TELEMATICS
FLEET ALERTS

The image depicts a driver's perspective from inside a car, with a hand on the steering wheel. The scene is overlaid with a futuristic, semi-transparent digital interface. On the left, a large hand icon points towards the text 'TELEMATICS FLEET ALERTS'. The interface includes various data visualizations: a speedometer showing 58 km/h, a fuel gauge, a battery level indicator, and a large map with a highlighted route. There are also icons for a smartphone, a Wi-Fi signal, and a car. The overall aesthetic is high-tech and blue-toned.

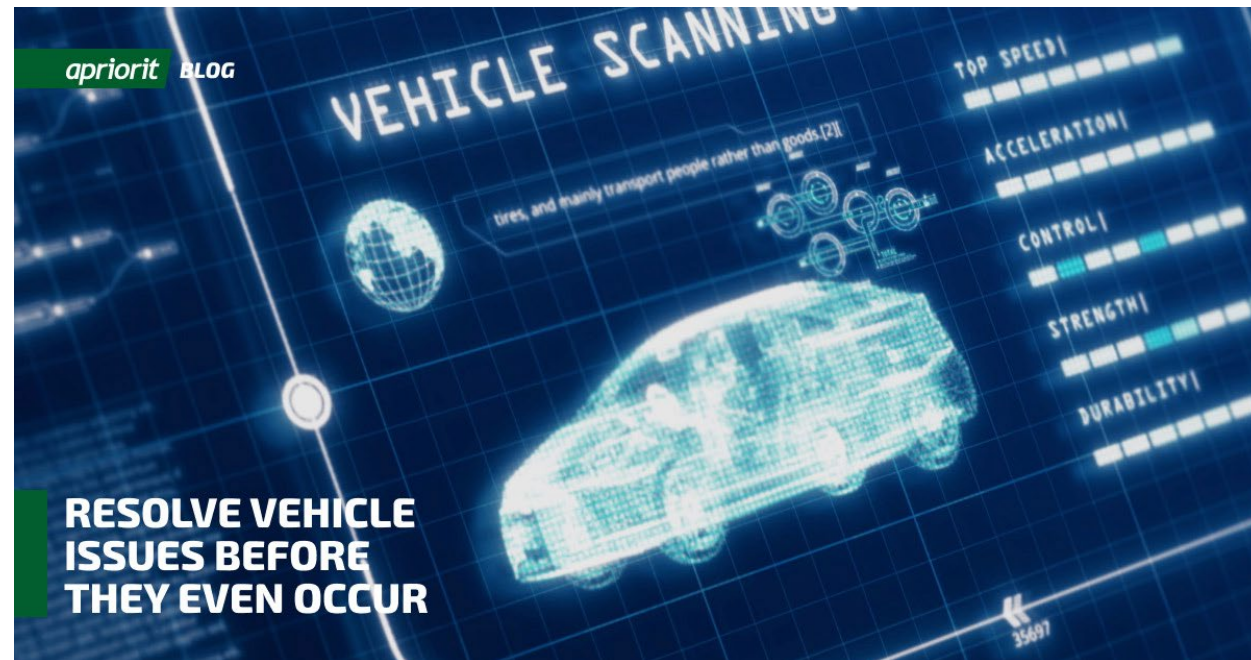

Live Demonstration

- Assets
- Parts Inventory
- Maintenance and Repair
- Technician Workstation
- Fuel consumption
- Reports

Next Steps

- Long-term system
- Advance integrations
- Predictive maintenance
