Good Morning!

Yesterday we had a meeting about 3300 Rutherford.

There are few most imp. things to keep in mind while taking any decisions for this area.

Always busy if you see map – shows always high traffic – due to Vaughan mills and Hy 400

Wonderland is not open today otherwise it adds up

Go station way is only this road.

Whatever they build – commercial and Keg etc. in this plaza, Engineers and developers thought properly and build in this area.

It matches with Vaughn mills sites, similar height . it is a bad idea to demolish these and then build another one.

There are so much open areas to build, not to demolish and build.

There are no buildings near houses anywhere in Vaughan.

We are 600 houses and any other high constructions blocking sun. giving more stress of traffic to us as a residents

Auto road is also causing problem to residents but whatever done, we cannot change so leave it as is.

No need any more in this area and don't make mess. To to little north to

develop. This area is already developed.

Don't even think to change anything – it proves that your earlier decision was wrong, or this decision is wrong.

There is no new school added in this area and on Jane street so many new buildings are under constructions – where children will go for school?

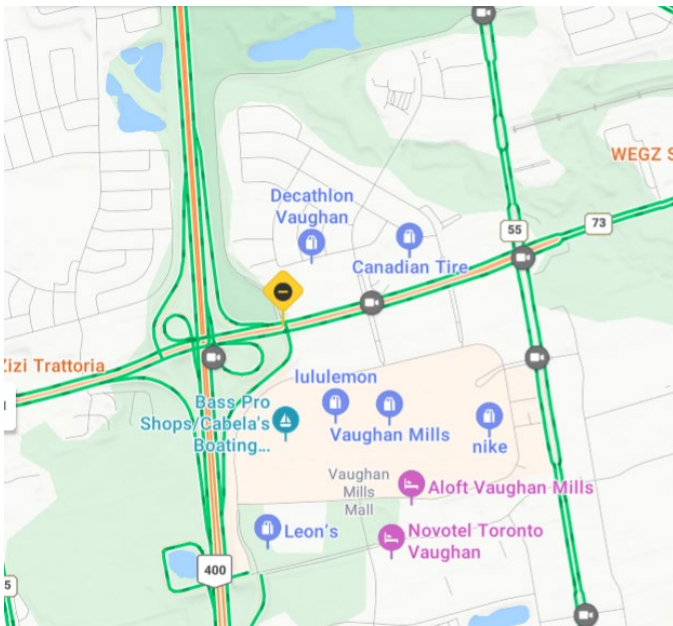

Not enough family Dr.'s available – where all these buildings people will go?

After all constructions on Jane St. buildings done will increase more traffic on the road so how you guys can think about adding more?

It is builder's mistake to buy this land – it is not our fault. We came here and living in here from 2002 and that time this area was designated for grocery shop.

Not like adding any other ones. Otherwise, we shouldn't buy our residence in here. So from all our residence it is BIG NO for any change in this Plaza.

Time taken this – 7.32 am
