Subject: Objection to Application (A074/23)

Date: July 11, 2023

Dear Ms. Providence

I refer to the application A 074/23 because I as the most effected house from this application, I have objection to the variance No 2 and 1. I might not attend to the hearing.

- Objection of No 2: The height from 3 m to 3.70 m

I have objection because I am afraid that change my view. I have no problem with 3.2 m maximum. I also object to his work before any permission to cut down many mature trees and from the green belt. Also ~~he~~ he digged and put wall before any city's permission.

- Objection to No 1: The coverage of 82.7m^2 will change the atmosphere and I have no problem with 70m^2 .

I hope ~~my~~ the committee pay attention to my concern.

Best regards
