PUBLIC & APPLICANT CORRESPONDENCE

*Please see **Schedule C** of this report for a copy of the public & applicant correspondence listed below.

The deadline to submit public comments is **noon on the last business day prior to the scheduled hearing date.**

Comments and written public submissions received after the publication of this Staff Report will be processed as an addendum and posted on the City's Website.

All personal information collected because of this public meeting (including both written and oral submissions) is collected under the authority of the Municipal Act, the Municipal Freedom of Information and Protection of Privacy Act (MFIPPA), the Planning Act and all other relevant legislation, and will be used to assist in deciding on this matter. All personal information (as defined by MFIPPA), including (but not limited to) names, addresses, opinions and comments collected will become property of the City of Vaughan, will be made available for public disclosure (including being posted on the internet) and will be used to assist the Committee of Adjustment and staff to process this application.

**COMMITTEE OF ADJUSTMENT REPORT
MINOR VARIANCE APPLICATION
A051/23
194 POLO CRESCENT, WOODBRIDGE**

ITEM NUMBER: 6.8	CITY WARD #: 3
APPLICANT:	Charles & Nada Di Maria
AGENT:	Verus Design Inc.
PROPERTY:	194 Polo Crescent, Woodbridge
ZONING DESIGNATION:	See Below
VAUGHAN OFFICIAL PLAN (2010) DESIGNATION:	Vaughan Official Plan 2010 ('VOP 2010'): "Low-Rise Residential"
RELATED DEVELOPMENT APPLICATIONS:	None
PURPOSE OF APPLICATION:	Relief from the Zoning By-law is being requested to permit an existing cabana.

The following variances have been requested from the City's Zoning By-law:

The subject lands are zoned **R1A(EN) – First Density Residential Zone (Established Neighbourhood)** under Zoning By-law 001-2021, as amended.

#	Zoning By-law 001-2021	Variance requested
1	A residential accessory structure with a height greater than 2.8 m shall not be located closer than 2.4 m to any lot line. [Section 4.1.2.b]	To permit a residential accessory structure (Cabana) with a height greater than 2.8m to be located at a minimum of 0.6m from the rear lot line.
2	A residential accessory structure with a height greater than 2.8 m shall not be located closer than 2.4 m to any lot line. [Section 4.1.2.b]	To permit a residential accessory structure (Cabana) with a height greater than 2.8m to be located at a minimum of 0.6m from the interior side lot line.

HEARING INFORMATION

DATE OF MEETING: Thursday, May 11, 2023

TIME: 6:00 p.m.

MEETING LOCATION: Vaughan City Hall, Woodbridge Room (2nd Floor), 2141 Major Mackenzie Drive

LIVE STREAM LINK: Vaughan.ca/LiveCouncil

PUBLIC PARTICIPATION

If you would like to speak to the Committee of Adjustment at the meeting, either remotely or in person, please complete the [Request to Speak Form](#) and submit to cofa@vaughan.ca

If you would like to submit written comments, please quote file number above and submit by mail or email to:

Email: cofa@vaughan.ca

Mail: City of Vaughan, Office of the City Clerk, Committee of Adjustment, 2141 Major Mackenzie Drive, Vaughan, ON, L6A 1T1

To speak electronically, pre-registration is required by completing the [Request to Speak Form](#) on-line and submitting it to cofa@vaughan.ca no later than NOON on the last business day before the meeting.

THE DEADLINE TO REGISTER TO SPEAK ELECTRONICALLY OR SUBMIT WRITTEN COMMENTS ON THE ABOVE NOTED FILE(S) IS NOON ON THE LAST BUSINESS DAY BEFORE THE MEETING.

INTRODUCTION

Staff and Agencies act as advisory bodies to the Committee of Adjustment. The comments contained in this report are presented as recommendations to the Committee.

INTRODUCTION

Section 45(1) of the Planning Act sets the criteria for authorizing minor variances to the City of Vaughan's Zoning By-law. Accordingly, review of the application may consider the following:

- That the general intent and purpose of the by-law will be maintained.
- That the general intent and purpose of the official plan will be maintained.
- That the requested variance(s) is/are acceptable for the appropriate development of the subject lands.
- That the requested variance(s) is/are minor in nature.

Public written and oral submissions relating to this application are taken into consideration by the Committee of Adjustment as part of its deliberations and final decision on this matter.

COMMITTEE OF ADJUSTMENT COMMENTS

Date Public Notice Mailed:	April 27, 2023
Date Applicant Confirmed Posting of Sign:	April 25, 2023
Applicant Justification for Variances: <small>*As provided by Applicant in Application Form</small>	By-law requires the accessory structure to have the same setback as the main building.
Adjournment Requests (from staff): <small>*Adjournment requests provided to applicant prior to issuance of public notice</small>	On April 25, 2023, Development Planning provided: Development Planning has completed our review of the above noted Minor Variance Application and would like to echo our concerns regarding the cabana from the previous submission. Our Urban Design division have also provided the attached comments with the same concerns. We are recommending a revision to the cabana to reduce its length to improve the massing impacts on the neighbouring properties. Please note that the attached recommendation shows less of a removal than our previous recommendation, however, we believe this to be the minimum requirement for our concerns to be addressed.
Was a Zoning Review Waiver (ZRW) Form submitted by Applicant: <small>*ZRW Form may be used by applicant in instances where a revised submission is made, and zoning staff do not have an opportunity to review and confirm variances prior to the issuance of public notice. *A revised submission may be required to address staff / agency comments received as part of the application review process. *Where a zoning review has not been completed on a revised submission, an opportunity is provided to the applicant to adjourn the proposal prior to the issuance of public notice.</small>	No
Adjournment Fees: In accordance with Procedural By-law 069-2019, an Adjournment Fee is applicable to reschedule an application after the issuance of public notice where a request for adjournment has been provided to the applicant prior to the issuance of public notice. An Adjournment Fee can only be waived in instances where adjournment of an application is requested by the Committee or staff after the issuance of public notice.

DEVELOPMENT ENGINEERING COMMENTS

[Link to Grading Permit](#)
 [Link to Pool Permit](#)
 [Link to Curb Curt Permit](#)
 [Link Culvert Installation](#)

As the proposed cabana in the subject property is greater than 10 m², the Owner / Applicant needs to obtain a Lot Grading Permit from Development Inspection and Lot Grading Division of the City's Development Engineering Department. Please note any in-ground structure over 10 m² requires a Grading Permit. Please contact the Development Engineering Reviewer after receiving the Grading Permit to clear the condition. (Condition attached)

The proposed work by the Owner / Applicant is increasing the lot coverage on the subject property. The added hardscape may have impacts on the City's Storm Water management system. Development Engineering strongly encourages the Owner / Applicant introduce Low-Impact Development (LID) measures (e.g., bioswales, permeable pavers, rain gardens, rain barrels etc.) to reduce the impacts to the stormwater system. Should further information be required, please contact the Development Engineering COA reviewer.

The Development Engineering Department does not object to the Minor Variance application A051/23, subject to the following condition(s):

Development Engineering Recommended Conditions of Approval:	The Owner / Applicant shall submit the final Lot Grading and/or Servicing Plan to the Development Inspection and Lot Grading Division of the City's Development Engineering Department for final Lot Grading and/or Servicing Permit prior to any work being undertaken on the property. Please visit the Grading Permit page at City of Vaughan website to learn how to apply for the Grading Permit. If you have any questions about Grading Permit, please contact the Development Engineering Department by email at DEPermits@vaughan.ca.

SCHEDULES TO STAFF REPORT

*See Schedule for list of correspondence

Schedule A	Drawings & Plans Submitted with the Application
Schedule B	Staff & Agency Comments
Schedule C (if required)	Correspondence (Received from Public & Applicant)
Schedule D (if required)	Previous COA Decisions on the Subject Land

Should the Committee find it appropriate to approve this application in accordance with request and the sketch submitted with the application, as required by Ontario Regulation 200/96, the following conditions have been recommended:

SUMMARY OF RECOMMENDED CONDITIONS OF APPROVAL

All conditions of approval, unless otherwise stated, are considered to be incorporated into the approval “if required”. If a condition is no longer required after an approval is final and binding, the condition may be waived by the respective department or agency requesting conditional approval. A condition cannot be waived without written consent from the respective department or agency.

#	DEPARTMENT / AGENCY	CONDITION(S) DESCRIPTION
1	Development Engineering lan.reynolds@vaughan.ca	The Owner / Applicant shall submit the final Lot Grading and/or Servicing Plan to the Development Inspection and Lot Grading Division of the City’s Development Engineering Department for final Lot Grading and/or Servicing Permit prior to any work being undertaken on the property. Please visit the Grading Permit page at City of Vaughan website to learn how to apply for the Grading Permit. If you have any questions about Grading Permit, please contact the Development Engineering Department by email at DEPermits@vaughan.ca.

IMPORTANT INFORMATION – PLEASE READ

CONDITIONS: It is the responsibility of the owner/applicant and/or authorized agent to obtain and provide a clearance letter from respective department and/or agency (**see condition chart above for contact**). This letter must be provided to the Secretary-Treasurer to be finalized. All conditions must be cleared prior to the issuance of a Building Permit.

APPROVALS: Making any changes to your proposal after a decision has been made may impact the validity of the Committee’s decision.

An approval obtained from the Committee of Adjustment, where applicable, is tied to the building envelope shown on the plans and drawings submitted with the application and subject to the variance approval.

A building envelope is defined by the setbacks of the buildings and/or structures shown on the plans and drawings submitted with the application, as required by Ontario Regulation 200/96. Future development outside of an approved building envelope, where a minor variance was obtained, must comply with the provisions of the City’s Zoning By-law.

Elevation drawings are provided to reflect the style of roof (i.e. flat, mansard, gable etc.) to which a building height variance has been applied. Where a height variance is approved, building height is applied to the style of roof (as defined in the City’s Zoning By-law) shown on the elevation plans submitted with the application.

Architectural design features that are not regulated by the City’s Zoning By-law are not to be considered part of an approval unless specified in the Committee’s decision.

DEVELOPMENT CHARGES: That the payment of the Regional Development Charge, if required, is payable to the City of Vaughan before issuance of a building permit in accordance with the Development Charges Act and the Regional Development Charges By-law in effect at the time of payment.

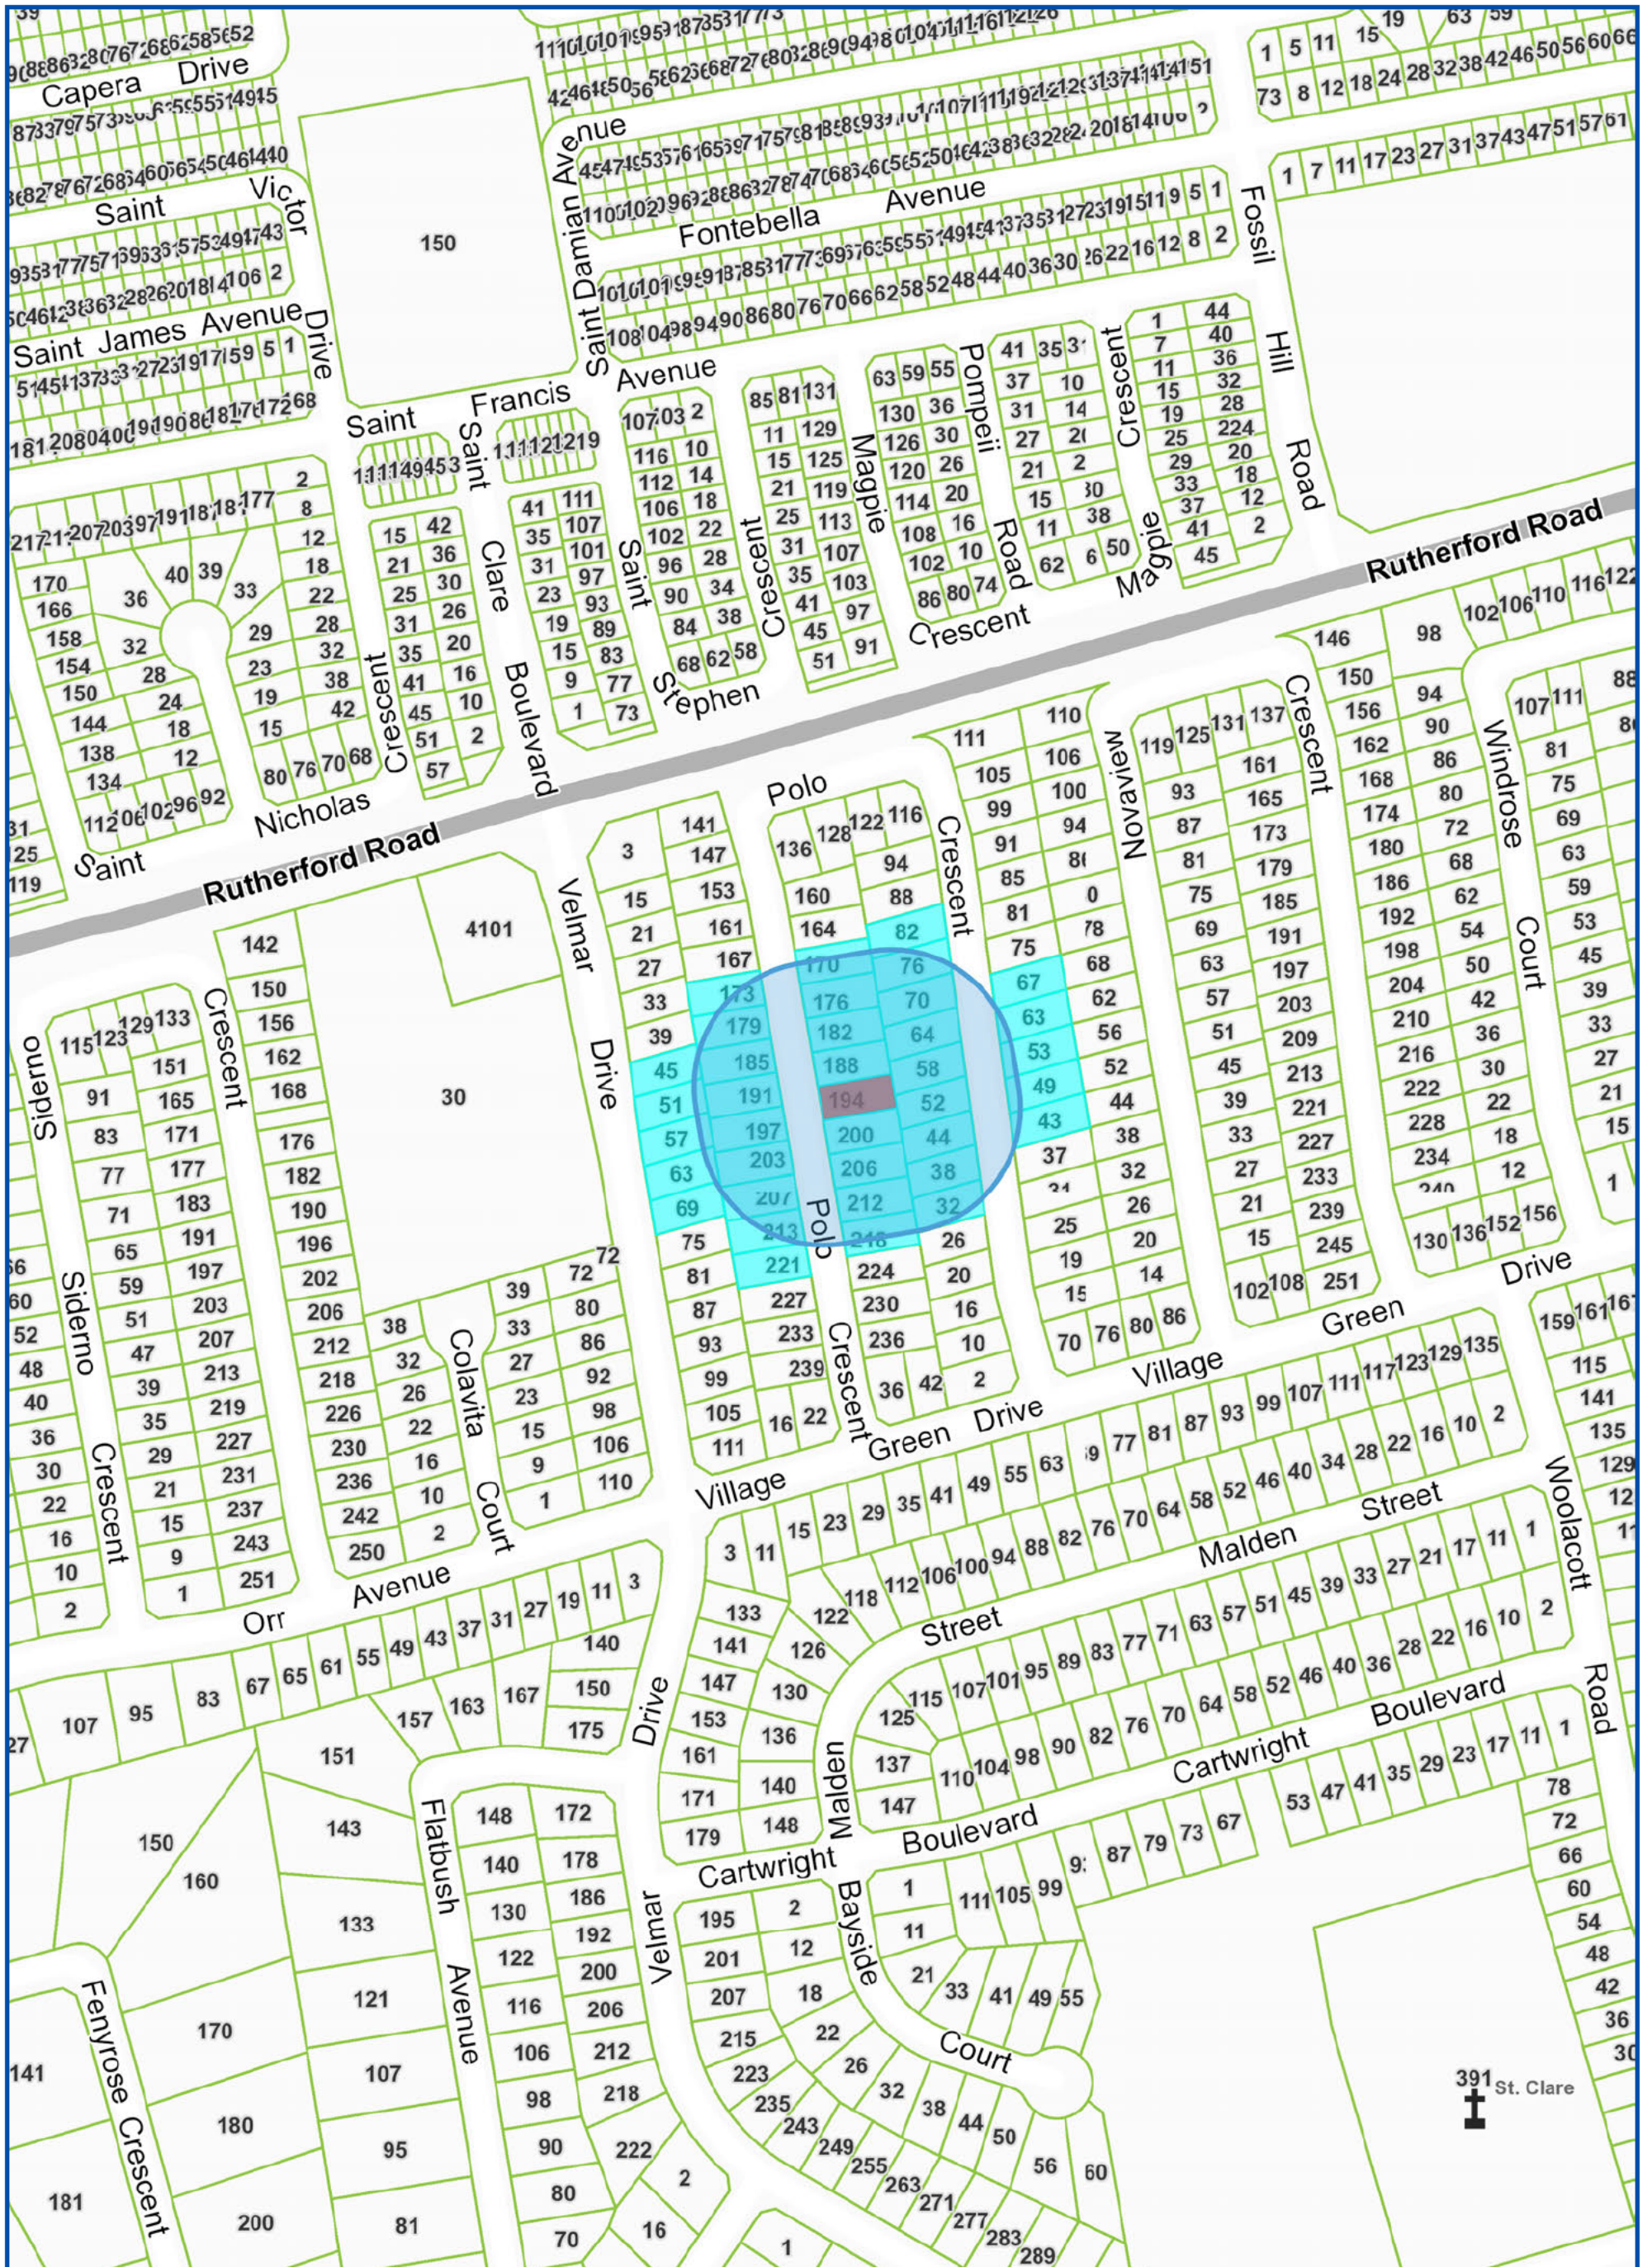

That the payment of the City Development Charge, if required, is payable to the City of Vaughan before issuance of a building permit in accordance with the Development Charges Act and the City’s Development Charges By-law in effect at the time of payment.

That the payment of the Education Development Charge if required, is payable to the City of Vaughan before issuance of a building permit in accordance with the Development Charges Act and the Boards of Education By-laws in effect at the time of payment

That the payment of Special Area Development charge, if required, is payable to the City of Vaughan before issuance of a building permit in accordance with the Development Charges Act and The City’s Development Charge By-law in effect at the time of Building permit issuance to the satisfaction of the Reserves/Capital Department.

NOTICE OF DECISION: If you wish to be notified of the decision in respect to this application or a related Ontario Land Tribunal (OLT) hearing you must complete a Request for Decision form and submit to the Secretary Treasurer (ask staff for details). In the absence of a written request to be notified of the Committee’s decision you will **not** receive notice.

COMMENTS:

- We have reviewed the proposed Variance Application and have no comments or objections to its approval.
- We have reviewed the proposed Variance Application and have no objections to its approval, subject to the following comments (attached below).
- We have reviewed the proposed Variance Application and have the following concerns (attached below).

Alectra Utilities (formerly PowerStream) has received and reviewed the proposed Variance Application. This review, however, does not imply any approval of the project or plan.

All proposed billboards, signs, and other structures associated with the project or plan must maintain minimum clearances to the existing overhead or underground electrical distribution system as specified by the applicable standards, codes and acts referenced.

In the event that construction commences, and the clearance between any component of the work/structure and the adjacent existing overhead and underground electrical distribution system violates the Occupational Health and Safety Act, the customer will be responsible for 100% of the costs associated with Alectra making the work area safe. All construction work will be required to stop until the safe limits of approach can be established.

In the event construction is completed, and the clearance between the constructed structure and the adjacent existing overhead and underground electrical distribution system violates the any of applicable standards, acts or codes referenced, the customer will be responsible for 100% of Alectra's cost for any relocation work.

To: Committee of Adjustment
From: Punya Marahatta, Building Standards Department
Date: April 17, 2023
Applicant: Charles & Nada Di Maria
Location: 194 Polo Crescent
 PLAN 65M-3625, Lot 10
File No.(s): A051/23

Zoning Classification:

The subject lands are zoned R1A(EN) – First Density Residential Zone (Established Neighbourhood) under Zoning By-law 001-2021, as amended.

#	Zoning By-law 001-2021	Variance requested
1	A residential accessory structure with a height greater than 2.8 m shall not be located closer than 2.4 m to any lot line. [Section 4.1.2.b]	To permit a residential accessory structure (Cabana) with a height greater than 2.8m to be located at a minimum of 0.6m from the rear lot line.
2	A residential accessory structure with a height greater than 2.8 m shall not be located closer than 2.4 m to any lot line. [Section 4.1.2.b]	To permit a residential accessory structure (Cabana) with a height greater than 2.8m to be located at a minimum of 0.6m from the interior side lot line.

Staff Comments:

Stop Work Order(s) and Order(s) to Comply:

There are no outstanding Orders on file.

Building Permit(s) Issued:

A Building Permit has not been issued. The Ontario Building Code requires a building permit for structures that exceed 10m².

Other Comments:

General Comments	
1	The applicant shall be advised that additional variances may be required upon review of detailed drawing for building permit/site plan approval.

Conditions of Approval:

If the committee finds merit in the application, the following conditions of approval are recommended.

* Comments are based on the review of documentation supplied with this application.

To: Christine Vigneault, Committee of Adjustment Secretary Treasurer
From: Nancy Tuckett, Director of Development Planning
Date: May 4, 2023
Name of Owners: Charles & Nada Di Maria
Location: 194 Polo Crescent
File No.(s): A051/23

Proposed Variance(s) (By-law 001-2021):

1. To permit a residential accessory structure (Cabana) with a height greater than 2.8 m to be located at a minimum of 0.6 m from the rear lot line.
2. To permit a residential accessory structure (Cabana) with a height greater than 2.8 m to be located at a minimum of 0.6 m from the interior side lot line.

By-Law Requirement(s) (By-law 001-2021):

1. A residential accessory structure with a height greater than 2.8 m shall not be located closer than 2.4 m to any lot line.
2. A residential accessory structure with a height greater than 2.8 m shall not be located closer than 2.4 m to any lot line.

Official Plan:

City of Vaughan Official Plan 2010 ('VOP 2010'): "Low-Rise Residential"

Comments:

The Owners are requesting relief to permit the existing cabana with the above noted variances.

The Development Planning Department has no objection to Variance 1 for the reduced rear yard setback to the cabana. The requested relief will be utilized by the north wall of the cabana which has a width of 3.18 m. The 3.18 m wall runs along a relatively small portion of the rear lot line. As such, the reduced rear yard setback will not pose adverse visual impacts to the neighbouring property to the rear and an appropriate area for maintenance access is maintained. The Development Engineering Department has also reviewed the proposal and is satisfied that drainage in the rear yard will be maintained.

The Development Planning Department is not in position to support Variance 2 for the reduced interior side yard setback to the cabana. The cabana proposes an enclosed washroom and pool equipment room and a covered outdoor lounge area. A flat roof design ranging in height from approximately 2.7 m to 2.93 m is proposed. The 10.88 m length of the cabana occupies about two thirds of the rear yard's depth. The combination of building length relative to rear yard depth and the building's proximity to the side lot line results in a significant amount of massing being imposed upon the neighbouring property. A function of an interior side yard setback is to restrict the built form's proximity to said lot line to address items such as massing and privacy. It is staff's opinion that permitting a cabana of this length where only a 0.6 m interior side yard setback remains is a substantial deviation from the zoning by-law's intent, is not minor in nature, nor desirable and appropriate for the use of the land. Adverse massing and privacy impacts are anticipated to the abutting rear yard to the west.

The washroom and pool equipment rooms and a smaller covered lounge area may be accommodated within a cabana with a reduced length. This would also address the massing impacts associated with a long continuous wall facing the west interior side lot line. As such, staff believe there are more appropriate built form alternatives which could provide for the desired uses. A smaller cabana proposal would reduce the massing impacts currently anticipated with the existing cabana.

Accordingly, the Development Planning Department cannot support Variance 2 and is of the opinion that the proposal is not minor in nature, does not maintain the general intent and purpose of the Zoning By-law, and is not desirable and appropriate for the development of the land.

The Development Planning Department can support Variance 1 and is of the opinion that the proposal is minor in nature, maintains the general intent and purpose of the Official Plan and Zoning By-law, and is desirable for the appropriate development of the land.

Recommendation:

The Development Planning Department recommends **refusal** of Variance 2 and **approval** of Variance 1.

Conditions of Approval:

If the Committee finds merit in the application, the following conditions of approval are recommended:

None

Hi Christine,

The Regional Municipality of York has completed its review of the above minor variance and has no comment.

Many thanks,

Our working hours may be different. Please do not feel obligated to reply outside of your scheduled working hours. Let's work together to help foster healthy work-life boundaries.

Date: Tuesday, May 2, 2023 8:01 53 AM

Good morning everyone:

We are extremely frustrated, shocked, confused & disappointed. Along with ourselves, there are two residents directly behind 194 Polo Crescent who oppose the structure. In addition, there is another resident, next door to my home, who also objects. 4 separate families which are directly impacted. The structure is EXCESSIVE and does not come close to adhering to the initial bylaw that was in place when this structure was erected - without a permit.

Clearly, the structure is too large as determined by the extent of the impact on neighbouring properties Primary issues raised include: loss of sunlight (we have several large windows in our home and this structure will impact morning sun and light) views, spacing and openness from NUMEROUS locations of our homes - all of this is a result of the mass, height and bulk of the proposed development In addition, there are issues related to drainage as we have trees planted directly below their arching roof.

My family's quality of life - loss of enjoyment in gardening (shade, shadowing) and loss of early morning sunlight - is a SIGNIFICANT factor and NEEDS to be considered Clearly, this structure is not desirable from a planning and public interest perspective; allowing a structure of this size sets a precedent and affects the broad public interest as it relates to the neighbourhood, accepted planning principles and the existing patterns of development Further, this structure is CLEARLY in no way compatible with the existing homes in the neighbourhood with respect to size, height, setback and close proximity to the side and rear fence. The character of our home and neighbourhood is deserving of protection! This development is not compatible and its negative visual impact is extreme and excessive! It destabilizes the character of our home and neighbourhood

A primary factor often considered by people motivated to purchase in our neighbourhood and community is the degree of spaciousness, sunlight and privacy that was dictated by zoning by-laws that existed when the neighbourhood was developed and more recently, A BY-LAW THAT WAS IN PLACE WHEN THIS STRUCTURE WAS BUILT!!! We paid a higher purchase price and continue to pay higher annual taxes for the enjoyment of these qualities and thus, as law abiding respectful citizens of Vaughan, WE ARE ENTITLED TO PROTECTION FROM A REDUCTION IN ZONING STANDARDS. WE SHOULD BE ABLE TO RELY UPON A MUNICIPALITIES FORMER ZONING POLICY, again the policy that was in place when this structure was built!! IT IS A BREACH OF TRUST WHEN THIS IS DIMINISHED!!!

GRADING & ELEVATION - There is an enormous cement pad that was built which raises their backyard elevation This structure REMAINS EXCESSIVE & TOWERS over our backyard

We will be pursuing this to the FULLEST extent. I can state with confidence that if any of you took the time to visit my home and entered my backyard, you would have a much greater sense of clarity and understanding in regards to the facts stated in this email.

Regards,

Robert Costabi e

Good morning,

My name is Ralph Greco and I am at 182 Polo Crescent in Woodbridge. I am reaching out in regards to the structure constructed in the rear yard at 194 Polo Crescent. This structure is excessive and the visual impact to our neighbourhood is of great concern to me. There is one property between my home and 194 Polo Crescent, and from my rear yard patio exit door, which is over 100 feet away, the structure is extremely visible. Beyond the dimensional height of the structure, it is important to also take into account the sizeable cement pad it sits on which adds to the overall height and makes the structure further stand out. This is in no way consistent with the desirable characteristics of our beautiful neighbourhood. When we purchased our home in this neighbourhood, the beauty, spaciousness, sunlight and privacy in our rear yard were key factors. The structure was in clear violation of the bylaw that was in place when the structure was erected. In addition no permit was issued. Allowing a structure of this size sets a precedent in our neighbourhood. I am strongly in opposition of this structure.

Regards,

Ralph Greco
