Subject: [External] file # A020/23
Date: Tuesday, April 18, 2023 4:28:38 PM

Hi my name is Carolina Pede and I live at 118 Panorama Crescs. In regards to the file A020/23 , a pool was installed , I would like to say that the fence seems to be a little high which sits on a cement retaining wall. Also when the winds are severe, when hitting against the solid fence , it makes a awful loud sound which is hard to describe. It is very annoying especially in the evening or when sleeping. Another problem with the fence line is that water does not drain properly and when it rains heavy , the grass is always very wet and does not dry up, which causes the grass to die and not grow. Please let me know the committee's decision on this matter. You can respond to this email address [REDACTED] or you can contact me at [REDACTED]

Thank You
Carolina Pede
