INTRODUCTION	
<p>Staff and Agencies act as advisory bodies to the Committee of Adjustment. The comments contained in this report are presented as recommendations to the Committee.</p> <p>Section 45(1) of the Planning Act sets the criteria for authorizing minor variances to the City of Vaughan’s Zoning By-law. Accordingly, review of the application may consider the following:</p> <p>That the general intent and purpose of the by-law will be maintained. That the general intent and purpose of the official plan will be maintained. That the requested variance(s) is/are acceptable for the appropriate development of the subject lands. That the requested variance(s) is/are minor in nature.</p> <p>Public written and oral submissions relating to this application are taken into consideration by the Committee of Adjustment as part of its deliberations and final decision on this matter.</p>	

COMMITTEE OF ADJUSTMENT COMMENTS	
Date Public Notice Mailed:	January 12, 2023
Date Applicant Confirmed Posting of Sign:	January 9, 2023
Applicant Justification for Variances: *As provided by Applicant in Application Form	The maximum permitted gross floor area for the secondary suite is 45% of the gross floor area. Since the existing dwelling only has one storey above ground, 45% of the gross floor area cannot provide a sufficient living space in the basement suite, therefore we would like to ask for the relief from the by-law.
Adjournment Requests (from staff): *Adjournment requests provided to applicant prior to issuance of public notice	None
Was a Zoning Review Waiver (ZRW) Form submitted by Applicant: *ZRW Form may be used by applicant in instances where a revised submission is made, and zoning staff do not have an opportunity to review and confirm variances prior to the issuance of public notice. *A revised submission may be required to address staff / agency comments received as part of the application review process. *Where a zoning review has not been completed on a revised submission, an opportunity is provided to the applicant to adjourn the proposal prior to the issuance of public notice.	No
Adjournment Fees: In accordance with Procedural By-law 069-2019, an Adjournment Fee is applicable to reschedule an application after the issuance of public notice where a request for adjournment has been provided to the applicant prior to the issuance of public notice. An Adjournment Fee can only be waived in instances where adjournment of an application is requested by the Committee or staff after the issuance of public notice.

Should the Committee find it appropriate to approve this application in accordance with request and the sketch submitted with the application, as required by Ontario Regulation 200/96, the following conditions have been recommended:

SUMMARY OF RECOMMENDED CONDITIONS OF APPROVAL		
All conditions of approval, unless otherwise stated, are considered to be incorporated into the approval “if required”. If a condition is no longer required after an approval is final and binding, the condition may be waived by the respective department or agency requesting conditional approval. A condition cannot be waived without written consent from the respective department or agency.		
#	DEPARTMENT / AGENCY	CONDITION(S) DESCRIPTION
1	TRCA Kristen.Regier@trca.ca	That the applicant provides the required fee amount of \$660.00 payable to the Toronto and Region Conservation Authority.
2	York Region developmentservices@york.ca	Prior to final approval of the application, the City of Vaughan shall confirm that adequate water supply and sewage capacity has been allocated for the proposed dwelling.

IMPORTANT INFORMATION – PLEASE READ
CONDITIONS: It is the responsibility of the owner/applicant and/or authorized agent to obtain and provide a clearance letter from respective department and/or agency (see condition chart above for contact). This letter must be provided to the Secretary-Treasurer to be finalized. All conditions must be cleared prior to the issuance of a Building Permit.

IMPORTANT INFORMATION – PLEASE READ	
<p>APPROVALS: Making any changes to your proposal after a decision has been made may impact the validity of the Committee’s decision.</p> <p>An approval obtained from the Committee of Adjustment, where applicable, is tied to the building envelope shown on the plans and drawings submitted with the application and subject to the variance approval.</p> <p>A building envelope is defined by the setbacks of the buildings and/or structures shown on the plans and drawings submitted with the application, as required by Ontario Regulation 200/96. Future development outside of an approved building envelope, where a minor variance was obtained, must comply with the provisions of the City’s Zoning By-law.</p> <p>Elevation drawings are provided to reflect the style of roof (i.e. flat, mansard, gable etc.) to which a building height variance has been applied. Where a height variance is approved, building height is applied to the style of roof (as defined in the City’s Zoning By-law) shown on the elevation plans submitted with the application.</p> <p>Architectural design features that are not regulated by the City’s Zoning By-law are not to be considered part of an approval unless specified in the Committee’s decision.</p>	
<p>DEVELOPMENT CHARGES: That the payment of the Regional Development Charge, if required, is payable to the City of Vaughan before issuance of a building permit in accordance with the Development Charges Act and the Regional Development Charges By-law in effect at the time of payment.</p> <p>That the payment of the City Development Charge, if required, is payable to the City of Vaughan before issuance of a building permit in accordance with the Development Charges Act and the City's Development Charges By-law in effect at the time of payment.</p> <p>That the payment of the Education Development Charge if required, is payable to the City of Vaughan before issuance of a building permit in accordance with the Development Charges Act and the Boards of Education By-laws in effect at the time of payment</p> <p>That the payment of Special Area Development charge, if required, is payable to the City of Vaughan before issuance of a building permit in accordance with the Development Charges Act and The City's Development Charge By-law in effect at the time of Building permit issuance to the satisfaction of the Reserves/Capital Department.</p>	
<p>NOTICE OF DECISION: If you wish to be notified of the decision in respect to this application or a related Ontario Land Tribunal (OLT) hearing you must complete a Request for Decision form and submit to the Secretary Treasurer (ask staff for details). In the absence of a written request to be notified of the Committee’s decision you will not receive notice.</p>

COMMENTS:

- ☐ We have reviewed the proposed Variance Application and have no comments or objections to its approval.
- ☒ We have reviewed the proposed Variance Application and have no objections to its approval, subject to the following comments (attached below).
- ☐ We have reviewed the proposed Variance Application and have the following concerns (attached below).

Alectra Utilities (formerly PowerStream) has received and reviewed the proposed Variance Application. This review, however, does not imply any approval of the project or plan.

All proposed billboards, signs, and other structures associated with the project or plan must maintain minimum clearances to the existing overhead or underground electrical distribution system as specified by the applicable standards, codes and acts referenced.

In the event that construction commences, and the clearance between any component of the work/structure and the adjacent existing overhead and underground electrical distribution system violates the Occupational Health and Safety Act, the customer will be responsible for 100% of the costs associated with Alectra making the work area safe. All construction work will be required to stop until the safe limits of approach can be established.

In the event construction is completed, and the clearance between the constructed structure and the adjacent existing overhead and underground electrical distribution system violates the any of applicable standards, acts or codes referenced, the customer will be responsible for 100% of Alectra's cost for any relocation work.

Date: January 17, 2023

Name of Owner: Sanduedolce Pasquale Estate

Location: 45 Harris Crescent

File No.(s): A312/22

Proposed Variance(s) (By-law 001-2021):

1. To permit a maximum gross floor area for the secondary suite of 85.6% of the gross floor area of the principal dwelling.
2. To permit a minimum interior side yard setback for the residential accessory building of 0.30 m.

By-Law Requirement(s) (By-law 001-2021):

1. The maximum permitted gross floor area of a secondary suite is 45% of the gross floor area of the principal dwelling.
2. The minimum required interior side yard setback for the residential accessory building is 1.2 m.

Proposed Variance(s) (By-law 1-88):

3. To permit a maximum gross floor area for the secondary suite of 85.6% of the gross floor area of the principal dwelling.
4. To permit a minimum interior side yard setback for the accessory building of 0.30 m.

By-Law Requirement(s) (By-law 1-88):

3. A Secondary Suite shall not exceed 45% of the total gross floor area of the principal dwelling.
4. The minimum required interior side yard setback for the accessory building is 1.2 m.

Official Plan:

City of Vaughan Official Plan 2010 ('VOP 2010'): "Low-Rise Residential"

Comments:

The Owner is requesting relief to permit an existing shed and an existing secondary suite in the basement of a single storey dwelling, with the above noted variances. The secondary suite is confined to the basement.

The Development Planning Department has no objection to Variances 1 and 3 for the gross floor area ('GFA') of the secondary suite. By-laws 1-88 and 001-2021 both exclude basements from the total GFA calculation. According to the By-laws, the dwelling's 142.04 m² main floor is its GFA. The secondary suite as per the By-laws would be 85.6% of the area of the main level (i.e. GFA). However, the basement contains habitable space. With the basement included, the total habitable space within the single detached dwelling rises to 287.83 m². The basement secondary suite comprises 121.59 m² or approximately 42.24% of the dwelling's total habitable space. Development Planning recognizes that the variances are triggered due to the way in which the By-laws require the GFA to be calculated. If the GFA included the basement level, the secondary suite would comply with the area requirements. The building continues to appear as a single detached dwelling from the road and the basement secondary suite functions as a unit accessory to the primary dwelling unit.

The Development Planning Department has no objection to Variances 2 and 4 for the existing shed. Due to its modest height and footprint, the reduced interior side yard setback for the shed does not create adverse impacts to the neighbouring properties and maintains an appropriate area for maintenance access. The Development Engineering Department has also reviewed the proposal and is satisfied that drainage in the rear yard will be maintained.

Accordingly, the Development Planning Department can support the requested variances and is of the opinion that the proposal is minor in nature, maintains the general intent and purpose of the Official Plan and Zoning By-laws, and is desirable for the appropriate development of the land.

Recommendation:

The Development Planning Department recommends approval of the application.

Conditions of Approval:

If the Committee finds merit in the application, the following conditions of approval are recommended:

None

Dear Christine:

**Re: Minor Variance Application A312.22
Part of Lot 7, Concession 8
45 Harris Crescent
City of Vaughan, Region of York
Owner: Sanguedolce Pasquale Estate
Agent: Miaoyi Xue, Land and Building Experts**

This letter acknowledges receipt of the above-noted application circulated by the City of Vaughan. The materials were received by Toronto and Region Conservation Authority (TRCA) on December 12, 2022. TRCA staff have reviewed the application and offer the following comments for the consideration of the Committee of Adjustment.

Purpose of the Application

It is our understanding that the purpose of the above noted application is to request the following variance under both the By-Law 01-2021 and By-Law 1-88:

By-Law 01-2021:

- To permit a maximum gross floor area for the secondary suite of 85.6% of the gross floor area of the principal dwelling, whereas the maximum permitted gross floor area of a secondary suite is 45% of the gross floor area of the principal dwelling.

By-Law 1-88:

- To permit a maximum gross floor area for the secondary suite of 85.6% of the gross floor area of the principal dwelling, whereas the maximum permitted gross floor area of a secondary suite is 45% of the gross floor area of the principal dwelling.

The noted variances are being requested to facilitate the construction of a secondary suite in the basement of the existing dwelling.

Ontario Regulation 166/06

The subject lands are partially located within TRCA's Regulated Area due to a valley corridor associated with a tributary of the Humber River that is located to the rear (south) of the site. In accordance with Ontario Regulation 166/06 (Regulation of Development, Interference with Wetlands and Alterations to Shorelines and Watercourses), development, interference or alteration may be permitted in the Regulated Area where it can be demonstrated to TRCA's satisfaction that the control of flooding, erosion, dynamic beaches, pollution, or the conservation of land will not be affected.

Application-Specific Comments

As noted above, the subject property is regulated by TRCA due to the presence of a valley corridor. Based on a review of digital elevation mapping, the physical top of bank of the valley is located approximately 1.5 metres from the rear (south) property line.

TRCA policies require a 10 metre setback from the furthest limit of a valley corridor for all habitable structures (i.e., residential dwelling).

Based on a review of the materials submitted with this minor variance application, TRCA staff are satisfied that the proposed works are appropriately set back from the adjacent valley corridor. As such TRCA staff have no objections to the requested variances.

Fees

By copy of this letter, the applicant is advised that the TRCA has implemented a fee schedule for our planning application review services. This application is subject to a \$660.00 (Variance-Residential-Minor) review fee. The applicant is responsible for fee payment and should forward the application fee to this office as soon as possible.

Recommendations

Based on the comments noted above, TRCA has **no objection** to the approval of Minor Variance Application A312.22 subject to the following condition:

1. That the applicant provides the required fee amount of \$660.00 payable to the Toronto and Region Conservation Authority.

We trust these comments are of assistance. Should you have any questions, please contact me at 437-880-2129 or at Kristen.regier@trca.ca

Hi,

I am contacting you regarding File @A312/22

I do not want to request to speak I do however want to state that I do not agree with this application. We are a small crescent in Woodbridge a "Low Rise Residential" would ruin our Neighborhood. If I need to speak in person in order for my views to be captured please let me know.

I hope you will consider the surrounding homes and families who live in them and deny this application.

I have also attached the request for decision form.

Thank you,

Sherry Caserta
