COMMENTS:

- We have reviewed the proposed Variance Application and have no comments or objections to its approval.
- We have reviewed the proposed Variance Application and have no objections to its approval, subject to the following comments (attached below).
- We have reviewed the proposed Variance Application and have the following concerns (attached below).

Alectra Utilities (formerly PowerStream) has received and reviewed the proposed Variance Application. This review, however, does not imply any approval of the project or plan.

All proposed billboards, signs, and other structures associated with the project or plan must maintain minimum clearances to the existing overhead or underground electrical distribution system as specified by the applicable standards, codes and acts referenced.

In the event that construction commences, and the clearance between any component of the work/structure and the adjacent existing overhead and underground electrical distribution system violates the Occupational Health and Safety Act, the customer will be responsible for 100% of the costs associated with Alectra making the work area safe. All construction work will be required to stop until the safe limits of approach can be established.

In the event construction is completed, and the clearance between the constructed structure and the adjacent existing overhead and underground electrical distribution system violates the any of applicable standards, acts or codes referenced, the customer will be responsible for 100% of Alectra's cost for any relocation work.

Dear Christine:

**Re: Minor Variance Application A022.23
Plan RP268 Lot 15, Plan RP268 Lot 14
27 Main Street
City of Vaughan, Region of York
Owner: Landvest Development Corp. c/o Robert Di Toro**

This letter acknowledges receipt of the above-noted application circulated by the City of Vaughan. The materials were received by Toronto and Region Conservation Authority (TRCA) on February 27, 2023. TRCA staff have reviewed the application and offer the following comments for the consideration of the Committee of Adjustment.

Purpose of the Application

It is our understanding that the purpose of the above noted application is to request the following variances under By-Law 001-2021 and By-Law 1-88:

By-Law 001-2021:

- To permit an uncovered platform (deck) with a 0.0 metre rear yard setback, whereas the maximum encroachment of an uncovered platform permitted is 2.4 metres into the required rear yard.
- To permit eaves and gutters to encroach a maximum of 0.76 metres into the required front and rear yards, whereas the maximum encroachment of eaves and gutters permitted is 0.5 metres into the required front and rear yard.
- To permit a minimum front yard setback of 7.91 metres, whereas the minimum front yard setback required is 8.71 metres.

By-Law 1-88:

- To permit a deck with a 0.0 metre rear yard setback, whereas the maximum encroachment of a deck permitted is 1.8 metres into the required rear yard.
- To permit a deck to encroach a maximum of 2.66 metres into the required exterior side yard (adjacent to greenway block), whereas the maximum encroachment of a deck permitted is 1.8 metres into the required exterior side yard.
- To permit eaves and gutters to encroach a maximum of 0.76 metres into the required rear yard, whereas the maximum encroachment of eaves and gutters permitted is 0.5 metres into the required rear yard.

- To permit a maximum lot coverage of 30.26%, whereas the maximum lot coverage permitted is 30.0%.
- To permit a maximum driveway width of 6.43 metres at the street curb and a curb cut, whereas a maximum width of a driveway at the street curb and a curb cut shall be six metres.

The noted variances are being requested to facilitate the construction of a first and second floor addition to the existing residential dwelling.

Ontario Regulation 166/06

The subject lands are partially located within TRCA's Regulated Area due to a valley corridor associated with a tributary of the Humber River that traverses the northern and western portions of the site. In accordance with Ontario Regulation 166/06 (Regulation of Development, Interference with Wetlands and Alterations to Shorelines and Watercourses), development, interference or alteration may be permitted in the Regulated Area where it can be demonstrated to TRCA's satisfaction that the control of flooding, erosion, dynamic beaches, pollution, or the conservation of land will not be affected.

Application-Specific Comments

TRCA issued a permit for the construction of an addition to the ground floor and second storey on October 15, 2021 (TRCA Permit No. C-211215).

Based on a review of the plans submitted with this variance application, there are minor differences between the plans submitted and the plans approved as a part of the TRCA Permit C-211215. The submitted plans have a GFA of 410.49 sq. m. (4,418.48 sq. ft) and a rear yard setback of 3.79 m whereas the approved plans have a GFA of 482.19 sq. m. (5,190 sq. ft.) and a rear yard setback of 4.12 m.

TRCA requires the applicant to submit a permit revision application prior to initiating construction. Information about the permit revision process is attached in Appendix A.

Fees

By copy of this letter, the applicant is advised that the TRCA has implemented a fee schedule for our planning application review services. This application is subject to a \$660.00 (Minor Variance – Residential - Minor) review fee. The applicant is responsible for fee payment and should forward the application fee to this office as soon as possible.

Recommendations

Based on the comments noted above, TRCA provides conditional approval to the approval of Minor Variance Application A022.23 subject to the following conditions:

1. That the applicant provides the required fee amount of \$660.00 payable to the Toronto and Region Conservation Authority.
2. That the applicant obtains a permit revision pursuant to Ontario Regulation 166/06 from TRCA to authorize the proposed works.

We trust these comments are of assistance. Should you have any questions, please contact me at 437-880-2129 or at Kristen.regier@trca.ca

Sincerely,
