

Dear Neighbour, We are submitting a minor variance application to the City of Vaughan for the following reasons: Purpose of this application is to request consent for the constructed structures on the property; a gazebo built in 2021 and a shed in 2022. These structures are all under 100sqft and normally do not require zoning permits. However, due to the setback to the side fence we are requesting a variance to be approved. We are also requesting the proposal to build an additional gazebo and attach an awning to the house for shade, to be built in the future. We are petitioning your support to maintain the current structures and approve the proposal for future structures as well.

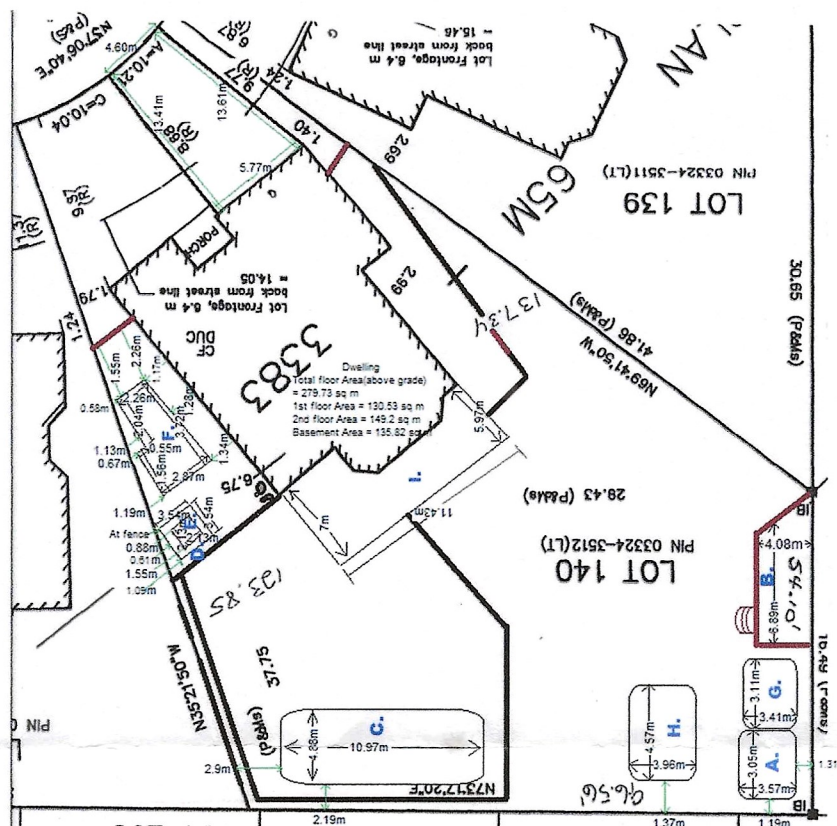

Your support is greatly appreciated. If there is any additional letters of support that you can provide please let me know.
