**RE: 2851 Highway 7 – Notice of Noise By-law Exemption Permit**

Dear Residents,

Please be advised that a noise by-law exception permit has been granted by the City of Vaughan at 2851 Highway 7. Work will begin at 6:00 AM (which is 1 hour earlier than the City's Noise By-law allows) and will continue until 7:00 PM.

The early start is required to complete shoring and excavation works. There will be several pieces of equipment operating that include drill rigs, excavators, and dump trucks. The noise will consist of engines, moving equipment, and noise from the drill rigs, compressors, and other tools. The following steps will be taken to mitigate the noise impact: staff will be required to use radios and refrain from raising their voices and high impact work will be held until after 7:00 AM.

We apologize for any inconvenience during the hours described above. Should you have any questions, please do not hesitate to contact our Site Supervisor Antonio Giuliani, at 647-533-8289 (cellphone). Our team at GB (Vaughan Seven) Limited Partnership would like to thank you in advance for your patience and cooperation in this matter.

Yours truly,

GB (Vaughan Seven) Limited Partnership
