The applicant shall be advised that additional variances may be required upon review of detailed drawing for building permit/site plan approval.

No comments or concerns

Development Planning:

VOP 2010: "Low-Rise Residential"

The Owner is requesting to construct a pergola in the rear yard with the above noted variance.

The Planning Department has no objection to the rear yard reduction, as the pergola is attached to the dwelling, is unenclosed and provides for a rear yard amenity area while remaining consistent with the rear yard setbacks of neighbouring properties in the area. Furthermore, the pergola complies with all other R3 Residential Zone requirements with regards to height and interior side yards.

The Development Planning Department is of the opinion that the proposal is minor in nature, maintains the general intent and purpose of the Official Plan and Zoning By-law, and is desirable for the appropriate development of the land.

The Development Planning Department recommends approval of the application.

Cultural Heritage (Urban Design):

No Response.

Development Engineering:

The Development Engineering (DE) Department does not object to variance application A015/20

Parks, Forestry and Horticulture Operations:

Forestry conducted a site inspection on February 25, 2020 and found one Cherry tree in backyard over 20cm DBH, not impacted by proposed pergola installation. A wooden pergola was constructed as outlined in attached plan at time of inspection. Forestry has no further comments at this time.

By-Law and Compliance, Licensing and Permit Services:

No Response.

Financial Planning and Development Finance:

No comment, no concerns.
