Subject: [External] Rizmi Deputation, Committee of the Whole Oct 6

Please accept attached and following comments regarding subject:

We are happy that the city finally realized the ecological issues with the Rizmi subdivision plan and are pleased that there are holds on various parts of phase 1.

We are not supportive of any part of phase 2 of this subdivision development and provided confidential evidence that phase 2 should NOT go forward due to the highly problematic 2019 EIS (a requirement of the MZO). As noted in the 2018 EIS, there are significant woodlands, endangered species, and other significant ANSI (an area of scientific interest) features.

1. With that said, we are asking that ALL conditions remain in place and are not removed until they are fully satisfied. We are asking that Councillors and senior staff do not interfere with this process.
2. We find it appalling that the Record of Site Condition has not been completed before this development is being voted on. There is a sign seen from Dufferin on the Rizmi property says "dump site." The piles of concrete, crushing, associated carcinogens, and other materials dumped there is an issue in terms of processing health risks are paramount for our community.
3. Our expectation as a community is that a proper park be constructed, and not on top of a storm management container. Also, that storm management containers must be properly studied at sites where they are appropriate and not in sensitive ecological areas, like the Oak Ridges Moraine, close to the TransCanada pipeline. This development is clearly on the Oak Ridges Moraine and should not be a site to experiment with very steep embankments on both sides and future houses, road, and other hard surfaces leading to very significant runoff, due to what are now 5 year storms (not 100 year storms). The city has a long history of pandering to developers at taxpayers' expense. In short, there are significant wetlands in the area that will be adversely affected due to the extension of Kirby road, so making sure that storm management ponds are properly constructed and large enough to meet the drainage needs for this valley corridor and the hard surface development is essential.
4. Finally, we think the subdivision development should have 250 units of compatible lots similar to units in Maplewood Ravines ranging from at least 60 to 80 foot frontages. We also think that building this subdivision should be delayed and contingent upon completing the Kirby extension and a full Dufferin EA that includes the area between Teston north to Kirby.

Thank you,
John De Luca

Item # 7

September 30, 2020

Mr Coles,

Islam is a religion with around 1.8 billion followers globally. It has a diverse and rich heritage. To celebrate the vibrant Islamic Heritage, the government of Ontario has declared October to be the Islamic Heritage Month.

By the grace and blessings of the Almighty, we were able to organize our first Islamic heritage expo on Oct 27, 2018 at the Vaughan City Hall and since then it has become an annual tradition. The event provided an opportunity for the public to reflect, celebrate and learn about the rich and longstanding Islamic history and the diverse roles and contributions of Muslims in their community.

In light of the current COVID pandemic, the Ahmadiyya Muslim Jama'at (Vaughan) wants to request that the city would help us promote our virtual event being held on October 17th to mark Islamic Heritage Celebration. With a focus on Islamic Architecture, this year we bring to the citizens of Vaughan a 360° virtual tour of Bait ul Islam mosque, a dramatized children's tableau, short documentary compilations and much more! For more information on the topic and to find out how to register, please visit us at www.islamicheritagemonth.org

Most importantly, we would want to request access to the city's electronic message boards to advertise the event so that the public can join us in our celebration.

On behalf of the Ahmadiyya Muslim Jama'at, Vaughan, I will look forward to your help and support in this regard.

Yours truly,

Nadeem Mahmood

Rizmi Deputation

Earlier, Robert Kenedy has provided major outstanding issues that surround this proposed development in his deputation which I believe needs to be addressed, monitored closely and communicated to our community as the project progresses.

It is good to know that the city finally realized the ecological issues with the Rizmi subdivision plan and are pleased that **there are holds on various parts of phase 1.**

We, as a community, are **not supportive of any part of phase 2** of this subdivision development and provided confidential evidence that phase 2 should **NOT** go forward due to the highly problematic 2019 EIS (a requirement of the MZO). As noted in the 2018 EIS, there are significant woodlands, endangered species, and other significant ANSI (an area of scientific interest) features.

1. With that said, we are asking that **ALL conditions remain in place** and are not removed until they are fully satisfied. **We are asking that Councillors and senior staff do not interfere with this process.**

2. We find it **appalling that the Record of Site Condition has not been completed before this development is being voted on.** There is a sign seen from Dufferin on the Rizmi property says "dump site." The piles of concrete, crushing, associated carcinogens, and other materials dumped there is an issue in terms of processing health risks are paramount for our community.

3. Our expectation as a community is that a **proper park be constructed, and not on top of a storm management container.** Also, that **storm management containers must be properly studied at sites where they are appropriate and not in sensitive ecological areas, like the Oak Ridges Moraine, close to the TransCanada pipeline.** This development is clearly on the Oak Ridges Moraine and should not be a site to experiment with very steep embankments on both sides and future houses, road, and other hard surfaces leading to very significant runoff, due to what are now 5 year storms (not 100 year storms). **The city has a long history of pandering to developers at taxpayers' expense. In short, there are significant wetlands in the area that will be adversely affected due to the extension of Kirby road, so making sure that storm management ponds are properly constructed and large enough to meet the drainage needs for this valley corridor and the hard surface development is essential.**

4. Finally, we think the subdivision development should have **250 units of compatible lots similar to units in Maplewood Ravines ranging from at least 60 to 80 foot frontages**. We also think that building this subdivision should be **delayed and contingent upon completing the Kirby extension and a full Dufferin EA that includes the area between Teston north to Kirby**.

Regards,
Donna
