Good afternoon, these trucks yards bordering bolton are making our lives hell. We cant sleep at night, cant go in our backyards during the day. Constant noise inside and outside of our homes. These yards are directly in our back yards. Please see attached photos of a 1km stretch of road i found 12 illegal truck yards. The attached photos are from albion vaughan road and coldcreek road. Just this morning another one opened for parking right at the train tracks, they demoed the existing building and barn in less than 1 day. Please help us we are suffering.
