To whom this may concern,

I am writing this letter ahead of time for the upcoming meeting on Dec 7th 2023 regarding file number B019/23

We are residents on Wallace St. since the construction started happening end of October ( that no one knew about) the road has been a mess and Mud tracked all down our street. Therefore making our driveways a mess. Not one company has made any efforts in cleaning/ sweeping the road, and becomes a huge mud bath when it rains. Lately it's been nothing but wet snow and rain which makes our street a disaster. We have a dog that we take for walks and to the dog park and their paws get covered in mud every time we leave the house. We have no side walks on Wallace street so we are forced to walk along the side of the road where all the mud is.

We were just informed last week he was digging when he shouldn't be and broke a main storm pipe and has caused nothing but havoc on our street as if our little street was busy enough. Now there are machines coming in daily getting unloaded right in front of our houses at 6:45 in the morning.

We have a young toddler that enjoys the outdoors. The reason we chose to live on this street was because it was a dead end, no traffic and over all a safe street to raise children. This streets infrastructure cannot handle anymore homes/buildings. Exiting our street is already a nightmare, there is no lights at the end of our street nor is there any signs NOT to block our street, or hidden road to let vehicles on highway 7 leave space. It makes our entrances and exits extremely dangerous. Especially if we try to head west on highway 7, it's a death sentence.

If you have any other questions about our letter please contact us.

Kayla & Adam  
218 Wallace St.

We would also like to be notified of the committee's decision on file B019/23  
Thank you.
