Subject: [External] Deputation - Clubhouse Developments Inc.

This is to confirm that I am opposed to the proposal that would subject Wycliffe Ave and Kiloran Ave to additional traffic from the proposed new development. I have written and called in several times on the traffic problems already in place on Wycliffe Ave. Way too much vehicle traffic and way too many vehicles speeding excessively over the posted limit making it dangers and unsafe for the increased number of children in the area. Why wait for a tragic event to occur before a positive change happens. I've been trying to help this traffic flow for the last number of years without any success. Now there is a proposal to open up Wycliffe to allow thousands of more vehicles in the area. Should the city Planning Team not be directing traffic flow to main roads rather than secondary roads? The City of Toronto has implemented this strategy several years back with great success.

Thank you for taking the time to listen to my concerns. I am a long time resident of the Wycliffe area.

I can be reached at my personal cell phone number.
