Subject: North Maple Regional Park Item Committee of the Whole

Please include some of these questions on the above noted item:

1. Is there a preliminary cost estimate for the proposed site plan?
2. What was the cost of Phase 1?
3. Any ideas on what will be included in the "Future Phase" areas shown?
4. I see toboggan hill, can this site plan accommodate a ski hill on the old Vaughan landfill Dump in the future? I see a "Conservatory". Could this double as a chalet style in the future?
5. Is there benefits to designing the Site to accommodate for a central "Hub" building where efficiencies can be materialized in the future and any expansions as proposed in the attached site plan?

I just wanted to share with Council again our proposed submission on this project, which included a skiing component to be located on the NORTH side of the old Vaughan Landfill site (less direct sunlight there to melt the snow) and Mount St Louis support for the concept. We would love to see this vision materialize in some way. We think it would be great for Maple. I also wanted to remind Council, our group Ludus, proposed to build this facility for the City at no cost to the taxpayer through a Public Private Partnership.
