Alectra Utilities (formerly PowerStream) has received and reviewed the proposed Variance Application. This review, however, does not imply any approval of the project or plan.

All proposed billboards, signs, and other structures associated with the project or plan must maintain minimum clearances to the existing overhead or underground electrical distribution system as specified by the applicable standards, codes and acts referenced.

In the event that construction commences, and the clearance between any component of the work/structure and the adjacent existing overhead and underground electrical distribution system violates the Occupational Health and Safety Act, the customer will be responsible for 100% of the costs associated with Alectra making the work area safe. All construction work will be required to stop until the safe limits of approach can be established.

In the event construction is completed, and the clearance between the constructed structure and the adjacent existing overhead and underground electrical distribution system violates the any of applicable standards, acts or codes referenced, the customer will be responsible for 100% of Alectra's cost for any relocation work.

CONSENTS

Committee of Adjustment Requirements Electronic Registration Planning Act Consents - Section 53(42)

Prior to electronic registration, a consent under Section 53(42) of the Planning Act could be issued in certificate form or be stamped directly on the document (Transfer/Deed, Transfer of Easement, Charge/Mortgage). Our usual practice was to stamp the consent on the document. Since the document itself had insufficient space to place the stamp, our practice was to stamp the consent on an attached schedule containing the legal description of the property to be severed.

Under electronic registration, since there is no opportunity to place a stamp on a paper document, our practice has been amended to issue the consent in certificate form.

In order to ensure that the legal description in the certificate matches that in the Notice of Decision, **we require a letter and a "Schedule Page" from the Applicant's Solicitor confirming the legal description of the subject lands, sufficient for registration purposes (the "Schedule Page" will be an attachment to the Certificate)**, and four copies of the deposited Reference Plan.

Once we have satisfied ourselves that the legal description provided by the Applicant's Solicitor is correct, and that all other conditions for the consent have been met, we will issue the certificate, and the solicitor may complete the registration of the Transfer or Charge.

To complete our file, we require that the applicant's solicitor provide us with registration particulars after registration has been completed.

For information purposes only:

On a Transfer or Transfer of Easement, one of the following statements on the electronic Transfer must be selected and completed:

Statement 100: a consent from the NAME has been obtained for this severance and contains the following conditions: INSERT CONDITIONS OR 'NONE'

Statement 101: The NAME has consented to this severance herein: IMPORT CONSENT (i.e. scan the consent and attach it or type the consent verbatim).

As neither Statement 100 nor 101 appears in a Charge document, the consent must be typed verbatim or scanned and attached to the document in the Schedules section.

For information on electronic registration, please contact Teranet at 416-360-1190.
