We need the City Of Vaughan to investigate who approved this change to slightly make a change to fly East (Contour adjustment) in order to infiltrate our Community ?

Not only are we infiltrated by Boeing planes; we have these helicopters flying above our homes at very fast speed, low altitudes, making a scary loud noise and pollute the air we breathe !

We have had enough !!!

We want answers and request that this illegal infiltration of our airspace as we are calling it the "Wild Wild West" and "Willie Nillie" STOP !

We DO NOT COMPLY !

The image is a screenshot of a mobile phone interface. At the top, the time is 12:16, and there are icons for cellular signal, Wi-Fi, and battery. Below the status bar is a horizontal carousel of five product images: a person in a brown leather outfit, a person in an orange and white striped shirt and shorts, a person in a pink top and denim shorts, a dark blue sneaker, and a hand holding a pair of purple-rimmed glasses. To the right of the carousel is a play button icon and a red button with the TEMU logo. Below the carousel is a flight radar map from Flightradar24. The map shows a green line representing a flight path over a rural area. Labels on the map include 'Mono', 'Hockley Valley Provincial Nature Reserve', 'Cardwell', and 'Glen Cross'. Highway shields for 10 and 7 are also visible.

AI is not as intelligent as you all think !

STOP Flying over our Community !

Maybe GTAA needs to follow the law and get a Human with compassion for people and get rid of AI who obviously doesn't know direction and is intentionally attacking Committees.

Stop ! Leave us alone !

We are getting nowhere and very exhausted with all this finger pointing and observe more time is spent on "superficial photo ops" instead of addressing real issues in Vaughan !

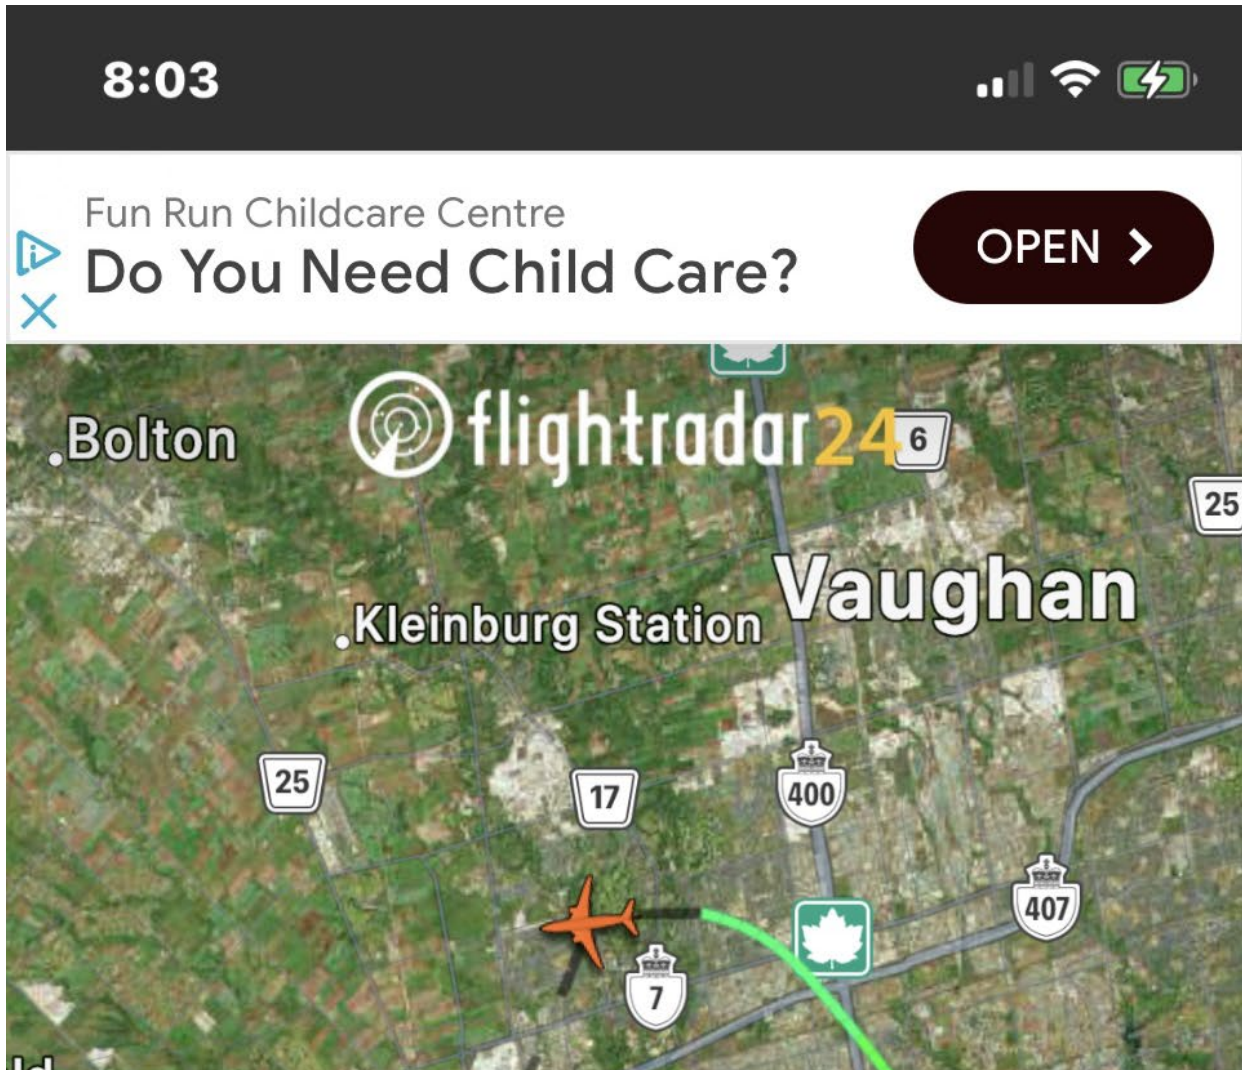

Enough is Enough !

This "Willie Nillie" "Wild Wild West" "untraceable" "test runs" above our airspace in Vaughan is "killing us"

Not to mention "Wild Wild West Planning" on the ground that supports the reason for the "Wild Wild West in the Sky" !!!

Health and Safety as well as Crime are all being ignored !

Mayor and Members of Council need to focus on the real issues caused by their decisions.

We received confirmation from the City's Integrity Commissioner that the City of Vaughan Mayor and Members of council did not approve airplanes flying over our airspace in our Community in Vaughan.

Why is GTAA still illegally trespassing continuously without permission?

Stop flying over our airspace illegally !

Stop flying Boeing airplanes over our community !

Why did the Federal Government refuse to approve a health study; formal requests from GTAA were provided and Federal Government ignored four times !

Stop killing us !

Francesco as GTAA Chair and MP; why have you not been successful in obtaining a health study ?

What actions have you taken ?

How many deaths have there been with this "Willie Nil lie" illegal flying path in Vaughan?

How many trees and human life have been affected by this "Willie Nil lie" "Wild Wild West flying" in Vaughan?

Is GTAA monitoring the damages caused?

Who compensates and has Corporate Insurance to address all the damages caused?

There is No Governance process in place to support a "Willie Nil lie" "Wild Wild West" untraceable "test runs" approach; why continue in this manner without it?

Your actions speak louder than "superficial photo ops"

We DID NOT COMPLY
We DO NOT COMPLY
We WILL NOT COMPLY

You DO NOT have the Authority !

Stay away from our Community !
