ON LOCATION WITH 774. ASSIGNED AS RIT. ASSISTED WITH TANKER SHUTTLE SET-UP. SHUTTLED EIGHT TANKERS OF WATER (64,000 L). REASSIGNED TO FIRE SECTOR # 1 WHILE CREW FROM 796 WENT FOR REHAB. RELIEVED BY DAY CREW FROM 77. CLEARED TO STATION 77 @ 07:45.

03/10/2009 20:48:10 sibbaldl

796 arrived at a single storey farm house that was fully involved on our arrival. Heavy fire was showing from every window and from the roof. York Regional Police were on location already.

A 100mm supply line was laid from the road to 796 in preparation for tanker operations as 796 proceeded up the farm lane way.

741 was the designated supply pumper. Two tankers from King Township assisted in the shuttle.

A Blitz Fire line was stretched to protect a fence line and landscaping equipment and a 45 mm hand line was stretched to protect an oil tank at the side of the home in this defensive attack.

An All Clear was not announced as no determination could be made of occupants.

731 crew stretched two more 45 mm hand lines to extinguish fire in the roof and in the building.

Platoon Chief Orton arrived on scene and took over command with 796 being designated fire sector 1.

Hydro arrived and shut down power to the structure.

These operations lasted several hours as crews were rotated until we had fire knock down and until the day crew arrived and took over operations.

Police Incident # 09- 59883

Officers McVeigh (# 588) and Eagan (# 663)

Equipment used;

150 m 100mm supply hose

Official Call Report

90m 45mm hand lines
90m 60mm hand lines
Equipment required for tanker operations
10 S.C.B.A. + spare bottles
Approximately 180,000 L water

03/11/2009 07:24:48 maynardp

761 day crew arrived on scene at approximately 1300 hours. Crew continued pumping operations to remove water from basement of structure. OFM investigators arrived and started investigation. Advised that building tenants had been found safe at new residence. 761 crew with assistance from 729 crew proceeded to wet down hot spots. Advised by Platoon Chief to pack up remainder of equipment and clear scene. Command was terminated and scene left in care of YRP to secure until investigation to be resumed by OFM at approximately 0800 hours next day.
