**INTRODUCTION**

Staff and Agencies act as advisory bodies to the Committee of Adjustment. The comments contained in this report are presented as recommendations to the Committee.

Section 45(1) of the Planning Act sets the criteria for authorizing minor variances to the City of Vaughan's Zoning By-law. Accordingly, review of the application may consider the following:

- That the general intent and purpose of the by-law will be maintained.
- That the general intent and purpose of the official plan will be maintained.

## INTRODUCTION

That the requested variance(s) is/are acceptable for the appropriate development of the subject lands.  
That the requested variance(s) is/are minor in nature.

Public written and oral submissions relating to this application are taken into consideration by the Committee of Adjustment as part of its deliberations and final decision on this matter.

## COMMITTEE OF ADJUSTMENT

<b>Date Public Notice Mailed:</b>	June 6, 2024
<b>Date Applicant Confirmed Posting of Sign:</b>	May 16, 2024
<b>Applicant Justification for Variances:</b> <small>*As provided in Application Form</small>	Our zoning examiner says that the minimum setback is 7.5m, while the survey shows the house itself (along with all the neighboring properties) have a setback of 7m or less. He said it is because under the previous bylaw the setback requirement was 6m and now it is 7.5 under the new bylaw. With that said, we won't be able to install the structure in the rear yard.
<b>Was a Zoning Review Waiver (ZRW) Form submitted by Applicant:</b> <small>*ZRW Form may be used by applicant in instances where a revised submission is made, and zoning staff do not have an opportunity to review and confirm variances prior to the issuance of public notice.</small>	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>

## RECOMMENDED CONDITIONS OF APPROVAL SUMMARY

Should the Committee find it appropriate to approve this application in accordance with request and the sketch submitted with the application, as required by Ontario Regulation 200/96, the following conditions have been recommended:

#	DEPARTMENT / AGENCY	CONDITION
None		

*All conditions of approval, unless otherwise stated, are considered to be incorporated into the approval “if required”. If a condition is no longer required after an approval is final and binding, the condition may be waived by the respective department or agency requesting conditional approval. A condition cannot be waived without written consent from the respective department or agency.*

## IMPORTANT INFORMATION

**CONDITIONS:** It is the responsibility of the owner/applicant and/or authorized agent to obtain and provide a clearance letter from respective department and/or agency (**see condition chart above for contact**). This letter must be provided to the Secretary-Treasurer to be finalized. All conditions must be cleared prior to the issuance of a Building Permit.

**APPROVALS:** Making any changes to your proposal after a decision has been made may impact the validity of the Committee’s decision.

An approval obtained from the Committee of Adjustment, where applicable, is tied to the building envelope shown on the plans and drawings submitted with the application and subject to the variance approval.

A building envelope is defined by the setbacks of the buildings and/or structures shown on the plans and drawings submitted with the application, as required by Ontario Regulation 200/96. Future development outside of an approved building envelope, where a minor variance was obtained, must comply with the provisions of the City’s Zoning By-law.

Elevation drawings are provided to reflect the style of roof (i.e. flat, mansard, gable etc.) to which a building height variance has been applied. Where a height variance is approved, building height is applied to the style of roof (as defined in the City’s Zoning By-law) shown on the elevation plans submitted with the application.

Architectural design features that are not regulated by the City’s Zoning By-law are not to be considered part of an approval unless specified in the Committee’s decision.

**DEVELOPMENT CHARGES:** That the payment of the Regional Development Charge, if required, is payable to the City of Vaughan before issuance of a building permit in accordance with the Development Charges Act and the Regional Development Charges By-law in effect at the time of payment.

That the payment of the City Development Charge, if required, is payable to the City of Vaughan before issuance of a building permit in accordance with the Development Charges Act and the City’s Development Charges By-law in effect at the time of payment.

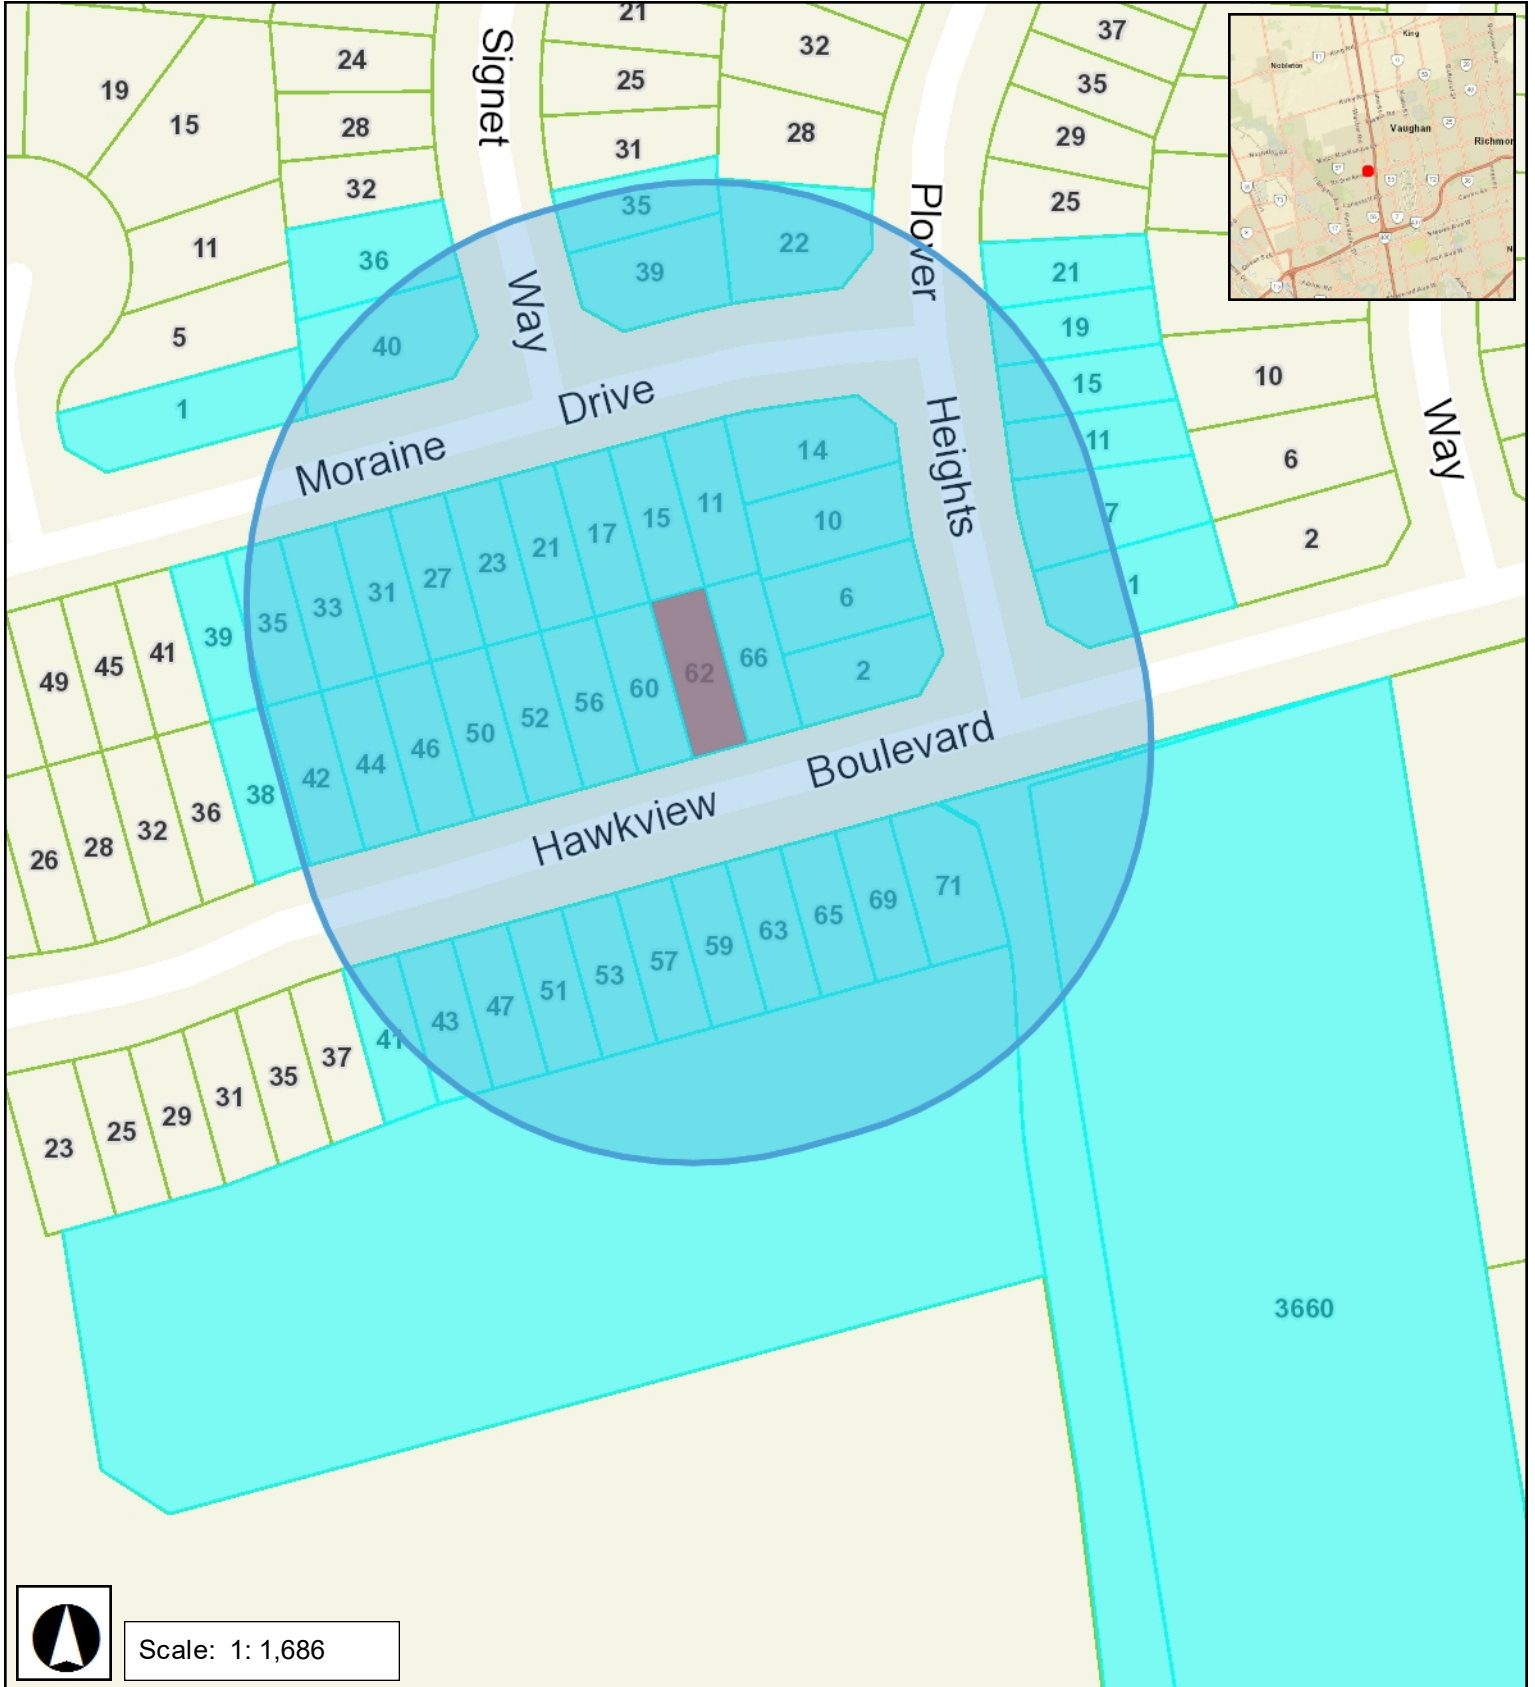

That the payment of the Education Development Charge if required, is payable to the City of Vaughan before issuance of a building permit in accordance with the Development Charges Act and the Boards of Education By-laws in effect at the time of payment

That the payment of Special Area Development charge, if required, is payable to the City of Vaughan before issuance of a building permit in accordance with the Development Charges Act and The City’s Development Charge By-law in effect at the time of Building permit issuance to the satisfaction of the Reserves/Capital Department.

**NOTICE OF DECISION:** If you wish to be notified of the decision in respect to this application or a related Ontario Land Tribunal (OLT) hearing you must complete a Request for Decision form and submit to the Secretary Treasurer (ask staff for details). In the absence of a written request to be notified of the Committee’s decision you will **not** receive notice.

### COMMENTS:

- We have reviewed the proposed Variance Application and have no comments or objections to its approval.
- We have reviewed the proposed Variance Application and have no objections to its approval, subject to the following comments (attached below).
- We have reviewed the proposed Variance Application and have the following concerns (attached below).

Alectra Utilities (formerly PowerStream) has received and reviewed the proposed Variance Application. This review, however, does not imply any approval of the project or plan.

All proposed billboards, signs, and other structures associated with the project or plan must maintain minimum clearances to the existing overhead or underground electrical distribution system as specified by the applicable standards, codes and acts referenced.

In the event that construction commences, and the clearance between any component of the work/structure and the adjacent existing overhead and underground electrical distribution system violates the Occupational Health and Safety Act, the customer will be responsible for 100% of the costs associated with Alectra making the work area safe. All construction work will be required to stop until the safe limits of approach can be established.

In the event construction is completed, and the clearance between the constructed structure and the adjacent existing overhead and underground electrical distribution system violates the any of applicable standards, acts or codes referenced, the customer will be responsible for 100% of Alectra's cost for any relocation work.

**Proposed Variance(s) (By-law 001-2021):**

1. To permit a minimum rear yard of 3.85m.

**By-Law Requirement(s) (By-law 001-2021):**

1. The minimum required rear yard is 7.5m.

**Official Plan:**

Vaughan Official Plan 2010 ('VOP 2010'): "Low-Rise Residential"

**Comments:**

The Owner is requesting relief to permit the construction of a proposed single storey sunroom addition to the dwelling with the above noted variance. The sunroom is attached to and abuts slightly less than half of the eastern portion of the dwelling's rear wall.

Development Planning Department Staff have no objection to the requested variance. The proposed sunroom is relatively modest in footprint and mass. The roof would run on a slight incline up to the dwelling. At the sunroom roof's highest point, it is at or slightly above the ceiling height of the dwelling's first floor. It is also proposed to be in-line with the dwelling's east wall, compliant with the interior side yard setback requirement. Minimal use and massing impacts on the neighbouring properties to the east (66 Hawkview Boulevard), west (60 Hawkview Boulevard), and north (15 Moraine Drive) are anticipated as a result of the proposed 3.85 metre rear yard setback.

The proposed sunroom's footprint is modest as the lot coverage requirement of the Zoning By-law is maintained and it abuts a little less than half the dwelling's rear wall. Additionally, the modest footprint provides a sufficient rear yard amenity area and ample open space in-front of the remainder of the dwelling's rear wall.

Accordingly, Development Planning Department Staff support the requested variance and are of the opinion that the proposal is minor in nature, maintains the general intent and purpose of the Official Plan and Zoning By-law, and is desirable for the appropriate development of the land.

**Recommendation:**

Development Planning Department Staff recommends approval of the application.

**Conditions of Approval:**

If the Committee finds merit in the application, the following conditions of approval are recommended:

None.

Dear Committee of Adjustment,

I am writing to provide additional clarity on the purpose of our application for relief from the provisions of Section 7.2.4 Table 7-5 under By-law 001-2021, as amended. Our request pertains to the construction of a proposed enclosed deck at the rear of the existing single-detached dwelling.

The proposed deck necessitates a reduced minimum rear yard setback, hence our application for relief. Our intention is to enhance the functionality and livability of the property while ensuring compliance with applicable regulations.

	<b>By-Law Requirement</b>	<b>Proposed</b>	<b>Deficiency</b>
<b>Minimum Rear Yard Setback</b>	7.50m	3.85 m	3.65m

For reference, please find attached the drawing illustrating the site plan related to our submission. We believe that providing this context will contribute to a better understanding of our proposal.

Thank you for considering our application. We are eager to engage in further discussion and collaboration to ensure a positive outcome for all stakeholders involved.

Sincerely,

Action Home Services Inc.
