Background

Location: 7034 and 7040 Islington Avenue (the 'Subject Lands').

Islington M.D. Developments Inc. and 7040 Islington M.D. Developments Inc. (the 'Owner') submitted Official Plan and Zoning By-law Amendment Files OP.21.014 and Z.21.024 (the 'Applications') to facilitate the development of a 28-storey mixed-use residential apartment building containing 220 dwelling units on the Subject Lands.

Council approved the Applications on October 17, 2023. Following Council's approval, Development Planning staff identified additional amendments to the implementing Official Plan Amendment and Zoning By-law Amendment that are required to implement the approved development shown on Attachment 2.

Analysis

Additional Amendments to VOP 2010 are required to facilitate the development.

While preparing the implementing by-laws for the above noted files, it was discovered that the Owner did not exclude the Vegetation Protection Zone (the 'VPZ') area from the calculation of net developable area, which results in an incorrect calculation of the Floor Space Index ('FSI'). In accordance with Policy 3.2.3.1.c) and the definition of FSI in

VOP 2010, the net developable area excludes all environmental lands, including the VPZ. When all environmental lands are excluded from the net developable area, the total FSI is 9.6, rather than 8.3, with 6.6 FSI allocated to residential uses and 3.0 FSI allocated to non-residential uses. No changes to the development, as approved by Vaughan Council on October 17, 2023, are proposed.

The FSI recalculation also resulted in an amendment to the tower setback to the rear (westerly) yard lot line. As the environmental lands will be conveyed to a public authority, the rear lot line has shifted eastward, creating a discrepancy in relation to the tower setback. In accordance with Policy 9.2.3.6 of VOP 2010, the portion of a High-Rise Building above twelve storeys, shall be setback a minimum of 15 m from any property line. Given the location of the new rear yard lot line, the minimum tower setback is 10 m from the western property line.

The Development Planning Department has reviewed the additional amendments in the context of the policies of the Provincial Policy Statement 2020, the Growth Plan for the Greater Golden Horseshoe 2020 as amended, the York Region Official Plan 2010, the Vaughan Official Plan 2010, Zoning By-law 1-88 and the existing and planned uses in the surrounding area and is satisfied that the additional amendments to VOP 2010 and Zoning By-law 1-88 are appropriate given the policies and the existing and planned uses in the surrounding area.

Additional Amendments to Zoning By-law 1-88 are required to facilitate the development.

The change in FSI also resulted in a change to zoning exceptions for the minimum lot area from 14.05 m² per unit to 12.1 m² per unit and the rear yard setback from 7 m to 0.7 m. The Development Planning Department has reviewed the additional amendments to Zoning By-law 1-88 and considers them appropriate for achieving pedestrian and transit-oriented development. As the building footprint has not changed, the Development Planning Department is satisfied that the request is minor and technical in nature.
