

Committee of the Whole (2) Report

DATE: Tuesday, April 18, 2023 **WARD(S):** ALL

TITLE: BUILDING PERMIT FEES ANNUAL FINANCIAL REPORT 2022

FROM:

Haiqing Xu, Deputy City Manager, Planning and Growth Management

ACTION: FOR INFORMATION

Purpose

To provide Council with the Building Permit Fees Annual Financial Report for 2022, as required by the Building Code.

Report Highlights

- Building permit revenues collected in 2022 were \$21,405,986.
- Direct and Indirect costs in 2022 were \$13,107,601.

Recommendations

1. THAT the Building Permit Fees Annual Financial Report for 2022 be received for information.

Background

The Building Code requires that a financial report be prepared annually to provide information on the following matters:

- i. Total Fees Collected (12-month period);
- ii. Direct Costs of delivering services (Review of permit applications and inspections of buildings);
- iii. Indirect Costs of delivering services (Support and Overhead Costs); and
- iv. The account balance for the Building Standards Service Continuity Reserve as established by Council.

To comply with the Building Code, the Building Permit Fees Annual Financial Report has been prepared for 2022 and is based on unaudited information.

Previous Reports/Authority

None.

Analysis and Options

This report has been prepared in coordination with Financial Planning and Development Finance Department staff. It is based on Council's previous approvals respecting the Watson and Associates Activity Based Costing Methodology for User Fees Report, and the establishment of the Building Standards Service Continuity Reserve.

The Building Standards Service Continuity Reserve was established to stabilize fluctuations in permit revenues resulting from changes or variations in construction activity. The stabilization of permit revenues allows the Building Standards Department (BSD) to meet its legislated requirements; thereby ensuring continuity of service delivery without impacting the general tax base.

In order to develop a sustainable financial model for the BSD, a comprehensive building permit fee study was carried out by Watson and Associates in 2017/2018 to ensure fees achieve full cost recovery of direct and indirect costs associated with the delivery of services in the BSD (building permits and inspection services). The study also benchmarked Vaughan's building permit fees with other comparable GTA municipalities to maintain market competitiveness.

In 2022, the City retained Watson and Associates to develop a new financial model for direct and indirect costs, followed by a review of user fees. It is anticipated that this new financial model will be completed and implemented in 2023.

Financial Impact

The Building Permit Fees Annual Financial Report shows a total revenue of \$21,405,986 for building permit fees collected in 2022 and a combined total of direct and indirect costs of \$13,107,601. A revenue surplus of \$8,298,385 was transferred to the Building Standards Service Continuity Reserve. The 2022 closing balance in the Building Standards Service Continuity Reserve is \$28,147,084.

Operational Impact

None.

Broader Regional Impacts/Considerations

None.

Conclusion

As required by legislation, this report provides the total fees collected by the BSD in 2022, total costs of delivering its service, and balance of the Building Standards Service Continuity Reserve.
