Promenade Mall Management
1 Promenade Circle,
Thornhill, Ontario
L4J 4P8

To: Promenade Mall Management

As the project manager of the project at 1 Promenade Circle I am writing this letter to let you know that DMF Construction Management Inc. will be managing the construction activities on the neighboring towers located on the south side of the mall. On certain occasions the construction activities need to extend past the time dictated by noise exemption by-law due to the concrete casting necessities. The noise levels are expected to be low to medium and we will arrange to have the noise making equipment away from the mall wherever possible, and minimize the idling of construction vehicles, unnecessary revving of engines and use of air breaks. The construction crew will also use possible methods that decrease noise levels during activities and maintain the equipment in good working order.

In case you have any questions or concerns you can contact our site super intendent Pouria Javid at (416) 400 9762 or myself with contact provided below.

Sincerely,

A handwritten signature in blue ink, appearing to read "Vahid", is written over the word "Sincerely,".

Vahid Mojarrad
