

CITY OF VAUGHAN

EXTRACT FROM COUNCIL MEETING MINUTES OF DECEMBER 13, 2022

Item 7, Report No. 46, of the Committee of the Whole, which was adopted without amendment by the Council of the City of Vaughan on December 13, 2022.

7. NOISE EXEMPTION REQUEST FOR CONSTRUCTION OF MIXED-USE RESIDENTIAL AND RETAIL BUILDINGS AT 7950 BATHURST STREET AND 8 BEVERLY GLEN BOULEVARD, VAUGHAN

The Committee of the Whole recommends approval of the recommendations contained in the following report of the Deputy City Manager, Community Services, dated December 12, 2022:

Recommendations

1. THAT the Applicant, Daniels Baif Thornhill Inc., be granted a noise exemption, in accordance with the City's Noise Control By-Law 121-2021, for the purposes of construction of four mixed-use residential and retail towers located at 7950 Bathurst Street and 8 Beverly Glen Boulevard, for the period of December 12, 2022, through April 30, 2023, except on Sundays and statutory holidays.
2. THAT this request for exemption be granted with the following conditions for the Applicant:
 - a. That construction communication notices be sent to surrounding residents and business owners within a 60-metre radius, in a manner approved by the City;
 - b. That construction communication notices be sent to surrounding residents and business owners within 60-metre radius 24 hours prior to the start of any work which will go past 9:00 pm;
 - c. That the construction communication notices to residents and businesses include 24-hour contact information for the Applicants, including the construction supervisor and/or any person having care, control and over-sight over all construction activity taking place on the subject property;
 - d. That the Applicant monitor, investigate, and respond to any complaints received regarding construction noise;
 - e. That the applicant takes measures to minimize any unnecessary noise, including but not limited to idling of construction vehicles, unnecessary revving of engines, use of air brakes, and to maintain equipment in good working order (including muffling devices) to minimize noise impacts; and

CITY OF VAUGHAN

Item 7, CW Report 46 – Page 2

- f. That no construction outside of hours permitted by the by-law take place on Fridays, Saturdays, Sundays, or Statutory Holidays.

Committee of the Whole (2) Report

DATE: Monday, December 12, 2022 **WARD(S):** 5

TITLE: NOISE EXEMPTION REQUEST FOR CONSTRUCTION OF
MIXED-USE RESIDENTIAL AND RETAIL BUILDINGS AT 7950
BATHURST STREET AND 8 BEVERLY GLEN BOULEVARD,
VAUGHAN

FROM:

Gus Michaels, Deputy City Manager, Community Services

ACTION: DECISION

Purpose

This report is to seek Council approval for a noise exemption to By-law 121-2021, for work required for the construction of four mixed-use residential and retail towers by Daniels Baif Thornhill Inc. (the Applicant), located at 7950 Bathurst Street and 8 Beverly Glen Boulevard, Vaughan from December 12, 2022, to April 30, 2023

Report Highlights

- A noise exemption from By-law 121-2021, is being requested for a variety of work related to the construction of a residential and retail development
- The exemption is being requested to ensure construction is completed in a manner to ensure the structural integrity of the building
- The request aligns with other exemptions previously granted for similar projects in Vaughan

Recommendations

1. THAT the Applicant, Daniels Baif Thornhill Inc., be granted a noise exemption, in accordance with the City's Noise Control By-Law 121-2021, for the purposes of construction of four mixed-use residential and retail towers located at 7950 Bathurst Street and 8 Beverly Glen Boulevard, for the period of December 12, 2022, through April 30, 2023, except on Sundays and statutory holidays.

2. THAT this request for exemption be granted with the following conditions for the Applicant:
- a) That construction communication notices be sent to surrounding residents and business owners within a 60-metre radius, in a manner approved by the City;
 - b) That construction communication notices be sent to surrounding residents and business owners within 60-metre radius 24 hours prior to the start of any work which will go past 9:00 pm;
 - c) That the construction communication notices to residents and businesses include 24-hour contact information for the Applicants, including the construction supervisor and/or any person having care, control and oversight over all construction activity taking place on the subject property;
 - d) That the Applicant monitor, investigate, and respond to any complaints received regarding construction noise;
 - e) That the applicant takes measures to minimize any unnecessary noise, including but not limited to idling of construction vehicles, unnecessary revving of engines, use of air brakes, and to maintain equipment in good working order (including muffling devices) to minimize noise impacts; and
 - f) That no construction outside of hours permitted by the by-law take place on Fridays, Saturdays, Sundays, or Statutory Holidays.

Background

Legislation

The City of Vaughan's Noise Control By-law No. 121-2021, prohibits noise created from the use of "construction equipment" as defined, between the hours of 7:00pm of one day to 7:00 am the following day, and on Sundays and statutory holidays.

Any noise created by construction activity during these prescribed hours requires an exemption to the provisions of the By-law. Exemption requests for construction noise are governed by the By-law provisions of Section 20, Exemption for Construction Equipment.

Requested Work Period

The Applicant is requesting a work period of December 12, 2022, through April 30, 2023, to work between the hours of 6:00 am and 12:00 am, Monday to Thursday, excluding Sundays and statutory holidays, at the site located at 7950 Bathurst Street and 8 Beverly Glen Boulevard. On Fridays, Saturdays, and Sundays construction activities will only occur during the hours permitted by the by-law.

The intent of the work is to complete construction of Phase 1 of 4 building development which will be primarily comprised of residential units but will also have retail and commercial units.

The applicant is requesting the ability to perform a variety of construction work related to concrete finishing, including the use of power trowels and portable low-lying lighting which is necessary for proper finishing while the concrete solidifies. Once a concrete pour is started, it must continue to ensure the structural integrity of the slab. As a result, concrete finishing machines such as power trowels may occasionally be used on the roof at night. For worker safety at night, portable low-lying lighting will also be used.

Stakeholder Engagement

If the noise exemption is approved, the Applicant will distribute communication notices with details of the project to all residents and businesses within 60 metres of the project site which will include contact information for the Applicant, as well as the on-site supervisor.

Analysis and Options

Supporting New Development

This project supports the construction of a Council approved mixed-use residential and retail/commercial development in the area of Bathurst and Highways 7 and 407 that is compatible with the existing and planned uses of the surrounding area, represents good planning, and achieves the desired vision for the growth of the City by providing housing options in the area. Staff have confirmed that, as of the time of the preparation of this report, the applicant has obtained all necessary building permits.

Noise mitigation

The construction supervisor will comply with standard noise exemption mitigation measures, including that they minimize idling of construction vehicles, avoid unnecessary revving of engines, use of airbrakes, as well as the requirement to maintain equipment in good working order (including the use of muffling devices) to minimize noise impacts.

Minimizing Disruption to Residents

The exemption is being requested so that concrete pours and finishing work can be completed in a manner to ensure safe construction and structural integrity of the building. Staff understand that this is necessary, however also take disruption to residents in the area into account when determining conditions for noise exemptions.

Therefore, staff are recommending that notices be sent to all residents within a 60-metre radius 24 hours prior to any work that will take place past 9 p.m. in hopes that by receiving additional notice, residents will be able to prepare and take any steps necessary to mitigate any inconvenience caused by the late night/early morning noise.

Financial Impact

None.

Broader Regional Impacts/Considerations

This project supports the development of new residential units and retail spaces, providing a vibrant new live-work area in the Thornhill neighbourhood.

Conclusion

Staff believe that the noise exemption for this project should be endorsed by Council pursuant to the recommendations set out in this report.

RE: Notification Letter Re: Noise Exemption – Concrete Finishing
7950 Bathurst Street & 8 Beverley Glen Boulevard
Part of Block 1 on R-Plan 65M-2700

Dear Area Resident,

As you are aware from previous communications, Daniels BAIF Thornhill Inc. ('Daniels') are the developers of the lands located at the northwest corner of Bathurst Street and Beverley Glen Boulevard, known as 7950 Bathurst Street and 8 Beverley Glen Boulevard. The site is currently under construction for three (3) mid-rise buildings ranging from 6-15 storeys and one (1) high-rise tower of 25 storeys located at the northeast corner of the site.

We are writing to let residents know that per the City's guidelines, we have applied for a Noise Exemption Permit to allow for concrete finishing activities to occur as early as 6:00am, to as late as 12:00am; however, activities on most days will remain consistent with the standard permitted period of 7:00am-7:00pm.

Extended hours will ensure that the structural integrity of the concrete is maintained and able to properly solidify, especially in the colder months. Concrete finishing machines will be used on freshly poured floors, and portable low-lying lighting will be utilized for worker safety at night. These activities will only occur on days where continuous pours are planned.

Please note that during the exemption period, loud work will be limited as much as possible by refraining from conducting construction activities that cause especially loud noises (e.g., grinding, chipping, opening wall forms). We anticipate our work program will commence in November 2022, and extend into April 2023, weather permitting. By utilizing an extended hours strategy, we hope to either maintain or slightly accelerate our planned construction schedule.

If you hear any loud noises and/or need to speak directly to site personnel, our Site Administrator, Olivia Tong at 647-241-5366 will be available to ensure timely responses to any inquiries.

Sincerely,

Daniels BAIF Thornhill Inc.

8 Beverley Glen Boulevard and 7950 Bathurst Street
