**Subject:** [External] Strong Opposition against Building High Rises in Our Area

To the City,

As residents of this area, we strongly oppose the proposed plan to build high rises. We are already suffering from traffic congestion and loud noises. Building high rises in this area will worsen the environment we live and make this area even less livable. The health and safety of the local residents is more important than the commercial gains of the owner of the land. We strongly appeal to the city to refuse the proposed plan.

We reserve the right to appeal further.

Kind regards,

Qi Qiu
