

CITY OF VAUGHAN

EXTRACT FROM COUNCIL MEETING MINUTES OF DECEMBER 12, 2023

Item 14, Report No. 52, of the Committee of the Whole, which was adopted without amendment by the Council of the City of Vaughan on December 12, 2023.

14. ART ON BOXES PROGRAM 10-YEAR IMPLEMENTATION STRATEGY

The Committee of the Whole recommends approval of the recommendations contained in the following report of the City Manager, dated December 5, 2023:

Recommendations

1. THAT Council approve the ARTonBOXES Program 10-Year Implementation Strategy (Attachment 1);
2. THAT staff be directed to implement the Strategy;
3. THAT Council authorize the Director of Economic Development (or designate) to negotiate, enter into, and execute all necessary or ancillary agreements in a form satisfactory to the City Solicitor (or designate) and City Manager (or designate), with applicants, program partners, grant funding partners, stakeholders, or any other potential third-party partners with respect to the implementation of the Strategy and to terminate agreements when required;
4. THAT Council endorse a future (2025-2034) operating budget request for public art programming;
5. THAT staff report back to provide annual updates on ARTonBOXES program installments; and
6. THAT the City Clerk forward a copy of this report to York Region.

Committee of the Whole (2) Report

DATE: Tuesday, December 5, 2023

WARD(S): ALL

TITLE: ART ON BOXES PROGRAM 10-YEAR IMPLEMENTATION STRATEGY

FROM:

Nick Spensieri, City Manager

Zoran Postic, Deputy City Manager, Public Works

ACTION: DECISION

Purpose

To seek approval of the ARTonBOXES Program 10-Year Implementation Strategy (Strategy) developed as a signature creative placemaking initiative to enhance the public realm through the Vaughan City-Wide Public Art Program.

Report Highlights

- On June 20, 2023, in tandem with launching the Group of Seven REMIXED pilot for the ARTonBOXES traffic signal box art wrapping program, Council directed staff to report back in Q4 2023 with a comprehensive 10-year ARTonBOXES implementation strategy to enhance the public realm.
- The proposed Strategy provides the working blueprint – within the framework of the Vaughan City-Wide Public Art program – for delivering a signature creative placemaking initiative between 2025-2034, integrating art into the fabric of everyday experiences, and helping position Vaughan at the vanguard of public art in York Region.
- The proposed Strategy guides the phased implementation of the 10-year ARTonBOXES program with fairness and transparency based on best practices and the principles of the Vaughan City-Wide Public Art Program.

Report Highlights continued

- 75-100 municipal and regional traffic signal boxes, distributed equally across all five wards of Vaughan, will be transformed into extraordinary works of art to enliven streetscapes in urban design priority districts and neighborhoods with high pedestrian and transit activity.
- Animating capital infrastructure with art contributes to the creative urban character of neighborhoods, beautifies city streetscapes, and discourages “tagging” vandalism.
- Art installed on traffic signal boxes is inventoried as assets housed in the Civic Art Collection of the Vaughan City-Wide Public Art Program.

Recommendations

1. THAT Council approve the ARTonBOXES Program 10-Year Implementation Strategy (Attachment 1);
2. THAT staff be directed to implement the Strategy;
3. THAT Council authorize the Director of Economic Development (or designate) to negotiate, enter into, and execute all necessary or ancillary agreements in a form satisfactory to the City Solicitor (or designate) and City Manager (or designate), with applicants, program partners, grant funding partners, stakeholders, or any other potential third-party partners with respect to the implementation of the Strategy and to terminate agreements when required;
4. THAT Council endorse a future (2025-2034) operating budget request for public art programming;
5. THAT staff report back to provide annual updates on ARTonBOXES program installments; and
6. THAT the City Clerk forward a copy of this report to York Region.

Background

On June 20, 2023, in tandem with launching the Group of Seven REMIXED pilot for the ARTonBOXES traffic signal box art wrapping program, Council directed staff to report back in Q4 2023 with a comprehensive Strategy to enhance the public realm.

The first phase of the City-wide ARTonBOXES program unveiled the Group of Seven REMIXED pilot project in June 2023. Led by the cross-departmental core team of Economic Development and Transportation and Fleet Management Services, original works of art were commissioned for installation on designated traffic signal cabinets as inventoried art assets in the Vaughan City-Wide Public Art Program.

Inspired by iconic paintings by members of the Group of Seven, the pilot profiled the exceptional designs of Vaughan secondary school visual art specialty students tasked with capturing the spirit of the Canadian landscape by creating newly imagined work – digitized for vinyl application. 12 traffic signal boxes located in high-density traffic areas across all five wards of the city were wrapped with art.

Transforming traffic signal boxes into extraordinary works of art enhances Vaughan’s public realm.

Large metal boxes containing traffic signal controls are located at numerous roadsides and signalized intersections across the City of Vaughan. Many cities in Canada and abroad, adopt programs that encase traffic signal boxes with original artwork applied as vinyl wraps depicting digitally translated designs. In effect, these metal boxes provide art canvases. Transforming the City’s traffic signal boxes through art, as demonstrated successfully by the Group of Seven REMIXED pilot, contributes to the creative urban character of Vaughan’s neighborhoods, beautifies city streetscapes, and discourages “tagging” vandalism.

A strategy for delivering a comprehensive, long-term ARTonBOXES program as a signature creative placemaking initiative helps position Vaughan at the vanguard of public art in York Region.

Following the impactful launch of the Group of Seven REMIXED pilot, staff fleshed out the preliminary strategy framework endorsed by Council, to develop a comprehensive ARTonBOXES program implementation strategy designed to animate the public realm through a dedicated 10-year creative placemaking initiative. To advance mapping out the critical locational plan, city staff consulted with York Region, a major stakeholder and supporter of the ARTonBOXES program, to secure endorsement and collaboration for wrapping an extensive inventory of targeted regional boxes at key intersections across Vaughan. Adopting the first holistic creative placemaking strategy for animating both municipal and regional traffic signal boxes helps position Vaughan at the vanguard of public art in York Region.

Analysis and Options

The Strategy provides a blueprint – within the framework of the Vaughan City-Wide Public Art program – guiding implementation between 2025-2034 as a signature creative placemaking initiative that integrates art into the fabric of everyday experiences.

Public art and creative expression are essential to the vibrancy, identity, social well-being, and economic development of Vaughan. The Strategy was developed as the working blueprint for implementing the ARTonBOXES program to deliver a signature public art initiative. This positions Vaughan as a progressive, creative urban city, and animates Vaughan's public realm with an innovative, inclusive, and sustainable city-wide traffic signal box art program that fosters artistic expression, community engagement, and artistic opportunity while enhancing the distinct urban character of Vaughan's neighborhoods and districts for both residents and visitors.

The Strategy guides the phased implementation of the 10-year ARTonBOXES program with fairness and transparency.

Based on employing best practices and adhering to the principles of the Vaughan City-Wide Public Art Program, the Strategy guides staff in implementing the ARTonBOXES program with fairness and transparency. Annual programming is designed to be flexible to align with corporate goals and operations. A copy of the Strategy can be found in Attachment 1.

Key Priorities for Implementation Between 2025-2034

- **75-100 City-owned and regional traffic signal boxes will be actively wrapped in all five wards by 2034.**
 - The selection of locations aligns with the principles of the Vaughan City-Wide Public Art Program and Urban Design Guidelines. A City-wide inventory was created to draw from, consisting of 105 existing | planned boxes, distributed equitably across all five wards.
 - Based on wrapping 10 locations per year, over the course of 10 years (considering art recommissioning cycles), 75-100 signal boxes will be animated by 2034. 60 of the 105 locations targeted for art installation are regional traffic signal boxes.
 - Priority districts were identified to align with Urban design projects and high pedestrian and transit planning corridors. This includes Heritage Districts, the Vaughan Metropolitan Centre, North Maple Regional Park, Vaughan Yonge Steeles Centre, Vaughan Mills, Vaughan Healthcare Centre Precinct, and streetscape projects.
 - 10 locations have been strategically assigned across the five wards for implementation in Year One (2025) as outlined below in Table 1.
- **10 curated art themes will be developed for 10 annual installments.**
 - Subject matter will evolve to reflect current issues that resonate meaningfully with artists and public audiences and are appropriate for the public realm. Thematic concepts will respect the legacy of Vaughan's past and profile transformation and innovation, embrace equality and diversity, foster art appreciation, and integrate art into the public realm fabric of everyday experiences.
 - Year One (2025) Curated Art Theme / ***the ART of HEALING***
 - Art and creative expression are powerful catalysts in the healing process. Scientific evidence recognizes that producing and appreciating art has measurable psychological and physiological healing properties. In the spirit of positivity, during a post-pandemic era facing global societal and environmental challenges, the ARTonBOXES theme for Year One is dedicated to exploring the ART of HEALING – an inspired intersection of art meeting health – where art plays centre stage in supporting our physical, mental, and social well-being.
 - The implementation timeline is outlined in Table 2.

- **75-100 art designs will be inventoried as public art assets in the Civic Art Collection of the Vaughan City-Wide Public Art Program.**
 - Art submissions will be evaluated by qualified adjudication panels according to art design assessment criteria. 10 themed art designs will be selected annually for installation on traffic signal boxes.
- **A proactive maintenance plan will manage art replacement cycles and mitigate vandalism.**
 - The plan employs both preventative and responsive protocols for graffiti removal and identifies a process for art commissioning replacement cycles that aligns with the locational plan and curated themes.
- **Exploring an ARTonBOXES Hydro Box Painting Program**
 - City staff are assessing the feasibility of introducing a parallel City-wide ARTonBOXES programming component to animate hydro boxes as painted murals in the near future. Investigations are underway with neighboring municipalities to determine best practices and discussions will be initiated with Alectra to solicit interest | analyze logistics in pursuing a collaborative partnership for animating Vaughan hydro boxes.

Year One (2025) | the ART of HEALING Locations and Project Timeline

ANNUAL PROJECT TIMELINES

Artwork will be installed on traffic signal boxes in the late spring | early summer when the weather is typically most conducive to the application | curing of vinyl art wraps on the metal cabinet infrastructure.

CRITICAL PATH | YEAR ONE (2025) | the ART of HEALING

- January-September 2024 | Curatorial Plan, Locational Plan, Stakeholder Collaboration, Logistics
- October 2024-February 2025 | Call for Artist Submissions Opens in October and closes in February
- January 2025 | Procurement – Print and Fabrication Vendor
- March-April 2025 | Art Selection and Art Evaluation Feedback, Artist Agreements Executed
- April-May 2025 | Art Design Refinement and Final Print-Ready Submission of Selected Artwork
- May 2025 | Artist Fee Payments
- May-June 2025 | Art Installations (weather dependent)
- May-July 2025 | City of Vaughan ARTonBOXES | the ART of HEALING Communications Plan
- June 2025 | Annual Council Update: Year One | the ART of HEALING

Table 2

The Strategy aligns with a transformative, ambitious, and purpose-driven creative placemaking agenda focused on enhancing Vaughan’s public realm.

Implemented gradually over a 10-year period, the Strategy aims to achieve the following creative placemaking results:

- Transform 75-100 traffic signal boxes into extraordinary works of art
- Build assets in the Civic Public Art Collection
- Target the engagement of 1000 artists from Vaughan, York Region, and the GTA
- Enhance the creative urban character of Vaughan neighborhoods and districts across all five wards
- Interpret Vaughan’s unique identity, core values, and socio-economic vitality annually through 10 curated themes
- Animate and beautify streetscapes to engage pedestrians, drivers, and cyclists
- Deter tagging vandalism on capital infrastructure through proven art intervention
- Nurture a sense of place, community, and civic pride

- Maximize opportunities to engage emerging and established artists of all skills, experience, and backgrounds by embracing diversity, equity, and inclusion
- Mentor emerging resident artists to facilitate public art learning
- Cultivate creative partnerships with York Region and the arts community
- Respect the legacy of Vaughan's past in heritage districts and profile the City's commitment to smart city innovation
- Install art strategically along streetscapes to create distinctive neighborhood environments, serve as memorable landmarks, and enhance wayfinding
- Generate public art awareness by celebrating artistic excellence and spotlighting resident talent
- Position Vaughan at the vanguard in York Region for developing and implementing a signature traffic box art wrapping program

Financial Impact.

The Public Art Reserve will fund the city led ARTonBOXES program as a long-term capital initiative. The program will be implemented annually over the course of 10 years, commencing with the first installation in 2025 and ending in 2034. The Economic Development Department will administer program expenditures.

A capital project (ED-9607-25) in the amount of \$323,877 has been submitted for the implementation of the 10-Year ARTonBOXES program under the Public Art Reserve. In summary, an annual budget of \$25,000 plus 5% annually to accommodate inflation is earmarked to deliver 10 art installations per year through this program. Annual expenses will include art fabrication and installation, artist fees, art maintenance contingency, jury panel honoraria, and social media.

To cover the operating cost of 2025-2034 program support staff, Economic Development will submit a future ARR through the City's budget process.

Operational Impact

Core Program Team

The development of the Strategy, administered under the Vaughan City-Wide Public Art Program was led by the cross-departmental core team of Economic Development and Transportation and Fleet Management Services. The core team conducted broad cross-departmental and external stakeholder consultations to consider multiple perspectives from subject matter experts, to ensure operational fluidity and best practices.

Internal Cross-Departmental Consultation

The core program team consulted with internal stakeholder departments, including, but not limited to: Urban Design, VMC Program, Procurement, Infrastructure Delivery, Corporate and Strategic Communications, Finance, Legal, and Diversity and Inclusion.

External Collaboration

Beyond the City's key partnership with York Region, other collaborations may evolve annually depending on thematic content and include representation from cultural | heritage groups, McMichael Canadian Art Collection, art academia, BIAs, artists, and residents. The City is open to entertaining collaborations with members of the arts community to help advance the goals and objectives of the ARTonBOXES program.

Broader Regional Impacts/Considerations

York Region is a major ARTonBOXES program stakeholder and collaborator supporting the wrapping of Regional traffic signal cabinets in Vaughan. City staff consulted with the Region and secured endorsement in principle for wrapping an extensive inventory of up to 60 targeted regional boxes located at key intersections across Vaughan during the program's ten-year implementation period. Wrapping will be conducted at the cost of the City and in accordance with specific public realm guidelines that align with those prescribed for the ARTonBOXES program. The Region is supportive of wrapping traffic signal boxes at regional intersections in local municipalities as per their 2017 report on traffic signal wraps. A formal approval process has not been established, but the City will ensure the Region confirms inventoried locations earmarked for wrapping each year to ascertain municipal programming priorities align with regional capital project schedules and formal agreement protocols.

Conclusion

Building on the success of the Group of Seven REMIXED pilot project, the Strategy provides a comprehensive working blueprint to guide the delivery of a signature creative placemaking initiative through the Vaughan City-Wide Art Program. The Strategy aims to integrate 75-100 prominently located art installations into the fabric of everyday experiences to engage residents and visitors. Adopting this long-term transformational Strategy to animate capital infrastructure through a proven art intervention will contribute significantly to shaping the creative urban character of Vaughan's neighborhoods, beautifying city streetscapes, and discouraging "tagging" vandalism and help position Vaughan at the vanguard of public art in York Region.

ARTonBOXES program | 10-Year Implementation Strategy

ARTonBOXES program | CONTEXT

Transforming Traffic Signal Boxes into Extraordinary Works of Art Enhances the Public Realm

Large metal boxes containing traffic signal controls are located along numerous roadsides and signalized intersections across the City of Vaughan. Many cities in Canada and abroad, adopt programs that encase traffic signal boxes with original artwork applied as vinyl wraps featuring digitally translated designs. In effect, these metal boxes provide art canvases. Transforming traffic signal boxes through art contributes to the creative urban character of neighborhoods, beautifies city streetscapes, and discourages “tagging” vandalism.

City-wide ARTonBOXES program launches with the Group of Seven REMIXED pilot project

In June 2023, Vaughan introduced the City-wide traffic signal box wrap initiative under the banner of the ARTonBOXES program launched through the pilot project, **The Group of Seven REMIXED**, featuring original artwork commissioned for the boxes as assets housed in the Vaughan City-Wide Public Art Program. ARTonBOXES falls within the Integrated Public Art category, as works that are physically part of a building, landscape, or structure.

Inspired by iconic paintings by members of the Group of Seven, the pilot profiled the original work of Vaughan secondary school visual art specialty students tasked with capturing the spirit of the Canadian landscape by creating newly imagined works – digitized for vinyl application – to wrap around 12 signal boxes located across all five wards of the city.

ARTonBOXES program 10-Year Implementation Strategy

In tandem with the successful launch of the program pilot, in June 2023, Council directed Staff to report back in Q4 2023 with a comprehensive ARTonBOXES traffic signal box program 10-Year Implementation Strategy. The following strategy provides the working blueprint for delivering a signature creative placemaking initiative between 2025-2034 to help position Vaughan at the vanguard of public art in the Region.

Marni Pellicane | Beauty of Banff | Group of Seven REMIXED

ARTonBOXES program | 10-Year Implementation Strategy

Alessandra Raso | The Hunt | Group of Seven REMIXED

VISION | CREATIVE PLACEMAKING

To leverage the ARTonBOXES program as a dynamic creative placemaking catalyst for driving a transformative, ambitious, and purpose-driven agenda that shapes and reflects Vaughan's unique identity and economic vitality. To deliver a signature public art initiative that positions Vaughan as a progressive, creative urban city. To animate Vaughan's public realm with an innovative, inclusive, and sustainable city-wide traffic signal box art program that fosters creative expression, community engagement, and artistic opportunity while enhancing the distinct urban character of Vaughan's neighborhoods and districts.

GOALS | OBJECTIVES

Public art and creative expression are essential to the vibrancy, identity, social well-being, and economic development of Vaughan. The ARTonBOXES program integrates art into the fabric of everyday public realm experiences for residents and visitors. Implemented over a 10-year period, by 2034, the comprehensive program aims to:

- Transform 75-100 traffic signal boxes into extraordinary works of art
- Build assets in the Civic Public Art Collection
- Target the engagement of 1000 artists from Vaughan, York Region, and the GTA to submit original art designs for installation on traffic signal boxes
- Enhance the creative urban character of Vaughan neighborhoods and districts across all five wards
- Interpret Vaughan's unique identity, core values, and socio-economic vitality annually through 10 curated themes
- Animate and beautify streetscapes to engage a broad mix of pedestrians, drivers, and cyclists
- Deter tagging vandalism on capital infrastructure through a proven art intervention
- Nurture a sense of place, community, and civic pride
- Maximize opportunities to engage emerging and established artists of all skills, experience, and backgrounds by embracing diversity, equity, and inclusion
- Mentor emerging resident artists to facilitate public art learning
- Cultivate creative partnerships with York Region and the arts community
- Respect the legacy of Vaughan's past in heritage districts and profile the City's commitment to smart city innovation
- Install art strategically along streetscapes to create distinctive neighborhood environments, serve as memorable landmarks, and enhance wayfinding
- Generate public art awareness by celebrating artistic excellence and spotlighting resident talent
- Position Vaughan at the vanguard in York Region for developing and implementing a signature traffic box art wrapping program

ARTonBOXES program | 10-Year Implementation Strategy

BUDGET PLAN

Public Art Reserve Funding

The ARTonBOXES program will be implemented annually over the course of 10 years, commencing with the first installation in 2025 and ending with the tenth in 2034. The Public Art Reserve will fund this city-led program as a long-term capital initiative. The Economic Development Department will administer program expenditures.

In summary, \$25k has been budgeted annually for the program, starting in 2025. **The total budget projection is \$324k**, building in 5% annual inflation from 2026 to 2034, over the 10-year cycle.

Annual Expenses

- Art fabrication and installation | vendors secured through the City's procurement process
- Artist fees | aligned with best practice
- Art maintenance contingency | calculated at @ 10% annually to address potential damage
- Jury panel honoraria | aligned with best practice
- Social media

Future Operating Budget Request

To cover the cost of the 2025-2034 program support staff, Economic Development will submit an ARR through the City's budget process.

APPENDIX A | ARTonBOXES Capital Summary Sheet

ARTonBOXES program | 10-Year Implementation Strategy

LOCATIONAL PLAN

Alignment with the Vaughan City-Wide Public Art Program and Urban Design Guidelines

The selection of ARTonBOXES locations aligns with the principles of the Vaughan City-Wide Public Art Program and Urban Design Guidelines. Siting is based on three main criteria to maximize viewer engagement:

- alignment with the locational focus areas identified as key opportunities for Public Art in the Vaughan City-Wide Public Art Program
- optimum positioning of boxes at high-traffic vehicular | pedestrian traffic intersections
- alignment with the Traffic Signal Controller Conversion Project

Traffic Signal Box Art Installation Inventory and City-Wide Distribution

A City-wide ARTonBOXES inventory was created to draw from, consisting of 105 existing | planned boxes in model typologies viable for the wrapping of art. Art wrapped installations have a projected lifespan of five-seven years before deteriorating. Based on wrapping 10 locations per year, over the course of 10 years (including art recommissioning cycles aligned with art installation longevity), **a total of 75-100 City-owned and Regional traffic signal boxes will be actively wrapped by 2034.**

Priority districts were identified to align with Urban Design projects with high pedestrian and transit activity. This includes Heritage Districts, Vaughan Metropolitan Centre, North Maple Regional Park, Vaughan Yonge Steeles Centre, Vaughan Mills, Vaughan Healthcare Centre Precinct and streetscape projects. This comprehensive alignment with urban design priorities and equitable distribution of animated traffic signal boxes across all five wards ensures a minimum of 75 high-calibre public art installations will be simultaneously activated throughout the City to enliven streetscapes by the end of the 10-year implementation period. Strategic siting priorities focused on high-traffic routes result in regional boxes comprising just over half of those targeted for art installation.

ARTonBOXES program | 10-Year Implementation Strategy

CURATED ART THEMES

ART meets DESIGN to Engage Artists and Public Audiences

Vaughan is a creative urban city that integrates ART into the public realm – a city where art and design intersect to convey complex socio-economic messages – often working in tandem through blurred lines to give tangible form to abstract ideas.

Curated Themes

Interpretive concepts will be developed annually for 10 curated themes. Subject matter will evolve to reflect current issues that resonate meaningfully with artists and public audiences and are appropriate for the public realm. Thematic concepts will respect the legacy of Vaughan's past and profile transformation and innovation. They will embrace equality and diversity, foster art appreciation and integrate art into the public realm fabric of everyday experiences.

Proposed themes will be vetted annually by a cross-departmental ARTonBOXES team. Curatorial staff will develop thematic concepts to inspire artist participation in submitting interpretive art designs and to foster public engagement and meaningful art experiences.

ARTonBOXES conceptual themes under consideration include (but are not limited to):

- the ART of HEALING
- Indigenous Voices
- the smARTcity frontier
- Heritage Vaughan | Vintage Vaughan
- Emerging Downtown
- Transportation Innovation
- PLAYcity
- 113 Vaughan Voices
- FOODcity
- PlanetEARTH | Sustainable Ecosystems
- the Painted Garden
- the ART of SPORT
- Urban Jungle

ARTonBOXES program | 10-Year Implementation Strategy

ART DESIGN CRITERIA

Successful Traffic Signal Box Designs in Vaughan:

- Animate urban streetscapes positively with visually impactful art
- Wrap imagery around all four sides of the traffic box in one continuous conceptual flow
- Are clearly visible and understandable when viewing two sides of the traffic box at once
- Ensure designs and details are visible from sidewalks and roads from 20+ feet for both pedestrian and vehicular traffic
- Align imagery with the operational requirements of vents, door hinges, and handles
- Depict imagery that is appropriate for all viewers, respecting that traffic signal boxes are in the public realm

Avoid:

- depictions of traffic lights, signals, or signs
- logos, branding, or advertisement for any business, product, service, or viewpoint
- large, vacant compositional areas to help deter potential tagging
- locating key design elements on edges, vents, handles, or protrusions
- fine detail and small text to avoid distraction by viewers who are driving
- offensive or insensitive content

Design Templates

Design templates will be developed to map out the specific dimensions of two traffic signal box typologies (municipal and regional). These two-dimensional design templates are provided to artists to facilitate plotting out their concepts to wrap around all four box faces in a three-dimensional application. Design concepts – regardless of the original art media will be digitally translated to vinyl wraps.

ARTonBOXES program | 10-Year Implementation Strategy

Allyson Safran | Mountain Vast | Group of Seven REMIXED

ARTIST SUBMISSION PROCESS

Diversity, Equity, and Inclusion

In alignment with the commissioning and acquisition methodology prescribed in the Vaughan City-Wide Public Art program, the ARTonBOXES program Call for Artist Submissions process is designed to maximize opportunities for artists of varying skills and experience levels. The City of Vaughan's commitment to the principles of diversity, equity, and inclusion celebrates the talent of emerging and established artists of all backgrounds.

Call for Artist Submissions Packages

Packages will be developed and promoted widely through credible GTA media vehicles listing opportunities for visual artists, to artists on the City's Visual Art Database and special interest groups aligned with specific themes, and to the Vaughan community at large through the City's communication channels. Local, Regional, and GTA artists will be targeted through open or invitational competitions. Submission packages with curated themes will be developed annually. Competitions will be open for three months and packages will detail submission guidelines and requirements, including:

- Artist Brief: curatorial vision, goals, and objectives
- Thematic Concept | Artist Statements
- Eligibility Criteria
- Design Criteria | Design Template
- Art Selection Process
- Art Commissioning and Acquisition
- Artist Fees
- Intellectual Property and Copyright
- Communications
- Project Timeline
- Submission Checklist
- Application Form

ARTonBOXES program | 10-Year Implementation Strategy

Kaitlyn Hsieh | Wilderness | Group of Seven REMIXED

ART SELECTION | COMMISSIONING PROCESS

Art Evaluation Process

Submissions must comply with the criteria laid out in the Call for Artist Submissions Package. Submissions will undergo a two-step evaluation process:

Step One | The City's curatorial staff will review all submissions and develop a curated shortlist for final selection by a qualified jury

Step Two | An adjudication panel comprised of three or five qualified members selects the annual number of designs (@10) to advance to art commissioning

Curatorial staff will guide and mentor artists whose work is selected for commissioning in making necessary refinements for print fabrication and installation on the signal boxes.

Adjudication Panels

Annual panel compositions include a mix of the following qualified individuals: art curators, artists, art educators, urban designers, and public realm professionals.

Art Design Evaluation Criteria

- Artistic Merit | artwork exhibits a high calibre of originality, creative concept, and technical execution within the project scope.
- Contribution to Urban Character | artwork animates streetscape locations with positive visual impact.
- Applicability – artwork translates successfully to the large traffic signal box format with a suitably scaled design.

Public Art Assets

10 art designs will be selected annually (with discretion to align more locations strategically with streetscape projects). **Art installed on traffic signal boxes is inventoried as Public Art assets in the Civic Art Collection** of the Vaughan City-Wide Public Art Program.

ARTonBOXES program | 10-Year Implementation Strategy

Cailin Sadecka | Ethereality| Group of Seven REMIXED

PROCUREMENT PROCESS

The City has established a multi-year procurement plan for the fabrication and installation of art on traffic signal-boxes over the 10-year implementation period. The plan will begin with an invitational RFP including criteria for experienced installation methodology, material selection, installation standards, and timeline expectations, enabling the city to evaluate the most efficient and cost-effective solutions to fulfill the City's goals for procuring vendors to support the production of public art.

Multi-Year Strategy Benefits

The multi-year strategy offers several major benefits: it will foster competitive pricing, provide predictable capacity planning, reduce project costs, and ensure high-quality results. This approach aligns with the City's commitment to promote public safety by standardizing maintenance practices, leveraging innovation, responding to changes in signal and roadway safety, and incorporating feedback from public consultation.

This prescribed procurement process strives for efficiency and cost-effectiveness while ensuring ARTonBOXES installations are implemented per the City's approved safety standards.

ARTonBOXES program | 10-Year Implementation Strategy

ARTIST REMUNERATION

Artists whose original art designs are selected for installation on traffic signal boxes in the ARTonBOXES program will be paid a fair Artist Fee, benchmarked with remuneration offered by other municipalities paying professional fees for similarly commissioned artwork. The fee includes licensing rights enabling the City to reproduce the final design for promotional purposes.

Artist fees will be assessed annually during the 10-year program to factor in inflation. The Budget Plan builds in 5% for the annual inflation of artist fees.

ART INSTALLATION PROCESS

Curated Installation Plan

The City's curatorial staff will develop annual installation plans aligning the selection of art designs and their orientation on specific streetscapes with designated traffic signal box locations to maximize interpretive and aesthetic viewing perspectives for pedestrian, cycling, and vehicular traffic.

Installation Timeframe

Ideally, installation will be conducted in the late spring | early summer (May - June) when daily and evening temperatures consistently reach at least 13 degrees Celsius (prior to summer heat waves) to ensure the vinyl art application on metal traffic signal boxes can be cured properly.

Installation Materials | Application Procedure

A professional vendor will be procured to art wrap the boxes with a layer of high calibre 3M adhesive vinyl, printed with each selected design, cut to shape, applied to traffic signal boxes and coated with a clear protective layer to reduce sun fading and facilitate graffiti removal. Artist concepts will be plotted out according to the design template. The installation vendor will cut and fold in and around the door, handle, and vents to maintain the functional operation of each box.

Warning Labels

In compliance with safety protocols, the installation vendor will apply a warning sticker label discreetly on each art-installed box to mitigate interference with the integrity of art compositions.

Hailey Shema | Joy | Group of Seven REMIXED

ART MAINTENANCE PLAN

A proactive maintenance plan makes preventative provisions for deterring the vandalism of traffic signal box art wraps, employs responsive protocols for graffiti removal, and identifies a process for art commissioning replacement cycles that aligns with the locational plan. Traffic signal boxes are functioning equipment that the City of Vaughan will need to repair or replace over time, and they can become targets of vandalism. Protective anti-graffiti coatings are applied to each art design installation to mitigate tagging and the adhesion of unwanted stickers. The projected lifespan of the art on wrapped boxes is approximately five-seven years based on local environmental conditions. The Budget Plan includes an art maintenance contingency calculated at 10% annually to address potential damage. Artists must accept the risk that their artwork may be damaged or removed at any time after completion prior to normal art commissioning replacement cycles .

Art Maintenance Protocols

Municipal Boxes

The City's contractor and its dispatch service will maintain a complete record of receipt and disposition of all calls pertaining to damage, wear, graffiti, and | or vandalism to traffic signal controller cabinets, including ARTonBOXES locations, and complete a form documenting the time and date when the call was received, location of the cabinet, nature of the call (noting if art is impacted) and submit digital photographs of all damage to the City.

Routine Inspections | The contractor will visually inspect the ARTonBOXES cabinets for any damage, wear, graffiti | or vandalism twice a year as scheduled by the City starting on April 1st and October 1st of each contract term's testing schedule(s). Remedial action will be taken as required. Curatorial staff will also conduct frequent visual art inspections to ensure the integrity of each installation.

Regional Boxes

ARTonBOXES cabinets within regional jurisdiction will be routinely monitored by York Region. Any damage, wear, graffiti, and | or vandalism impacting artwork will be reported to the City for remedial action where required. City staff will also conduct frequent visual art inspections of regional boxes to ensure the integrity of each installation.

ARTonBOXES program | 10-Year Implementation Strategy

AGREEMENTS | PARTNERSHIPS

Artist Agreements

The city will develop and execute signed Artist Agreements according to best practices with artists whose work is selected for commissioning in the ARTonBOXES program. Artist Agreements will detail the following roles and responsibilities:

- art ownership
- Civic Public Art Collection commissioning and acquisitions
- copyright
- artist fees
- art designs and art interpretation deliverables
- project timelines
- art maintenance and decommissioning

Partnerships | Collaborations

York Region is a major ARTonBOXES program stakeholder and collaborator supporting the wrapping of Regional traffic signal cabinets in Vaughan. City staff consulted with the Region and secured endorsement in principle for wrapping an extensive inventory of up to 60 targeted Regional boxes located at key intersections across Vaughan during the program's ten-year implementation period. Wrapping will be conducted at the cost of the municipality and in accordance with specific public realm guidelines that align with those prescribed for the ARTonBOXES program. The Region is supportive of wrapping traffic signals boxes at regional intersections in local municipalities as per their 2017 report on traffic signal wraps. A formal approval process has not been established, but the City will ensure the Region confirms inventoried locations earmarked for wrapping each year to ascertain municipal programming priorities align with regional capital project schedules and formal agreement protocols.

COMMUNICATIONS

The ARTonBOXES program Increases Public Art Awareness and Embodies Creative Placemaking

Raising the profile of Vaughan's Public Art Program as a vital component of creative placemaking is a key priority of economic development. Delivering a comprehensive communication plan to support awareness of the ARTonBOXES program will help position Vaughan as a creative urban city that integrates art into its public realm – a city where art is accessible to all residents and visitors and is valued as a placemaking catalyst for conveying Vaughan's unique identity.

Corporate and Strategic Communications Plan

The 10-year strategy will be supported by a robust annual communications plan developed by the City's Corporate and Strategic Communications department. Annual plans will employ tactics to share artist calls for submission opportunities widely and to help generate public awareness of the ARTonBOXES program. Communications will profile curated art themes, original art designs, featured artists, interpretive artist statements, and wrapped traffic signal boxes installed along Vaughan's streetscapes.

CONSULTATION | COLLABORATION

Core Program Team

The development and implementation of the ARTonBOXES program, administered under the Vaughan City-Wide Public Art Program is led by the core program team of Economic Development and Transportation and Fleet Management Services. The core team conducts broad cross-departmental and external stakeholder consultation and collaboration to consider multiple perspectives from subject matter experts, to ensure operational fluidity, and to implement best practices.

Cross-Departmental Consultation

Cross-departmental City of Vaughan team members may include (but are not limited to): Economic Development, Transportation and Fleet Management Services, Urban Design, VMC Program, Procurement, Infrastructure Delivery, Corporate and Strategic Communications, Finance, Legal, and Diversity and Inclusion.

External Collaboration | York Region Partnership

York Region is a critical ARTonBOXES program stakeholder and supports the wrapping of Regional traffic signal cabinets in Vaughan. City staff consulted with the Region to identify an extensive inventory of viable Regional boxes located at major intersections throughout the City to wrap with art over the 10-year implementation period. Regional locations targeted for annual installations, comprise just over half of the locational inventory and will be confirmed through the city's ongoing consultation with the Region to ensure program priorities align with Regional capital project schedules.

Additional programming collaborations may evolve annually depending on thematic content and include representation from cultural | heritage groups, McMichael Canadian Art Collection, art academia, BIAs, artists, and residents. The City is open to entertaining collaborations with members of the arts community to help advance the goals and objectives of the ARTonBOXES program.

ARTonBOXES program | 10-Year Implementation Strategy

NEXT STEPS

YEAR ONE PREVIEW | ART THEME AND LOCATIONAL PLAN (2025)

Curated Theme | the ART of HEALING

Since the dawn of humanity, across all cultural landscapes, ART and creative expression have served as powerful catalysts in the healing process. Scientific evidence recognizes that producing and appreciating art has measurable psychological and physiological healing properties.

In the spirit of positivity in a post-pandemic era facing global societal and environmental challenges, this ARTonBOXES theme is dedicated to exploring the **ART of HEALING** – an inspired intersection of art meeting health – where art plays centre stage in supporting our physical, mental, and social well-being. Interpreted through a myriad of artistic concepts by emerging and established artists of all backgrounds, submitted art designs will be evaluated on the strength of their originality to transform the theme from an abstract idea into tangible forms of creative expression to generate reflection and dialogue in the public realm.

The notion of healing is completely open to interpretation. Artists will be encouraged to conceptualize the theme creatively through depictions that resonate with meaning for them. Chronicling personal journeys, recognizing advances in medicine, mitigating mental health stigmas, profiling ecological recovery, celebrating triumphs of survival, bridging societal divides, or mending relationships offer but a few inspired directions for artists to contemplate. HEALING offers rich fodder to ignite artistic expression, which in turn, can foster meaningful public experiences with art.

the ART of HEALING Locational Plan | Appendix

10 locations have been assigned from the ARTonBOXES traffic signal box inventory to the Year One program installment (two in each ward):

- Ward 1 | Major Mackenzie Drive at Wellness Way + Jane Street at Vaughan Healthcare Circle
- Ward 2 | Islington Avenue at Napa Valley + Highway 7 at Kipling Avenue
- Ward 3 | Weston Road at Ashberry Boulevard/Davos Road + Ansley Grove at Windflower Gate
- Ward 4 | Jane at Rutherford Road + Apple Mill Road and Jane Street
- Ward 5 | Clark Avenue at Hilda Avenue + Yonge and Clark

ARTonBOXES | Hydro Box Painting Program

City staff are exploring the feasibility of introducing a parallel City-wide ARTonBOXES programming component to animate hydro boxes as painted murals. Investigations are underway with neighboring municipalities to determine best practices and discussions will be initiated with Alectra to solicit interest | analyze logistics in pursuing a collaborative partnership for animating Vaughan hydro boxes in the near future. To differentiate between the installation of original art on hydro boxes from that on traffic signal boxes, if the art application is feasible, it is proposed artists would paint original designs directly on hydro boxes as opposed to installing them as printed wraps, which provides a desirable live public art activation element to foster engagement between art makers and public audiences.

Project Type:	Council Request	

Project Description				Project Timelines				
ARTonBOXES is a city-wide traffic signal box art wrap initiative featuring original commissioned works of art. Transforming traffic signal boxes through art contributes to the creative character of Vaughan's neighborhoods, beautifies city streetscapes and discourages graffiti. Art designs selected for the program are public art assets in the Civic Art Collection of the Vaughan City-Wide Public Art Program. The program was piloted through the Group of Seven REMIXED project to guide the development of a 10-year ARTonBOXES program strategy. The capital project funding is requested to fund the 10-year roll-out of this annual Public Art initiative.				January 2025 to December 2035
