# Transportation and Infrastructure Advisory Committee – Action Log

Key Themes & Priorities – TO BE CONFIRMED by Transportation and Infrastructure Advisory Committee (TIAC) May 27, 2024

1	Data Management and KPI Tracking
2	Encourage Sustainable Transportation
4	Advocacy

May 2024

<u>No.</u>	<u>Action</u>	<u>Priority Areas</u>	<u>TIAC Action/Notes</u>	<u>City Staff Action/Notes</u>
1	Data Management and KPI Tracking	A. Collect and analyze additional sources of transportation data such as Open Data, GPS, Bluetooth, embedded sensors and commercially available datasets.	<ul style="list-style-type: none"> <li>Act as a stakeholder and support development of Transportation Planning Data Management Strategy.</li> </ul>	Coordinate a presentation on Transportation Planning Data Management Strategy
		B. Incorporate data collection devices into all transportation construction projects.		
2.	Encourage Sustainable Transportation	A. MoveSmart Mobility Management Strategy, specifically the Road Safety Program, the Sustainable Mobility Program, and the Active School Travel Pilot to encourage greater use of alternative modes	<ul style="list-style-type: none"> <li>Review background and reports</li> </ul>	<ul style="list-style-type: none"> <li>Provide updates on any on-going Neighbourhood Traffic Calming Plans</li> <li>Provide March 2024 Council Report</li> </ul>
		B. Implement recommendations of the Pedestrian and Bicycle Master Plan, including providing separated pedestrian and cycling	<ul style="list-style-type: none"> <li>Review background and reports</li> </ul>	<ul style="list-style-type: none"> <li>Provide March 2024 Council Report</li> </ul>

1	Data Management and KPI Tracking
3	Encourage Sustainable Transportation
4	Advocacy

No.	Action	Priority Areas	TIAC Action/Notes	City Staff Action/Notes
		facilities consistent with the Contextual Guidance for Selecting All Ages and Abilities Cycling Facilities.		
		C. Continue implementing the Transportation Demand Management Guidelines which encourage new developments to incentivize transit ridership, and provide bicycle parking and amenities.	<ul style="list-style-type: none"> <li>Review tool-kit and provide comments/recommendations for improvement.</li> </ul>	<ul style="list-style-type: none"> <li>Coordinate presentation on TDM tool-kit</li> </ul>
		D. Encourage and promote development in intensification areas and corridors by reducing reliance on single-occupant vehicles through lowered mandatory parking requirements for residents, increasing transit frequency and affordability, and enhancing transit and active transportation coverage and safety.		
3	Investigate new or enhance existing non-fare transit revenue to fund future improvements.	A. Recommend that this report be forwarded to York Region and request that comments / actions be communicated to a future Council meeting.	<ul style="list-style-type: none"> <li>Review opportunities and make recommendations</li> </ul>	<ul style="list-style-type: none"> <li>Investigate any current available funding options.</li> </ul>

1	Data Management and KPI Tracking
3	Encourage Sustainable Transportation
4	Advocacy

# Transportation and Infrastructure Advisory Committee – Action

Key Themes – CONFIRMED by Transportation and Infrastructure Advisory Committee (TIAC) at March 18, 2024 meeting

1	Data Management and KPI Tracking
2	Improved Transit
3	Encourage Sustainable Transportation
4	Advocacy to the Province

### Action Category Definitions:

Reaffirm Support – Reaffirm original action and send back to City staff to continue their implementation

Prioritize for TIAC – Action is to be further explored, update as required and identified as New Action for 2022-2026 TIAC

Close Action – Action has been fulfilled and no longer active.

March 18, 2024

No.	Action	Action Category	Background	TIAC Action/Notes
1.	Incentivize major employment developments within the City so that residents can live and work in Vaughan.	Reaffirm Support <input type="checkbox"/> Prioritize for TIAC <input checked="" type="checkbox"/> Close Action <input type="checkbox"/>	<p>Through the official plan review City staff will propose policies that continue to protect the City’s employment lands from being converted to other uses and that permit greater flexibility with respect to land uses in employment lands to enhance their long-term viability.</p> <p>Vaughan Economic Development is partner in the recently launched Mobility Demonstration Zone which supports small and medium-sized enterprises in advancing automotive and smart</p>	<ul style="list-style-type: none"> <li>Land use is managed through the City’s Official Plan</li> <li>Follow up with Land use schedule to AC</li> <li>Protect wide variety of employment areas to ensure employment and transportation network supports the appropriate land use</li> <li>Balance employment with residential</li> </ul> <p><b>TIAC ACTION:</b></p> <ul style="list-style-type: none"> <li>Prioritize and move forward for further discussion.</li> </ul>

1	Data Management and KPI Tracking
2	Improved Transit
3	Encourage Sustainable Transportation
4	Advocacy to the Province

No.	Action	Action Category	Background	TIAC Action/Notes
			mobility. <a href="#">Please see June 2023 Council report for more details.</a>	<b>CITY STAFF ACTION:</b> <ul style="list-style-type: none"> <li>• Provide current Land use schedule</li> <li>• Provide regular updates on conversion applications – employment to residential</li> </ul>
2.	Implement the Rutherford Maple GO Mobility On-Request Pilot Project to reduce the number of transit users who drive and park at GO stations.	Reaffirm Support <input checked="" type="checkbox"/> Prioritize for TIAC <input type="checkbox"/> Close Action <input type="checkbox"/>	Pilot Project in service from May 2022 to May 2023. Service adopted by YRT as of May 2023 Please <a href="#">see related communication</a> for more details.	<ul style="list-style-type: none"> <li>• Concern around whether a new pilot would be viable and cost effective.</li> <li>• WFH impacting GO ridership, lower than pre-COVID</li> <li>• Parking at GO stations is not fully utilized.</li> <li>• YRT – check in on 2025 service</li> <li>• YRT – questions on how pilots are communicated to public</li> <li>• Recommend greater visibility on first and last mile options to destinations – GO transit stations</li> </ul> <b>TIAC ACTION:</b> <ul style="list-style-type: none"> <li>• Reaffirm Support</li> </ul> <b>CITY STAFF ACTION:</b> <ul style="list-style-type: none"> <li>• Upon request, coordinate with YRT to present to TIAC.</li> </ul>
3.	Implement the MoveSmart Mobility Management Strategy, specifically the Road Safety Program, the Sustainable Mobility	Reaffirm Support <input checked="" type="checkbox"/> Prioritize for TIAC <input type="checkbox"/> Close Action <input type="checkbox"/>	The Neighbourhood Traffic Calming Plan is underway and expected to be completed in 2024. This Plan will update the City’s existing Neighbourhood Traffic Calming Policy and Procedure, create a toolbox of traffic calming measures, and	<ul style="list-style-type: none"> <li>• Request YRP participation – interest in status of enforcement results of Traffic Calming Plans</li> <li>• YRP key stakeholder member in Traffic Calming Plans</li> </ul>

<u>No.</u>	<u>Action</u>	<u>Action Category</u>	<u>Background</u>	<u>TIAC Action/Notes</u>
	for Selecting All Ages and Abilities Cycling Facilities.			
6.	Continue implementing the Transportation Demand Management Guidelines which encourage new developments to incentivize transit ridership, and provide bicycle parking and amenities.	Reaffirm Support <input type="checkbox"/> Prioritize for TIAC <input checked="" type="checkbox"/> Close Action <input type="checkbox"/>	Staff consistently request all development applications to review TDM Guideline and Toolkit and provide TDM and active transportation measures as applicable to their sites.	<ul style="list-style-type: none"> <li>• <b>Need to consider how micromobility devices are stored – include in TDM guidelines – how designed and incorporated into development applications</b></li> <li>• <b>Ensure TDM guidelines and requirements result in meaningful results</b></li> <li>• <b>Bring back more information on toolkit – AC to review and make recommendations</b></li> <li>• <b>Development Engineering to provide presentation</b></li> <li>• <b>Transit information included as new developments and scaled appropriately</b></li> <li>• <b>Transit monitors – next departures should be included at VMC</b></li> </ul> <p><b>TIAC ACTION:</b></p> <ul style="list-style-type: none"> <li>• <b>Prioritize Action</b></li> <li>• <b>Review TDM Toolkit and move forward for further discussion.</b></li> </ul> <p><b>CITY STAFF ACTION:</b></p> <ul style="list-style-type: none"> <li>• <b>Coordinate staff presentation on TDM Tool Kit</b></li> </ul>

1	Data Management and KPI Tracking
2	Improved Transit
3	Encourage Sustainable Transportation
4	Advocacy to the Province

<u>No.</u>	<u>Action</u>	<u>Action Category</u>	<u>Background</u>	<u>TIAC Action/Notes</u>
7.	Implement a transportation pilot program which will test new forms and methods of offering non-auto travel to residents and businesses.	Reaffirm Support <input checked="" type="checkbox"/> Prioritize for TIAC <input type="checkbox"/> Close Action <input type="checkbox"/>	Report to Council on the <a href="#">Transportation Innovation Program in June 2023</a> . Please see <a href="#">Communication for more details</a> .	<b>TIAC ACTION:</b> <ul style="list-style-type: none"> <li>Reaffirm Support</li> </ul> <b>CITY STAFF ACTION:</b> <ul style="list-style-type: none"> <li>Nothing further at this time.</li> </ul>
8.	Encourage and promote development in intensification areas and corridors by reducing reliance on single-occupant vehicles through lowered mandatory parking requirements for residents, increasing transit frequency and affordability, and enhancing transit and active transportation coverage and safety.	Reaffirm Support <input type="checkbox"/> Prioritize for TIAC <input checked="" type="checkbox"/> Close Action <input type="checkbox"/>	Staff continue working with Applicants to encourage provision of parking supply do not exceed the minimum parking requirements for each land use and the implementation of safe active transportation facilities with each development application.  The City's official plan policies promote intensification along its intensification corridor's that contain higher order transit like the subway, GO and BRT lines. These areas will be further intensified through the City's updated official plan in accordance with Provincial and Regional land use planning policy	<ul style="list-style-type: none"> <li>Protect green space and parkland to ensure livable city</li> <li>Ensure that densities and infrastructure are planned to support transit</li> <li>AC supports "transit oriented development"</li> </ul> <b>TIAC ACTION:</b> <ul style="list-style-type: none"> <li>Prioritize Action</li> </ul> <b>CITY STAFF ACTION:</b> <ul style="list-style-type: none"> <li>Nothing further at this time.</li> </ul>
9.	Improve safety at pedestrian crossings through the MoveSmart Mobility Management	Reaffirm Support <input type="checkbox"/> Prioritize for TIAC <input checked="" type="checkbox"/>	Pedestrian Enhancement Plan expected to launch in Q4 2023.	<b>TIAC ACTION:</b> <ul style="list-style-type: none"> <li>Prioritize Action</li> </ul> <b>CITY STAFF ACTION:</b> <ul style="list-style-type: none"> <li>Nothing further at this time.</li> </ul>

1	Data Management and KPI Tracking
2	Improved Transit
3	Encourage Sustainable Transportation
4	Advocacy to the Province

<u>No.</u>	<u>Action</u>	<u>Action Category</u>	<u>Background</u>	<u>TIAC Action/Notes</u>
	Strategy, including the consideration of improved pavement markings, providing pedestrian signals and/or countdown timers, incorporating leading pedestrian intervals at signalized intersections and implementing pedestrian "scramble" phases at appropriate locations.	Close Action <input type="checkbox"/>	Continue to implement new pedestrian crosswalks through pavement markings program in 2024.  Continue to implement pedestrian countdown timers at signalized intersection. Continue to identify pedestrian crossovers for implementation through traffic operational studies, corridor reviews, and neighbourhood area traffic studies	
10.	Incorporate mixed-use or residential developments above and surrounding existing or new parking structures at transit hubs.	Reaffirm Support <input checked="" type="checkbox"/> Prioritize for TIAC <input type="checkbox"/> Close Action <input type="checkbox"/>	New policies to support mixed-use or residential above parking structures and transit hubs may be incorporated through Phase 2 of the official plan review.	<b>TIAC ACTION:</b> • Reaffirm Support <b>CITY STAFF ACTION:</b> • Nothing further at this time.
11.	Design signalized intersections along the BRT corridors for all ages and abilities with adequate signal timing plans to manage conflicts between u-turning and right-turning vehicles.	Reaffirm Support <input checked="" type="checkbox"/> Prioritize for TIAC <input type="checkbox"/> Close Action <input type="checkbox"/>	Major BRT corridors are along regional roads and York Region transit is operated by the Region. City staff will continue to work with the Region on road reconstruction projects, corridor operational studies, and signal timing coordination.	<b>TIAC ACTION:</b> • Reaffirm Support <b>CITY STAFF ACTION:</b> • Nothing further at this time.

Transportation and Infrastructure

Advisory Committee – September 18, 2024

Item No. 2

# Transportation & Infrastructure Advisory Committee

September 18, 2024

**MOBILITY  
ACTION PLAN**

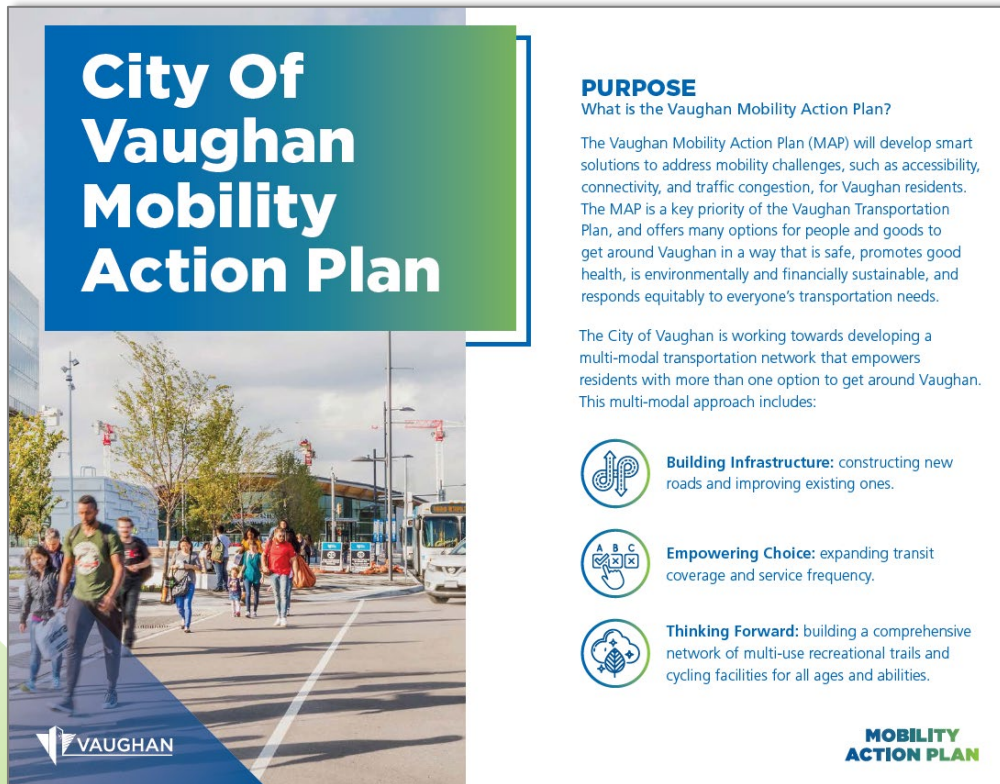

# Agenda

- ▶ Introduction to Mobility Action Plan (MAP)
- ▶ Introduction to Transportation Planning Data Management Strategy

# What is the Mobility Action Plan?

Develop smart solutions to address mobility challenges, such as accessibility, connectivity and traffic congestion.

**City Of Vaughan Mobility Action Plan**

**PURPOSE**  
What is the Vaughan Mobility Action Plan?

The Vaughan Mobility Action Plan (MAP) will develop smart solutions to address mobility challenges, such as accessibility, connectivity, and traffic congestion, for Vaughan residents. The MAP is a key priority of the Vaughan Transportation Plan, and offers many options for people and goods to get around Vaughan in a way that is safe, promotes good health, is environmentally and financially sustainable, and responds equitably to everyone's transportation needs.

The City of Vaughan is working towards developing a multi-modal transportation network that empowers residents with more than one option to get around Vaughan. This multi-modal approach includes:

-  **Building Infrastructure:** constructing new roads and improving existing ones.
-  **Empowering Choice:** expanding transit coverage and service frequency.
-  **Thinking Forward:** building a comprehensive network of multi-use recreational trails and cycling facilities for all ages and abilities.

**VAUGHAN**

**MOBILITY ACTION PLAN**

- ▶ Building Infrastructure
- ▶ Empowering Choice
- ▶ Thinking Forward

# Why do we need a Mobility Action Plan?

As the City continues to grow, so does the transportation network. MAP will address these transportation issues.

## MOBILITY ACTION PLAN

### Why does Vaughan need the 'MAP'?

As the city of Vaughan continues to grow, so does our transportation network. The MAP will help address transportation issues and provide solutions for current and future residents.

### What are the mobility options included in the MAP?

The MAP embraces a full range of mobility options, which include:

walking rolling cycling driving transit

### What are the goals of the MAP?

The goal of the MAP is to develop a transportation system that is:

- Accessible and connected
- Reliable and resilient
- Equitable
- Financially sustainable
- Environmentally responsible
- Safe

Through the MAP, the City aims to:

- Construct and maintain transportation infrastructure with **climate resiliency** in mind.
- Harness **intelligent traffic count and travel time monitoring, plus efficient transportation demand management**, to relieve congestion and adjust transit service levels, in real-time.
- Explore **new mobility**, such as electric vehicles and charging stations and shared mobility.
- Plan for **complete communities**, so that residents can live, work, shop, learn and play close to home.
- **Share knowledge** with other municipalities to learn from their successes and share Vaughan's successes too.

Key Performance Indicators (KPIs) will be developed to measure the success of the MAP goals.

- ▶ Accessible and connected
- ▶ Reliable and resilient
- ▶ Equitable
- ▶ Financially sustainable
- ▶ Environmentally responsible
- ▶ Safe

# What are we currently working on?

The MAP is divided into 6 distinct and yet integrated tasks.

- ▶ Task 1 – Develop the framework for the Mobility Action Plan
- ▶ Task 2 – Support for Transportation Innovation Program
- ▶ Task 3 – Develop Education and Outreach Strategy
- ▶ Task 4 – Develop a micromobility pilot program
- ▶ Task 5 – Develop a public EV charging station strategy
- ▶ Task 6 – Support an internal Sustainable Transportation Action Team

# Task 3 – Education & Outreach Strategy

## The role of the Transportation and Infrastructure Advisory Committee

- ▶ What activities would you like the City to participate in?
  - How and where would you like to see the City engage with the community?
- ▶ What and how would you like to receive communications?
  - Youth?
  - Older adults?
- ▶ What take home materials are useful to reinforce sustainable transportation?

# What is the Transportation Planning Data Management Strategy?

A strategy to identify actions to create a comprehensive and high-quality multi-modal database. This database will enable the City to monitor the progress of the 2023 Vaughan Transportation Plan and the MoveSmart Mobility Management Strategy, assess the overall operational health of the transportation system, and make significant advancements towards the goal of becoming a Smart City.

FIGURE 2: RANKING OF END STATE- OR SOLUTION-BASED KEY WORDS.

FIGURE 3: RANKING OF ORGANIZATIONAL- OR STRATEGIC OUTCOME-BASED KEY WORDS.

# Data Management Strategy

## The role of the Transportation and Infrastructure Advisory Committee

- ▶ What types of transportation data should the City be collecting?
- ▶ What transportation data should be available to the public?
  - How should the data be presented?
  - Dashboards?
- ▶ What are barriers to collecting transportation planning data?
- ▶ How to ensure the strategy is future ready?

# Next Steps

## Mobility Action Plan

- ▶ Proceed with all 6 tasks
