RE: Item 5

ISLAMIC SHIA ITHNA-ASHERI JAMAAT OF TORONTO DRAFT PLAN OF SUBDIVISION FILE 19T-22V004 – 9000 BATHURST STREET VICINITY OF BATHURST STREET AND NER ISRAEL DRIVE

The Office of the City Clerk has received a petition from Muntazir Jaffer, Director of Operations, Islamic Shia Ithna-Asheri Jamaat of Toronto, on behalf of residents of the Concord, Maple, Thornhill and Richmond Hill neighbourhoods.

The total number of signatures on the petition is: 52

Their concerns are outlined as follows:

As a member of the Islamic Shia Ithna Asheri Jamaat of Toronto (the ISIJ of Toronto), I would like to express my strong support for the application that is before Vaughan Council for approval.

To our community members, most of whom participated 28 years ago in the initial purchase of the 28-acre property and those who joined later, this project is very important as it is the realization of a long-awaited dream and the vision of our community. For a young organization to reach here, it took a lot of courage, sacrifice, perseverance, and absolute faith in the values of justice and equal opportunity typical of all Canadians who wish to better themselves. We believe this development will contribute directly to the local economy by way of creating jobs and generating income for municipal, provincial and federal governments. It also aims to provide for community-based social and other ancillary services that will lessen the burden and free up the resources for local government agencies and social organizations.

The proposed development provides a diverse form of residential apartments and senior units, which will provide a range of options for all residents and also provides housing options that will accommodate singles, couples, families, and seniors looking to age-in-place, with a range of units that differ from the surrounding neighborhoods which primarily consist of single-family homes. Our community currently does not have sufficient programs and services catered to the various members of our community such as seniors and youth and this development will

allow us to provide these much-needed services. As you are aware, Ontario is currently facing a housing shortage and we believe that this plan will assist with this by adding townhouses, apartments, senior residences, and publicly accessible recreational facilities.

The City of Vaughan has experienced significant growth in the past decade and continues to be one of the Greater Toronto Area's leading municipalities for growth. This development will provide the much-needed facilities including homes and recreational space to supplement the growth. It will also provide connectivity for all future residents to walk, cycle and connect to transit directly from the proposed development site. Once developed, the planned publicly accessible playfield will offer new recreational opportunities for both the proposed development and the wider community.

The ISIJ of Toronto is a community of over 7000 strong and the majority of its membership resides in the City of Vaughan and the City of Richmond Hill. We have a long and proud history of community involvement and a very good track record of excellent neighbourliness. We have received recognition and awards going back to our days at our centre on 7340 Bayview A venue. Our organization is guided by and promotes the core Canadian values of equality, fairness, tolerance and peace for all. We are known to be a very progressive and socially responsible community that is a role model for other faith-based organizations in the area and abroad. We are extremely grateful for the cooperation that we have received from the City of Vaughan in the past and we consider ourselves fortunate to be part of the milieu that contributes to its diversity and richness. We have every confidence that Vaughan Council will look at this application in light of its past decisions that have allowed similar communities as ours to thrive and bring prosperity to the City and do us all proud.

A copy of the entire petition document containing a total of 104 pages is on file in the Office of the City Clerk.

Islamic Shia Ithna Asheri Jamaat of Toronto
Lot 14, Concession 2, 9000 Bathurst Street, Vaughan, Ontario

As a member of the Islamic Shia Ithna Asheri Jamaat of Toronto (the ISIJ of Toronto), I would like to express my strong support for the application that is before Vaughan Council for approval.

To our community members, most of whom participated 28 years ago in the initial purchase of the 28-acre property and those who joined later, this project is very important as it is the realization of a long-awaited dream and the vision of our community. For a young organization to reach here, it took a lot of courage, sacrifice, perseverance, and absolute faith in the values of justice and equal opportunity typical of all Canadians who wish to better themselves. We believe this development will contribute directly to the local economy by way of creating jobs and generating income for municipal, provincial and federal governments. It also aims to provide for community-based social and other ancillary services that will lessen the burden and free up the resources for local government agencies and social organizations.

The proposed development provides a diverse form of residential apartments and senior units, which will provide a range of options for all residents and also provides housing options that will accommodate singles, couples, families, and seniors looking to age-in-place, with a range of units that differ from the surrounding neighborhoods which primarily consist of single-family homes. Our community currently does not have sufficient programs and services catered to the various members of our community such as seniors and youth and this development will allow us to provide these much-needed services. As you are aware, Ontario is currently facing a housing shortage and we believe that this plan will assist with this by adding townhouses, apartments, senior residences, and publicly accessible recreational facilities.

The City of Vaughan has experienced significant growth in the past decade and continues to be one of the Greater Toronto Area's leading municipalities for growth. This development will provide the much-needed facilities including homes and recreational space to supplement the growth. It will also provide connectivity for all future residents to walk, cycle and connect to transit directly from the proposed development site. Once developed, the planned publicly accessible playfield will offer new recreational opportunities for both the proposed development and the wider community.

The ISIJ of Toronto is a community of over 7000 strong and the majority of its membership resides in the City of Vaughan and the City of Richmond Hill. We have a long and proud history of community involvement and a very good track record of excellent neighbourliness. We have received recognition and awards going back to our days at our centre on 7340 Bayview Avenue. Our organization is guided by and promotes the core Canadian values of equality, fairness, tolerance and peace for all. We are known to be a very progressive and socially responsible community that is a role model for other faith-based organizations in the area and abroad.

We are extremely grateful for the cooperation that we have received from the City of Vaughan in the past and we consider ourselves fortunate to be part of the milieu that contributes to its diversity and richness. We have every confidence that Vaughan Council will look at this application in light of its past decisions that have allowed similar communities as ours to thrive and bring prosperity to the City and do us all proud.

Sincerely,

SALWA ASGHAR

Our organization is guided by and promotes the core Canadian values of equality, fairness, tolerance and peace for all. We are known to be a very progressive and socially responsible community that is a role model for other faith-based organizations in the area and abroad.

We are extremely grateful for the cooperation that we have received from the City of Vaughan in the past and we consider ourselves fortunate to be part of the milieu that contributes to its diversity and richness. We have every confidence that Vaughan Council will look at this application in light of its past decisions that have allowed similar communities as ours to thrive and bring prosperity to the City and do us all proud.

Sincerely,

Re: Application for Approval of Draft Plan of Sub Division
File Number 19T-22V004
Islamic Shia Ithna Asheri Jamaat of Toronto
Lot 14, Concession 2, 9000 Bathurst Street, Vaughan, Ontario

As a member of the Islamic Shia Ithna Asheri Jamaat of Toronto (the ISIJ of Toronto), I would like to express my strong support for the application that is before Vaughan Council for approval.

To our community members, most of whom participated 28 years ago in the initial purchase of the 28-acre property and those who joined later, this project is very important as it is the realization of a long-awaited dream and the vision of our community. For a young organization to reach here, it took a lot of courage, sacrifice, perseverance, and absolute faith in the values of justice and equal opportunity typical of all Canadians who wish to better themselves. We believe this development will contribute directly to the local economy by way of creating jobs and generating income for municipal, provincial and federal governments. It also aims to provide for community-based social and other ancillary services that will lessen the burden and free up the resources for local government agencies and social organizations.

The proposed development provides a diverse form of residential apartments and senior units, which will provide a range of options for all residents and also provides housing options that will accommodate singles, couples, families, and seniors looking to age-in-place, with a range of units that differ from the surrounding neighborhoods which primarily consist of single-family homes. Our community currently does not have sufficient programs and services catered to the various members of our community such as seniors and youth and this development will allow us to provide these much-needed services. As you are aware, Ontario is currently facing a housing shortage and we believe that this plan will assist with this by adding townhouses, apartments, senior residences, and publicly accessible recreational facilities.

The City of Vaughan has experienced significant growth in the past decade and continues to be one of the Greater Toronto Area's leading municipalities for growth. This development will provide the much-needed facilities including homes and recreational space to supplement the growth. It will also provide connectivity for all future residents to walk, cycle and connect to transit directly from the proposed development site. Once developed, the planned publicly accessible playfield will offer new recreational opportunities for both the proposed development and the wider community.

The ISIJ of Toronto is a community of over 7000 strong and the majority of its membership resides in the City of Vaughan and the City of Richmond Hill. We have a long and proud history of community involvement and a very good track record of excellent neighbourliness. We have received recognition and awards going back to our days at our centre on 7340 Bayview Avenue. Our organization is guided by and promotes the core Canadian values of equality, fairness, tolerance and peace for all. We are known to be a very progressive and socially responsible community that is a role model for other faith-based organizations in the area and abroad.

We are extremely grateful for the cooperation that we have received from the City of Vaughan in the past and we consider ourselves fortunate to be part of the milieu that contributes to its diversity and richness. We have every confidence that Vaughan Council will look at this application in light of its past decisions that have allowed similar communities as ours to thrive and bring prosperity to the City and do us all proud.

Sincerely,

 Zinet Nasser.

Once developed, the planned publicly accessible playfield will offer new recreational opportunities for both the proposed development and the wider community.

The ISIJ of Toronto is a community of over 7000 strong and the majority of its membership resides in the City of Vaughan and the City of Richmond Hill. We have a long and proud history of community involvement and a very good track record of excellent neighbourliness. We have received recognition and awards going back to our days at our centre on 7340 Bayview Avenue. Our organization is guided by and promotes the core Canadian values of equality, fairness, tolerance and peace for all. We are known to be a very progressive and socially responsible community that is a role model for other faith-based organizations in the area and abroad.

We are extremely grateful for the cooperation that we have received from the City of Vaughan in the past and we consider ourselves fortunate to be part of the milieu that contributes to its diversity and richness. We have every confidence that Vaughan Council will look at this application in light of its past decisions that have allowed similar communities as ours to thrive and bring prosperity to the City and do us all proud.

Sincerely,

Muratza Jetter.

Re: Application for Approval of Draft Plan of Sub Division
File Number 19T-22V004
Islamic Shia Ithna Asheri Jamaat of Toronto
Lot 14, Concession 2, 9000 Bathurst Street, Vaughan, Ontario

As a member of the Islamic Shia Ithna Asheri Jamaat of Toronto (the ISIJ of Toronto), I would like to express my strong support for the application that is before Vaughan Council for approval.

To our community members, most of whom participated 28 years ago in the initial purchase of the 28-acre property and those who joined later, this project is very important as it is the realization of a long-awaited dream and the vision of our community. For a young organization to reach here, it took a lot of courage, sacrifice, perseverance, and absolute faith in the values of justice and equal opportunity typical of all Canadians who wish to better themselves. We believe this development will contribute directly to the local economy by way of creating jobs and generating income for municipal, provincial and federal governments. It also aims to provide for community-based social and other ancillary services that will lessen the burden and free up the resources for local government agencies and social organizations.

The proposed development provides a diverse form of residential apartments and senior units, which will provide a range of options for all residents and also provides housing options that will accommodate singles, couples, families, and seniors looking to age-in-place, with a range of units that differ from the surrounding neighborhoods which primarily consist of single-family homes. Our community currently does not have sufficient programs and services catered to the various members of our community such as seniors and youth and this development will allow us to provide these much-needed services. As you are aware, Ontario is currently facing a housing shortage and we believe that this plan will assist with this by adding townhouses, apartments, senior residences, and publicly accessible recreational facilities.

The City of Vaughan has experienced significant growth in the past decade and continues to be one of the Greater Toronto Area's leading municipalities for growth. This development will provide the much-needed facilities including homes and recreational space to supplement the growth. It will also provide connectivity for all future residents to walk, cycle and connect to transit directly from the proposed development site. Once developed, the planned publicly accessible playfield will offer new recreational opportunities for both the proposed development and the wider community.

The ISIJ of Toronto is a community of over 7000 strong and the majority of its membership resides in the City of Vaughan and the City of Richmond Hill. Once developed, the planned publicly accessible playfield will offer new recreational opportunities for both the proposed development and the wider community.

The ISIJ of Toronto is a community of over 7000 strong and the majority of its membership resides in the City of Vaughan and the City of Richmond Hill. We have a long and proud history of community involvement and a very good track record of excellent neighbourliness. We have received recognition and awards going back to our days at our centre on 7340 Bayview Avenue. Our organization is guided by and promotes the core Canadian values of equality, fairness, tolerance and peace for all. We are known to be a very progressive and socially responsible community that is a role model for other faith-based organizations in the area and abroad.

We are extremely grateful for the cooperation that we have received from the City of Vaughan in the past and we consider ourselves fortunate to be part of the milieu that contributes to its diversity and richness. We have every confidence that Vaughan Council will look at this application in light of its past decisions that have allowed similar communities as ours to thrive and bring prosperity to the City and do us all proud.

Sincerely,

SAREALAL DHANU

Re: Application for Approval of Draft Plan of Sub Division
File Number 19T-22V004
Islamic Shia Ithna Asheri Jamaat of Toronto
Lot 14, Concession 2, 9000 Bathurst Street, Vaughan, Ontario

As a member of the Islamic Shia Ithna Asheri Jamaat of Toronto (the ISIJ of Toronto), I would like to express my strong support for the application that is before Vaughan Council for approval.

To our community members, most of whom participated 28 years ago in the initial purchase of the 28-acre property and those who joined later, this project is very important as it is the realization of a long-awaited dream and the vision of our community. For a young organization to reach here, it took a lot of courage, sacrifice, perseverance, and absolute faith in the values of justice and equal opportunity typical of all Canadians who wish to better themselves. We believe this development will contribute directly to the local economy by way of creating jobs and generating income for municipal, provincial and federal governments. It also aims to provide for community-based social and other ancillary services that will lessen the burden and free up the resources for local government agencies and social organizations.

The proposed development provides a diverse form of residential apartments and senior units, which will provide a range of options for all residents and also provides housing options that will accommodate singles, couples, families, and seniors looking to age-in-place, with a range of units that differ from the surrounding neighborhoods which primarily consist of single-family homes. Our community currently does not have sufficient programs and services catered to the various members of our community such as seniors and youth and this development will allow us to provide these much-needed services. As you are aware, Ontario is currently facing a housing shortage and we believe that this plan will assist with this by adding townhouses, apartments, senior residences, and publicly accessible recreational facilities.

The City of Vaughan has experienced significant growth in the past decade and continues to be one of the Greater Toronto Area's leading municipalities for growth. This development will provide the much-needed facilities including homes and recreational space to supplement the growth. It will also provide connectivity for all future residents to walk, cycle and connect to transit directly from the proposed development site. Once developed, the planned publicly accessible playfield will offer new recreational opportunities for both the proposed development and the wider community.

The ISIJ of Toronto is a community of over 7000 strong and the majority of its membership resides in the City of Vaughan and the City of Richmond Hill. We have a long and proud history of community involvement and a very good track record of excellent neighbourliness. It will also provide connectivity for all future residents to walk, cycle and connect to transit directly from the proposed development site. Once developed, the planned publicly accessible playfield will offer new recreational opportunities for both the proposed development and the wider community.

The ISIJ of Toronto is a community of over 7000 strong and the majority of its membership resides in the City of Vaughan and the City of Richmond Hill. We have a long and proud history of community involvement and a very good track record of excellent neighbourliness. We have received recognition and awards going back to our days at our centre on 7340 Bayview Avenue. Our organization is guided by and promotes the core Canadian values of equality, fairness, tolerance and peace for all. We are known to be a very progressive and socially responsible community that is a role model for other faith-based organizations in the area and abroad.

We are extremely grateful for the cooperation that we have received from the City of Vaughan in the past and we consider ourselves fortunate to be part of the milieu that contributes to its diversity and richness. We have every confidence that Vaughan Council will look at this application in light of its past decisions that have allowed similar communities as ours to thrive and bring prosperity to the City and do us all proud.

Sincerely,

SITAMS DHARSI

Re: Application for Approval of Draft Plan of Sub Division
File Number 19T-22V004
Islamic Shia Ithna Asheri Jamaat of Toronto
Lot 14, Concession 2, 9000 Bathurst Street, Vaughan, Ontario

As a member of the Islamic Shia Ithna Asheri Jamaat of Toronto (the ISIJ of Toronto), I would like to express my strong support for the application that is before Vaughan Council for approval.

To our community members, most of whom participated 28 years ago in the initial purchase of the 28-acre property and those who joined later, this project is very important as it is the realization of a long-awaited dream and the vision of our community. For a young organization to reach here, it took a lot of courage, sacrifice, perseverance, and absolute faith in the values of justice and equal opportunity typical of all Canadians who wish to better themselves. We believe this development will contribute directly to the local economy by way of creating jobs and generating income for municipal, provincial and federal governments. It also aims to provide for community-based social and other ancillary services that will lessen the burden and free up the resources for local government agencies and social organizations.

The proposed development provides a diverse form of residential apartments and senior units, which will provide a range of options for all residents and also provides housing options that will accommodate singles, couples, families, and seniors looking to age-in-place, with a range of units that differ from the surrounding neighborhoods which primarily consist of single-family homes. Our community currently does not have sufficient programs and services catered to the various members of our community such as seniors and youth and this development will allow us to provide these much-needed services. As you are aware, Ontario is currently facing a housing shortage and we believe that this plan will assist with this by adding townhouses, apartments, senior residences, and publicly accessible recreational facilities.

The City of Vaughan has experienced significant growth in the past decade and continues to be one of the Greater Toronto Area's leading municipalities for growth. This development will provide the much-needed facilities including homes and recreational space to supplement the growth. It will also provide connectivity for all future residents to walk, cycle and connect to transit directly from the proposed development site. Once developed, the planned publicly accessible playfield will offer new recreational opportunities for both the proposed development and the wider community.
