Recommendations

1. THAT the Tourism Vaughan Corporation – 2023 Year in Review is received for information.

Background

Economic Development works to profile and support Vaughan's transformative, ambitious and purpose-driven economy to make Vaughan a place where entrepreneurship, business, tourism, and art can prosper and grow.

Vaughan is **Transformative**. Our economy and business community continue to change the way business is done. The Economic Development department enables transformative projects.

Vaughan is **Ambitious**. The City of Vaughan undertakes world-class projects that elevate opportunities for our talent and businesses that strive to lead their industries.

Vaughan is **Purpose-Driven**. The City of Vaughan is proud to lead a community that is dedicated to doing business with purpose. Our community works to build Vaughan as a vibrant and inclusive community where all can prosper.

The Tourism Vaughan Corporation (TVC) is Vaughan's destination marketing and development organization (DMO) with the mission to develop and promote Vaughan as a tourist destination for visitors and business travelers.

To achieve these goals, the TVC's plan and budget utilize 50 per cent of the revenues generated by the Vaughan Municipal Accommodation Tax (MAT) pursuant to By-law 029-2019.

The TVC began operations in Q4 of 2019.

As a municipal services corporation, the TVC is operated by city staff within the City of Vaughan's Economic Development Department in the Office of Communications and Economic Development (City Manager's Office).

The TVC is guided by the following Council-approved initiatives:

- The City of Vaughan's Term of Council Strategic Plan
- The 2020-2023 Economic Development (ED) Strategic Business Plan
- The Vaughan Business Resilience Plan - an addendum to ED's existing business plan because of the COVID-19 pandemic to build readiness, resourcefulness, and resilience into Vaughan's business community, inclusive of the tourism sector.
- The Vaughan Destination Master Plan
- Advantage Vaughan – Phase 3 of the City's Economic Development response to the pandemic

The Council-approved Vaughan Destination Master Plan (VDMP) lays out a comprehensive plan for the development of Vaughan’s tourism-related industry cluster and serves as the basis for the TVC Action Plan.

In October 2021, the VDMP was approved by Council. The VDMP sets out a strong organizational foundation to guide industry partners and municipal investment and to develop Vaughan as a premier destination over the next five years. It recommends specific action items to enhance visitor attraction, infrastructure, physical assets, and visitor experience programs and services.

The plan identifies five strategic priorities upon which the Tourism Vaughan Action Plan has been developed:

1. governance and city policy framework;
2. product development;
3. partnerships;
4. marketing and communications; and
5. research and data analysis.

Analysis and Options

Vaughan’s tourism outlook shows steady year-over-year growth, succeeding pre-pandemic (2019) levels. Many industries within the tourism sector have seen full visitation recovery, and even exceeded their previous visitation history; however, other industries such as food and beverage and retail continue to struggle to return to pre-pandemic levels.

The growing demand for tourism and travel has brought back much-needed visitation, as seen by the record-breaking 2023 accommodations occupancy rate in Vaughan since the implementation of the Municipal Accommodations Tax. This increased demand has put pressure on tourism businesses and organizations to operate with the expectation of high service quality while facing staff shortages, a skills gap, pandemic-related debt and higher operational costs¹. With inflation increasing, these challenges become an increasing concern for 2024. Despite such challenges, the vitality and resiliency of Vaughan’s tourism industry remains positive and shows signs for continued growth in 2024.

In 2023, the annual accommodations occupancy rate was 80.0 per cent, 6.2 percentage points higher than the 2022 occupancy rate². The substantial increase reinforces the understanding that people wish to travel and participate in tourism activities more now than even before the pandemic. This growth, however, must still be considered alongside the increased challenges tourism businesses and organizations face in meeting these demands³. While tourism is still expected to be a growth driver for Vaughan in 2024, the growth rate will not be as significant as the one seen between 2022-2023.
