

**Table 1: In-person Engagement Summary**

<b>Event</b>	<b>Number of Engagement</b>
Ward 2 Concert – The Eagles	40
Ward 1 Concert – Santana	30
Ward 4 Concert – Bruce Springsteen	112
Engineering Week	164
Earth Hour	100
Youth Week	58
NMRP Pop-up	22
Bike Month Bonanza	20
Total In-person Engagement	546

**Key Activities and objectives for in-person engagement:**

**Educate** the public on how e-bikes and e-scooters operate—who can ride them, how to ride safely, and where they are permitted. Education was delivered through interactive games, prize giveaways, and informational materials such as postcards, pamphlets, safety-focused stickers, and website resources.

**Engage** the community to identify preferred and non-preferred rental locations. Staff gathered input through surveys, simplified engagement trackers, and idea boards, while directing residents to the micromobility website for ongoing feedback.

**Raise awareness** of the Shared Micromobility Pilot by introducing the operators, answering questions about their operating models, and offering trial rides. Operators attended select events to provide hands-on demonstrations, respond to inquiries, and collect feedback on service expectations.
