

DATE: June 8, 2020

TO: Mayor and Members of Council

FROM: Zoran Postic, Deputy City Manager, Public Works & Nadia Paladino, Director of Parks, Forestry, and Horticulture Operations

RE: **June 9th, 2020 Committee of the Whole: Correction to the Woodlot Naming Proposal (Item #10)**

1. Purpose

The purpose of this communication is to provide Mayor and Members of Council with information regarding a correction to the Woodlot Naming Proposal (Item #10).

2. Analysis

The report and report highlights indicated the proposed signage will be installed to identify each woodlot, using design standards consistent with parks and stormwater management ponds. It should have indicated parks alone.

The appendix referenced the April 17, 2012 meeting "Naming of Storm Water Management Ponds and Associated Signage," and should have referenced May 29, 2012 meeting of the same title. Council approved a revision to the originally proposed signage for Storm Water Management ponds that was at a significantly lower cost.

The process for naming does remain consistent with the process for naming storm water management ponds as well as parks (considering any appropriate historical references as identified by the City Archivist).

The staff recommendations remain consistent with what is indicated within the report including: the names, consideration for the 2021 capital budget, and forwarded the names to appropriate bodies.

A handwritten signature in black ink, appearing to be 'Zoran Postic', written over a circular stamp or seal.

Zoran Postic
Deputy City Manager, Public Works
