A Building Permit has not been issued. The Ontario Building Code requires a building permit for structures that exceed 10m2

The applicant shall be advised that additional variances may be required upon review of detailed drawing for building permit/site plan approval.

The Lot Frontage for Lots 12.0 metres and greater shall be comprised of a Minimum of 50% Landscape Front or Exterior side yard and a minimum sixty percent (60%) of the Minimum Landscaped Front or Exterior side yard shall be soft landscaping in accordance with Paragraph 4.1.2.

Development Planning:
Official Plan: Vaughan Official Plan 2010 ('VOP 2010'): "Low-Rise Residential"

The Owner is requesting permission to maintain a driveway widening to accommodate their three-car garage with the above-noted variance

The variance is considered minor in nature as the resulting driveway width at the street curb does not exceed the maximum driveway width requirement of 9 m and does not trigger variances for minimum soft landscaping requirements in the front yard.

Accordingly, the Development Planning Department is of the opinion that the proposal is minor in nature, maintains the general intent and purpose of the Official Plan and Zoning By-law, and is desirable for the appropriate development of the land.

The Development Planning Department recommends approval of the application.

Development Engineering
As per City of Vaughan standards, the owner/applicant to ensure the water service box to be within landscaped area and to not have the driveway constructed over the water box.

The Development Engineering (DE) Department does not object to variance application A070/20.
