Re: Minor Variance Application No. A051/23 – Support

Please be advised that I am in full support of the cabana being proposed for 194 Polo Crescent.

It does not impede on any other properties and follows all zoning requirements with only a minor variance being requested.

Once this cabana is completed, it will actually assist in the increase of property values in this community.

I have no objection to the minor variance application.

Please contact me if you have any questions.

Regards,

John Arcadi
