RECOMMENDED CONDITIONS OF APPROVAL SUMMARY		
Should the Committee find it appropriate to approve this application in accordance with request and the sketch submitted with the application, as required by Ontario Regulation 200/96, the following conditions have been recommended:		
#	DEPARTMENT / AGENCY	CONDITION
1	Committee of Adjustment cofa@vaughan.ca	1. That the applicant's solicitor confirms the legal description of the subject land (easement over servient land). 2. That the applicant provides one full sized hard copy of the deposited plan of reference of the entire land. 3. That the applicant emails an electronic copy of the deposited plan of reference to cofa@vaughan.ca 4. Payment of the Certificate Fee as provided on the City of Vaughan's Committee of Adjustment Fee Schedule.
2	Development Engineering jonal.hall@vaughan.ca	TBD
<i>All conditions of approval, unless otherwise stated, are considered to be incorporated into the approval “if required”. If a condition is no longer required after an approval is final and binding, the condition may be waived by the respective department or agency requesting conditional approval. A condition cannot be waived without written consent from the respective department or agency.</i>		

IMPORTANT INFORMATION – PLEASE READ	
CONDITIONS: Conditions must be fulfilled within two years from the date of the giving of the Notice of Decision, failing which this application shall thereupon be deemed to be refused. No extension to the last day for fulfilling conditions is permissible.	
DEVELOPMENT CHARGES: That the payment of the Regional Development Charge, if required, is payable to the City of Vaughan before issuance of a building permit in accordance with the Development Charges Act and the Regional Development Charges By-law in effect at the time of payment. That the payment of the City Development Charge, if required, is payable to the City of Vaughan before issuance of a building permit in accordance with the Development Charges Act and the City's Development Charges By-law in effect at the time of payment. That the payment of the Education Development Charge if required, is payable to the City of Vaughan before issuance of a building permit in accordance with the Development Charges Act and the Boards of Education By-laws in effect at the time of payment That the payment of Special Area Development charge, if required, is payable to the City of Vaughan before issuance of a building permit in accordance with the Development Charges Act and The City's Development Charge By-law in effect at the time of Building permit issuance to the satisfaction of the Reserves/Capital Department.	
NOTICE OF DECISION: If you wish to be notified of the decision in respect to this application or a related Ontario Land Tribunal (OLT) hearing you must complete a Request for Decision form and submit to the Secretary Treasurer (ask staff for details). In the absence of a written request to be notified of the Committee's decision you will not receive notice.

Section 1: Site Management	Standard Notes
<p>#</p> <p>1 Erosion and Sediment Control (ESC) measures will be implemented prior to, and maintained during the construction phases, to prevent entry of sediment into the water. All damaged erosion and sediment control measures should be repaired and/or replaced within 48 hours of the inspection.</p> <p>2 Disturbed areas will be minimized to the extent possible, and temporarily or permanently stabilized or restored as the work progresses.</p>	<p>The erosion and sediment control strategies outlined on the plans are not static and may need to be upgraded/modified as site conditions change to minimize sediment runoff from leaving the work areas. If the prescribed measures on the plans are not effective in preventing the release of a detectable substance, including sediment, then alternative measures must be implemented immediately to prevent potential ecological impacts. TRCA Enforcement Officer should be immediately contacted. Additional ESC measures to be kept on site and used, as necessary.</p>
<p>3 All in-water and near-water work will be conducted in the dry with appropriate erosion and sediment controls.</p>	<p>An Environmental Monitor will attend the site to inspect all new controls immediately after installation. Inspection of ESC measures will be will occur, at a minimum:</p>
<p>4</p> <ul style="list-style-type: none"> • On a weekly basis; • Prior to significant rainfall events (minimum predicted 25mm over 24 hours); • After every rainfall/snowmelt event; and • Daily during extended extended rain periods. 	<p>Inspection will focus on measures related to erosion and sediment controls, dewatering or unwatering, restoration and in- or near-water works. Should concerns arise on site the Environmental Monitor will contact the TRCA Enforcement Officer as well as the proponent.</p>
<p>5</p> <p>6 All activities, including maintenance procedures, will be controlled to prevent the entry of petroleum products, debris, rubble, concrete or other detritus substances into the water. Vehicular refueling and maintenance will be conducted a minimum of 30 metres from the shoreline.</p>	<p>All grading within the Regulatory Flood Plain will be maintained or matched.</p>
<p>7</p> <p>8 The proponent/contractor shall monitor the weather several days in advance of the onset of the project to ensure that the works will be conducted during favourable weather conditions. Should an unexpected storm arise, the contractor will remove all unlifted items from the Regional Storm Flood plain that would have the potential to cause a spill or an obstruction to flow, e.g. fuel tanks, porta-potties, machinery, equipment, construction materials, etc.</p>	<p>All dewatering/dewatering shall be treated and released to the environment at least 30 metres from a watercourse or wetland and allowed to drain through a well-vegetated area. No dewatering effluent shall be sent directly to any watercourse, wetland or forest, or allowed to drain into disturbed soils within the work area. These control measures shall be monitored for effectiveness and maintained or revised to meet the objectives of preventing the release of sediment into water.</p>
<p>9</p> <p>10 All access to the work site shall be from either side of the watercourse. No equipment or vehicles are permitted to cross through the watercourse unless approved by TRCA.</p>	<p>All dewatering/dewatering shall be treated and released to the environment at least 30 metres from a watercourse or wetland and allowed to drain through a well-vegetated area. No dewatering effluent shall be sent directly to any watercourse, wetland or forest, or allowed to drain into disturbed soils within the work area. These control measures shall be monitored for effectiveness and maintained or revised to meet the objectives of preventing the release of sediment into water.</p>
<p>Section 2: Environmental Management (proponent/contractor)</p>	<p>All access to the work site shall be from either side of the watercourse. No equipment or vehicles are permitted to cross through the watercourse unless approved by TRCA.</p>
<p>Section 3: Fish and Wildlife Rehabilitation (proponent/contractor)</p>	<p>All access to the work site shall be from either side of the watercourse. No equipment or vehicles are permitted to cross through the watercourse unless approved by TRCA.</p>
<p>Section 4: Fish and Wildlife Rehabilitation (proponent/contractor)</p>	<p>All access to the work site shall be from either side of the watercourse. No equipment or vehicles are permitted to cross through the watercourse unless approved by TRCA.</p>
<p>Section 5: Fish and Wildlife Rehabilitation (proponent/contractor)</p>	<p>All access to the work site shall be from either side of the watercourse. No equipment or vehicles are permitted to cross through the watercourse unless approved by TRCA.</p>
<p>Section 6: Fish and Wildlife Rehabilitation (proponent/contractor)</p>	<p>All access to the work site shall be from either side of the watercourse. No equipment or vehicles are permitted to cross through the watercourse unless approved by TRCA.</p>

The maximum lot coverage of a building or structure is 50% of the lot area. Includes detached porches, decks, stairs, 10% of the lot area.

ESTABLISHED GRADE	
	Est. Grade
Average level of the ground at the front of a building or structure	239.72

BUILDING HEIGHT				
	Permitted		Proposed	
Max Building Height	11.00	34.06	ft	10.38 m
Max Storeys	N/A		2.00	

NOTES: Means in reference to a building or structure, the vertical distance measured from established grade to:

- i. In the case of a flat roof, including any roof where more than half of the roof area has a slope of 15 degrees or less above the horizontal, the highest point of the roof structure, wherever it is the greatest;
- ii. In the case of a sloped roof, the mean height between the eaves and the ridge; or
- iii. In the case of any structure with no roof, the highest point of the structure.

SETBACKS			
	Permitted	Proposed	
Min Front (North)	4.50 m	26.27 ft	7.70 m
Min Int. Right Side (West)	1.20 m	13.56 ft	4.15 m
Min Int. Left Side (East)	1.20 m	3.94 ft	1.20 m
Min Rear (South)	7.50 m	24.62 ft	7.50 m
Garage Face	5.70 m	21.81 ft	12.56 m
Min Int. Right Side (Int. Side (min 1.2m above stairs))	0.60 m	N/A	N/A
Porch (including stairs)	1.20 m	37.35 ft	11.39 m
Recreational Canopy / Front East Side Yard	0.60 m	N/A	N/A
Rotating Wall (rooves, see SPS)	VARIES	VARIES	VARIES

1. The minimum setbacks are based on the height of the structure to the highest of the existing use. A retaining wall less than 6m in height is permitted to be 0.3m in the rear.

2. Where a rear setback is required, the minimum rear setback shall be 7.5.0 m and the minimum rear yard shall be 12.56 m.

3. Where a front setback is required, the minimum front setback shall be 4.50 m and the minimum front yard shall be 7.70 m.

4. The minimum interior side yard setback shall be 2.5 m where the interior side lot abuts a walkingway, garage, or stormwater management facility.

5. Where a rear setback is by a lot, the minimum lot setback shall be 9.0 m and the minimum rear yard shall be 12.56 m.

NOTE:

NO DEWATERING IS PROPOSED AS PART OF THIS DEVELOPMENT

NOTE:
ALL ASSOCIATED WORKS, FUTURE REPAIRS
AND/OR REPLACEMENTS, AND ACCESS WILL
OCCUR ON THE SUBJECT PROPERTY

NOTE:

ALL POOL WATER IS TO BE DISCHARGED TOWARDS THE ROAD AND AWAY FROM THE REAR YARD TO PREVENT IMPACTS TO PROVINCIALLY SIGNIFICANT WETLAND, FLOOD PLAIN, AND STREAM CORRIDOR

To: Committee of Adjustment

From: Christian Tinney, Building Standards Department

Date: May 5, 2025

Applicant: Contempo Studio

Location: 107 Sir Modesto Court
PLAN 65M4184 Block 46

File No.(s): B006/25

Zoning Classification:

The subject lands are zoned R2A, subject to the provisions of Exception 14.847 and 14.850 under By-law 001-2021 as amended.

#	Proposal
1	The subject consent application is to permit an easement on the existing subject lands and therefore the Zoning By-law requirements for Lot Area, Lot Frontage and Lot Depth are not applicable.

Staff Comments:

Stop Work Order(s) and Order(s) to Comply:

There are no outstanding Orders on file

Building Permit(s) Issued:

Building Permit No. 24-136449 for Single Detached Dwelling - New, Issue Date: (Not Yet Issued)

Other Comments:

General Comments	
1	The subject lands may be subject to Ontario Regulation 166/06 (TRCA - Toronto and Region Conservation Authority).
2	The subject lands may be subject to the Oak Ridges Moraine Conservation Act, RSO 2001.

Conditions of Approval:

If the committee finds merit in the application, the following conditions of approval are recommended.

* Comments are based on the review of documentation supplied with this application.

To: Christine Vigneault, Committee of Adjustment Secretary Treasurer

From: Nancy Tuckett, Director of Development and Parks Planning

Date: May 29, 2025

Name of Owners: Madison Saul, Adam Ryan Saul (107 Sir Modesto Court);
Laura Faye Anava, Oren James Anava (108 Sir Modesto Court)

Location: 107 Sir Modesto Court 108 Sir Modesto Court

File No.(s): B006/25, A011/25 B007/25, A009/25

A011/25 – 107 Sir Modesto Court**Proposed Variances:**

1. To permit an uncovered platform to encroach a maximum of **5.11 m** into the required rear yard.
2. To permit a minimum setback of **0.0 m** for the retaining wall at the east interior side lot line.
3. To permit a retaining wall with a height of **1.75 m** to be located at **1.36 m** from the rear lot line.
4. To permit a retaining wall (window well) with a height of **2.16 m** to be located at **0.57 m** from the interior lot line.
5. To permit an accessory building (cabana) with a maximum height of **5.82 m**.
6. To permit a minimum of **52.21%** (295.73 m²) of the required minimum landscaped rear yard to be composed of soft landscaping.

By-Law 001-2021 Requirement(s):

1. The maximum permitted encroachment of an uncovered platform is **2.4 m** into the required rear yard.
2. A retaining wall shall be setback an equal distance to the height of the highest portion of the retaining wall.
3. A retaining wall shall be setback an equal distance to the height of the highest portion of the retaining wall.
4. A retaining wall shall be setback an equal distance to the height of the highest portion of the retaining wall.
5. In any Residential Zone, the maximum height of an accessory building and residential accessory structure shall be **3.0 m**.
6. In the R2A Zone, any portion of a yard in excess of 135.0 m² shall be comprised of a minimum **60%** soft landscape.

A009/25 – 108 Sir Modesto Court**Proposed Variances:**

1. To permit access stairs to encroach a maximum of **1.93 m** into the minimum required rear yard.
2. To permit a minimum setback of **0.0 m** for the retaining wall at the west interior lot line.
3. To permit a retaining wall (window well) with a height of **2.04 m** to be setback a minimum of **1.0 m** from the west lot line.
4. To permit a retaining wall (window well) with a height of **2.02 m** to be setback a minimum of **0.57 m** from the east lot line.
5. To permit an uncovered platform (pavestone terrace/grassed area) with a floor height of 2.6 m to encroach into the minimum rear yard of 7.5 m a maximum of **4.41 m**.

By-Law 001-2021 Requirement(s):

1. The maximum permitted encroachment for an access stair is **1.8 m** into the minimum required rear yard of 7.5 m.
2. A retaining wall shall be setback an equal distance to the height of the highest portion of the retaining wall.
3. A retaining wall shall be setback an equal distance to the height of the highest portion of the retaining wall.
4. A retaining wall shall be setback an equal distance to the height of the highest portion of the retaining wall.

5. An uncovered platform (paverstone terrace/grassed area) with a floor height greater than 1.2 m as measured above grade and including access stairs, is permitted to encroach **2.4 m** into the minimum required rear yard of 7.5m.

Official Plan:

Vaughan Official Plan 2010 ('VOP 2010'): "Low Rise Residential"

Comments:

The Owners of 107 Sir Modesto Court and 108 Sir Modesto Court are seeking relief to permit a new single detached dwelling and accessory structures on each property. Two mutual access easements are proposed to permit the construction and maintenance of a contiguous stretch of retaining wall spanning the width of both properties.

B006/25, B007/25

Consent application files B006/25 and B007/25 are received for 107 Sir Modesto Court and 108 Sir Modesto Court to facilitate two mutual access easements required to service and maintain a proposed retaining wall that is contiguously located across both properties. The proposed retaining wall provides for a more consistent lot grading across the proposed rear yards of both properties.

Policy 10.1.2.36 of VOP 2010 permits the creation of private easements over existing lots. The proposed easement areas encompass the proposed retaining wall and a 0.6 m buffer around the retaining wall. Development Engineering staff have reviewed the proposed easement sketches and are satisfied that the easement areas will allow for mutual access and maintenance of the retaining wall.

A011/25 – 107 Sir Modesto Court

The Development and Parks Planning Department has no objections to Variances 1 and 3 to permit the encroachment of a raised platform 5.11 m into the minimum required rear yard and to permit the retaining wall on the outer edge of the raised platform, 1.75 m in height, to be located 1.36 m from the rear lot line. The grading of the property slopes downward toward the rear, and the proposed raised terrace and retaining walls provide a leveled rear yard. The spaces beyond the retaining wall are proposed to be sodded. The raised terrace and retaining wall are not anticipated to pose massing impacts on the neighbouring property to the west or the public trail to the south. Development Engineering staff have reviewed the retaining wall and have no concerns with the increased encroachment.

The Development and Parks Planning Department has no objections to Variance 2 to permit a retaining wall to be located 0.0 m from the east interior side lot line. The proposed retaining wall is oriented perpendicular to the eastern interior side lot line and connects to a segment of the retaining wall proposed on 108 Sir Modesto Court, east of the subject property. Consent applications B006/25 and B007/25 have been submitted to facilitate mutual access easements and have been reviewed to the satisfaction of Development Engineering staff.

The Development and Parks Planning Department has no objections to Variance 4 to permit a window well 2.16 m in depth to be setback 0.57 m from the east interior side yard. The remaining side yard is proposed to be sodded. The window well does not prohibit the movement of residents and goods between the front and rear yard, and additional access can be provided through the western interior side yard.

The Development and Parks Planning Department has no objections to Variance 5 to permit a height increase for the proposed cabana from 3 m to 5.82 m. The proposed height is measured from established grade, and the height is most perceived from the rear. The cabana maintains a compliant setback from all lot lines, and is not anticipated to incur massing impacts on neighbouring properties or the public trail to the south.

The Development and Parks Planning Department has no objections to Variance 6 to reduce the minimum soft landscaping in the portion of the rear yard in excess of 135 m² from 60% to 52.21%. The reduction represents approximately 44 m² of soft landscaping, which is minor given the size of the rear yard. Development Engineering staff have reviewed the variance and are satisfied that the reduced soft landscaping remains sufficient for stormwater management.

A009/25 – 108 Sir Modesto Court

The Development and Parks Planning Department has no objections to Variances 1 and 5 to permit a raised platform to encroach 4.41 m into the minimum required rear yard and for the access stairs to encroach 1.93 m into the minimum required rear yard. The grading of the property slopes downward toward the rear, and the proposed raised terrace provides a level grade within the rear yard. The access stairs located along the outer edge of the raised terrace provides access to the sodded areas beyond the raised terrace. The raised terrace and access stairs are not anticipated to incur any negative impacts on the public open space to the rear of the property.

The Development and Parks Planning Department has no objections to Variance 2 to permit the retaining wall to be setback 0.0 m from the western interior side lot line. The proposed retaining wall is oriented perpendicular to the side lot line and connects to the portion of the proposed retaining wall on 107 Sir Modesto Court, west of the subject property. Consent applications B006/25 and B007/25 have been submitted to facilitate mutual access easements and have been reviewed to the satisfaction of Development Engineering staff.

The Development and Parks Planning Department has no objections to Variances 3 and 4 to permit reduced setbacks to window wells located within the western and eastern interior side yards. The remaining interior side yards are proposed to be sodded. The setback reductions of 0.57 m to the west side lot line and 1.0 m to the east side lot line are sufficient to maintain access between the front and rear yards.

Accordingly, the Development and Parks Planning Department supports the requested variances and is of the opinion that the proposals are minor in nature, maintains the general intent and purpose of the Official Plan and Zoning By-law, and is desirable for the appropriate development of the land.

Recommendation:

The Development and Parks Planning Department recommends approval of files B006/25 and A011/25 (107 Sir Modesto Court), and files B007/25 and A009/25 (108 Sir Modesto Court).

Conditions of Approval:

If the Committee finds merit in the applications, the following conditions of approval are recommended:

None.

We have reviewed the proposed Consent Application and have no comments or objections to its approval.

☒

We have reviewed the proposed Consent Application and have no objections to its approval, subject to the following comments (attached below).

☐

We have reviewed the proposed Consent Application and have the following concerns (attached below).

Alectra Utilities (formerly PowerStream) has received and reviewed the proposed Consent Application. This review, however, does not imply any approval of the project or plan.

All proposed billboards, signs, and other structures associated with the project or plan must maintain minimum clearances to the existing overhead or underground electrical distribution system as specified by the applicable standards, codes and acts referenced.

In the event that construction commences, and the clearance between any component of the work/structure and the adjacent existing overhead and underground electrical distribution system violates the Occupational Health and Safety Act, the customer will be responsible for 100% of the costs associated with Alectra making the work area safe. All construction work will be required to stop until the safe limits of approach can be established.

In the event construction is completed, and the clearance between the constructed structure and the adjacent existing overhead and underground electrical distribution system violates the any of applicable standards, acts or codes referenced, the customer will be responsible for 100% of Alectra's cost for any relocation work.

SENT BY E-MAIL: Christine.Vigneault@vaughan.ca

Christine Vigneault
Secretary Treasurer
Committee of Adjustment
City of Vaughan
2141 Major Mackenzie Drive
Vaughan, Ontario L6A 1T1

Dear Christine:

**Re: Consent Application B006/25
107 Sir Modesto Court
City of Vaughan, Regional Municipality of York
Applicant: Contempo Studio**

This letter acknowledges receipt of the above-noted application circulated by the City of Vaughan. The materials were received by Toronto and Region Conservation Authority (TRCA) on April 11, 2025. TRCA staff have reviewed the application and offer the following comments for the consideration of the Committee of Adjustment.

Purpose of the Application

It is our understanding that the purpose of the above noted application is to request the following consent:

- To permit an easement on the existing subject lands and therefore the Zoning By-law requirements for Lot Area, Lot Frontage, and Lot Depth are not applicable.

Ontario Regulation 41/24

The subject property is located within TRCA's Regulated Area due to a Regional Storm flood plain hazard and Provincially Significant Wetland features associated with a tributary of the Don River Watershed. In accordance with Ontario Regulation 41/24, development, interference or alteration may be permitted in the Regulated Area where it can be demonstrated to TRCA's satisfaction that the control of flooding, erosion, dynamic beaches, unstable soils, or bedrock will not be affected.

Application-Specific Comments

Based on our review of the Consent application, the proposed easement is located entirely within the subject lands and within the buffer to TRCA regulated natural features and natural

hazards. TRCA staff have no objection to the proposed easement.

As noted in TRCA's correspondence associated with A011/25, TRCA staff reviewed and issued a permit for the proposed two-storey dwelling, in-ground pool, retaining wall, hard landscape, and associated grading (TRCA Permit No. PER-DPP-2024-00005, issued September 12, 2024). The plans submitted with the minor variance and consent applications are **not consistent** with the plans that were approved as part of TRCA's permit.

TRCA requires the applicant to submit a permit revision application prior to initiating construction. Information about the permit revision process can be found in TRCA's A011/25 correspondence.

Recommendations

Based on the comments noted above, TRCA has **no objection** to the approval of Consent Application B006/25.

We trust these comments are of assistance. Should you have any questions, please contact me at joshua.lacaria@trca.ca

Sincerely,

Joshua Lacaria

107 Sir Modesto Court - Consent Application - Cover Letter

To whom this letter may concern,

Please accept this cover letter as a formal explanation as to why our studio is pursuing a Consent Application with the City of Vaughan Committee of Adjustment.

Prior to such an explanation, it is important to note that homeowners of 107 Sir Modesto Court and the homeowners of this proposal's sister application at 108 Sir Modesto Court are family members. Both proposed dwellings will be constructed under the guidance of a single builder.

The reason for this application is to create an easement that allows for a retaining wall that is conjoined with the retaining wall located at 108 Sir Modesto Court.

Due to the design of the rear landscaping and the site's extreme front-to-rear grading condition, the need for a retaining wall was evident. In working with Civil Engineers, it was decided that adding a retaining wall that joins with the retaining wall at 108 Sir Modesto Court is the most feasible solution to mitigate the aggressive storm water runoff towards the rear of the property. It is critical to know that this storm water management solution was submitted to the City of Vaughan's Development Engineering department (*Permit No.:24-127602*) and the TRCA (*Permit No.: PER-DPP-2024-00005*) and was approved by each respected department/ authority.

For this application, it is recorded that 107 Sir Modesto Court remains the dominant land and the recorded servient lands associated with this application is the new easement to be added on the subject site and the lands associated within 108 Sir Modesto Court.

If any questions arise from this application, please do not hesitate to contact the undersigned.

Thank you,

Alexander R. Overholt
Senior Architectural Designer
