group Agreement with the other participating landowners within Block 34 East to the satisfaction of the City. The agreement shall be regarding but not limited to all cost sharing for the provision of parks, cash-in-lieu of parkland, roads and municipal services within Block 34 East. This agreement shall also include a provision for additional developers to participate with the Developers' Group Agreement when they wish to develop their lands.

The Owner acknowledges that cash-in-lieu of parkland shall be paid in accordance with Section 42 of the Planning Act and conform to the City's "Cash-In-Lieu of Parkland Policy". If required, non-participating Owners shall be required to pay additional cash-in-lieu to the City.

- (b) Prior to final approval of the Plan, the Trustee for the Block 34 East Landowners Group shall provide the City with a letter confirming the Owner has fulfilled all cost sharing and other obligations of the Block 34 East Cost Sharing Agreement.
35. Prior to final approval of the Plan, the Owner shall agree in the subdivision agreement to obtain all necessary permissions to enter from adjacent private properties to facilitate and construct the required facilities necessary to service the Plan, free of all costs and encumbrances, and to the satisfaction of the City.
36. Prior to final approval of the Plan, the City and Region of York shall confirm that adequate water supply and sewage treatment capacity are available and have been allocated to accommodate the proposed development.
37. Prior to initiation of grading or stripping of topsoil and prior to final approval of the Plan, the Owner shall prepare and implement a detailed erosion and sedimentation control plan(s) addressing all phases of the construction of the municipal services and house building program including stabilization methods, topsoil storage locations and control measures to the satisfaction of the City. The Owner shall prepare the erosion and sediment control plan(s) for each stage of construction (pre-stripping/earthworks, pre-servicing, post-servicing) in accordance with the TRCA Erosion and Sediment Control Guidelines for Urban Construction, dated December 2006 and implement a monitoring and reporting program to the satisfaction of the City.
38. Prior to final approval of the Plan, the Owner shall agree in the subdivision agreement to decommission any existing wells and driveways on the Plan in accordance with all applicable provincial legislation and guidelines and to the satisfaction the City.

39. The Owner shall agree in the subdivision agreement for each phase of the Plan for a cost contribution to the City for the cost of the proposed site-specific stormwater management system. Cost contribution is based on the extra cost for operation and maintenance of the facilities through its 50-year life cycle as well as the replacement cost of the proposed stormwater management facility versus a conventional stormwater management facility to the satisfaction of the City. The cost amount will be calculated at the time of preparation of the subdivision agreement for each phase of the Plan.
40. The Owner, at his own expense, shall agree to design, front-end finance and construct an interim in-line sanitary storage system (to capture wet-weather flows only), to the satisfaction of the City.
41. The Owner, at his own expense, shall agree to decommission the interim infrastructure at the appropriate time, to the satisfaction of the City.
42. The Owner, at his own expense, shall agree to design, front-end finance and construct one sanitary sewer segment on Waterside Crescent (if required), to the satisfaction of the City.
43. The Owner, at his own expense, shall agree to design, front-end finance and construct the ultimate sanitary sewage system to connect to York Region's Jane Street Sanitary Trunk Sewer at the appropriate time, to the satisfaction of the City.
44. Prior to final approval of the Plan, the Owner shall provide the City with a letter of credit in an amount of \$802,560.00 (\$729,600.00 plus 10% Engineering Fee = \$802,560.00) as security for its contribution towards the cost of the future construction works (including decommissioning of interim works) of Ultimate Sanitary Sewer connection to the York Region Trunk Sewer which will be completed in 2028 on Jane Street.
45. The City has initiated a Servicing Master Plan Update, Integrated Urban Water Master Plan Class EA (IUW-MP). The Study will assess the existing and planned municipal servicing systems (water, wastewater, stormwater) to support the City's Official Plan Review. External servicing requirements and/or improvements may be required and shall conform to the conclusions and recommendations of the City's ongoing Integrated Urban Water Master Plan EA to the satisfaction of the City.
46. Prior to final approval of the Plan, the Owner shall prepare all functional design and analysis work to support the MESP and Block Plan. The report/plan shall be submitted to the Region of York and the City for review and approval. The Owner shall agree to implement the recommendations of the functional report/plan to the satisfaction of the City and York Region.

47. The following development charge related Engineering Infrastructure works / improvements should be considered as part of this development application:
 - Block 34 North-South Collector Road – Kirby Road to Teston Road.
 - Sidewalk & Streetlighting Project – Teston Rd – North Side – Mosque Gate to Jane St.
 - Sidewalk & Streetlighting Project – Jane St – West Side – Teston Rd to Kirby Rd
 - Sidewalk & Streetlighting (Sidewalk Only) Project – Teston Rd – North Side – Weston Rd to Mosque Gate
48. The City's Interim Servicing Strategy (ISS) developed servicing strategies to safely accommodate future developments within the City's existing infrastructure on an interim basis before Regional infrastructure becomes available in 2028 and beyond. Site servicing plans and risk management strategies for interim servicing shall conform to the conclusions and recommendations of the ISS Study.
49. The City has initiated a Servicing Master Plan update (Integrated Urban Water Master Plan EA) to assess the existing and planned municipal servicing systems (water, wastewater, stormwater) to support the City's Official Plan Review. The site servicing plans (ultimate condition) shall conform to the conclusions and recommendations of the Integrated Urban Water Master Plan EA. Financial commitments may be secured for the costs associated with implementing the recommendations of the on-going Integrated Urban Water Master Plan EA to the satisfaction of the City.
50. Prior to final approval of the Plan, the Owner shall address and satisfy all comments supplied by the Development Engineering Department, to the satisfaction of the City.
51. To meet dedication requirements under the Planning Act, the VOP 2010 (Section 7.3.3 Parkland Dedication) and By-Law 130-90, as amended by 205-2012, payment-in-lieu of parkland shall be provided. Real Estate Services shall review and provide comments as required.
52. The Owner/Applicant is required to submit a revised Trail Feasibility Plan, addressing comments provided by PIPD staff, including addressing safety concerns with the proposed alignment when connecting to Teston Road in proximity to the existing off-ramp and due to the lack of cycling infrastructure. The revised suggested alignment is redlined in Appendix I;
53. Prior to the execution of the subdivision agreement, the Owner shall design and agree to construct all proposed trails alignment in accordance with the approved Trail Feasibility Plan and Landscape Master Plan to the satisfaction of and at no cost to the City including but not limited to the following:

- Meeting the City's trail requirements
- Obtaining and securing necessary approval from relevant agencies including MTO, York Region and the TRCA;
- Securing the necessary approval and temporary access easement to construct the trail with the MTO and/or York Region Teston Road ROW lands if required
- Providing a geotechnical/slope stability assessment and grading details;
- Meeting the Accessibility Design Guidelines for York Regional Forest Trail Detail on drainage and any culvert crossing(s), if required
- Developing an erosion and sediment control plan; and
- Assessing the impact on existing vegetation and proposed vegetation and proposed vegetation removals, if required and landscape restoration planting plan(s)

The Owner/Applicant shall agree that upon confirmation of the final proposed trails alignment, and prior to registration of the plan, the Owner/Applicant shall complete multi-use trail construction drawings and details based on the approved Trails Feasibility Plan, to the satisfaction of the TRCA and the City. The Owner/Applicant shall submit a cost estimate for the construction of the trail and submit a Letter of Credit to the City for the full cost of construction of the trail system, to be released by the City once deemed substantially complete, and after two (2) growing seasons for any installed plant material. The Owner shall agree to construct all multi-use trails in accordance with the approved Trail Construction Drawings and Details, to the satisfaction of and at no cost to the City.

54. The Owner/Applicant shall agree to submit a revised Pedestrian and Bicycle Circulation Plan, if required, subject to confirmation of the final trail alignment.
55. The Owner/Applicant shall agree to dedicate the opens space valleylands (Blocks 8 & 9), stormwater ponds (Block 6 & 7) and all ecological buffer/setback areas into public ownership, either to the TRCA or the City of Vaughan, free of all charges and encumbrances.
56. Prior to Plan registration, should the lands be conveyed to any agency or entity other than the City of Vaughan, the Owner shall agree to convey a blanket easement on the whole of the open space valleylands (Blocks 8 & 9), stormwater ponds (Block 6 & 7) and all ecological buffer/setback areas into public ownership, for the purposes of public access and the construction and maintenance of a future public trail over a portion of the blanket easement Lands.
57. The following condition shall be included in the Subdivision Agreement, should the open space lands not be conveyed to the City:

“Upon execution of the agreement, the Owner agrees to convey a blanket easement (the “Blanket Easement”) on the whole of the open space valleylands (Blocks 8 & 9), stormwater ponds (Block 6 & 7) and all ecological buffer/setback areas (“the “Blanket Easement Lands”), in favour of the City of Vaughan for the purposes of public access and the construction and maintenance of a future public trail/walkway (the “Public Trail/Walkway”) over the portion of the Blanket Easement Lands. The Owner agrees that the Blanket Easement shall remain on the subject lands until the following are completed at no cost and to the satisfaction of the City: (i) a reference plan showing the location of the Public Trail/Walkway and associated structures on a portion of the Blanket Easement Lands, is prepared and deposited on title to the satisfaction of the City of Vaughan; (ii) the construction of the Public Trail/Walkway has been completed; and (iii) an easement for the Public Trail/walkway has been registered on title. Upon occurrence of items (i), (ii), and (iii), the City shall register, a Transfer, Release and Abandonment of the Blanket Easement.”

58. Prior to final approval, the Owner shall provide a detailed tree preservation study to the satisfaction of the City. The study shall include an inventory of all existing trees, assessment of significant trees to be preserved and proposed methods of tree preservation based on the arborist report recommendations.
 - In addition, the study shall quantify the value of the tree replacements using the Urban Design Tree Replacement Valuation outlined in the City’s Tree Protection Protocol
 - All replacement trees in the natural areas shall be native species to Canada
 - The Owner shall not remove trees without written approval by the City
 - The Owner shall enter into a tree protection agreement in accordance with the City Council enacted Tree By-Law 052-2018

59. Prior to the landscape plan review by Urban Design staff, a fee shall be provided by the owner to the Development Planning Department in accordance with recent council approved fee by-laws (commencing January 1, 2021); i.e. Tariff of Fees for Vaughan Planning Applications – Landscape Plan Review
 - This fee will include staff’s review and approval of proposed streetscaping/landscaping within the development (including but not limited to urban design guidelines, landscape master plan, architectural design guidelines, perfect submission landscape architectural drawings, stormwater management pond planting plans, natural feature edge restoration/management plans), and tree inventory/preservation/removals plans.

- In addition, a fee will be applied for each subsequent inspection for the start of the guaranteed maintenance period and assumption of the development by the City of Vaughan.
60. Prior to final approval, the owner shall prepare a landscape master plan. The document must articulate how the design and concept is consistent with the performance standards outlined in the Vaughan City-Wide Urban Design Guidelines and Vaughan City-Wide Official Plan (VOP 2010) Urban Design Policies. The document shall address but not be limited to the following issues:
- Co-ordination of the urban design/streetscape element including built form and street tree planting
 - The appropriate edge treatments and landscaping along Jane Street, Teston Road, and Highway 400 with low-maintenance plant material.
 - Edge restoration along the natural heritage system blocks
 - Trail system within the natural heritage and storm water management pond blocks
 - Sustainability design practices/guidelines
61. Prior to final approval, the owner shall prepare architectural control design guidelines. The document must articulate how the design and concept is consistent with the performance standards outlined in the Vaughan City-Wide Urban Design Guidelines and Vaughan City-Wide Official Plan (VOP 2010) Urban Design Policies. The document shall address but not be limited to the following issues:
- Appropriate flankage elevations along Jane Street, Teston Road, and Highway 400.
62. Prior to final approval, the owner shall agree in the subdivision agreement that all development shall proceed in accordance with the City of Vaughan Sustainability Metrics program.
- The program shall present a set of metrics to quantify the sustainability performance of new development projects.
63. Prior to final approval, the owner shall provide buffer blocks abutting the natural heritage system blocks in accordance with TRCA policies along employment and commercial blocks.
64. Prior to final approval, the owner shall prepare a detailed edge management plan study for the perimeter of the natural heritage system. The study shall include an inventory of all existing trees within an 8-metre zone inside the staked edges, and areas where the natural heritage system edges are disturbed, assessment of significant trees to be preserved and proposed methods of edge management and/or remedial planting shall be included. The owner shall not remove any vegetation without written approval by the City.

- The owner shall provide a report for a 20 metre zone within all staked natural heritage system edges to the satisfaction of the TRCA and City, which identifies liability and issues of public safety and recommends woodlot/forestry management practices and removal of hazardous and all other trees as identified to be removed prior to assumption of the subdivision.
65. The owner shall agree in the subdivision agreement to erect a permanent 1.5 metre high black vinyl chain-link fence or approved equal along the limits of the employment, commercial, and pump station blocks that abut the natural heritage system and associated buffer blocks.
 66. The owner shall agree in the subdivision agreement to erect a permanent 1.5 metre high black vinyl chain-link fence or approved equal along the limits of the employment and commercial blocks that abut the storm water management pond blocks.
 67. The owner shall agree in the subdivision agreement to erect an appropriate fence barrier along the limits of the employment and storm pond blocks that abut Highway 400 lands to the west, to the satisfaction of the City.
 68. The owner shall convey natural heritage system blocks and associated buffer blocks to the TRCA or the City free of all cost and encumbrances.
 69. The owner shall agree in the subdivision agreement to provide a soils report for all street tree pits and planting beds throughout the subdivision to the satisfaction of the City.
 70. (Note # 70 is a Clause): The Owner acknowledges that the City has Species at Risk within its jurisdiction which are protected under the *Endangered Species Act, 2007*, S.O.2007. The Owner is required to comply with Ministry of Natural Resources and Forestry regulations and guidelines to protect these species at risk and their habitat. The Owner acknowledges that, notwithstanding any approvals made or provided by the City in respect to the Plan or the related Subdivision Agreement or future Site Plan Agreement, the Owner must comply with the provisions of the *Act*
 71. For the lands that have been specifically subjected to Stage 4 assessment and received a letter of concurrence and acceptance from the Ministry of Heritage, Sport, Tourism, and Culture Industries, no further field work is necessitated and the Standard Archaeological Condition shall be applied in the following manner:
 - a) Should *archaeological resources be found on the property during construction activities, all work must cease and both the Ontario Ministry of Heritage, Sport, Tourism, and Culture Industries and the City of*

Vaughan's Development Planning Department shall be notified immediately.

- b) *In the event that human remains are encountered during construction activities, the proponent must immediately cease all construction activities. The proponent shall contact the City of Vaughan's Police Department, the Regional Coroner and the Registrar of Burial Sites, Inspections, Investigations and Licensing Branch of the Ministry of Government and Consumer Services.*

- 72. In keeping with Section 9 of the York Region Archaeological Management Plan (YRAMP), the remaining subject lands as identified in the attached map (**Figure 1- Area subject to Archaeological Monitoring**) shall be subject to mechanical topsoil removal and archaeological monitoring *prior to registration of this plan of subdivision.*

- 73. The archaeological monitoring shall be done by a licensed consultant archaeologist with the engagement of First Nations Field Liaison Representatives to ensure that archaeological resources and human remains/burials encountered are identified and conserved under the *Ontario Heritage Act* and the *Funeral, Burial and Cremation Services Act, 2002*, as applicable.

- 74. Subdivision file 19T-20V005 shall comply to the Block 34 East Plan to the satisfaction of the Development Planning Department.

PLANNING BLOCK 34

**RE: Block 34 East – Block Plan Submission (BLK.19.V.0001 (BL.34E.2014))
 Draft Plan of Subdivision SUBP.20.V.0033 (19T-20V005)
 Part of Lots 26 and 27, Concession 5
 10980 Jane Street
 (Fleur De Cap Development Inc & Cuenca Development Inc. (DG Group))
 City of Vaughan**

Further to York Region's comment letter dated January 19, 2022 providing technical transportation comments on Block 34 East, the Region is satisfied with the submitted documents and supports the approval of the block plan. Technical requirements of the block plan are included as conditions of draft approval for each respective draft plan of subdivision within Block 34 East.

York Region has now completed its review of the above noted draft plan of subdivision prepared by KLM Planning Partners Inc., Project No. P-3194, dated April 26, 2021. The proposed development is located at 10980 Jane Street, on the northwest quadrant of Jane Street and Teston Road, in the City of Vaughan. The proposal is comprised of blocks for general/prestige employment, stormwater management, natural heritage system, mixed-use, commercial/employment, pump station, road widening and streets, within a 65.79 ha site.

Water Resources

The applicant is advised that the property is located within a Significant Groundwater Recharge Area (SGRA). As such the CTC Source Protection Plan water quantity recharge policy and York Region Official Plan Low Impact Development policy 2.3.41 will apply. The proponent should maximize infiltration at the site using best management practices. The use of the following resource is encouraged: Low Impact Development Stormwater Management Planning and Design Guide by Credit Valley Conservation Authority. The contact person for this requirement is

Don Ford at TRCA. The approving body for compliance with the policy will be the local municipality.

Summary

York Region has no objection to approval of the block plan and draft plan of subject to the attached Schedule of Clauses/Conditions for the draft plan of subdivision. We request a copy of the notice of decision, draft approved plan, and the conditions of draft approval should the plan be approved.

Should you have any questions regarding the above, please contact Justin Wong, Planner, at 1-877-464-9675 ext. 71577 or by email at Justin.Wong@york.ca, should you require further assistance.

Yours truly,

Karen Whitney, M.C.I.P., R.P.P.
Director, Community Planning and Development Services

Attachment (1): Schedule of Clauses/Conditions

Schedule of Clauses/Conditions
SUBP.20.V.0033 (19T-20V005)
Part of Lots 26 and 27, Concession 5
10980 Jane Street
(Fleur De Cap Development Inc & Cuenca Development Inc. (DG Group))
City of Vaughan

Re: KLM Planning Partners Inc., Project No. P-3194, dated April 26, 2021

Clauses to be Included in the Subdivision Agreement

1. The Owner shall save harmless the City of Vaughan and York Region from any claim or action as a result of water or sanitary sewer service not being available when anticipated.
2. The Owner shall provide accesses via local roads, where appropriate. If accesses are proposed onto Regional roads, it shall meet the recommendations of the Region's Access Guidelines, including, but not limited to, minimum intersection spacing, exclusive right-turn and left-turn lanes, daylight triangles, as well as appropriate analysis must be provided for review at the subsequent stages for the development applications.
3. The Owner shall provide direct shared pedestrian and cycling connections to the boundary roadways and adjacent developments to support public transit and active transportation.
4. The Owner shall implement the recommendations of the Transportation Mobility Plan Study, including TDM measures and incentives, as approved by the Region.
5. The Owner shall allow for the access shown in the draft plan of subdivision to be designed and constructed as a shared access with the lands to the west described as 19T-20V006 ("the Shared Access") and shall execute any pertinent agreement(s) with the owner of the lands to the west ("West Owner") in this regard.
6. The Owner shall cooperate with the West Owner to:
 - a) Negotiate and complete such agreement(s) as may be required in order to establish the Shared Access with the West Owner, which shall be at no cost to the Region, and
 - b) Provide and allow a vehicular interconnection and an access easement between the subject lands and the West Owner's property, which interconnection and access easement shall allow and the West Owner's property at the Shared Access.
7. The Owner shall provide written confirmation to the Region that arrangements have been made with the West Owner to construct the Shared Access, including any agreement(s) and easements to facilitate the vehicular ingress and egress between the subject lands and the

West Owner's property.

8. The Owner shall agree to implement the noise attenuation features as recommended by the noise study and to the satisfaction of Development Engineering.
9. The Owner shall agree where berm, noise wall, window and/or oversized forced air mechanical systems are required, these features shall be certified by a professional engineer to have been installed as specified by the approved Noise Study and in conformance with the Ministry of Environment guidelines and the York Region Noise Policy.
10. The Owner shall agree to include the following warning clause with respect to the lots or blocks affected:

"Purchasers are advised that despite the inclusion of noise attenuation features within the development area and within the individual building units, noise levels will continue to increase, occasionally interfering with some activities of the building's occupants."

11. The Owner shall agree where noise attenuation features will abut a York Region right-of-way, the Owner shall agree in wording satisfactory to York Region's Development Engineering, as follows:
 - a) That no part of any noise attenuation feature shall be constructed on or within the York Region right-of-way,
 - b) That noise fences adjacent to York Region roads may be constructed on the private side of the 0.3 metre reserve and may be a maximum 2.5 metres in height, subject to the area municipality's concurrence, and
 - c) That maintenance of the noise barriers and fences bordering on York Region right-of-way shall not be the responsibility of York Region.

12. The Owner shall agree that prior to the development approval of Blocks 1, 2, 3 & 7, that access to Blocks 1, 2, 3 & 7 shall be via the internal road network and direct access to Teston Road or Jane Street will not be permitted.

13. The Owner shall agree to be responsible for determining the location of all utility plants within York Region right-of-way and for the cost of relocating, replacing, repairing and restoring any appurtenances damaged during construction of the proposed site works. The Owner must review, or ensure that any consultants retained by the Owner, review, at an early stage, the applicable authority's minimum vertical clearances for aerial cable systems and their minimum spacing and cover requirements. The Owner shall be entirely responsible for making any adjustments or relocations, if necessary, prior to the commencement of any construction.

Conditions to be Satisfied Prior to Final Approval

14. The road allowances included within the draft plan of subdivision shall be named to the satisfaction of the City of Vaughan and York Region.
15. The Owner shall provide an electronic set of final engineering drawings showing the watermains and sewers for the proposed development to the Community Planning and Development Services and the Infrastructure Asset Management Branch for record.
16. The Owner shall provide a comprehensive Transportation Mobility Plan Study (TMPS) as per the Region Mobility Plan Guidelines to the satisfaction of York Region. The TMPS shall include the following:
 - a) A Terms of Reference shall be prepared prior commencement of the TMPS in consultation with Regional staff.
 - b) The TMPS study area shall include the block plan area. The TMPS shall also include other developments in the area such as Block 27 as background developments.
 - c) The TMPS shall identify transportation infrastructure improvements required to accommodate the Block 34 East developments.
 - d) The TMPS shall include an implementation and financial strategy to implement the transportation infrastructure improvements required to accommodate developments within Block 34 East. The financial strategy shall also formulate a plan should any of the roadway improvements in Region's 10-Year Roads Construction Program are required to be expedited. The financial strategy shall also assign responsibility to implement the roadway improvements associated with each phase of development.
 - e) The TMPS shall include a table detailing the phases of development and the associated roadway improvements required to accommodate each phase.
 - f) Exclusive left turn and right turn lanes be provided at all full-moves intersections proposed onto Jane Street and Teston Road. All intersection designs shall be consistent with the Region's design standards and requirement, including: required storage length, taper, daylight triangles, radius and access spacing. Regional standard design templates are available at www.york.ca under "Construction Design Guidelines and Standards".
 - g) York Region Transit shall be consulted with regards to transit route planning and recommendations. All public roads shall be designed to accommodate transit buses.
 - h) The applicant is advised that Jane Street and Teston Road are considered commuter roads and minimum signal spacing is 300 metres between signalized and unsignalized intersections (that will have a potential for signalization in the future).
 - i) The TMPS shall include steps/measures taken to calibrate/validate existing condition intersection analysis.
 - j) PHF factors shall be based on actual traffic counts.

- k) Any variations from the Regional standards will require field studies to support the adjustments. Additionally, lane utilization for HOV lanes should not be more than 50% capacity of the adjacent general purpose lanes.
- l) Trip generation rates for the development shall be based on the ITE trip generation rates. Any deviation from the ITE rates shall be approved by the Region in advance.
- m) The traffic data collected used in the TMPS shall not be more than three years old and shall represent typical conditions.

17. Concurrent with the submission of the subdivision servicing application (MOE) to the area municipality, the Owner shall provide a set of engineering drawings, for any works to be constructed on or adjacent to the York Region road, to Development Engineering, Attention: Manager, Development Engineering, that includes the following drawings:

- a) Plan and Profile for the York Region road and intersections;
- b) Grading and Servicing;
- c) Intersection/Road Improvements, including the recommendations of the Traffic Report;
- d) Construction Access Design;
- e) Utility and underground services Location Plans;
- f) Signalization and Illumination Designs;
- g) Line Painting;
- h) Traffic Control/Management Plans;
- i) Erosion and Siltation Control Plans;
- j) Landscaping Plans, including tree preservation, relocation and removals;
- k) Sidewalk locations, concrete pedestrian access to existing and future transit services and transit stop locations as required by York Region Transit/Viva;
- l) Functional Servicing Report (water, sanitary and storm services);
- m) Water supply and distribution report;
- n) Engineering drawings showing plan and profile views of proposed works related to connections to or crossing of Regional watermain or sewer, including the following, as applicable:
 - o Disinfection Plan
 - o MOECC Form 1- Record of Watermains Authorized as a Future Alteration;
- o) Engineering drawings showing plan and profile views of proposed sewers and watermains and appurtenances, including manholes, watermains, valves, hydrants, etc. proposed within the subdivision.

18. The Owner shall submit a detailed Development Charge Credit Application to York Region, if applicable, to claim any works proposed within the York Region right-of-way. Only those works located in their ultimate location based on the next planning upgrade for this right-of-way will be considered eligible for credit, and any work done prior to submission without prior approval will not be eligible for credit.

19. The Owner shall provide drawings for the proposed servicing of the site to be reviewed by the Engineering Department of the area municipality. Three (3) sets of engineering drawings (stamped and signed by a professional engineer), and MOE forms together with any supporting information shall be submitted to Development Engineering, Attention: Mrs. Eva Pulnicki, P.Eng.
20. The location and design of the construction access for the subdivision work shall be completed to the satisfaction of Development Engineering and illustrated on the Engineering Drawings.
21. The Owner shall demonstrate, to the satisfaction of Development Engineering, that all existing driveway(s) along the Regional roads frontage of this subdivision will be removed as part of the subdivision work, at no cost to York Region.
22. The Owner shall demonstrate, to the satisfaction of Development Engineering that elevations along the streetline shall be 0.2 metres above the centreline elevations of the York Region roadways, unless otherwise specified by Development Engineering.
23. The Owner shall have prepared, by a qualified professional Landscape Architect, landscape design plans detailing landscape works and street tree planting in the York Region right-of-way as required by any and/or all of the following, York Region's Streetscaping Policy, York Region's Street Tree Preservation and Planting Design Guidelines, any prevailing Streetscape Masterplan or Secondary Plan or as required by Urban and Architectural Design Guidelines.
24. the Owner shall engage the services of a consultant to prepare and submit for review and approval, a noise study to the satisfaction of Development Engineering recommending noise attenuation features.
25. The Region requires the Owner submit a Phase One Environmental Site Assessment ("ESA") in general accordance with the requirements of the Environmental Protection Act and O. Reg. 153/04 Records of Site Condition, as amended ("O. Reg. 153/04"). The Phase One ESA must be for the Owner's property that is the subject of the application and include the lands to be conveyed to the Region (the "Conveyance Lands"). The Phase One ESA cannot be more than two (2) years old at: (a) the date of submission to the Region; and (b) the date title to the Conveyance Lands is transferred to the Region. If the originally submitted Phase One ESA is or would be more than two (2) years old at the actual date title of the Conveyance Lands is transferred to the Region, the Phase One ESA will need to be either updated or a new Phase One ESA submitted by the Owner. Any update or new Phase One ESA must be prepared to the satisfaction of the Region and in general accordance with the requirements of O. Reg. 153/04. The Region, at its discretion, may require further study, investigation, assessment, delineation and preparation of reports to determine whether any action is required regardless of the findings or conclusions of the submitted Phase One ESA. The further study, investigation, assessment, delineation and subsequent reports or documentation must be

prepared to the satisfaction of the Region and in general accordance with the requirements of O. Reg. 153/04. Reliance on the Phase One ESA and any subsequent reports or documentation must be provided to the Region in the Region's standard format and/or contain terms and conditions satisfactory to the Region.

The Region requires a certified written statement from the Owner that, as of the date title to the Conveyance Lands is transferred to the Region: (i) there are no contaminants of concern, within the meaning of O. Reg. 153/04, which are present at, in, on, or under the property, or emanating or migrating from the property to the Conveyance Lands at levels that exceed the MOECC full depth site condition standards applicable to the property; (ii) no pollutant, waste of any nature, hazardous substance, toxic substance, dangerous goods, or other substance or material defined or regulated under applicable environmental laws is present at, in, on or under the Conveyance Lands; and (iii) there are no underground or aboveground tanks, related piping, equipment and appurtenances located at, in, on or under the Conveyance Lands.

The Owner shall be responsible for all costs associated with the preparation and delivery of the Phase One ESA, any subsequent environmental work, reports or other documentation, reliance and the Owner's certified written statement.

26. Upon registration of the plan, the Owner shall convey the following lands to York Region for public highway purposes, free of all costs and encumbrances, to the satisfaction of the Regional Solicitor:
- a) A widening across the full frontage of the site where it abuts Teston Road of sufficient width to provide a minimum of 18 metres from the centreline of construction of Teston Road,
 - b) A 15 metre by 15 metre daylight triangle at the northeast corner of the Teston Road and Street "1" intersection,
 - c) A 0.3 metre reserve across the full frontage of the site, except at the approved access location, adjacent to the above noted widening, where it abuts Teston Road,
 - d) An additional 2 metres widening, 70 metres in length, together with an 80 metre taper for the purpose of a westbound right turn lane at the intersection of Teston Road and Street "1", unless otherwise recommended in the Transportation Assessment Report,
 - e) A widening across the full frontage of the site where it abuts Jane Street of sufficient width to provide a minimum of 18 metres from the centreline of construction of Jane Street,
 - f) 15 metre by 15 metre daylight triangles at the northwest and southwest corners of the Jane Street and Street "3" intersection,

- g) A 0.3 metre reserve across the full frontage of the site, except at the approved access location, adjacent to the above noted widening, where it abuts Jane Street, and
 - h) An additional 2 metres widening, 70 metres in length, together with an 80 metre taper for the purpose of a southbound right turn lane at the intersection of Jane Street and Street "3", unless otherwise recommended in the Transportation Assessment Report.
27. The Owner shall provide a solicitor's certificate of title in a form satisfactory to York Region Solicitor, at no cost to York Region with respect to the conveyance of the above noted lands to York Region.
 28. The Owner shall demonstrate, to the satisfaction of Development Engineering that Street "1" shall be designed to intersect Teston Road at a right angle, or on a common tangent, and shall be located directly opposite to Mosque Gate.
 29. The Owner shall demonstrate, to the satisfaction of Development Engineering that Street "3" shall be designed to intersect Jane Street at a right angle, or on a common tangent.
 30. The Owner shall demonstrate, to the satisfaction of Development Engineering, that the throat width of Street "1" shall be designed to accommodate the recommendations of the transportation report approved by York Region.
 31. The Owner shall demonstrate, to the satisfaction of Development Engineering, that the throat width of Street "3" shall be designed to accommodate the recommendations of the transportation report approved by York Region.
 32. The intersection of Teston Road and Street "1" shall be designed to the satisfaction of Development Engineering with any interim or permanent intersection works including turning lanes, profile adjustments, illumination and/or signalization as deemed necessary by Development Engineering.
 33. The intersection of Jane Street and Street "3" shall be designed to the satisfaction of Development Engineering with any interim or permanent intersection works including turning lanes, profile adjustments, illumination and/or signalization as deemed necessary by Development Engineering.
 34. The Owner shall demonstrate, to the satisfaction of Development Engineering, that all local underground services will be installed within the area of the development lands and not within York Region's road allowance. If a buffer or easement is needed to accommodate the local services adjacent to York Region's right-of-way, then the Owner shall provide a satisfactory buffer or easement to the Area Municipality, at no cost to the Region.

35. The Owner shall provide a copy of the Subdivision Agreement to the Regional Corporate Services Department, outlining all requirements of the Corporate Services Department.
36. For any applications (Site Plan or Zoning By-law Amendment) completed after January 1, 2020, the Owner shall enter into a Development Charge Rate Freezing Agreement with York Region to freeze/lock in the Development Charge rate at the time the site plan application or Zoning By-law Amendment is deemed complete submission, satisfy all conditions, financial and otherwise, and confirm the date at which Regional development charge rates are frozen; Regional Development Charges are payable in accordance with Regional Development Charges By-law in effect at the time that Regional development charges, or any part thereof, are payable. Please contact Fabrizio Filippazzo, Manager, Development Financing Administration to initiate a Development Charge Agreement with York Region.
37. The Regional Corporate Services Department shall advise that Conditions 1 to 36 inclusive, have been satisfied.

December 15, 2021

Vaughan, Ontario L6A 1T1

Dear Mr. Apanisile:

Re: Proposed Draft Plan of Subdivision File 19T-20V005 and ZBA Z.20.032 for 10980 Jane Street, Block 34E, City of Vaughan, DG Group

The purpose of this letter is to provide TRCA's requested conditions in support of an application for Draft Plan of Subdivision Approval on the above noted property in the City of Vaughan. A list of the reviewed materials can be found in Appendix 'A.'

Background

The Block 34E MESP was circulated in July 2021 and comments have been provided in a separate letter dated August 13, 2021. Due to advancements in all the planning and development applications associated with this property, TRCA is now able to provide draft plan of subdivision conditions that address any minor outstanding matters and ensure the subdivision develops in accordance with the requirements of TRCA. In requesting these conditions, TRCA acknowledges that the development process associated with this property is unusual as the entire development process has been taking place concurrently. Permits for grading have been provided in advance of draft plan approval and zoning.

TRCA has no objection to the approval of the Draft Plan of Subdivision prepared by KLM Planning Partners, dated April 26, 2021 subject to the following adjustments:

- a) Stormwater Management Pond Access Road Blocks be located outside of the Natural Heritage System (NHS) Blocks and related buffers;
- b) Adjustments to development and NHS Blocks be completed to remove grading encroachments from the NHS;
- c) The trails plan be reviewed to determine potential trail locations outside of the NHS.

These requirements are included within the requested draft plan conditions included as Appendix B.

TRCA has no comment on the draft Zoning By-law Amendment.

Please note that this letter is based on TRCA's current legislation, regulations and policies, which may change from time to time. Any future development proposal would be subject to the policies and regulation in effect at the time of application.

We appreciate the City's support and TRCA staff will continue to work closely with the applicant and the City.

Please notify TRCA of any decisions made by the City on these applications, or any appeals made by any party in respect of these applications.

Fees

By copy of this letter, we thank the proponent for the application fee of \$57,750.00 in accordance with TRCA's Fee Schedule dated June 1, 2021 for a Draft Plan of Subdivision (25ha and greater – Major with an MESP). An additional clearance fee will be charged prior to registration based on the fee schedule in effect at the time of the clearance request.

We trust this letter is of assistance and would be happy to discuss the conditions as needed. Should you have any questions, please contact the undersigned at extension 5756 or email June.little@trca.ca

With Regards,

June Little, RPP, MCIP

Appendix 'A': List of Materials Reviewed**Submission 2**

The following materials were received by TRCA on June 10, 2021

- Comment Response Matrix dated May 2021
- Block 34 East Landscape Master Plan Vision by MBTW dated May 2021
- Cover letter by KLM Planning dated May 20, 2021
- DWG A1 Draft Plan of Subdivision by Humphries Planning dated May 7, 2021
- Environmental Impact Study, prepared by Savanta, dated April 2021
- Functional Servicing and Stormwater Management Report DG and Lorwood Development by Schaeffers Consulting dated May 2021
- Master Environmental Servicing Plan by Schaeffers et al, dated March 2021
- MNR Letter to TRCA dated December 8, 2020
- Letter concerning MTO Drainage by Schaeffers Consulting to KLM Planning dated December 10, 2020
- Letter of Reliance for Phase 1 ESA by EXP to Vaughan dated April 12, 2021
- Drawing TR1 – Trail Feasibility Plan by MBTW dated April 2021

Submission 1

The following materials were received by TRCA on November 24, 2020

- Functional Servicing and Stormwater Management Report DG and Lorwood Development, prepared October 2020 by Schaeffers Consulting
- Environmental Impact Study, prepared by Savanta, dated October 2020,
- Arborist Report and Tree Protection Plan, prepared by Savanta, dated October 2020;
- Restoration, Edge Management and Monitoring Plan, prepared by Savanta, dated October 2020;
- Draft Zoning Bylaw (DG Group), dated November, 2020;
- Draft Plan of Subdivision (DG Group), dated October 22, 2020;
- Master Environmental Servicing Plan by Schaeffers et al, dated June 2020
- Planning Justification Report by KLM dated November 2020
- Landscape Master Plan by MBTW dated October 2020

Appendix 'B': TRCA Draft Plan Conditions**TRCA's Conditions of Draft Plan Approval**

Should any revisions to the draft plan of subdivision application or zoning by-law amendment application be proposed now or in the future, TRCA asks to be given the opportunity to amend the conditions and comments accordingly.

TRCA requests the following conditions be included:

1. These conditions relate to Draft Plan of Subdivision for Part of Lots 26 and 27, Concession 5, Geographic Township of Vaughan, City of Vaughan, Regional Municipality of York, prepared by KLM Planning Partners, dated April 26, 2021 subject to the following adjustments:
 - a) Stormwater Management Pond Access Road Blocks be located outside of the Natural Heritage System Blocks and related buffers;
 - b) Removal of the environmental constraints legend.
2. That this draft plan of subdivision be subject to red-line revision(s) to meet the requirements of TRCA's conditions of draft plan approval to the satisfaction of TRCA.
3. Prior to registration of the Plan of Subdivision, the Owner shall provide an M-Plan showing the adjusted lot/block lines, additional lots/blocks and any other required revisions to the satisfaction of the City of Vaughan and TRCA.
4. That, prior to final registration, the Owner pays all applicable review / clearance fees and any outstanding fees to the TRCA, in accordance with TRCA's fee schedule in effect at the time clearance is requested.
5. That the Owner provide a copy of: the fully executed subdivision agreement, the approved zoning by-law or amendment, confirmation that all TRCA requirements for land conveyance have been met if applicable, and the clearance fees have been paid (as required within the TRCA Fee Schedule in effect at the time), as required to obtain clearance of TRCA's conditions of draft plan approval. If the subdivision is being registered in phases, then all TRCA conditions related to the phase must be satisfied and fees paid for clearance of each phase.
6. Prior to a request for an extension of Draft Approval of any part of this subdivision, the Owner shall consult with the TRCA with respect to whether the draft plan conditions, MESP and technical studies submitted in support of this development meet current day requirements, and that, prior to extension of Draft Plan Approval, the Owner update any studies and plans and conditions, as required by TRCA, to reflect such requirements to the satisfaction of TRCA.
7. That vehicular access to Natural Heritage System Blocks 8, 9 & 12 be provided to the satisfaction of the City and TRCA.

8. That prior to the registration of this plan or any phase thereof, the Owner prepare a report that assesses the technical feasibility of creating pedestrian connections/trails outside of the Natural Heritage System (NHS), or alternatively if in the area Regulated by TRCA, be located to the satisfaction of TRCA in locations that ensure protection of the natural features, relocated features, and the public from natural hazards (flooding, geotechnical and slope instability). The geotechnical impact of disturbance and grading is to be assessed where the proposed trail results in grading, filling, excavation and/or a significant change in stormwater and drainage patterns resulting in erosion and triggering potential long-term instability. An archaeological assessment is required for the trail locations.
9. Prior to topsoil stripping and prior to the registration of this plan or any phase thereof, the Owner shall submit a detailed engineering report and plans to the satisfaction of TRCA for any proposed topsoil stripping in the plan area. This report shall include:
 - a. Detailed plans illustrating the topsoil stripping proposal including but not limited to: the location of stock piles, their maximum height and side slopes (to ensure it is not too high or too steep and slides), staging and methodology; and
 - b. An erosion and sediment control report and plans for the subject lands that includes proposed measures for controlling or minimizing erosion and siltation on-site and/or in downstream areas during and after topsoil stripping.
 - c. The Owner shall carry out, or cause to be carried out, the recommendations of the engineering report and details of the plans approved by TRCA for topsoil stripping purposes to the satisfaction of TRCA.
10. That the implementing zoning by-law place the adjusted Blocks 8, 9 and 12 into an open space, or other suitable environmental zoning category, which has the effect of prohibiting development and structural encroachment and ensuring the long-term preservation of the lands in perpetuity, to the satisfaction of TRCA.
11. That the implementing zoning by-law be prepared to the satisfaction of TRCA.
12. That the Owner agrees in the subdivision agreement, in wording acceptable to TRCA to:
 - A. Carry out, or cause to be carried out, to the satisfaction of TRCA, the recommendations of the reports/strategies and technical details of the plans supported by TRCA in accordance with TRCA's reporting and implementation requirements as follows:
 - Master Environmental Servicing Plan and Addendums – Block 34 East, prepared by Schaeffers Consulting Engineers received June 10, 2021, and as amended to reflect TRCA's Comment Letter of August 27, 2021
 - Functional Servicing Report and Stormwater Management Report DG Lorwood Development Block 34E City of Vaughan, May 2021, by Schaeffers Consulting Engineers;
 - Arborist Report and Tree Protection Plan Block 34 East: DG Group and Lorwood Holdings Inc., City of Vaughan, Ontario, dated October 2020 by Savanta
 - Environmental Impact Study Block 34 East - DG Group and Lorwood Holdings Inc. Vaughan, Ontario, April 2021 by Savanta and as amended to reflect TRCA's Comment Letter of August 27, 2021

- Block 34 East Master Landscape Plan dated October 2020 by MBTW
- Drawing TR1 – Trail Feasibility Plan by MBTW dated April 2021 amended in response to TRCA's comment letter of August 27, 2021.

as may be amended, to the satisfaction of TRCA and the City of Vaughan.

B. Submit detailed reports and implementing plans consistent with the above reports addressing the following:

- a. A description of the storm drainage system (quantity, quality, water balance, and erosion control) to service the proposed development on the subject lands and on external lands, and how it will comply with all related TRCA requirements;
 - i. Plans illustrating how this drainage system will tie into surrounding drainage systems, i.e., identifying if it is part of an overall drainage scheme, how external flows will be accommodated, the design capacity of the receiving system;
 - ii. Appropriate stormwater management techniques which may be required to control minor and major flows;
- b. Appropriate Stormwater Management Practices (SWMPs) to be used during construction, during any periods in which interim servicing is required, as well as permanently, to treat stormwater, to mitigate the impacts of development on the quality and quantity of ground and surface water resources as it relates to the natural system, both aquatic and terrestrial;
- c. Appropriate SWMPs to be used to treat stormwater, to mitigate the impacts of development on erosion and siltation on-site and/or downstream areas and/or discharge to wetland areas during and after construction;
- d. Appropriate SWMPs to be used to treat stormwater, to mitigate the impacts of development on the overall site water balance to meet the pre-development water budget to satisfy the Ministry of the Environment, Conservation and Parks (MECP), City of Vaughan, TRCA and CTC Source Protection Plan criteria;
- e. Detailed plans and calculations for the proposed lot-level, conveyance, and end-of-pipe controls to be implemented on the site;
- f. Geotechnical analyses to ensure the integrity of stormwater management pond berms and to determine the need for a liner to limit seepage/piping and groundwater intrusion into the berms for both interim and ultimate stormwater management ponds;
- g. Proposed measures to promote infiltration and maintain water balance for the plan area;
- h. Proposed measures to maintain feature-based water balance to relocated features and to mitigate impacts to the relocated features and any other natural features that have been assessed to be potentially impacted by the development;
- i. A subsurface investigation (including assessment of groundwater levels) at the location of the stormwater management pond and for the final design of site grading. The recommendations of the subsurface assessment will be used to inform the final design and construction plans for both interim and ultimate stormwater management ponds and overall site grading. Proposed measures to ensure the integrity of stormwater management pond berms and to determine the need for a liner to limit

- seepage/piping and groundwater intrusion into the berms for both interim and ultimate stormwater management ponds;
- j. An evaluation that addresses the need for groundwater dewatering during construction, including but not limited to details for its disposal, potential impacts to natural features due to groundwater withdrawal, mitigation and any permitting requirements;
 - k. Grading plans for the subject lands. These plans must indicate how grade differentials will be accommodated without intrusion into the Natural Heritage System (except for the relocated wetlands and clean water collector outlets), the use of retaining walls within or adjacent to natural feature blocks or associated environmental buffers;
 - l. All applicable plans illustrating that all works, including all grading, site alterations, construction staging, or materials associated with these activities, will not encroach or be placed on lands owned by TRCA, City of Vaughan, or lands to be conveyed to a public agency as part of this plan of subdivision or on environmental lands adjacent to this plan of subdivision unless in accordance with the approved Master Environmental Servicing Plan and/or with prior authorization by TRCA and City of Vaughan;
 - m. Grading cross-sections and details across the site, including but not limited to existing and proposed grades, limits of the natural features and hazards, buffers, stormwater management pond (where applicable), transition to the adjacent tableland areas/lots, interim stabilization of the slopes/disturbed areas, and supporting geotechnical/soils analyses;
 - n. The location and description of all outlets and other facilities or works which may require permits from TRCA pursuant to the Development, Interference with Wetlands and Alterations to Shorelines and Watercourses Regulation (Ontario Regulation 166/06), as may be amended;
 - o. comprehensive edge management plan/restoration planting plan for the Natural Heritage System within Blocks 8, 9 and 12.
- C. To provide confirmation from a certified professional, when construction is completed for matters outlined in A and B above, that the plans/reports/studies have been implemented pursuant to the TRCA approved plans and reports. This will include but is not limited to the submission of as-built drawings, site photos, inspection/monitoring reports and written certification by the consulting engineer, ecologist and/or other professionals as deemed necessary by TRCA.
 - D. To obtain and comply with all necessary permits from TRCA pursuant to the Development, Interference with Wetlands and Alterations to Shorelines and Watercourses Regulation (Ontario Regulation 166/06), as may be amended, to the satisfaction of TRCA, including the installation, maintenance and monitoring of all stormwater management and erosion and sedimentation control structures operating and in good repair during the construction period, in a manner satisfactory to TRCA, the municipality and other agencies having jurisdiction.
 - E. To carry out or cause to be carried out the cleaning-out and maintenance of all stormwater management and LID infrastructure (including best management practice measures) prior to assumption of the subdivision by the City of Vaughan.
 - F. That all works, including all grading, site alterations, construction staging, and materials and equipment associated with these activities, will not encroach or be

- placed on lands owned by the TRCA or lands to be conveyed to a public agency as part of this plan of subdivision or on environmental lands adjacent to this plan of subdivision.
- G. That grading shall not be permitted within the Natural Heritage System or within the established environmental buffers unless otherwise agreed upon by the City and the TRCA. All areas to be protected must be effectively isolated through fencing or other appropriate measures prior to any site alteration being initiated.
- H. To complete and implement an erosion and sediment control report and plans including proposed measures for controlling or minimizing erosion and siltation on-site and/or in downstream areas during and after construction. The Plan shall be prepared in accordance with SISIC requirements.
- I. To prepare and implement an outreach plan and communications strategy to include, but not necessarily be limited to, education materials and signage related to the ecological importance of the natural heritage system and related clean water collector systems. The signs shall be posted and the materials provided to purchasers.
13. That the Owner agrees in the subdivision agreement, in wording acceptable to TRCA:
- a. To erect a permanent fence along the employment lands that abut the open space lands and in other areas as may be required to protect existing and future open space lands from unauthorized/non-programmed entry to the satisfaction of the City or TRCA;
 - b. To prohibit grading works within the Natural Heritage System open space lands unless approved by TRCA;
 - c. To prohibit retaining walls in or adjacent to the Natural Heritage System open space lands unless approved by TRCA.
14. That prior to site alteration and registration of this plan or any phase thereof, the Owner obtain all necessary permits from TRCA pursuant to the *Development, Interference with Wetlands and Alterations to Shorelines and Watercourses Regulation (Ontario Regulation 166/06)*, as may be amended, to the satisfaction of TRCA.
15. That the Owner, in the subdivision agreement, agree to include a warning clause in all agreements of purchase and sale, and that such information be provided on all community information maps and promotional sales materials for lot(s) adjacent to Blocks 8, 9 and 12 (environmental protection blocks and associated buffers), which identifies that a natural environmental restoration block is being provided adjacent to the subject property and that this block is considered to be part of the publicly owned environmental protection area and will remain in a naturalized state. Private uses are not permitted on these lands. Uses such as private picnic; barbeque or garden areas; storage of materials and/or the dumping of refuse or ploughed snow are not permitted on these lands. In addition, access to the environmental protection lands such as private gates are prohibited.

16. That the Owner, in the subdivision agreement, agree to include a warning clause in all agreements of purchase and sale, to include appropriate clauses in all agreements of purchase and sale agreements, for lots and blocks on which stormwater management measures (such as clean water collectors, bioswales, infiltration galleries, vegetated buffers, increased top soil depth, etc.) are being constructed or incorporated to identify the presence of such measures and to clearly identify the owner's responsibilities for long-term maintenance, and any restrictions to uses on any portion of their property that these may require
17. The Owner shall agree in the subdivision agreement, to convey into public ownership, the open space valley land and minimum vegetation protection zone/buffers described as Blocks 8, 9 and 12 as adjusted on the Draft Plan of Subdivision by KLM Planning Partners Inc. dated April 26, 2021, free of all encumbrances and at no cost to the public body, including legal costs and any third party consultant costs required to effect the conveyance, to the satisfaction of the City of Vaughan or TRCA.
18. The Owner shall agree in the subdivision agreement, that prior to conveyance of the open space valley land and minimum vegetation protection zone/buffers, the owner shall, at its sole cost, and to the satisfaction of TRCA or the City of Vaughan:
 - i) Provide confirmation that all requirements of the Permit issued under 166/06 have been completed;
 - ii) Erect a permanent fence (1.2m black chain link) on the private lands abutting the lands to be conveyed;
 - iii) Remove any hazardous trees from the open space valley lands;
 - iv) Provide vehicular access to the open space valley lands as required by the City of Vaughan or TRCA;
 - v) Prepare or provide any necessary reports and management plans, including but not limited to, environmental site assessment reports, edge management and restoration plans, stormwater management, grading, geotechnical information or certification, and Ministry of Environment Records of Site Condition, OReg decommissioning wells, archaeological assessment completed to the satisfaction of MECP, and other such reports as warranted by the site conditions;
 - vi) Identify any existing or proposed trails and provide details of their long term management and maintenance, including if necessary any easements or financial arrangements required with the relevant responsible public body, unless covered by an alternative agreement;
 - vii) Remove any historical man-made intrusions and structures in the open space valley lands, which must include, but is not limited to, the removal of paths, culverts, structures, buildings, weirs, dams, fences, debris, waste and the restoration of these areas to a natural state, excepting the relocated wetlands and clean water collector and stormwater outlets; and
 - viii) Any other matters as may be required by the public body receiving the lands.
 - ix) Any proposed public infrastructure within the open space valley land and minimum vegetation protection zone/buffer Block will be retained in ownership of the appropriate municipal body and the owner shall prepare and register any necessary

easements with the relevant responsible public body. Any proposed private infrastructure will be retained in private ownership.

For works required after conveyance, if TRCA becomes the owner of the lands, a Permission to Enter is required for all works taking place on land owned by TRCA by a private or municipal constructor. Proof of insurance and detailed drawings as well as Erosion and Sediment Control Plans and other relevant documents may be required.

19. That an Archaeological Assessment be completed for those areas where infrastructure and trails are proposed within the Valley to the satisfaction of the City and TRCA.
20. That prior to the registration of this plan or any phase thereof, and site alteration, a detailed development phasing plan illustrating the various phases of development and associated timing of construction to implement the draft plan be provided to the TRCA. The phasing plan will include the re-creation of a new wetland and the loss of wetland as described in the MESP March 2021, Environmental Impact Study by Savanta dated April 2021, and also as implemented through TRCA Permits C-210512 & C-210513 (valid until April 8, 2023 unless extended), the related MZO Permit Agreement, and MECP requirements (where applicable).
21. The Owner shall agree in the subdivision agreement that implementation of the draft plan of subdivision conditions shall be consistent with the Agreement signed with TRCA dated April 9, 2021, which includes among other matters: TRCA Permits C-210512 & C-210513, a Letter of Credit, water level maintenance, monitoring post creation and replacement plantings as required by TRCA.

RE: Hwy 400/Teston Rd. East Z. 20.032 and Draft Plan of Subdivision 19T-20V005, Lot 26 Con 5, City of Vaughan.

Attention: Michael Torres,

We have reviewed the above mentioned applications and have following comments:

Zoning By-law Amendment:

Ministry has no concerns with the proposed Amendment.

Draft Plan of Subdivision:

Ministry requires that any new buildings/structures (including internal roads) above and below ground (including detention ponds) be setback a minimum distance of 14 m from the Hwy 400 property line.

The owner must be made aware that Ministry permits are required for all buildings located within 46m from Highway 400 property line and the radius of 396m from the centrepont of Highway 400 and Teston Road interchange, prior to any construction being undertaken. Permits must be obtained from our office. Applications are also available on our web site at:
www.mto.gov.on.ca/english/engineering/management/corridor

As a Conditions of Draft Plan Approval, we will require the following:

1. Prior to final approval, the owner shall submit to the Ministry of Transportation for review and approval a copy of Stormwater Management Report, for the entire Block, Site Grading and Servicing Plan, addressing the intended treatment of the calculated runoff.
2. Prior to final approval, the owner shell submit to the Ministry of Transportation for review

and approval a copy of a detailed and comprehensive Traffic Impact Study, for the entire Block, prepared in accordance to the Ministry guidelines, addressing the anticipated traffic volumes and their impact on Hwy 400/Teston Road interchange.

3. Prior to final approval, the owner must submit to the Ministry of Transportation for review and approval a copy of the proposed site Lighting Design and Calculation in the isometric format, using AGI-32 and Auto-lux.
4. If the earth berm along Hwy 400 is anticipated, the berm (toe of slope) must be 0.3m setback from the highway property line and it must be approved by MTO.
5. If the development is constructed in phases, each phase will require a separate clearance letter from the Ministry.
6. Once all the above conditions are addressed to the Ministry satisfaction, the Clearance Letter will be issued to the City of Vaughan and then the owner can register the plan and apply for Ministry permits.

Please forward a copy of this letter to the proponent.

If you have any questions or require further clarification, please contact me at the number listed above at your earliest convenience

Sincerely,

Margaret Mikolajczak, CET
Senior Project Manager

Update MTO comments/conditions

for File 19T-20V005 & Z.20.032

Other Files within Block 34

For any future subdivision approvals within Block 34 the following conditions should be added:

- An updated block plan level Traffic Impact Study (TIS) must be approved to the satisfaction of the City, Region and MTO prior to any future development within Block 34. The developer must agree to construct all required transportation improvements recommended by the approved TIS within a timeframe agreed to by MTO before any developments for Block 34 south can be approved.
- If improvements are required to the provincial highway or municipal road system, they must be designed to a standard which can accommodate long combination vehicles (LCVs).

RE: File: Z.20.032 and 19T-20V005

Fluer de Cap Development and Curenca Development - 10980 Jane Street,
Bell Canada's Comments

We have reviewed the circulation regarding the above noted application. The following paragraphs are to be included as a condition of approval:

“The Owner acknowledges and agrees to convey any easement(s) as deemed necessary by Bell Canada to service this new development. The Owner further agrees and acknowledges to convey such easements at no cost to Bell Canada.

The Owner agrees that should any conflict arise with existing Bell Canada facilities where a current and valid easement exists within the subject area, the Owner shall be responsible for the relocation of any such facilities or easements at their own cost.”

The Owner is advised to contact Bell Canada at planninganddevelopment@bell.ca during the detailed utility design stage to confirm the provision of communication/telecommunication infrastructure needed to service the development.

It shall be noted that it is the responsibility of the Owner to provide entrance/service duct(s) from Bell Canada's existing network infrastructure to service this development. In the event that no such network infrastructure exists, in accordance with the Bell Canada Act, the Owner may be required to pay for the extension of such network infrastructure.

If the Owner elects not to pay for the above noted connection, Bell Canada may decide not to provide service to this development.

To ensure that we are able to continue to actively participate in the planning process and provide detailed provisioning comments, we note that we would be pleased to receive circulations on all applications received by the Municipality and/or recirculations.

Please note that WSP operates Bell's development tracking system, which includes the intake of municipal circulations. WSP is mandated to notify Bell when a municipal request for comments or for information, such as a request for clearance, has been received. All responses to these municipal circulations are generated by Bell, but

submitted by WSP on Bell's behalf. WSP is not responsible for Bell's responses and for any of the content herein.

If you believe that these comments have been sent to you in error or have questions regarding Bell's protocols for responding to municipal circulations and enquiries, please contact planninganddevelopment@bell.ca

Should you have any questions, please contact the undersigned.

Yours truly,

Ryan Courville
Manager - Planning and Development

City of Vaughan – Planning Department

To: **Kemi Apanisile, Planner**

Reference: **File: Z.20.032 & 19T-20V005
Zoning By-Law Amendment and Draft Plan of Subdivision
Part of Lots 26 and 27, Concession 5, 10980 Jane Street.**

Canada Post Corporation appreciates the opportunity to comment on the above noted application and it is requested that the developer be notified of the following:

Canada Post has reviewed the proposal of the subdivision for the above noted Development Application and has determined that the completed project will be serviced by centralized mail delivery provided through Canada Post Community Mail Boxes.

In order to provide mail service to this development, Canada Post requests that the owner/developer comply with the following conditions:

- ⇒ The Owner/Developer will consult with Canada Post to determine suitable permanent locations for the placement of Community Mailboxes and to indicate these locations on appropriate servicing plans;
- ⇒ The Builder/Owner/Developer will confirm to Canada Post that the final secured permanent locations for the Community Mailboxes will not be in conflict with any other utility; including hydro transformers, bell pedestals, cable pedestals, flush to grade communication vaults, landscaping enhancements (tree planting) and bus pads;
- ⇒ The Owner/Developer will install concrete pads at each of the Community Mailbox locations as well as any required walkways across the boulevard and any required curb depressions for wheelchair access as per Canada Post's concrete pad specification drawings;
- ⇒ The Owner/Developer will agree to prepare and maintain an area of compacted gravel to Canada Post's specifications to serve as a temporary Community Mailbox location. This location will be in a safe area away from construction activity in order that Community Mailboxes may be installed to service addresses that have occupied prior to the pouring of the permanent mailbox pads. This area will be required to be prepared a minimum of 30 days prior to the date of first occupancy;
- ⇒ **The Owner/Developer will communicate to Canada Post the excavation date for the first foundation (or first phase) as well as the expected date of first occupancy;**

Canada Post further requests the owner/developer be notified of the following:

1. The owner/developer of any condominiums will be required to provide signature for a License to Occupy Land agreement and provide winter snow clearance at the Community Mailbox location.
2. Enhanced Community Mailbox Sites with roof structures will require additional documentation as per Canada Post Policy.
3. There will be no more than one mail delivery point to each unique address assigned by the Municipality.
4. Any existing postal coding may not apply, the owner/developer should contact Canada Post to verify postal codes for the project.
5. The complete guide to Canada Post's Delivery Standards can be found at:
https://www.canadapost.ca/cpo/mc/assets/pdf/business/standardsmanual_en.pdf

As the project nears completion, it is requested that the Developer contact me directly during the design stage of the above project, to discuss a suitable mailbox location.

Should there be any concerns pertaining to our mail delivery policy requirements, please contact the undersigned.

Sincerely,

Lorraine Farquharson

Canada

February 3, 2021

Kemi Apanisile
Planner
Development Planning Department
City of Vaughan
2141 Major Mackenzie Drive
Vaughan, ON L6A 1T1

Dear Kemi,

Re: Draft Plan of Subdivision, Zoning By-law Amendment
Fleur De Cap Development Inc.; Cuenca Developments Inc.
10980 Jane Street
City of Vaughan
File No.: 19T-20V005, Z-20-032

Enbridge Gas Inc. does not object to the proposed application(s) however, we reserve the right to amend or remove development conditions.

This response does not constitute a pipe locate, clearance for construction or availability of gas.

The applicant shall contact Enbridge Gas Inc.'s Customer Connections department by emailing SalesArea30@Enbridge.com to determine gas availability, service and meter installation details and to ensure all gas piping is installed prior to the commencement of site landscaping (including, but not limited to: tree planting, silva cells, and/or soil trenches) and/or asphalt paving.

In the event that easement(s) are required to service this development, and any future adjacent developments, the applicant will provide the easement(s) to Enbridge Gas Inc. at no cost.

Sincerely,

A handwritten signature in cursive script that reads 'Alice Coleman'.

RE: Request for Comments

File No.: **Z.20.032, 19T-20V005**

Applicant: Fleur de Cap Development Inc. & Cuenca Development Inc.

Location 10980 Jane Street.

Revised: May 11, 2020

COMMENTS:

- We have reviewed the Proposal and have no comments or objections to its approval.
- We have reviewed the proposal and have no objections to its approval, subject to the following comments (attached below).
- We are unable to respond within the allotted time for the following reasons (attached) you can expect our comments by _____.
- We have reviewed the proposal and have the following concerns (attached below)
- We have reviewed the proposal and our previous comments to the Town/City, dated _____, are still valid.

Alectra Utilities has received and reviewed the submitted plan proposal. This review, however, does not imply any approval of the project or plan.

The owner(s), or his/her/their agent, for this plan is/are required to contact Alectra Utilities to obtain a subdivision application form (SAF) and to discuss all aspects of the above project. The information on the SAF must be accurate to reduce unnecessary customer costs, and to provide a realistic in-service date. The information from the SAF is also used to allocate/order materials, to assign a technician to the project, and to place the project in the appropriate queue. A subdivision application form is enclosed with this request for comments.

Alectra Utilities will prepare the electrical distribution system (EDS) design for the subdivision. The subdivision project will be assigned to an Alectra Utilities design staff upon receipt of a completed SAF. The design of the subdivision can only commence upon receiving a design prepayment and the required information outlined on the SAF.

Alectra Utilities will obtain the developer(s) approval of the EDS design, and obtain the required approvals from local government agencies for EDS installed outside of the subdivision limit. Alectra Utilities will provide the developer(s) with an Offer to Connect (OTC) agreement which will specify the responsibilities of each party and an Economic Evaluation Model outlining the cost sharing arrangement of the EDS installation between both parties. The OTC agreement must be executed by both parties and all payments, letter of credits and easements received in full before Alectra Utilities can issue the design for construction.

Town Home/Semi Detached municipal and/or private developments require a minimum set back of 3.40M from the street line to any structure such as foundations, outdoor stairs, porches, columns etc..... to accommodate standard secondary service connections.

Revised: May 11, 2020

All proposed buildings, billboards, signs, and other structures associated with the development must maintain minimum clearances to the existing overhead or underground electrical distribution system as specified by the Ontario Electrical Safety Code and the Occupational Health and Safety Act.

All communication, street light or other pedestal(s) or equipment(s) must not be installed near Alectra Utilities transformers and/or switchgears. Enclosed with this request for comments are Alectra Utilities clearance standards.

Existing Alectra Utilities plant in conflict due to driveway locations or clearances to the existing overhead or underground distribution system will have to be relocated by Alectra at the Developer's cost.

We trust this information is adequate for your files.

Regards,

Mr. Tony D'Onofrio

Supervisor, Subdivisions
