To the city of Vaughan,

I reside at 77 Crestwood Rd and am opposed of this proposal going through.

Please be advised that this land has been requested to build and sever a few years ago.

We still do not agree on this, mainly because there are no houses on Hilda north of Steeles and also the variance and size of the house is not appropriate for the land size.

Allowing the two houses would interfere with the entrance back-and-forth on Hilda since there's quite a bit of congestion now that the Galleria store is in the mall across there and it's prone to accidents waiting to happen. The building of these houses could happen once Royal Palm is extended at this point they would have to wait for that road to go through and then build the two houses.

Yours truly,
Phyllis and Joseph Mastrofrancesco
