---

Hi Christine and COFA members,

We are owners of 136 National Drive property.

We are not big experts in construction rules, codes and bylaws, but we are in full support of Melchior family objections as they are very clear for us.

We have built our house in 2011 and followed all City construction rules, bylaws and regulations. And we would expect the same respect and attitude to the rules and our neighbours we did during the construction of our house.

We are the same residents and should respect the law and each other in our neighbourhood, region, province and all Canada. No exceptions, no privileges.

Thanks.

Maria and Boris Guitline
