The Money Market portfolio (total holdings of \$977.50 million) averaged a rate of return of 2.18% outperforming the 90-day average T-bill rate of 2.17%. The cash balance held in the City’s bank account earned an average rate of return of 2.63%, which is higher than the average one-month Banker’s Acceptance Money Market instrument of 2.19%. The earned rate of return includes interest income and realized capital gains/losses. The earned income return is used to determine the allocation of investment earnings to the City’s reserve funds and operating budget. The higher interest rates in 2022 resulted in greater earned income allocated to reserve funds compared to the previous year.

The City’s investment program has a dual focus on providing liquidity for the day-to-day operations and long-term reserve management. This dual focus has transformed the investment portfolio to become more diversified in its holdings in both investment terms and financial institutions / issuers with high quality credit ratings that comply with the City’s Investment Policy. The shift to reserve management is aligned with the City’s fiscal framework and long-term financial sustainability.

Summary of Holdings

The following charts provide summary overviews of the City’s current holdings by both term and issuer. Details of these holdings are included in Attachment 1.

Outlook for 2023

The actions by the Bank of Canada to manage inflation, and geopolitical events continue to create challenges and opportunities in terms of potential large swings in capital markets. It is therefore important to maintain our defensive approach to preserve capital and provide liquidity, while making strategic investments on market swings for potentially higher returns in the long-term. The City’s current portfolio consists of mostly short-term investments and is positioned to take advantage of changing market conditions.

Financial Impact

The investment income generated from the investment portfolio in 2022 totaled \$31.09 million. The majority of the income from managed portfolios was distributed to the City’s reserve funds and the remaining portion to the operating budget.
