Official Plan:

City of Vaughan Official Plan 2010 ('VOP 2010'): "Low-Rise Residential".

Comments:B003/22

The Owner is proposing to sever the subject lands to develop two new single-family dwellings on the proposed severed (117 A) and retained lands (117 B) with the above-noted variances. The severed lands propose a lot frontage of 7.49 m, a lot depth of 30.41 m and a lot area of 240.52 m². The retained lands propose a lot frontage of 7.51 m, a lot depth of 30.26 m, and a lot area of 236.58 m². The severed and retained lands will continue a consistent lot pattern along Bristlewood Crescent and establish setbacks that are compatible with other dwellings within the R4A and RV4 Zone.

A053/22 & A054/22 Variances #1, 2, 5 & 6 – Lot Frontage and Area

The proposed severed lands will be deficient in lot frontage by 2.26 m and lot area by 51.48 m², whereas the retained lands will be deficient in lot frontage by 2.24 m and lot area by 55.42 m². As the proposed variances to lot area and frontage are considered minor reductions from the requirements of the By-laws, and the severed lands are reinforcing the existing lot pattern and setbacks in the area, the Development Planning Department has no objection to the proposed lot frontage and area

A053/22 & A054/33 Variance #3 & 7 – Interior Side Yard Setbacks

The Development Planning Department has no objection to the proposed interior side yard setbacks of 0.65 m as they are consistent with the pattern of setbacks in the area and will not impact the abutting properties. The reduction on each the proposed and retained lots also do not abut any existing properties.

A053/22 & A054/33 Variance #4 & 8 – Maximum Building Height

The increase in building height for both the proposed dwellings are considered minor increases and maintain the existing character of the neighbourhood. As such, the Development Planning Department has no objection to the proposed building heights.

Additionally, the Owner submitted a Planning Justification Brief prepared by Evans Planning Inc. dated February, 2022. The Development Planning Department has reviewed the brief and have no comments.

Accordingly, the Development Planning Department has no objection to the requested severance and is of the opinion that the proposal conforms to VOP 2010, and the consent criteria stipulated in Section 51(24) of the Planning Act, R.S.O. 1990, c P.13. The Development Planning Department is also of the opinion that the requested variances to both the severed and retained lands are minor in nature, maintain the general intent and purpose of the Official Plan and Zoning By-law, and are desirable for the appropriate development of the lands.

Recommendation:

The Development Planning Department recommends approval of the application.

Conditions of Approval:

If the Committee finds merit in the application, the following conditions of approval are recommended:

TRCA wishes to confirm that it has **no interests or concerns with the above noted application.**

Based on a review of our available mapping, the subject property is not within TRCA's Regulated Area. As such, a permit from TRCA pursuant to Ontario Regulation 166/06 would not be required for any development or site alteration on the property.

Although the site is located within the Well Head Protection Area for Quantity control (WHPA-Q2) per the Source Protection Plan, no water balance would be required recognizing this requirement would have been addressed through the subdivision approvals process.
