1.0 EXECUTIVE SUMMARY

10 Richard Lovat Court is an isolated property west of the core area of Kleinburg, Ontario, on what was likely an isolated site along Nashville Road which originally connected the core area of Kleinburg to Nashville. Kleinburg was the main settlement area. Nashville gained significance along the roadway route when the Kleinburg rail station was established in the 19th century. 10 Richard Lovat Court is presently vacant. A 19th century residence constructed in what at that time was an isolated property along Nashville Road overlooking development of a portion of lands acquired for construction of the Grey and Bruce Railway circa 1870 is now in the midst of a series of late 20th century residential development of large lot residences to the north of Nashville Road that have been recently developed. There are no other heritage buildings near 10 Richard Lovat Court.

The property is within the Kleinburg-Nashville Heritage Conservation District within the City of Vaughan. This heritage district is a Province of Ontario Part V designated heritage district with a plan and established criteria for changes to development within the heritage district. Recently the property was purchased and is planned for retention and adaptive reuse of the 19th century residence. Preliminary design of the planned changes for the property have been submitted by Lemcad Consultants on behalf of their client for review and assessment by MW HALL CORPORATION, a registered architect, certified planning and heritage consulting firm working with the City of Vaughan Guidelines for Cultural Heritage Impact Assessments, and particularly for conformance with the Kleinburg-Nashville Heritage District Plan and Guidelines. During the review process MW HALL CORPORATION made a few minor revision suggestions to the design of the planned house, which have been incorporated within the appendix of this report.

Upon completion of our review we are of the opinion that planned changes to the property at 10 Richard Lovat Construction are in keeping with the Nashville-Kleinburg Heritage District Plan and Guidelines plus City of Vaughan official plan, and we recommend approval.

2.0 INTRODUCTION TO THE PROPERTY

This Cultural Heritage Impact Assessment (CHIA) follows City of Vaughan Guidelines for Cultural Heritage Impact Assessments, updated February 2017.

The Village of Kleinburg-Nashville is consolidated as part of the City of Vaughan. The property at 10 Richard Lovat Court is located along Nashville Road east of the core area of Kleinburg.

The property is within the designated heritage district within Vaughan under Part V of the Ontario Heritage Act. It is Listed as No. 965 on the City of Vaughan Heritage Register as being within the heritage district and identified as an 1880 Italianate building within the heritage district. According to present plans the house is to remain insitu at the southern portion of the property, adjacent to Nashville Road with a proposed adaptive reuse addition and garage.

We have reviewed the preliminary design for the planned adaptive reuse and addition of the house.

The owner and their architect/consultant for the property commissioned MW HALL CORPORATION, Heritage Conservation Consultants to prepare this Cultural Heritage Impact Assessment (CHIA) and to review the planned redevelopment relative to requirements of the Heritage District Plan.

Subject property is owned by:

Sam DiGregorio, in trust

3.0 CULTURAL HERITAGE IMPACT ASSESSMENT

3.1 History of the property and evolution to date

According to the Kleinburg-Nashville Conservation District Study (Reference A) the Humber River Valley terrain had a major influence over the roads and land development patterns that varied from the more typical gridiron patterns of other land development in Ontario by the British. The village itself remained small with surrounding lands occupied by farms. Early lots in the village were surveyed and established as lots for residential use but remained undeveloped until the present 21st century. The past half-century has seen the conversion of much of the lands in this area to suburban subdivision single family housing development.

Noted in the Kleinburg-Nashville study, the "...Toronto, Grey and Bruce Railway...was opened in 1871...the Kleinburg Station, built in 1907 to replace the 1870 original...the Kleinburg Station was located some way west of the village, and...became the site of the hamlet of

Nashville...” “The hamlet of Nashville appears to have come into being because of the railway station...”

According to land title records, William Jarvis, Sherrif of Toronto was granted 200 acres of land as part of the British settlement of Ontario including the parcel now containing 10 Lovat Crescent, in 1821. 100 acres of this parcel was granted by Jarvis to James Somerville in 1846. James Somerville granted 56/100 of the parcel in 1870 to The Grey and Bruce Railway. In 1881 Robert Somerville and James Somerville granted W ½ 100 ac, except part for the railway to John Train in 1881. In 1889 John Train and Anne Train, his wife, granted the west 1% of the lands to John Card. The Grey and Bruce Railway tracks are located just west of 10 Richard Lovat Crescent, crossing Nashville Road diagonally in a Northwest direction. From this information it is surmised that John Train and Anne Train are likely the first owners of 10 Richard Lovat Crescent. John Card may have been the builder of the house for John and Anne Train.

It should be noted that at the time of construction of the present heritage house, there was only a short stair to the house leading up the knoll past a well for the property, plus an unpaved access drive from Nashville Road. The small hamlet of Nashville may not have existed, but grew from proximity to the railway station nearby. The existing heritage house was a rural country estate/farm property likely related to the Grey and Bruce Railway stop. Richard Lovat Crescent was part of a 20th century land development project created as an access road from Nashville Road by the 20th century developer of the large estate properties located just north of the heritage house. Richard Lovat purchased the property for speculative development in 1985. Richard Lovat is the inventor and developer of large subterranean boring machine equipment utilized for construction of the subway system in Toronto in 2019/2020 and the name Richard Lovat Crescent is given to the recently developed access road to the larger estate residences north of the heritage house.

The property at 10 Richard Lovat Court is located on the north side of Nashville Road, an older roadway that connected Kleinburg to Nashville, and is now included as part of the Heritage District including this section of the Nashville Road.

3.2 Context and setting of the subject property

Richard Lovat Court appears to be a relatively recent roadway and name, apparently named after Richard Lovat who had established a business based upon his invention of large scaled boring equipment in the beginning of the 21st Century. The present subway system under construction in Toronto is utilizing this equipment for the underground portions of the subway. We believe that Mr. Lovat purchased the former farm property at 10 Lovat Court for recent development of a series of large homes north of the heritage house, and there are no other heritage structures in the vicinity of the existing 1880's house on the property.

3.3 Architectural evaluation of the subject property

The existing 19th century Italianate style house at the southern portion of the property is planned to be retained. It is in sound condition but is presently vacant.

3.4 Redevelopment proposal for the subject land and potential impacts on identified heritage resources

Planned redevelopment of 10 Richard Lovat Court is to provide a new, two-storey addition with restoration of the present house residence. The existing front door of the house faces east overlooking a naturally landscaped area. At the rear of the house is a remnant of what appears to be a former unpaved driveway that connects the property to Nashville Road. Along the east side of the property, Richard Lovat Court is a new suburban street that also connects with Nashville Road and services the new subdivision of large, suburban houses.

3.5 Examination of preservation/mitigation options for cultural heritage resources

It is our opinion that planned restoration and adaptive reuse of the historic house at 10 Lovat Court is in accord with the District. This house is an anomaly to many of the original heritage buildings in the District, but as a lone, former mansion of the owner is an important contribution to the history of Nashville Road and the evolution of the heritage district.

3.6 Avoidance Mitigation

There are no significant cultural heritage resources to be avoided or affected by the planned changes to the property. The subject property is within the Designated Heritage District and therefore is required to respect exiting heritage character of the HCD.

3.7 Salvage Mitigation

Salvation mitigation is not considered applicable in this case and is not considered. No elements which are likely to be affected by the planned changes have salvage value.

3.8 Historical commemoration

Historical commemoration may be appropriate for this property.

3.9 Impact of development / mitigating measures – summary

<i>Potential Negative Impact</i>	<i>Assessment</i>
<ul style="list-style-type: none">• <i>destruction of any, or part of any, significant attributes or features</i>	<i>no destruction of any part of significant <u>heritage</u> attributes or feature is proposed</i>
<ul style="list-style-type: none">• <i>isolation of a heritage attribute from its surrounding environment, context, or a significant relationship</i>	<i>not applicable</i>
<ul style="list-style-type: none">• <i>a change in land use where the change in use negates the property's cultural heritage value</i>	<i>not applicable</i>
<ul style="list-style-type: none">• <i>siting, massing, and scale</i>	<i>planned improvements are consistent with the heritage district.</i>

5.0 RECOMMENDATIONS

We are of the opinion that planned changes to the property at 10 Richard Lovat Court, located within the Kleinburg-Nashville Designated Heritage District, are consistent with the Kleinburg-Nashville Heritage District Conservation Plan and Guidelines established for changes within the District. Consideration was given to other changes within the District, especially along Napier Street and the more recent adjacent development. Intensification of development in this area is consistent with the Official Plan and policies of City of Vaughan and with the Province of Ontario.

Section 2 of the Ontario Planning Act indicates that the City of Vaughan shall have regard to matters of Provincial Interest such as the conservation of features of significant architectural, cultural, historical, archeological, or scientific interest. In addition, Section 3 of the Planning Act requires that the decision of Council shall be consistent with the Provincial Policy Statements (PPS 2014) and (PPS 238 2019)

Policy 2.6.3 of the PPS requires that “...Planning authorities shall not permit development and site alteration on adjacent lands to protected heritage property except where the proposed development and site alteration has been evaluated and it has been demonstrated that the heritage attributes of the protected heritage property will be conserved.”

“Conserved” means the identification, protection, management and use of built heritage resources, cultural heritage landscapes and archeological resources in a manner that ensures their cultural heritage value or interest is retained under the Ontario Heritage Act.”

The existing property at 10 Richard Lovat Court as an isolated heritage property and will be restored with an addition appropriate for this property in this location within the heritage district. It is our opinion that the planned restoration and adaptive reuse of this property is consistent with continuing maintenance of the Kleinburg-Nashville Conservation District and makes a positive contribution to the maintenance of the District.

This Cultural Heritage Resource Impact Assessment is respectfully submitted by

MW HALL CORPORATION

Apel, Beckert & Becker, Architects, Frankfurt
Green & Savin, Architects, Detroit

CITY DEVELOPMENT / URBAN DESIGN / REAL ESTATE DEVELOPMENT

Mark Hall has directed a number of city development and urban design projects, including waterfront revitalization, commercial, multi-unit residential, industrial facilities and major mixed use projects in both public and private clients/employers. He has worked on staff for public agencies, including real estate development and property management services. He understands the dynamics of city development, the techniques required for successful implementation, and procedural, financial and political requirements. His experience and contributions range throughout Canada, the United States, Europe, Southeast Asia, the Middle East and the Arctic. As a result of his extensive experience in this area, he has been invited to participate in the Regional Urban Design Assistance Team [R/UDAT] programs of the American Institute of Architects, and a program of waterfront renewal in Toronto by the Ontario Professional Planners Institute. He is a Registered Professional Planner in Ontario, member of the Canadian Institute of Planners, and a founding member of the American Institute of Certified Planners. Recently, as president of Mariposa Land Development Company, he designed and built a 54 unit condominium apartment project designed to upgrade the waterfront of historic downtown Orillia, Ontario. The building has spurred a number of revitalization projects in Orillia.

HISTORIC PRESERVATION / ADAPTIVE REUSE

Mr. Hall has developed special interest and expertise in historic preservation and adaptive reuse of historic structures and city districts. He has served as president of the Los Angeles Conservancy, and designed projects combining historic preservation and appropriate adaptive reuse of the properties. He is a member of the Canadian Association of Heritage Professionals. Recently he served as preservation architect on renovations of the RC Harris Water Plan, a designated cultural heritage building in Toronto. He has served as architect for restoration and additions to a number of historic houses in the Annex, Beaches and other areas of central city Toronto, as well as Belleville, Orillia, Mississauga and Brampton, and in Los Angeles and Florida. He frequently works with property developers, municipalities and heritage property owners as consultant regarding historic properties of concern to municipalities in which they are working.

ARCHITECTURE

A licensed architect for over 40 years, Mr. Hall is licensed to practice in Canada and the US. He has been responsible for design and construction of a number of significant projects: mixed use structures, corporate headquarters and industrial facilities, military facilities, multi-unit residential, civic and commercial centres, and seniors housing. He understands the design, construction and real estate development process, as well as management of multi-disciplinary and client concerns for cost effective, efficient, award-winning structures. Many of the structures he has built are the result of implementing more comprehensive master planned developments. For his work in historic preservation, education and community service he was awarded Fellowship in the American Institute of Architects.

COMMUNITY & EDUCATION SERVICE

In addition to professional practice, Mr. Hall has made major commitments to teaching and community service. He taught urban design and city planning at USC, UCLA, Southern California Institute of Architecture [SCI ARC] and Boston Architectural Center. While at Harvard he worked with the Harvard Urban Field Service in Boston's Chinatown. As an officer in the US NAVY he was awarded a special Commendation Medal for development of a master plan for the NAVY's Arctic Research Laboratory and the adjacent Inupiat community of Barrow, Alaska. His work has been published in professional journals and has received various awards and honors. He served on the board of directors and later as president of the Southern California chapter of the American Institute of Architects. He was co-chair for the Ontario Professional Planners Institute [OPPI] of a multi-disciplinary design Charette to determine the future of the Metropolitan Toronto waterfront, and later on a committee of the Ontario Association of Architects looking into solutions to urban sprawl. He has served as president of the non-profit Housing Development Resource Centre [HRDC] and as president of Toronto Brigantine, a non-profit organization providing sail training aboard two tall ships in the Great Lakes.
