Hi,

I hope this message finds you well.

I wanted to reach out regarding the proposed changes to the house that were brought to my attention - address : 17 Winthrop Crescent, Kleinburg. After careful consideration, I feel it is important to express my concerns about the fire safety as the entrance door is very close to the fence. I personally don't like it as it's not what I initially agreed with the builder when I purchased my house on the same street. A side door, especially if it's less visible from the street, may offer easier access to intruders looking for a less-obstructed point of entry. A side entrance can disrupt the natural flow of design, making a house feel asymmetrical or diminished in approachability. The aesthetic shortcomings might not only affect the homeowner's pride but also influence property values in the neighbourhood.

I am against this change.
