Subject: [External] Plan amendment files OP.22.002 and .22.005 -Weston road/7 condo units

Wow!

So the city planners actually think this massive condo development of 38 buildings will make Vaughan a better place to live? It took almost 3 years to complete the road workalong this stretch of hwy 7 to accommodate the traffic/ congestion in the last few years. Now the plan is to add another 38 building with no room left to move the traffic .

I've lived at pine valley /7 for 38 years. We came here to raise our family in an area that offers everything from greens space, shops and lots of space to get to these places. We had pride in saying we live in woodbridge, not anymore. Not sure if anyone noticed but this violence ,shootings B&E has dramatically increases over last few years. it takes me 20 min just to get to the 400 ramp! I cannot imagine trying to maneuver in that intersection safely with even 10 more building let alone 38. And if the city thinks people don't need cars they are fooling themselves. This is probably the first time I am taking the time to write to the city because I have no confidence that the publics opinion matters, but I'm just so angry to hear of this massive proposal that it sickens me and most likely will drive me and my family away from this area.

All those involved with this proposal need to get their head out of the sand and realize that Weston/7 of the near future has become the new Jane and Finch.

Very disturbing
