Subject: [External] Application City File: A154/22

Hello,
I am writing to share some concerns about this application.

- 1.) The notice sign was not installed properly (size, display, and visibility), rather it seems on purposely made it unvisitable to people (see pictures took below on 7/4)
- 2.) City bylaw request a notice sign to be displayed 14x days, but the sign was just lay on the ground from last Thursday (June-30) , and most neighbors did not see it.
- 3.) The house was mainly used as rental/airbnb since 2017/2018, many people lived there. Neighbors do not support the application if the owner is trying to add additional units to accommodate more business, it's unfair and post risks to neighbors such as
 - a. Fire
 - b. Traffic
 - c. Environment/garbage
 - d. Other troubles

The request might appear as owners' business, but we call this neighborhood home... I plan to join the meeting in person to understand more about the application.... Thank you!
