Hi Adrianna,

I just wanted to make sure that after various emails received by you about residents who previously signed in support of the petition - have now sent emails about withdrawing from petition and me obtaining signatures from residents also withdrawing from petition, that we have not missed anyone to be taken off the list:

Additionally, VERBAL consent was given from the following residents:

**95 Randolph Drive** - The resident/owner of this address said he does not mind the proposed structure. He expressed his position of support for this accessory structure as long as the toilet/sewage pipes are installed correctly and there is no smell from the bathroom.

**87 Randolph Drive- Bojun Shi** – The resident/owner of this address stated she does not mind the proposed structure as long as the toilet/sewage pipes are installed correctly and there is no smell from the bathroom.

Please confirm,  
Thank you so much!
